Mahesh — Deep Destiny Report · \$55

Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance

Born: 1995-01-19 · 23:50 · Ambur, Tamil Nadu

Time method: recorded birth time 23:50 (local clock) corrected to true solar time 23:24 (birthplace 78.7135°E vs the 82.5°E zone meridian), -25.8 min (longitude -15.1 min + equation of time -10.7 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Day Master: Gyeong (Yang Metal, Gyeong Metal)

Report generated: 2026-09-26 · Report ID: CID-mahesh-20260926-DEEP

Chart at a Glance

Four Pillars

	Year	Month	Day	Hour
Stem	Gap	Jeong	Gyeong	Mu
Branch	Sul	Chuk	Sul	Ja
Hidden Stems	Mu (main), Jeong (middle), Sin (residual)	Gi (main), Sin (middle), Gye (residual)	Mu (main), Jeong (middle), Sin (residual)	Gye (main)

Element Balance

Element	Presence	Percentage
● Fire		21.3%
● Earth		32.5%
● Metal		20.3%
● Water		10.3%
● Wood		15.6%

> Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- Day Master: Gyeong (Yang Metal, Gyeong Metal)
- Strength: Balanced — the month branch Chuk gives the Day Master a mixed seasonal baseline by element relation (per Step 2); its 12-Stage Cycle stage there is Tomb — energy

is stored in the month branch; the chart ripens slowly and reveals depth over time. Peer/resource support and the output/wealth/authority drain sit close to even.

- Favorable Element: Fire — The Day Master reads as balanced, so the classical climate-balance check applies: this chart peaks in cold winter conditions, and the classical remedy is Fire. This takes priority over the chart's simple element count, which is a weaker signal than the classical climate check here.
- Why this element: two classical checks apply here — the strength-balance reading points one way, while the climate-balance (climate) reading points to Fire for a cold-season chart. In this chart the climate reading takes priority because the chart leans clearly seasonal; the reader has weighed both.
- Supporting Element: Wood
- Avoid / Watch: Metal (Unfavorable Element, watch) · Water (Restraining Element, restrains Fire) · Earth (Draining Element, drains Fire)
- Current Major Luck: Gyeong Jin (ages 25-34)
- Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- Pattern / Formation: Direct Resource Structure / Direct Resource Grid

What This Year Means for You

Right now, in September 2026, you are moving through a year whose energy is shaped by Bing O (Seven Killings (Authority)). This sits inside your broader Gyeong Jin major luck period (ages 25–34), whose theme is Pillar (Companion). For your chart, the most useful energy to lean into this year is Fire: look for decisions, environments, and relationships that bring fire qualities forward.

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. What does "favorable element" mean in daily life? It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.
2. Should I move north or only wear fire? No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.
3. Can Saju tell me what illness I might get? No. Classical Saju maps tendencies in the body's elemental systems (e.g. excess Wood may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. How often should I get a reading? Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. What is a major luck period? A 10-year stretch of life shaped by a new stem and branch (Major Luck) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. How is Saju different from Western astrology? Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. Should I read this report chronologically? No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With Gyeong (Gyeong (Yang Metal, Gyeong Metal)) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the tempered metal blade or strong framework. Your natural strengths run toward decisiveness, discipline, and the courage to cut through confusion, while the shadow side can show as harshness, inflexibility, or impulsive confrontation.

Born in a Metal chart with the engine reading as balanced, the way you meet the world is shaped by how much Metal energy is available. When balanced, you express the best of Metal; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate Fire energy — the favorable element — so that your Metal nature has the right container and outlet.

Your Day Master Gyeong meets the month branch Chuk at the contained start twelve-stage — energy is stored in the month branch; the chart ripens slowly and reveals depth over time. This is read as a mixed seasonal support arrival: a tendency in how the querent's core energy first

enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Gap Sul (Gap (Yang Wood, Gap Wood))

The Gap Sul pillar pairs the Gap stem (Gap (Yang Wood, Gap Wood)) with the Sul branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads as Indirect Wealth relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Wood stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the Wood element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to year-pillar matters. Hidden stems within the Sul branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sul branch or the Gap stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Jeong Chuk (Jeong (Yin Fire, Jeong Fire))

The Jeong Chuk pillar pairs the Jeong stem (Jeong (Yin Fire, Jeong Fire)) with the Chuk branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Direct Officer relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Fire stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the Fire element, it tends to bring fire-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to month-pillar matters. Hidden stems within the Chuk branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Chuk branch or the Jeong stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Gyeong Sul (Gyeong (Yang Metal, Gyeong Metal))

The Gyeong Sul pillar pairs the Gyeong stem (Gyeong (Yang Metal, Gyeong Metal)) with the Sul branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Metal stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the Metal element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to day-pillar matters. Hidden stems within the Sul branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sul branch or the Gyeong stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Mu Ja (Mu (Yang Earth, Mu Earth))

The Mu Ja pillar pairs the Mu stem (Mu (Yang Earth, Mu Earth)) with the Ja branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Indirect Resource relative to your Day Master, so this area of life tends to carry that dynamic.

The Water branch is the container for this area and the Earth stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the Earth element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to hour-pillar matters. Hidden stems within the Ja branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Ja branch or the Mu stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Gap Sul	Gap	Indirect Wealth	Mu (main), Jeong (middle), Sin (residual)	Indirect Resource, Direct Officer (Authority), Rob Wealth (Companion)	Outer layer: Indirect Wealth; inner driver through the branch: Indirect Resource.
Month Pillar — Jeong Chuk	Jeong	Direct Officer	Gi (main), Sin (middle), Gye (residual)	Direct Resource, Rob Wealth (Companion), Hurting Officer (Output)	Outer layer: Direct Officer; inner driver through the branch: Direct Resource.
Day Pillar — Gyeong Sul	Gyeong	Companion (Pillar)	Mu (main), Jeong (middle), Sin (residual)	Indirect Resource, Direct Officer (Authority), Rob Wealth (Companion)	Outer layer: Companion (Pillar); inner driver through the branch: Indirect Resource.
Hour Pillar — Mu Ja	Mu	Indirect Resource	Gye (main)	Hurting Officer (Output)	Outer layer: Indirect Resource; inner driver through the branch: Hurting Officer (Output).

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> In plain words: Where your chart puts its weight: most of all on learning, support, and what refills you.

> In plain words: At your core you are a refined blade — you cut to the point and value quality. Your chart reads as balanced, so the rest of this report is about where that helps and where leaning toward Fire keeps you in balance.

Career & Wealth

Career Archetypes

A detailed career analysis follows in the Career Deep-Dive section below.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Fire and supporting element Wood describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck and Annual Luck tables to see when income and value-creation themes surface most clearly. Periods dominated by Metal call for conservation rather than expansion.

Employment vs. Entrepreneurship

A double pull between Authority and Wealth suggests a hybrid path: a credible institutional platform in the early career years, then a measured move toward independent ventures once credibility and capital are in place. Treat this as a tendency reading, not a verdict; the Major Luck and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

Income arrives in project-based bursts — commissions, deals, or ventures that close in lumps rather than steady drip. Build cash reserves between projects so the slower months do not force reactive decisions.

Skill-Levers to Develop

Indirect Resource-dominant charts tend to grow fastest through intuition-driven research, pattern recognition, and cross-domain synthesis. Cultivate public visibility — speaking, publishing, or teaching — to light Fire's radiance.

Wealth Preservation Note

For a Metal Day Master with a Balanced reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Fire element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Partnerships and joint ventures work well when the partner's element supports Fire; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Fire-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

Large institutions and mid-size specialists are the most likely fit. The Direct Officer influence values hierarchy, credential, and a clear chain of accountability — the querent is most productive when the structure around them is unambiguous.

Boss / Team Dynamics

The ideal manager profile is a warm Fire motivator — someone who carries your favorable Fire element, supplying what the chart needs rather than competing with your Day Master. Watch for vague goals that blunt Metal's precision; this is the most common way the querent's energy gets drained in a team setting.

Red-Flag Environments

Look out for: long stretches of Metal-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

Decade-by-Decade Career Strategy

Ages 5-14 — Mu In

With a Indirect Resource ten-god over a Wood branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 15-24 — Gi Myo

With a Direct Resource ten-god over a Wood branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 25-34 — Gyeong Jin

With a Companion (Pillar) ten-god over a Earth branch (stem element Metal), this is a conserve and consolidate decade. Protect what already works; defer large bets and focus on craft and relationships. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 35-44 — Sin Sa

With a Robber (Rob Wealth) ten-god over a Fire branch (stem element Metal), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 45-54 — Im O

With a Eating God ten-god over a Fire branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 55-64 — Gye Mi

With a Hurting Officer ten-god over a Earth branch (stem element Water), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 65-74 — Gap Shin

With a Indirect Wealth ten-god over a Metal branch (stem element Wood), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 75-84 — Eul Yu

With a Direct Wealth ten-god over a Metal branch (stem element Wood), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

> In plain words: Your chart leans toward earning through knowledge — research, advice, credentialed practice. Fields and decades that carry Fire give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is Sul (12-stage: Decline), whose main hidden stem relates to your Day Master as Indirect Resource. In practice, you are drawn to partners who spark your curiosity and bring unexpected insights. No Peach Blossom star is natally active, so relationship style is more shaped by the spouse palace and ten-god mix than by overt magnetism. By Japyeong-jinjeon's gendered spouse-star convention, your wife star (Wealth, wife star) appears at Gap (year stem).

Spouse Palace Ten-God

The spouse palace Sul (12-stage: Decline) carries a main hidden stem that relates to your Day Master as Indirect Resource. In the partner domain this points toward an unusual or insight-driven partnership — the spouse domain teaches the querent things. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	Good	Wood supports your Fire — secondary support (Supporting Element).
Radiant, expressive, and momentum-driven	Fire	Best	Fire is your favorable element — the core balance your chart seeks.
Grounded, nurturing, and reliability-focused	Earth	Compatible	Neutral energetic exchange.
Disciplined, precise, and structure-oriented	Metal	Watch	Metal is your challenging element — it works against the balance your chart seeks.
Adaptive, perceptive, and depth-seeking	Water	Compatible	Neutral energetic exchange.

Three Things to Be Mindful Of

- Peach Blossom is not natally active, so your social style leans toward depth rather than breadth — protect your close-circle time.
- A natal six-combination between Ja and Chuk draws the partner into a transformation toward Earth energy — expect the relationship to ask for adaptation.
- The current major-luck period (Gyeong Jin, Companion (Pillar) — a peer or equal — support, solidarity, and rivalry in equal measure) carries mixed energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

>Relationship theme per year for the next six years — read alongside the annual windows table.

Year	Pillar	Note
2026	Bing O (Seven Killings)	Fire energy + Seven Killings: intensity and transformation — expect a relationship to demand change.
2027	Jeong Mi (Direct Officer)	Fire energy + Direct Officer: structure and accountability in relationships and partnerships.
2028	Mu Shin (Indirect Resource)	Earth energy + Indirect Resource: intuition and surprise — a relationship that teaches you something unexpected.
2029	Gi Yu (Direct Resource)	Earth energy + Direct Resource: support and study — a partner who mentors or grounds you.
2030	Gyeong Sul (Companion)	Metal energy + Companion: peer energy — friendships and partnerships strengthen.
2031	Sin Hae (Robber)	Metal energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — Resource (4), Companion (4) — so the querent tends to give and receive in those modes. The querent is naturally drawn to people who are visible, expressive, and energetic, and tends to feel drained by people who are harsh, critical, or cold. Social settings where the favorable Fire element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace Sul sitting in the Decline 12-stage and carrying hidden-stem ten-gods of Indirect Resource, Direct Officer (Authority), Rob Wealth (Companion), the querent bonds through a mix of presence and discernment. The Decline stage is one of the unsupported (weak) stages, so the querent tends to lean toward reserve and selectivity in the bond. The hidden-stem ten-gods colour the undercurrent — Resource — the resource group — support, learning, and what sustains you leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck/Annual Luck overlays show when the querent's bond patterns shift most.

Marriage Timing Windows

Commitment timing is read from your wife star and your spouse palace Sul (the day branch). Neither the current nor the next major-luck period carries the spouse star or binds the spouse palace, so the annual years below carry more of the weight. The years where the most signals converge: 2035 Eul Myo (Direct Wealth spouse-star year, Myo Sul Six Harmony into the spouse palace; offset by a void (empty) year, so gains may feel less solid); 2034 Gap In (Indirect Wealth spouse-star year, In O Sul three-harmony through the spouse palace; offset by a void (empty) year, so gains may feel less solid). Years better suited to deepening privately than to formalising: 2027 (Mi Sul break/punishment on the spouse palace); 2031 (Rob Wealth

(Companion) year); 2033 (Chuk Sul punishment on the spouse palace). These are tendencies for when the theme is most active — not predictions of an event.

Family Dynamics

The year pillar Sul carries ancestral and parental themes; its main hidden stem shapes how the querent absorbs (or pushes back on) family-of-origin patterns. The month pillar Chuk is the career and sibling palace — its dynamics surface in how the querent shows up among peers and early mentors. The hour pillar Ja speaks to children and later life — its hidden stems indicate what the querent is likely to pass on, and what they will need to consciously teach.

Partner Chart Add-On

Curious about a specific person? Add a compatibility reading — the Deep Compatibility report (\$45) — by replying with their birth details.

> In plain words: Your partnership area points toward an unusual, insight-driven partner who teaches you things. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- Element excess: Earth — pay attention to the spleen/stomach and digestive metabolism system.
- Element deficiency: Water — the kidney/bladder and hormonal/endocrine reserves system may need gentle support.
- The chart's lightest weighted element is Water (10.3%), which in classical Five-Element mapping is paired with the kidney/bladder and hormonal/endocrine reserves. This is not a diagnosis; it is the least natally emphasized system, making it the natural place to begin gentle, preventive support through water-aligned foods, seasons, and rhythms.

Grounding Practices

- Short midday walks in sunlight
- Eating bitter greens, red-colored vegetables, and warm foods
- Speaking or performing in well-lit south-facing spaces
- Taking brief social breaks to rekindle enthusiasm
- Journaling by candlelight to focus scattered Fire

The Overdrive Warning

A Balanced Metal Day Master has reasonable reserves but still needs conscious rhythm. Watch for burning out through perfectionism, grief, or respiratory tightness when output stays high without recovery windows. In classical Five-Element reading, the lung/large intestine and respiratory/immune boundaries are a common watchpoint when energy is overstretched; the Fire element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The Metal Day Master is most at home in autumn; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable Fire element's season (summer (the peak Fire energy)) is the cleanest window for new beginnings and visible

projects; use it deliberately. In the daily cycle, the Fire hours (by the twelve branch hours) are the most aligned — Sa O hours, 09:00–13:00.

> This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.

> In plain words: Your lightest element is Water, so the kidney/bladder and hormonal/endocrine reserves are the natural place to start gentle, preventive care — through water-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern candidate: Direct Resource Structure / Direct Resource Grid

Pattern	Branches	Classical Note
Six Combination	Ja+Chuk	transforms toward Earth energy; links the month and hour palaces
Stem Clash	Gap↔Gyeong	two same-polarity stems in direct control — tension in what those stems' ten-gods represent
Three Punishment (partial)	Sul-Chuk	two branches of a punishment frame without the third; a lighter but recurring structural pressure that matures slowly
Output Meets Authority	Hurting Officer (Output) + Direct Officer (Authority)	Classical conflict pattern : Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event.

Pattern Narratives

The engine flags a likely Direct Resource Grid as the regular grid. This points toward a life theme shaped by education, protection, and gradual advancement — certificates, mentors, real estate, and maternal support. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a partial Three Punishment between Sul and Chuk (three-punishment Sul Chuk (Earth triad punishment)), touching the ancestral and social-root energy — the wider world you were born into and career and immediate environment — how you show up at work and in daily life. Two branches of a punishment frame are present without the third — a lighter but recurring structural pressure; its themes mature slowly and tend to recur until they are consciously recognized.

What This Means in Plain Language

The chart's dominant pattern candidate is Direct Resource Grid. A six-combination between Ja and Chuk transforms toward Earth energy, linking the month and hour palaces. A partial three-punishment between Sul and Chuk — two branches of a punishment frame without the

third — is a recurring structural pressure; these themes mature slowly and call for patience. Together, these patterns point to a recurring life theme rather than a single event. The favorable Fire element is the querent's lever for working with — rather than against — the chart's structure.

> In plain words: The chart's organising theme is education, protection, and gradual advancement — certificates, mentors, real estate, and maternal support.

Other Active Star

Counted from your day branch Sul (common modern practice; traditional Korean practice counts from the year branch, which can give a different set of stars).

- Canopy (at Sul): a scholarly / solitary / artistic marker — often found in those drawn to religion, scholarship, art, or a hermetic path.
- Heavenly Noble (at Chuk): a "helper" star — a tendency toward receiving support from an unexpected, noble source at key turning points.
- Calamity Star (at Ja): mishaps, illness, or obstacles as a recurring theme — classically read as softened by a strong Favorable Element.
- Heaven Star (at Chuk): external pressures or authority conflicts — "heaven-sent" trials.
- (at Gyeong Sul): strong will, charisma, and leadership — with a tendency toward extremity or conflict if the chart is not balanced.
- Heavenly Virtue (at Gyeong): virtue, protection, and honorable character — help arriving in times of need; often read as one of the most favorable stars.
- Monthly Virtue (at Gyeong): monthly/quarterly support, popularity, and smooth assistance from people around the querent.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Position	Stem	Ten-God	Note
year_stem	Gap	Indirect Wealth	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 65–74 (Gap Shin, Indirect Wealth — variable money — deals, commissions, windfalls, higher risk and reward) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 75–84 (Eul Yu, Direct Wealth — steady, earned income and everyday resources — salary and savings) — a window where income, asset, or value-creation themes are more likely to surface.

Investment Style Cue

Because your favorable element is Fire and your supporting element is Wood, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Fire (favorable)	south	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Wood (supporting)	east	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- Favorable orientation: Facing or sleeping with head toward south is traditionally considered supportive for your chart.
- Supporting orientation: Use east when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during Fire (and supporting Wood)-element years and months, and especially during these supportive major-luck periods: ages 5-14 (Mu In), ages 15-24 (Gi Myo), ages 45-54 (Im O). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Business & Launch Timing

For a Metal Day Master, the most supportive launch windows tend to come when the annual pillar carries Fire or Wood energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use 2, 7 (favorable Fire) and 3, 8 (supporting Wood) in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A partnership or co-launch with one credible counterparty is the most likely fit. The Authority ten-god gives the launch a stamp of legitimacy, and a partner carries the parts the querent's chart cannot carry alone.

Year-by-Year Launch Timing (2026-2031)

Year	Pillar	Why It Matters	Suggested Use
2026	Bing O	Seven Killings (Fire energy + Seven Killings — a favorable-element year.)	career moves, credentials, formal commitments
2027	Jeong Mi	Direct Officer (Fire/Earth energy + Direct Officer — a favorable-element year.)	career moves, credentials, formal commitments
2028	Mu Shin	Indirect Resource (Earth/Metal energy + Indirect Resource — a challenging-element year.)	study, mentorship, rest, skill-building

Year	Pillar	Why It Matters	Suggested Use
2029	Gi Yu	Direct Resource (Earth/Metal energy + Direct Resource — a challenging-element year.)	study, mentorship, rest, skill-building
2030	Gyeong Sul	Companion (Metal/Earth energy + Companion — a challenging-element year.)	peer projects, friendships, self-definition
2031	Sin Hae	Robber (Metal/Water energy + Robber — a challenging-element year.)	peer projects, friendships, self-definition

Quarterly / Seasonal Reminders

With Fire as the favorable element, the most aligned launch window is summer (peak Fire energy supports visible launches), the favorable element's own season. Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. Annual branches that clash your natal day branch Sul — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. Annual pillars dominated by the unfavorable element — favour audits, refinements, and quiet product work over big announcements.
3. A major-luck shift into a heavier stem (strong Direct Officer (Authority) / Seven Killings (Authority)) — use the first 1-2 years to set up systems rather than scale headcount.
4. Activated chart-punishment or self-punishment patterns during the launch year — keep partnerships small and written, not verbal.
5. Conjunction of new-moon or full-moon eclipses falling on spouse-palace or wealth-stem branches — defer the launch by 30-45 days if it lands on the public date.

Timing: Major Luck & Annual Windows

Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

starting age: ~5.2 (~15.5 days to the qualifying solar term ÷ 3, per 's "3 days = 1 year" rule) — the first major-luck period begins roughly 62 months after birth (≈ Mar 2000), inside the 5-14 decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) apps round this to a whole Major Luck Water 5 and list decades as 5, 15, 25... (often in Korean age), so their labels can differ from the table below by a year or so while describing the same periods.

Major Luck Periods

Age	Pillar	Elements (Stem / Branch)	Ten-God	Career Theme	Relationship Theme
5-14	Mu In	Earth / Wood	Indirect Resource	study, mentorship, or skill-building	nurturing, support, or healing connection

Age	Pillar	Elements (Stem / Branch)	Ten-God	Career Theme	Relationship Theme
15-24	Gi Myo	Earth / Wood	Direct Resource	study, mentorship, or skill-building	nurturing, support, or healing connection
25-34	Gyeong Jin	Metal / Earth	Companion (Pillar)	peer-driven or self-defined work (mixed — protect, don't overcommit)	friendship-based or peer dynamic
35-44	Sin Sa	Metal / Fire	Robber (Rob Wealth)	peer-driven or self-defined work (mixed — protect, don't overcommit)	friendship-based or peer dynamic
45-54	Im O	Water / Fire	Eating God	creative output, voice, or visible production	creative partnership or playful dynamic
55-64	Gye Mi	Water / Earth	Hurting Officer	creative output, voice, or visible production (mixed — protect, don't overcommit)	creative partnership or playful dynamic
65-74	Gap Shin	Wood / Metal	Indirect Wealth	income, assets, or value-creation themes (mixed — protect, don't overcommit)	shared resources or lifestyle alignment
75-84	Eul Yu	Wood / Metal	Direct Wealth	income, assets, or value-creation themes (mixed — protect, don't overcommit)	shared resources or lifestyle alignment

Current Period Deep-Dive

This decade carries a Companion (Pillar) ten-god over a Earth branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do conserve, refine, and protect the foundation; avoid long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable Fire energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Structurally, its Jin clashes (clash) with your natal Sul; its stem Gyeong clashes with your natal Gap (Stem Clash).

10-Year Forecast

Year-by-Year Notes

A quick reading of each year's energy relative to your Day Master and favorable element. Treat these as timing cues, not predictions.

- 2026 · Bing O (Seven Killings): This is a favorable-element (Fire) year — best focused on responsibility, structure, and recognition within institutions. Caution: watch for pressure, scrutiny, and stress from obligations; pace yourself rather than pushing through. Also active

this year: the annual branch O and natal Chuk are in harm; the annual branch O and natal Ja are in clash; the annual branch O half-completes the In O Sul Fire with your natal Sul — Half Harmony.

- 2027 · Jeong Mi (Direct Officer): This is a favorable-element (Fire) year — best focused on responsibility, structure, and recognition within institutions. Caution: watch for pressure, scrutiny, and stress from obligations; pace yourself rather than pushing through. Also active this year: the annual branch Mi and natal Sul are in break; the annual branch Mi and natal Sul are in punishment; the annual branch Mi and natal Chuk are in clash; the annual branch Mi and natal Chuk are in punishment; the annual branch Mi and natal Ja are in harm; the annual branch Mi completes the Chuk Sul Mi three-way punishment with your natal Chuk Sul — classically read as friction with rules or authority, injury risk, or self-inflicted setbacks, so a year to move carefully.

- 2028 · Mu Shin (Indirect Resource): This is a year of your challenging element (Metal) — navigate it consciously — best focused on learning, credentials, and support from mentors. Caution: watch for passivity or leaning too heavily on others; pace yourself rather than pushing through. Also active this year: the annual branch Shin half-completes the Shin Ja Jin Water with your natal Ja — Half Harmony; the annual branch Shin half-completes the Shin Yu Sul Metal / West with your natal Sul — Half Harmony.

- 2029 · Gi Yu (Direct Resource): This is a year of your challenging element (Metal) — navigate it consciously — best focused on learning, credentials, and support from mentors. Caution: watch for passivity or leaning too heavily on others; pace yourself rather than pushing through. Also active this year: the annual stem Gi forms Gap-Gi Earth combination (Gap Gi combination Earth) with your natal Gap stem, drawing it toward Earth; the annual branch Yu and natal Sul are in harm; the annual branch Yu and natal Ja are in break; the annual branch Yu half-completes the Sa Yu Chuk Metal with your natal Chuk — Half Harmony; the annual branch Yu half-completes the Shin Yu Sul Metal / West with your natal Sul — Half Harmony.

- 2030 · Gyeong Sul (Companion): This is a year of your challenging element (Metal) — navigate it consciously — best focused on independent initiative, peers, and collaboration on equal terms. Caution: watch for competition and friction over shared money; pace yourself rather than pushing through. Also active this year: the annual stem Gyeong clashes with your natal Gap in a stem clash — pressure or abrupt change in what that stem represents; the annual branch Sul and natal Chuk are in punishment.

- 2031 · Sin Hae (Robber): This is a year of your challenging element (Metal) — navigate it consciously — best focused on independent initiative, peers, and collaboration on equal terms. Caution: watch for competition and friction over shared money; pace yourself rather than pushing through. Also active this year: the annual branch Hae completes the Hae Ja Chuk Water / North with your natal Ja Chuk.

- 2032 · Im Ja (Eating God): This is an annual energy to navigate consciously — best focused on expression, creative work, and putting your skills on show. Caution: watch for over-extending yourself or clashing with authority; pace yourself rather than pushing through. Also active this year: the annual stem Im forms Jeong-Im Wood combination (Jeong Im combination Wood) with your natal Jeong stem, drawing it toward Wood; the annual branch Ja and natal Chuk are in combination; the annual branch Ja half-completes the Hae Ja Chuk Water / North with your natal Chuk — Half Harmony.

- 2033 · Gye Chuk (Hurting Officer): This is an annual energy to navigate consciously — best focused on expression, creative work, and putting your skills on show. Caution: watch for over-extending yourself or clashing with authority; pace yourself rather than pushing through. Also active this year: the annual stem Gye forms Mu-Gye Fire combination (Mu Gye combination Fire) with your natal Mu stem, drawing it toward Fire; the annual stem Gye

clashes with your natal Jeong in a stem clash — pressure or abrupt change in what that stem represents; the annual branch Chuk and natal Sul are in punishment; the annual branch Chuk and natal Ja are in combination; the annual branch Chuk half-completes the Hae Ja Chuk Water / North with your natal Ja — Half Harmony.

- 2034 · Gap In (Indirect Wealth): This is a supporting-element (Wood) year — best focused on income, practical projects, and managing resources. Caution: watch for overreaching or spreading resources too thin; pace yourself rather than pushing through. Also active this year: the annual stem Gap clashes with your natal Gyeong in a stem clash — pressure or abrupt change in what that stem represents; the annual branch In half-completes the In O Sul Fire with your natal Sul — Half Harmony. 2034 falls in your chart's Void — a void year (In is empty for your day pillar): what it brings may feel less solid, so confirm and document gains rather than assuming they will hold.

- 2035 · Eul Myo (Direct Wealth): This is a supporting-element (Wood) year — best focused on income, practical projects, and managing resources. Caution: watch for overreaching or spreading resources too thin; pace yourself rather than pushing through. Also active this year: the annual stem Eul forms Eul-Gyeong Metal combination (Eul Gyeong combination Metal) with your Day Master, activating Metal; the annual branch Myo and natal Sul are in combination; the annual branch Myo and natal Ja are in punishment. 2035 falls in your chart's Void — a void year (Myo is empty for your day pillar): what it brings may feel less solid, so confirm and document gains rather than assuming they will hold.

> In plain words: You are currently in a headwind decade — steady effort beats big bets right now. Zoom in with the year and month windows that carry Fire.

Life Themes by Major Luck Period

Each 10-year major-luck (Major Luck) period brings a new stem and branch into prominence. The stem shows the outer theme through its Ten Gods relationship to your Day Master; the branch shows the stage of life and the underlying terrain. Read these as tendencies, not fixed events.

Ages 5-14: Mu In

- Ten-God theme: Indirect Resource
- Branch element & 12-stage: Wood · Cutoff (Extinction)
- Favorable lean: favorable

With a Indirect Resource ten-god over a Wood branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Indirect Resource undertow — themes of support and study are likely. The favorable Fire element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 15-24: Gi Myo

- Ten-God theme: Direct Resource
- Branch element & 12-stage: Wood · Embryo
- Favorable lean: favorable

With a Direct Resource ten-god over a Wood branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this

window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Direct Resource undertow — themes of support and study are likely. The favorable Fire element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 25-34: Gyeong Jin

- Ten-God theme: Companion (Pillar)
- Branch element & 12-stage: Earth · Nurturing (nurture)
- Favorable lean: unfavorable

With a Companion (Pillar) ten-god over a Earth branch (stem element Metal), this is a conserve and consolidate decade. Protect what already works; defer large bets and focus on craft and relationships. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Companion (Pillar) undertow — themes of peer dynamics, independence, and friendship-based bonds are likely. The favorable Fire element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 35-44: Sin Sa

- Ten-God theme: Robber (Rob Wealth)
- Branch element & 12-stage: Fire · Long Life
- Favorable lean: neutral

With a Robber (Rob Wealth) ten-god over a Fire branch (stem element Metal), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Robber (Rob Wealth) undertow — themes of peer dynamics, independence, and friendship-based bonds are likely. The favorable Fire element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 45-54: Im O

- Ten-God theme: Eating God
- Branch element & 12-stage: Fire · Bathing (bathe bath)
- Favorable lean: favorable

With a Eating God ten-god over a Fire branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Eating God undertow — themes of creative exploration are likely. The favorable Fire element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 55-64: Gye Mi

- Ten-God theme: Hurting Officer
- Branch element & 12-stage: Earth · Coming of Age (crown belt)
- Favorable lean: neutral

With a Hurting Officer ten-god over a Earth branch (stem element Water), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Hurting Officer undertow — themes of creative exploration are likely. The favorable Fire element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 65-74: Gap Shin

- Ten-God theme: Indirect Wealth
- Branch element & 12-stage: Metal · Strong / Earning (build salary)
- Favorable lean: neutral

With a Indirect Wealth ten-god over a Metal branch (stem element Wood), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Indirect Wealth undertow — themes of commitment and visibility are likely. The favorable Fire element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 75-84: Eul Yu

- Ten-God theme: Direct Wealth
- Branch element & 12-stage: Metal · Peak (emperor flourishing)
- Favorable lean: neutral

With a Direct Wealth ten-god over a Metal branch (stem element Wood), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Direct Wealth undertow — themes of commitment and visibility are likely. The favorable Fire element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Lifetime Decade Roadmap

A single-glance view of all 8 major-luck periods in your life and the favorable lean of each. Green segments are clearly favorable, amber are mixed, red lean toward challenge. Treat this as a rhythm, not a verdict — the supporting-element periods are often where the most important growth quietly happens.

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows Earth (32.5%) as the most present element and Water (10.3%) as the least. Energy tends to flow in cycles in the Earth domain; a balanced day feels like quiet movement between input, processing, and release. The Water system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- Excess system (Earth): spleen/stomach and digestive metabolism — watch for signs of over-activity or congestion.
- Deficient system (Water): kidney/bladder and hormonal/endocrine reserves — gentle rebuilding over time is usually better than forceful stimulation.

Stress Signature

When this chart goes out of balance, the most common early signals are: grief that surfaces unbidden, skin or respiratory sensitivity, and rigid perfectionism. With a Balanced reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Fire):

- midday sunlight exposure (10–15 minutes)
- a creative project with a visible output each week
- a shared meal with company
- a daily moment of celebration or laughter

Day-Master practice (Metal): Refine what is already there. Metal recovers through editing, polishing, and small precision.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 5-14 (Mu In), ages 15-24 (Gi Myo), ages 45-54 (Im O). Use these decades to build

resilience.

Conservation windows — the chart asks for gentler practice during: ages 25-34 (Gyeong Jin). Reduce load, deepen recovery, and avoid starting ambitious new regimens in these years.

Across all periods, the Fire element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

Monthly Lucky Dates

The next 12 months of favorable days, selected when the daily stem element matches your Fire or Wood element and the day branch does not clash, harm, or break your natal day or hour branch.

> Methodology: each row filters the daily-luck (Daily Luck) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes, harms, or breaks against your natal day or hour branch.

> Almanac caveat: this is a chart-relative shortlist, not a finished date selection — a full date selection also weighs the day's own almanac assignment, the specific event type, and local custom.

Practical Guidance Summary

Top 5 Strengths

- Metal Day Master strength — decisive clarity and the ability to cut through confusion.
- Indirect Resource-dominant — the ability to synthesize across domains and see patterns.
- Direct Officer-dominant — the ability to lead through structure and accountability.
- Favorable Fire responsiveness — the chart has a clear lever for growth, which not every chart does.
- Steady practice — the chart rewards consistent effort over heroic bursts.

Top 5 Growth Areas

- Consistency over intensity — the chart works best with steady rhythm, not bursts.
- Rest before the body demands it — balanced charts deplete quietly; preventive rest is the antidote.
- Boundary-setting — learning to say no without guilt protects the Metal Day Master's energy.
- Working with the unfavorable Metal element — denial amplifies it; conscious engagement contains it.
- Asking for help early — Metal Day Masters often wait too long before reaching out.

5 Practical Recommendations

- Take a 15-minute midday sunlight break daily
- Schedule one visible creative project each month
- Share a meal with company once a week
- Practice a daily moment of celebration or laughter
- Speak in public or present at least once a quarter

- Best Times: late morning through early afternoon (Fire hours, 9 am–1 pm) for visibility and momentum
- Avoid: excessive black/navy, winter cold, and Water-heavy north orientation
- Business Lucky Numbers: 2, 7 (favorable Fire) and 3, 8 (supporting Wood)

> Direction, colours, season, and numbers above are classical Five Elements direction doctrine. Gemstones are a modern popular-astrology convention, not classical Myeongri (Korean Saju)

2026-09-19 — Correction: chart re-derived after the late Rat hour hour-stem engine fix

What changed: the 2026-06-21 analysis below was built on an hour pillar of Bing Ja, computed before a Korean late Rat hour hour-stem bug fix landed in the engine (pillars.py::_hour_stem_day_stem, 2026-09-13, verified against two independent manseryeok (Korean perpetual calendar) sites). For a birth at 23:50 — inside the 23:00–00:59 late Rat hour window — Korean Myeongri (Korean Saju tradition) convention derives the hour-stem from the next day's Day Master, not the current day's. Mahesh's corrected hour pillar is Mu Ja, not Bing Ja. This is not a cosmetic change: it removes a Seven-Killings (Seven Killings (Authority)) star from the hour and replaces it with an Indirect Resource star, which changes the Day Master strength verdict, the favorable element, and the Chart Structure. The 2026-06-21 analysis is superseded and should not be used. The corrected reading follows immediately below; see mahesh-report.md for the full base reading.

Corrected pillars & foundation

Pillars (verified 2026-09-19): Gap Sul (year) / Jeong Chuk (month) / Gyeong Sul (day) / Mu Ja (hour, corrected). Day Master Gyeong (Yang Metal, Gyeong Metal). Strength: Balanced (not weak) — the branches place Gyeong in Decline/Tomb/Death stages (depleted qi), but the corrected hour stem removes what had been read as a second authority star, and the chart no longer carries the mixed-authority pressure the old reading assumed. Favorable element = Fire — resolved via climate-balance: a Chuk-month (deep winter) chart with no visible Fire pressure needs Fire's warmth. Supporting element = Wood, which generates Fire. unfavorable = Metal — derived from the Fire the element Fire overcomes, with Water as restrains Fire and Earth as drains Fire. pattern: Direct Resource Structure (Direct Resource structure, Direct Resource Grid) — the month branch Chuk's main qi hidden stem is Gi, which reads as Direct Resource relative to Gyeong; this replaces the old, incorrect "Direct Officer Structure + mixed officers" claim, which depended on the now-corrected Bing hour stem. With the hour corrected to Mu, only one Authority star remains in the whole chart (Jeong Direct Officer (Authority), appearing as the month stem and echoed in the year and day branches' hidden stems) — there is no Seven Killings (Authority) anywhere, so mixed direct/indirect officer does not apply to this chart.

Full Ten Gods count (stems + hidden stems, from mahesh-report.md's Ten-God Distribution table): Direct Officer ×3, Indirect Resource ×3, Robber ×3, Hurting Officer ×2, Direct Resource ×1, Indirect Wealth ×1. Three classes tie at 3 — Authority, Resource, and Companion (Rob Wealth (Companion)) are all meaningfully present; Wealth is thin (one Indirect Wealth star only) and there is no visible Output in the stems (Hurting Officer (Output) is hidden-only).

Short answer

- Business is suitable, but the anchor element is now Fire, not Earth. The chart carries a clean, single Direct Officer signal — no Seven Killings (Authority) confusion — plus prominent Resource and Robber. Institutional or credentialed structure still suits this chart (via Authority/Resource), but the energy that should be actively cultivated is Fire: visibility, expression, public-facing work — the opposite steer from the superseded analysis.
- Top domains (by Favorable Element/Supporting Element element, per Element → Industry Families): Leadership & public-facing institutional roles, Media, broadcasting & public communication, Marketing, PR & advertising, Teaching, coaching & public speaking (Fire); with Education, publishing & design work as secondary Wood-aligned support.
- Favorable element: Fire — a climate climate call, not an strength-balancing one: the chart's winter-born (Chuk) structure has no Fire warmth of its own, so Fire is the classical remedy regardless of the Day Master's own count of allies.
- Employment vs. entrepreneurship: per 's Employment vs. Entrepreneurship signals, a clean Authority-led chart (single Direct Officer (Authority), no confusion) tends to fit institutional or credentialed employment first, with independent work becoming more viable once the Major Luck actively favours Fire/Wood. The prominent Rob Wealth (Companion) (3×) is a partnership-risk flag (peer-drains-wealth, see below), independent of the hour-stem correction — this caution from the old analysis still holds.
- Best window: favorable-element (Fire/Wood) years and Major Luck periods — per mahesh-report.md's Timing tables, the Im O (ages 45–54) and Gye Mi (ages 55–64) Major Luck carry the clearest favorable lean; within the current Gyeong Jin ages 25–34, itself neutral, lean on individual years whose stem is Fire or Wood (see the Year-by-Year Notes and 10-Year Forecast in the base report) for visible moves, and use the neutral/Metal-leaning years for consolidation.

Elemental Career Affinities (corrected)

Per Element → Industry Families, mapped to Mahesh's corrected Fire and Wood:

Element	Industry / Domain	Why it fits Mahesh's corrected chart
Fire — Favorable Element	Leadership & public-facing roles, media/broadcasting/performing arts, marketing/PR/advertising, teaching/coaching/public speaking, entrepreneurship & product evangelism, energy & hospitality front-of-house	The chart's primary favorable element, resolved by climate for a winter-born chart with no natal Fire warmth. Fire work is public-facing and expressive — the direct opposite steer from the superseded Earth-anchored recommendation. This is the element to actively cultivate, not merely tolerate.
Wood — Supporting Element	Education & training, healthcare & wellness, design/writing/publishing, social & environmental work, HR/people development	Wood generates Fire, so Wood-flavoured work is supportive secondary terrain — it feeds the chart's actual need rather than competing with it. The chart's one visible Wood star (Gap Indirect Wealth, year stem) is a natural bridge into Wood-adjacent income sources.

Element	Industry / Domain	Why it fits Mahesh's corrected chart
Metal — Day Master's own element	Law & governance, engineering, finance & trading, quality/audit, defence/security, metalwork & precision instruments	Same element as the Day Master (Gyeong) — reinforces the self rather than the chart's balance need. Neutral-to-supportive as a skills register (Metal's precision and structure are native strengths), but per 's Favorable Element-first rule, Metal-only industries do not address what the chart is missing (Fire warmth) and should not be the primary anchor the way the superseded reading claimed.
Earth — the old (incorrect) Favorable Element	Real estate, construction, accounting, agriculture, operations	No longer the chart's favorable element under the corrected hour pillar. Not unfavorable — Earth is a stable, workable terrain (and the Ja Chuk combination still binds the hour and month branches into Earth, see below) — but it is not the lever this chart needs, and should be read as neutral, not primary.
Water	Strategy/consulting, logistics, psychology, journalism	The chart's hidden Water (Gye, in Chuk and Ja) sits behind Hurting Officer — an underdeveloped but present output channel. Workable as a secondary skill (research, writing, analysis) but does not address the chart's Fire need directly.

Is Business a Fit? (self-employment combination)

Short answer: Yes, with the same structural cautions as before — but oriented toward Fire-adjacent, visible work rather than Earth-anchored asset-holding.

What still holds from the original reading (unaffected by the hour-pillar correction, since it depends on the day/month/year pillars only):

1. Ja Chuk combination (Earth) between hour and month still forms, since the branch pair (Ja hour, Chuk month) is unchanged by the stem correction — hour and month palaces still bind into a combined Earth undertone. This remains a real structural feature; it just is not the chart's primary lever anymore.
2. Rob Wealth (Companion) (Rob Wealth) is prominent (3x across hidden stems) — per 's peer-drains-wealth (Rob Wealth wealth) pattern, this is read as partnership and shared-money risk: another equal has a latent claim on the same pool of resources. The original caution — put ownership and roles in writing, keep separate accounts, avoid loosely-shared ventures — is unchanged by the correction and still applies.
3. No visible Output in the stems (Hurting Officer (Output) is hidden-only, in Chuk and Ja) — pure creative/expression-first business is under-supported as a sole strategy; per, a structural product or service, or an institutional platform, works better as the anchor than freelance self-expression alone.

What changes:

1. No more mixed officers. With the hour corrected to Indirect Resource, the chart carries a single, clean Direct Officer (Authority) signal. This is a more stable institutional-authority pattern than the superseded reading described, not a more confused one — the "pick one regulatory regime" caution from the old analysis was solving a problem (mixed officer stars) that the corrected chart does not have.

2. The anchor element flips from Earth/Metal to Fire/Wood. Per 's Favorable Element-first rule ("align work with what the chart needs, not merely the Day Master's own element"), the corrected chart calls for visibility, public-facing work, and expressive or teaching-oriented roles as the primary lever — with Metal-native precision work as a secondary skills register, not the main channel.

3. Direct Resource Grid, not Direct Officer Structure, is the classical pattern once the month branch's main qi (Gi, Direct Resource) is read correctly — Resource-grid themes (credentialed learning, mentorship, research-to-practice, institutional backing) sit alongside the Officer (Direct Officer (Authority)) signal rather than being displaced by a second Officer star.

Recommendation: Business remains suitable, best run as a credentialed or institutionally-anchored practice with a visible, public-facing component — for example, a consultancy, teaching practice, or media/communications venture built on a Metal-native skill (engineering, finance, law, quality/audit) but delivered through Fire-flavoured channels (public speaking, content, brand-building, teaching). Keep the original partnership cautions: sole operation or one co-founder with a formal agreement from day one, and do not commingle shared funds — the Rob Wealth (Companion) risk is real and is not affected by the hour-stem correction.

2026-09-26 — Corrections after the engine audit

The base report was regenerated after the 2026-09-25 engine audit. The engine now resolves Unfavorable Element for every chart from the same single source as it previously left balanced/climate charts with none, so Mahesh's Quick Reference names Metal as Unfavorable Element. Metal is also the Day Master's own element, so read "watch Metal" as don't over-concentrate same-element peer/competitive energy rather than avoid Metal work — the Metal-native career families above remain workable, just not the lever the Fire Favorable Element is. Element percentages also moved (Fire 21.1%, Metal 19.7%, Water 9.2%) after the Jin Sul Chuk Mi hidden-stem order fix.

Mahesh — Relationships Deep-Dive

> Topic file. The base natal reading is at mahesh-report.md. This file is for follow-up queries on relationships, marriage, partner analysis, and compatibility. Append new queries with a dated heading.

2026-09-26 — Marriage timing re-derived from the spouse star and spouse palace

The engine audit (E-8, 2026-09-25) found marriage timing was keyed to favorable-element years rather than the classical signals. Part 5b now defines it: for a male chart the wife star in the Major Luck/Annual Luck plus a Six Harmony/three-harmony into the day branch (spouse palace, Sul), weakened by clash/punishment/break on the palace and by Rob Wealth (Companion) years. The regenerated base report's Marriage Timing Windows now reads:

- Strongest converging years: 2035 Eul Myo (Direct Wealth year + Myo Sul Six Harmony into the spouse palace) and 2034 Gap In (Indirect Wealth year + In O Sul three-harmony through the palace) — both are void years for his day pillar, so formalise carefully and document commitments.
- Better for deepening privately than formalising: 2027 Jeong Mi (Mi Sul break/punishment on the spouse palace), 2031 (Rob Wealth (Companion) year), 2033 (Chuk Sul punishment on the palace).

This supersedes the 2026-09-19 "2027 is the marriage-coded year" anchor above: 2027's Direct Officer (Authority) stem still carries commitment themes (the Key Relationship Timing table), but the palace is struck that year, so it reads as a year for serious conversations rather than the cleanest year to formalise. Tendencies only, not predictions.

2026-09-19 — Correction: chart re-derived after the late Rat hour hour-stem engine fix

What changed: the 2026-06-21 analysis below was built on an hour pillar of Bing Ja (Seven Killings (Authority), Seven Killings, Fire), computed before a Korean late Rat hour hour-stem bug fix landed in the engine 2026-09-13 (see career.md for the full technical explanation). Mahesh's corrected hour pillar is Mu Ja (Indirect Resource, Indirect Resource, Earth) — the hour star is no longer an Authority star at all. This does not change the spouse-palace analysis below (day branch Sul is untouched by the hour correction), but it reverses the favorable/unfavorable element read: the chart's favorable element is now Fire, not Earth, resolved via climate climate-balance rather than strength-balance strength-balancing. Every place the 2026-06-21 analysis recommended Earth/Metal partners and cautioned against Fire is inverted under the corrected chart, most importantly the marriage-timing tables, which had flagged 2026 (Bing O, Fire) as a year to avoid — under the correction it is a favorable-element year. Read the corrected summary and tables below; do not use the superseded per-year marriage guidance further down without cross-checking it against this correction.

Corrected short answer

- Spouse palace (Branch, day branch) is unchanged: Sul (Dog), hidden stems Mu Indirect Resource / Sin Rob Wealth (Companion) / Jeong Direct Officer (Authority) — the full spouse-palace, Canopy/Post Horse/Peach Blossom analysis below still holds, since none of it depends on the hour pillar.
- mixed officers does not apply. With the hour corrected to Mu (Indirect Resource, not Seven Killings (Authority)), the chart carries a single clean Direct Officer (Authority) star (visible in the month stem, echoed in two hidden branches) — not a mixed Direct Officer (Authority)+Seven Killings (Authority) pattern. Where the "Relationship Style" table below cites "mixed officers (4 Authority visible+hidden)," read it as Direct Officer (Authority) alone (3 total, all direct).
- Day Master strength is Balanced, not weak — this only softens (does not reverse) the spouse-palace readings that referenced weak below; the qualitative spouse-palace picture is materially the same.
- Favorable element is Fire (Favorable Element), supporting is Wood (Supporting Element) — not Earth/Metal. Partner-element compatibility and marriage-year timing must be read against Fire/Wood, not Earth/Metal — see the corrected tables immediately below, which replace the superseded ones further down in this file.

Corrected Romantic Element Compatibility

Fit	Element	Why (corrected)
Best	Fire (Bing / Jeong)	Fire is the chart's Favorable Element — Mahesh's chart is winter-born with no natal Fire warmth, and climate doctrine calls for exactly this. A Fire-forward partner (expressive, decisive, socially warm) supplies what the chart is missing, rather than adding pressure — the reverse of the superseded reading, which (incorrectly, on the pre-fix hour) read Fire as already-oversupplied.
Good	Wood (Gap / Eul)	Wood is the Supporting Element — it generates Fire. The chart's one visible Wood star (Gap Indirect Wealth, year stem) is a natural bridge; a Wood-leaning partner reinforces the chart's actual need rather than merely being "financially attractive."
Compatible (neutral)	Earth (Mu / Gi)	Earth is still literally present in the spouse palace (Mu Indirect Resource, day branch's main hidden stem) — the structural, grounding partner-quality the original reading described is real and unaffected by the correction. But Earth is no longer the chart's favorable element, so it is neutral, not the "excellent, written-into-the-marriage-pattern" top pick the superseded reading claimed.
Compatible (neutral)	Metal (Gyeong / Sin)	Same element as the Day Master (also present as Sin Rob Wealth (Companion) in the spouse palace) — a peer/mirror dynamic, as before. Neutral rather than favorable: same-element partners reinforce the self but do not supply what the chart's climate-balance actually needs.
Watch	Water (Im / Gye)	Water controls (extinguishes) Fire in the generating/overcoming cycle — a strongly Water-dominant partner works against the chart's favorable element rather than merely being "draining" as the old Output-based reasoning claimed. Workable if the partner's chart also carries Wood or Fire support.

Corrected marriage-timing anchor

Per mahesh-report.md's own Key Relationship Timing table (already computed against the corrected chart), 2027 (Jeong Mi, Direct Officer (Authority)) is the base report's own explicitly marriage-coded year — "Fire energy + Direct Officer: structure and visible milestones (engagement, marriage, formal commitment)." 2026 (Bing O) is a favorable-element year but is coded "intensity and transformation" (Seven Killings) rather than a settling year. Use the base report's Key Relationship Timing and 10-Year Forecast tables as the authoritative year-by-year read; the superseded per-year table further down in this file (which called 2026 unfavorable and 2028 the "best year") should not be used.

2026-06-21 — Spouse palace, compatibility, marriage timing, partner dynamics [SUPERSEDED — see 2026-09-19 correction above]

Query: "Expand more details on career and relationship on Mahesh." (This file covers the relationship half — see career.md for the career half.)

> Pillars reminder (verified 2026-06-21, hour since corrected): Gyeong Sul (year) / Jeong Chuk (month) / Gyeong Sul (day) / ~~Bing Ja~~ Mu Ja (hour). Day Master Gyeong (Yang Metal), ~~weak~~ Balanced, ~~Favorable Element = Earth, Supporting Element = Metal, Unfavorable Element = Fire~~ Favorable Element = Fire, Supporting Element = Wood. ~~Direct Officer Structure. mixed officers.~~ Direct Resource Structure. No Authority confusion — single clean Direct Officer (Authority).

Short answer [superseded — see corrected short answer above; spouse-palace facts below are still accurate]

- Spouse palace (Branch, day branch): Sul (Dog) — a stable, Earth-storehouse branch. Hidden stems: Mu Indirect Resource, Sin Rob Wealth (Companion), Jeong Direct Officer (Authority). The partner is structured, principle-oriented, possibly in a regulated profession, and has same-element peer energy (Sin Rob Wealth (Companion) in spouse palace means peer-competition dynamic in the relationship). (This bullet is unaffected by the hour correction and still holds.)
- ~~Compatibility pattern: Partners with strong Earth or strong Metal fit more naturally than Fire or Wood partners.~~ Corrected: see the Romantic Element Compatibility table above — Fire and Wood are now the favorable partner elements.
- ~~Marriage timing window: 2027 → 2028 → 2029, with 2028 (Mu Shin) as the single best year.~~ Corrected: see the marriage-timing anchor above — 2027 (Jeong Mi) is the base report's own marriage-coded year; do not treat 2028 as the peak year.
- Relationship dynamic to watch: Rob Wealth (Companion) in spouse palace = peer-competition energy with the partner. The relationship benefits from clear role definition and shared goals — unaffected by the correction, still holds.

Spouse Palace (Spouse Palace,) — Deep Dive [unaffected by the hour correction]

The day branch Sul (Dog) is the spouse palace. It contains three hidden stems:

Role	Stem	Element	Ten-god of Day Master	Reading
main	Mu Mu (Yang Earth)	Yang Earth	Indirect Resource	Earth generates Metal; same polarity (yang/yang) → indirect variant. The partner is resource-anchoring, supportive, and structured — but indirectly: they support Mahesh through their stability and substance, not through direct instruction.

Role	Stem	Element	Ten-god of Day Master	Reading
middle	Sin Sin (Yin Metal)	Yin Metal	Robber	Same element (Metal), different polarity → Rob Wealth (Companion). The partner has peer / sibling / competitor energy with Mahesh. The relationship contains a mutual-independence thread — both people are strong individuals, and the relationship works best when both respect each other's autonomy.
residual	Jeong Jeong (Yin Fire)	Yin Fire	Direct Officer	Fire controls Metal; same polarity (yin/yin) → direct variant. The partner has authority / structure / conventional-status energy. The partner is likely to be responsible, status-aware, and possibly in a regulated / institutional role (e.g., banking, civil services, legal, healthcare, government).

Key spouse-palace readings:

1. Mu Indirect Resource in spouse palace = "the partner is my anchor." The partner brings stability, real-asset support, and "grounding" energy to the relationship. The partner is not flashy or expressive — they are solid, dependable, and quietly supportive. (The superseded file called this "the single most-favorable hidden stem for a weak Day Master" — the Day Master is now read as Balanced, not weak, but the descriptive reading of the partner's quality is unchanged.)
2. Sin Rob Wealth (Companion) in spouse palace = "the partner is also my peer." There is a peer-competition dynamic in the relationship. Both partners are likely to be strong-willed, independent, and capable — and neither will naturally defer to the other. The relationship works best when both have clearly-defined roles and shared long-term goals. Without these, the relationship can feel parallel rather than merged.
3. Jeong Direct Officer (Authority) in spouse palace = "the partner has conventional authority." The partner is likely conventional, status-aware, and possibly in a structured profession (banking, government, law, medicine, teaching). This is compatible with Mahesh's own Direct Officer (Authority) signal (now read via Direct Resource Structure, with Direct Officer (Authority) as a secondary theme rather than the primary grid) — the couple can share a value system around structure and accomplishment.
4. 12-Stage Cycle of Day Master in spouse palace: Sul = Decline. The spouse palace is in the "decline" stage of the Day Master's life-cycle. This means: the relationship requires patient cultivation — it does not burst into intensity; it builds quietly over time. Don't expect fireworks on the first year; expect steady deepening over years.
5. No Peach Blossom in spouse palace, no natal clash on day branch. The relationship's baseline is stable, not volatile. This is a "solid marriage" chart, not a "torrid romance" chart.

(See Peach Blossom section below.)

Peach Blossom Star, Peach Blossom killer [unaffected by the hour correction]

Anchor	Peach Blossom	In chart?	Reading
Year branch Sul	Peach Blossom at Myo	Not present (no Myo in chart)	Peach Blossom is offstage from the year-pillar anchor.
Day branch Sul	Peach Blossom at Myo	Not present (no Myo in chart)	Peach Blossom is offstage from the day-pillar anchor as well.

Reading: Peach Blossom is "offstage" in this chart from both classical anchors. Mahesh has romantic magnetism that is not always on display in everyday life. The relationship is built through substance and consistency, not through initial attraction or flirtation.

Traveling Star, Post Horse killer [unaffected by the hour correction]

Anchor	Post Horse	In chart?	Reading
Year branch Sul	Post Horse at Shin	Not present (no Shin in chart)	Post Horse is offstage from the year-pillar anchor.
Day branch Sul	Post Horse at Shin	Not present (no Shin in chart)	Post Horse is offstage from the day-pillar anchor.

Reading: Post Horse is not anchored in this chart. Relocation is less forced than charts with anchored Post Horse. However, the current Gyeong Jin Major Luck (25-34) features Jin Sul clash (Jin clashes Sul), which does activate relocation/property/home-base themes for this decade — expect at least one chosen (not forced) major home/property transition in the 2020s.

Canopy / Artistic Star, Canopy killer [unaffected by the hour correction]

Anchor	Canopy	In chart?	Reading
Year branch Sul	Canopy at Sul	PRESENT (Sul is in year + day)	Canopy is anchored in this chart — twice (year branch Sul and day branch Sul are both Sul, both carry Canopy).
Day branch Sul	Canopy at Sul	PRESENT	Same.

Reading: Canopy is the scholarly / solitary / artistic / spiritual star. Anchored twice in this chart (year + day both Sul):

- Mahesh has a deeply reflective, inward quality. He needs solitude to recharge.
- The chart carries a scholarly / philosophical / craftsman-like undertone — traditional crafts, philosophy, religion, music, or solitary study as a private interest, regardless of public career.
- In relationships: the partner may also have a solitary / scholarly / spiritual side, or Mahesh will need alone-time within the relationship to maintain balance. Partners who respect solitude fit best.
- Combined with the Rob Wealth (Companion) in spouse palace (independent of the Day-Master-strength correction), Canopy reinforces a "two independent people who choose to be together" pattern.

Relationship Style — Full Pattern Table [corrected]

Pattern	Indicator	Reading
Primary style	Gyeong Day Master + Sul day branch (Decline, Decline)	Principled, patient, structured. The querent is principle-oriented in partnerships — looking for the right fit on the right terms, not just any fit.
Spouse dynamic — anchor	Mu Indirect Resource in Sul	The partner is Mahesh's anchor and resource — stability, real-asset support, quiet substance.
Spouse dynamic — peer	Sin Rob Wealth (Companion) in Sul	Peer-competition energy. Both partners are likely strong individuals. Works best with clear role definition and shared long-term goals.
Spouse dynamic — authority	Jeong Direct Officer (Authority) in Sul	The partner has conventional-status / institutional energy, likely a regulated / structured profession.
Solitude need	Canopy double-anchored (year + day Sul)	Mahesh needs alone-time to recharge; the relationship benefits from partners who respect solitude.
Authority theme (corrected)	Single Direct Officer (Authority) (3 instances, all direct — no Seven Killings (Authority) anywhere)	Authority is present but not conflicted — the corrected chart carries one clean, consistent authority signal rather than the mixed Direct Officer (Authority)/Seven Killings (Authority) tension the superseded reading described. Explicit communication around roles still helps, but not because of an internal authority contradiction.
Attraction pattern (corrected)	Gyeong Day Master, Direct Resource Grid with a Direct Officer (Authority) undertone	Attracted to structured, principled, status-aware partners, and drawn to partners who can also play a mentor/resource role — substance and structure over flash.
Resource-pull (Resource in chart)	3 hidden Earth stems (Mu/Mu/Gi in Sul/Sul/Chuk) — unaffected by the correction	The chart has abundant hidden Resource — multiple supportive figures/advisors/mentors in Mahesh's life. In relationships, the partner may take on a partial advisor role, or Mahesh benefits from outside counsel in relationship decisions.

Advice for Relationship Harmony [corrected]

- Lean into Fire-element partners (Bing/Jeong day-master, born in summer, or with strong Fire in their chart) as the primary affinity — they supply the warmth the winter-born chart lacks. Wood-element partners (Gap/Eul day-master) are the secondary affinity, since Wood feeds Fire.
- Earth and Metal partners remain workable (the spouse palace's own hidden stems are Earth and Metal) but are neutral rather than the top pick the superseded reading claimed.
- Watch for the Rob Wealth (Companion) (Sin) in spouse palace in arguments — unaffected by the correction. When both partners want to lead, address role definition and shared goals directly; a written "shared vision" document helps.
- Respect the Canopy double-anchored need for solitude — schedule solitude deliberately (a weekly walk, a monthly retreat) rather than letting it happen by accident.
- Marriage timing: use mahesh-report.md's own Key Relationship Timing and 10-Year Forecast tables, which are already computed against the corrected chart. 2027 (Jeong Mi) is the report's own marriage-coded year; treat any per-year guidance in the superseded section below as unreliable.

Superseded detail (2026-06-21, pre-correction) — kept for record, do not use

The remaining tables in this section (Romantic Element Compatibility with Earth/Metal as "excellent," the 2024–2031 Marriage-Timing Quick Reference, and the Compatibility Check by year-of-birth) were built entirely on the incorrect Bing Ja hour pillar and its Earth-favorable/Fire-unfavorable conclusion. They are not reproduced here because every one of their per-year and per-element verdicts inverts under the correction (most importantly: 2026 was called an avoid-marriage year and is now a favorable-element year; 2028 was called the single best year and is not specially marriage-coded in the corrected chart). Use the corrected Romantic Element Compatibility table and marriage-timing anchor near the top of this file instead. If a like-for-like replacement of the year-of-birth compatibility table is needed, re-derive it from the corrected Fire / Wood using the same method as the corrected Romantic Element Compatibility table above, rather than reusing the archived numbers.

Closing Note

Gyeong (Gyeong (Yang Metal, Gyeong Metal)) sits at the centre of this chart, with the chart's element balance leaning toward Earth and a ten-god distribution dominated by Resource (4), Companion (4). The favorable Fire element (with Wood as the quiet secondary) is the querent's main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace Sul and the chart's relationship dynamics reward the querent for showing up consistently rather than performing. The six-combination between Ja and Chuk is a quiet asset — partnerships or projects that bring two palaces into harmony, with the querent's role often as the connector. Across a full lifetime, this chart rewards the querent who studies their own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.

What the Terms Mean

- Companion (Pillar): a peer or equal — support, solidarity, and rivalry in equal measure
- Day Master: you — the reference point the whole chart is read against
- Resource class (Resource): the resource group — support, learning, and what sustains you
- Indirect Wealth: variable money — deals, commissions, windfalls, higher risk and reward
- Wealth class (wealth star): the wealth group — how money and resources come and are held
- Direct Wealth: steady, earned income and everyday resources — salary and savings
