

Harish — Deep Destiny Report

A Reading in the Korean Four Pillars Tradition

For Harish
Born 4 June 1992, 03:10 AM IST (Pallipattu, Tamil Nadu)
Day Master Sin (Yin Metal)

(Audio summary included) Your MP3 audio summary is included — delivered with this report.

Grounded in the Five Elements and Yin-Yang philosophy. Interpreted through classical Myeongri (Korean Saju) tradition: Jeokcheon-su, Yeonhae-japyeong, Gungdong-bogam, Myeongri-jeongjong.

Generated October 02, 2026 · Report ID: CID-harish-combined-20261002

Harish — Deep Destiny Report · \$55

Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance

Born: 1992-06-04 · 03:10 · Pallipattu, Tamil Nadu

Time method: recorded birth time 03:10 (local clock) corrected to true solar time 02:59 (birthplace 79.4408°E vs the 82.5°E zone meridian), -10.5 min (longitude -12.2 min + equation of time +1.7 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time. > ⚠ Hour-boundary note: the corrected time is only ~29 seconds from a 2-hour branch boundary. If the recorded clock time carries even a few minutes of error, the neighboring hour pillar (Gyeong In, vs the primary Gi Chuk used above) is a plausible alternative — treat the hour pillar (and its palace themes) as lower-confidence in this reading.

Day Master: Sin (Yin Metal, Sin Metal)

Report generated: 2026-09-26 · Report ID: CID-harish-20260926-DEEP

Delivered by Cosmic Saju · cosmicsaju.com

Chart signature: A jewel kept in velvet — refined, reserved, and requiring the right setting.

Chart at a Glance

Four Pillars

	Year	Month	Day	Hour
Stem	Im	Eul	Sin	Gi
Branch	Shin	Sa	Hae	Chuk
Hidden Stems	Gyeong (main), Im (middle), Mu (residual)	Bing (main), Gyeong (middle), Mu (residual)	Im (main), Gap (middle)	Gi (main), Sin (middle), Gye (residual)

Element Balance

Element	Presence	Percentage
● Fire		5.6%
● Earth		23.1%
● Metal		26.9%
● Water		25.6%
● Wood		18.8%

> Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qī hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- Day Master: Sin (Yin Metal, Sin Metal)
- Strength: Balanced — the month branch Sa gives the Day Master a mixed seasonal baseline by element relation (per Step 2); its 12-Stage Cycle stage there is Death — one cycle is completing as the querent enters the world, so early identity may feel transitional. The output/wealth/authority drain outweighs the peer and resource support — the element-relation season above (weighted more heavily in the overall formula) is what pulls the total back into the balanced range despite that skew.
- Favorable Element: Water — The Day Master reads as balanced, so the classical climate-balance check applies: this chart peaks in hot summer conditions, and the classical remedy is Water. This takes priority over the chart's simple element count, which is a weaker signal than the classical climate check here.
- Why this element: two classical checks apply here — the strength-balance reading points one way, while the climate-balance (climate) reading points to Water for a hot-season chart. In this chart the climate reading takes priority because the chart leans clearly seasonal; the reader has weighed both.
- Supporting Element: Metal
- Avoid / Watch: Fire (Unfavorable Element, watch) · Earth (Restraining Element, restrains Water) · Wood (Draining Element, drains Water)
- Current Major Luck: Gi Yu (ages 30-39)
- Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Im) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- Pattern / Formation: Direct Officer Structure / Direct Officer Grid

What This Year Means for You

Right now, in September 2026, you are moving through a year whose energy is shaped by Bing O (Direct Officer (Authority)). This sits inside your broader Gi Yu major luck period (ages 30–39), whose theme is Indirect Resource. For your chart, the most useful energy to lean into this year is Water: look for decisions, environments, and relationships that bring water qualities forward.

- Closing Note

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. What does "favorable element" mean in daily life? It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.
2. Should I move north or only wear water? No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.
3. Can Saju tell me what illness I might get? No. Classical Saju maps tendencies in the body's elemental systems (e.g. excess Wood may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. How often should I get a reading? Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. What is a major luck period? A 10-year stretch of life shaped by a new stem and branch (Major Luck) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. How is Saju different from Western astrology? Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. Should I read this report chronologically? No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With Sin (Sin (Yin Metal, Sin Metal)) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the polished jewel or fine instrument. Your natural strengths run toward precision, refinement, and a gift for detail and quality, while the shadow side can show as perfectionism, detachment, or being easily bruised by criticism.

Born in a Metal chart with the engine reading as balanced, the way you meet the world is shaped by how much Metal energy is available. When balanced, you express the best of Metal; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate Water energy — the favorable element — so that your Metal nature has the right container and outlet.

Your Day Master Sin meets the month branch Sa at the phase-ending start twelve-stage — one cycle is completing as the querent enters the world, so early identity may feel transitional. This is read as a mixed seasonal support arrival: a tendency in how the querent's core energy first enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Im Shin (Im (Yang Water, Im Water))

The Im Shin pillar pairs the Im stem (Im (Yang Water, Im Water)) with the Shin branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads as Hurting Officer relative to your Day Master, so this area of life tends to carry that dynamic.

The Metal branch is the container for this area and the Water stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the Water element, it tends to bring water-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to year-pillar matters. Hidden stems within the Shin branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Shin branch or the Im stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Eul Sa (Eul (Yin Wood, Eul Wood))

The Eul Sa pillar pairs the Eul stem (Eul (Yin Wood, Eul Wood)) with the Sa branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Indirect Wealth relative to your Day Master, so this area of life tends to carry that dynamic.

The Fire branch is the container for this area and the Wood stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the Wood element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to month-pillar matters. Hidden stems within the Sa branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sa branch or the Eul stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Sin Hae (Sin (Yin Metal, Sin Metal))

The Sin Hae pillar pairs the Sin stem (Sin (Yin Metal, Sin Metal)) with the Hae branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Water branch is the container for this area and the Metal stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the Metal element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to day-pillar matters. Hidden stems within the Hae branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Hae branch or the Sin stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Gi Chuk (Gi (Yin Earth, Gi Earth))

The Gi Chuk pillar pairs the Gi stem (Gi (Yin Earth, Gi Earth)) with the Chuk branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Indirect Resource relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Earth stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the Earth element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to hour-pillar matters. Hidden stems within the Chuk branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Chuk branch or the Gi stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Im Shin	Im	Hurting Officer	Gyeong (main), Im (middle), Mu (residual)	Rob Wealth (Companion), Hurting Officer (Output), Direct Resource	Outer layer: Hurting Officer; inner driver through the branch: Rob Wealth (Companion).
Month Pillar — Eul Sa	Eul	Indirect Wealth	Bing (main), Gyeong (middle), Mu (residual)	Direct Officer (Authority), Rob Wealth (Companion), Direct Resource	Outer layer: Indirect Wealth; inner driver through the branch: Direct Officer (Authority).
Day Pillar — Sin Hae	Sin	Companion (Pillar)	Im (main), Gap (middle)	Hurting Officer (Output), Direct Wealth	Outer layer: Companion (Pillar); inner driver through the branch: Hurting Officer (Output).
Hour Pillar — Gi Chuk	Gi	Indirect Resource	Gi (main), Sin (middle), Gye (residual)	Indirect Resource, Pillar (Companion), Eating God (Output)	Outer layer: Indirect Resource; inner driver through the branch: Indirect Resource.

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> In plain words: Where your chart puts its weight: most of all on what you make, say, and put out.

> In plain words: At your core you are a refined blade — you cut to the point and value quality. Your chart reads as balanced, so the rest of this report is about where that helps and where leaning toward Water keeps you in balance.

Career & Wealth

Career Archetypes

A detailed career analysis follows in the Career Deep-Dive section below.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Water and supporting element Metal describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck and Annual Luck tables to see when income and value-creation themes surface most clearly. Periods dominated by Fire call for conservation rather than expansion.

Employment vs. Entrepreneurship

The Authority and Wealth pulls are present but balanced, so either path is workable — the deciding factor will be which environment the querent can sustain emotionally for a decade. Treat this as a tendency reading, not a verdict; the Major Luck and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

The chart carries Direct Wealth only as a hidden stem — real, but latent rather than actively expressed. Income from a steady, earned source is structurally present but may need a deliberate channel (a role, a contract, a platform) to become visible and regular.

Skill-Levers to Develop

Hurting Officer-dominant charts tend to grow fastest through written or verbal communication, sharp critique, and presentation craft. Cultivate listening and reflective writing to strengthen Water's receptive quality.

Wealth Preservation Note

For a Metal Day Master with a Balanced reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Water element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Partnerships and joint ventures work well when the partner's element supports Water; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Water-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

Large institutions and mid-size specialists are the most likely fit. The Direct Officer influence values hierarchy, credential, and a clear chain of accountability — the querent is most productive when the structure around them is unambiguous.

Boss / Team Dynamics

The ideal manager profile is a patient, perceptive Water advisor — someone who carries your favorable Water element, supplying what the chart needs rather than competing with your Day

Master. Watch for vague goals that blunt Metal's precision; this is the most common way the querent's energy gets drained in a team setting.

Red-Flag Environments

Look out for: long stretches of Fire-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

Decade-by-Decade Career Strategy

Ages 0-9 — Bing O

With a Direct Officer ten-god over a Fire branch (stem element Fire), this is a conserve and consolidate decade. Protect what already works; defer large bets and focus on craft and relationships. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 10-19 — Jeong Mi

With a Seven Killings ten-god over a Earth branch (stem element Fire), this is a conserve and consolidate decade. Protect what already works; defer large bets and focus on craft and relationships. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 20-29 — Mu Shin

With a Direct Resource ten-god over a Metal branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 30-39 — Gi Yu

With a Indirect Resource ten-god over a Metal branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 40-49 — Gyeong Sul

With a Robber (Rob Wealth) ten-god over a Earth branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 50-59 — Sin Hae

With a Companion (Pillar) ten-god over a Water branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 60-69 — Im Ja

With a Hurting Officer ten-god over a Water branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 70-79 — Gye Chuk

With a Eating God ten-god over a Earth branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

> In plain words: Your chart leans toward earning by making and expressing — creating, teaching, building. Fields and decades that carry Water give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is Hae (12-stage: Bathing), whose main hidden stem relates to your Day Master as Hurting Officer. In practice, you express affection candidly, sometimes bluntly, and want a partner who can take direct feedback. No Peach Blossom star is natally active, so relationship style is more shaped by the spouse palace and ten-god mix than by overt magnetism. By Japyeong-jinjeon's gendered spouse-star convention, your wife star (Wealth, wife star) appears at Eul (month stem), Gap (day branch middle) — including the spouse palace itself, a classically stronger placement.

Spouse Palace Ten-God

The spouse palace Hae (12-stage: Bathing) carries a main hidden stem that relates to your Day Master as Hurting Officer (Hurting Officer (Output)). In the partner domain this points toward a candid, expressive partnership; direct conversation and shared creative output matter more than convention. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	Compatible	Neutral energetic exchange.
Radiant, expressive, and momentum-driven	Fire	Watch	Fire is your challenging element — it works against the balance your chart seeks.
Grounded, nurturing, and reliability-focused	Earth	Compatible	Neutral energetic exchange.
Disciplined, precise, and structure-oriented	Metal	Good	Metal supports your Water — secondary support (Supporting Element).
Adaptive, perceptive, and depth-seeking	Water	Best	Water is your favorable element — the core balance your chart seeks.

Three Things to Be Mindful Of

- Peach Blossom is not natally active, so your social style leans toward depth rather than breadth — protect your close-circle time.
- The day branch Hae is involved in a natal clash, so partnerships tend to surface change or tension — frame this as information, not a verdict.

- The current major-luck period (Gi Yu, Indirect Resource — unconventional learning — intuition, solitary study, restless over-thinking) carries favorable energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

>Relationship theme per year for the next six years — read alongside the annual windows table.

Year	Pillar	Note
2026	Bing O (Direct Officer)	Fire energy + Direct Officer: structure and accountability in relationships and partnerships.
2027	Jeong Mi (Seven Killings)	Fire energy + Seven Killings: intensity and transformation — expect a relationship to demand change.
2028	Mu Shin (Direct Resource)	Earth energy + Direct Resource: support and study — a partner who mentors or grounds you.
2029	Gi Yu (Indirect Resource)	Earth energy + Indirect Resource: intuition and surprise — a relationship that teaches you something unexpected.
2030	Gyeong Sul (Robber)	Metal energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.
2031	Sin Hae (Companion)	Metal energy + Companion: peer energy — friendships and partnerships strengthen.

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — Output (4), Companion (4), Resource (4) — so the querent tends to give and receive in those modes. The querent is naturally drawn to people who are reflective, listening, and emotionally present, and tends to feel drained by people who demand constant attention without reciprocity. Social settings where the favorable Water element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace Hae sitting in the Bathing 12-stage and carrying hidden-stem ten-gods of Hurting Officer (Output), Direct Wealth, the querent bonds through a mix of presence and discernment. The Bathing stage is one of the supported (strong) stages, so the querent tends to bring energy and presence into the bond. The hidden-stem ten-gods colour the undercurrent — Resource leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck/Annual Luck overlays show when the querent's bond patterns shift most.

Marriage Timing Windows

Commitment timing is read from your wife star and your spouse palace Hae (the day branch). Neither the current nor the next major-luck period carries the spouse star or binds the spouse palace, so the annual years below carry more of the weight. The years where the most signals converge: 2035 Eul Myo (Indirect Wealth spouse-star year, Hae Myo Mi three-harmony through the spouse palace; offset by a void (empty) year, so gains may feel less solid); 2034 Gap In

(Direct Wealth spouse-star year, In Hae Six Harmony into the spouse palace; offset by In Hae break on the spouse palace, a void (empty) year, so gains may feel less solid). Years better suited to deepening privately than to formalising: 2030 (Rob Wealth (Companion) year); 2031 (Hae Hae self-punishment on the spouse palace). These are tendencies for when the theme is most active — not predictions of an event.

Family Dynamics

The year pillar Shin carries ancestral and parental themes; its main hidden stem shapes how the querent absorbs (or pushes back on) family-of-origin patterns. The month pillar Sa is the career and sibling palace — its dynamics surface in how the querent shows up among peers and early mentors. The hour pillar Chuk speaks to children and later life — its hidden stems indicate what the querent is likely to pass on, and what they will need to consciously teach.

Partner Chart Add-On

Curious about a specific person? Add a compatibility reading — the Deep Compatibility report (\$45) — by replying with their birth details.

> In plain words: Your partnership area points toward a partner you speak plainly with — candid exchange over convention. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- Element excess: Metal — pay attention to the lung/large intestine and respiratory/immune boundaries system.
- Element deficiency: Fire — the heart/small intestine and circulation system may need gentle support. Note that Fire is also this chart's challenging element (Unfavorable Element) under the climate/strength-balance reading used for its favorable element — so "support" here means protecting and resting this system, not deliberately adding more Fire-element activity.
- The chart's lightest weighted element is Fire (5.6%), which in classical Five-Element mapping is paired with the heart/small intestine and circulation. This is not a diagnosis; it is the least natally emphasized system, making it the natural place to begin gentle, preventive support through fire-aligned foods, seasons, and rhythms.

Grounding Practices

- Swimming, baths, or walking near rivers/lakes/ocean
- Eating black beans, seaweed, and salty foods in moderation
- Meditation or stillness practice in the evening
- North-facing study or rest spaces
- Reading, research, or journaling to settle a restless mind

The Overdrive Warning

A Balanced Metal Day Master has reasonable reserves but still needs conscious rhythm. Watch for burning out through perfectionism, grief, or respiratory tightness when output stays high without recovery windows. In classical Five-Element reading, the lung/large intestine and respiratory/immune boundaries are a common watchpoint when energy is overstretched; the

Water element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The Metal Day Master is most at home in autumn; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable Water element's season (winter (the deep, still Water energy)) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Water hours (by the twelve branch hours) are the most aligned — Hae Ja hours, 21:00-01:00.

> This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.

> In plain words: Your lightest element is Fire, so the heart/small intestine and circulation are the natural place to start gentle, preventive care — through fire-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern candidate: Direct Officer Structure / Direct Officer Grid

Pattern	Branches	Classical Note
Six Combination	Sa+Shin	binds the two branches without transforming (binding without transforming, binding without transforming) — Water is not in season at the month branch or a member is struck by a clash, so read it as a tie, not a new Water force; links the year and month palaces
Half Harmony	Sa+Chuk	two of the Sa Yu Chuk (Metal) frame without its central branch Yu — latent; it activates when Yu arrives in a luck period
Stem Clash	Eul↔Sin	two same-polarity stems in direct control — tension in what those stems' ten-gods represent
Six Clash	Sa↔Hae	a tension or activation between two life palaces; often a call to adjust, release, or decide
Three Punishment (partial)	Shin-Sa	two branches of a punishment frame without the third; a lighter but recurring structural pressure that matures slowly
Six Harm	Shin-Hae	a quiet friction that can drain energy if ignored
Six Break	Shin-Sa	a disruption of an expected harmony; often appears as a changed plan or external adjustment

Pattern	Branches	Classical Note
Output Meets Authority	Hurting Officer (Output) + Direct Officer (Authority)	Classical conflict pattern : Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event.

Pattern Narratives

The engine flags Direct Officer Grid as the regular grid, but with a caveat: broken-grid risk: rebellion-against-authority is also present in this chart (,), which classically complicates a Direct Officer Structure reading. Read this grid's usual meaning with that caveat rather than at full strength. The month branch is struck (Shin Sa punishment, Hae Sa clash), which lowers the grid's purity without fully breaking it. When intact, this grid points toward a life theme shaped by conventional respectability and structure — credentials, large institutions, examinations, and public trust.

The most prominent natal branch signal is a partial Three Punishment between Shin and Sa (three-punishment Shin Sa (Wood-Metal-Fire punishment)), touching the ancestral and social-root energy — the wider world you were born into and career and immediate environment — how you show up at work and in daily life. Two branches of a punishment frame are present without the third — a lighter but recurring structural pressure; its themes mature slowly and tend to recur until they are consciously recognized.

What This Means in Plain Language

The chart's dominant pattern candidate is Direct Officer Grid. A six-combination between Sa and Shin binds the two branches without transforming (binding without transforming, binding without transforming) — Water is not in season at the month branch or a member is struck by a clash, so read it as a tie, not a new Water force, linking the year and month palaces. A natal clash between Sa and Hae brings recurring pressure and asks the querent to make conscious choices between the two palaces involved. A partial three-punishment between Shin and Sa — two branches of a punishment frame without the third — is a recurring structural pressure; these themes mature slowly and call for patience. Together, these patterns point to a recurring life theme rather than a single event. The favorable Water element is the querent's lever for working with — rather than against — the chart's structure.

> In plain words: The chart's organising theme is conventional respectability and structure — credentials, large institutions, examinations, and public trust.

Other Active Star

Counted from your day branch Hae (common modern practice; traditional Korean practice counts from the year branch, which can give a different set of stars).

- Robbery Star (rob evil) (at Shin): sudden loss, theft, or unexpected competition — can also mark a capacity for decisive action.
- Movement Star (at Hae): a movement/departure marker — relocation, travel, job or residence changes; a milder, more passive sibling of the travel star (Post Horse).
- Withering Star (at Chuk): also called Withering Star — a drying-up/stagnation marker: slow development and effort that needs patience before it bears fruit.
- Heavenly Virtue (at Sin): virtue, protection, and honorable character — help arriving in times of need; often read as one of the most favorable stars.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Position	Stem	Ten-God	Note
month_stem	Eul	Indirect Wealth	Natal wealth signal visible here.
day_branch_middle	Gap	Direct Wealth	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 40–49 (Gyeong Sul, Robber (Rob Wealth) — a rival for the same resources — competition in money or love) — your favorable element is active here, supporting overall stability — but its ten-god is Rob Wealth (Companion), a peer/rival (Companion) type that the peer-drains-wealth pattern reads as wealth competition rather than opportunity; keep shared-money agreements explicit here rather than expecting income growth from it directly.
- Ages 50–59 (Sin Hae, Companion (Pillar) — a peer or equal — support, solidarity, and rivalry in equal measure) — your favorable element is active here, supporting overall stability — but its ten-god is Pillar (Companion), a peer/rival (Companion) type that the peer-drains-wealth pattern reads as wealth competition rather than opportunity; keep shared-money agreements explicit here rather than expecting income growth from it directly.
- Ages 60–69 (Im Ja, Hurting Officer — sharp output — bold expression, creativity, friction with rules and authority) — your favorable element is active here, supporting overall balance rather than specifically signaling a wealth-influx window.
- Ages 70–79 (Gye Chuk, Eating God — gentle output — talent, making, teaching, slow enjoyable accumulation) — your favorable element is active here, supporting overall balance rather than specifically signaling a wealth-influx window.

Investment Style Cue

Because your favorable element is Water and your supporting element is Metal, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Water (favorable)	north	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Metal (supporting)	west	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- Favorable orientation: Facing or sleeping with head toward north is traditionally considered supportive for your chart.
- Supporting orientation: Use west when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during Water (and supporting Metal)-element years and months, and especially during these supportive major-luck periods: ages 20-29 (Mu Shin), ages 30-39 (Gi Yu), ages 40-49 (Gyeong Sul). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Post Horse (Post Horse killer, Post Horse Star) is natally active at Sa — this classical star indicates a tendency toward movement: travel, relocation, or change of environment as a recurring life theme rather than a one-time event. Years or major-luck periods that activate this branch again tend to bring relocation or travel decisions to the foreground.

Business & Launch Timing

For a Metal Day Master, the most supportive launch windows tend to come when the annual pillar carries Water or Metal energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use 1, 6 (favorable Water) and 4, 9 (supporting Metal) in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A partnership or co-launch with one credible counterparty is the most likely fit. The Authority ten-god gives the launch a stamp of legitimacy, and a partner carries the parts the querent's chart cannot carry alone.

Year-by-Year Launch Timing (2026-2031)

Year	Pillar	Why It Matters	Suggested Use
2026	Bing O	Direct Officer (Fire energy + Direct Officer — a challenging-element year.)	career moves, credentials, formal commitments
2027	Jeong Mi	Seven Killings (Fire/Earth energy + Seven Killings — a challenging-element year.)	career moves, credentials, formal commitments
2028	Mu Shin	Direct Resource (Earth/Metal energy + Direct Resource — a supporting-element year.)	study, mentorship, rest, skill-building
2029	Gi Yu	Indirect Resource (Earth/Metal energy + Indirect Resource — a supporting-element year.)	study, mentorship, rest, skill-building
2030	Gyeong Sul	Robber (Metal/Earth energy + Robber — a supporting-element year.)	peer projects, friendships, self-definition
2031	Sin Hae	Companion (Metal/Water energy + Companion — a favorable-element year.)	peer projects, friendships, self-definition

Quarterly / Seasonal Reminders

With Water as the favorable element, the most aligned launch window is winter (deep, still Water — best for quiet launches, beta, and writing), the favorable element's own season. Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. Annual branches that clash your natal day branch Hae — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. Annual pillars dominated by the unfavorable element — favour audits, refinements, and quiet product work over big announcements.
3. A major-luck shift into a heavier stem (strong Direct Officer (Authority) / Seven Killings (Authority)) — use the first 1-2 years to set up systems rather than scale headcount.
4. Activated chart-punishment or self-punishment patterns during the launch year — keep partnerships small and written, not verbal.
5. Conjunction of new-moon or full-moon eclipses falling on spouse-palace or wealth-stem branches — defer the launch by 30-45 days if it lands on the public date.

Timing: Major Luck & Annual Windows

Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Im) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

starting age: ~ 0.5 (~ 1.5 days to the qualifying solar term $\div 3$, per 's "3 days = 1 year" rule) — the first major-luck period begins roughly 6 months after birth ($\approx$ Dec 1992), inside the 0-9 decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) apps round this to a whole Major Luck Water 1 and list decades as 1, 11, 21... (often in Korean age), so their labels can differ from the table below by a year or so while describing the same periods.

Major Luck Periods

Age	Pillar	Elements (Stem / Branch)	Ten-God	Career Theme	Relationship Theme
0-9	Bing O	Fire / Fire	Direct Officer	structured career moves; credentials matter (mixed — protect, don't overcommit)	commitment or formalization themes
10-19	Jeong Mi	Fire / Earth	Seven Killings	structured career moves; credentials matter (mixed — protect, don't overcommit)	commitment or formalization themes
20-29	Mu Shin	Earth / Metal	Direct Resource	study, mentorship, or skill-building	nurturing, support, or healing connection
30-39	Gi Yu	Earth / Metal	Indirect Resource	study, mentorship, or skill-building	nurturing, support, or healing connection
40-49	Gyeong Sul	Metal / Earth	Robber (Rob Wealth)	peer-driven or self-defined work	friendship-based or peer dynamic

Age	Pillar	Elements (Stem / Branch)	Ten-God	Career Theme	Relationship Theme
50-59	Sin Hae	Metal / Water	Companion (Pillar)	peer-driven or self-defined work	friendship-based or peer dynamic
60-69	Im Ja	Water / Water	Hurting Officer	creative output, voice, or visible production	creative partnership or playful dynamic
70-79	Gye Chuk	Water / Earth	Eating God	creative output, voice, or visible production	creative partnership or playful dynamic

Current Period Deep-Dive

This decade carries a Indirect Resource ten-god over a Metal branch — a clearly favorable window for visible wins. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do push visible projects, plant seeds, and request what is owed; avoid starting too many things at once. Within this decade, years and months whose stem element matches the favorable Water energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Structurally, its Yu completes the Sa Yu Chuk Metal with your natal Sa Chuk, concentrating that element for the whole decade; your Day Master sits at Strong / Earning (build salary) on Yu — a strong root for the self.

10-Year Forecast

Year	Pillar	Annual Ten-God	Overall Theme	Best Uses	Watch Out For
2026	Bing O	Direct Officer	Fire energy + Direct Officer — a challenging-element year.	career moves, credentials, formal commitments	stubborn authority clashes; avoid ego fights; the Fire element drains rather than feeds — slow down
2027	Jeong Mi	Seven Killings	Fire/Earth energy + Seven Killings — a challenging-element year.	career moves, credentials, formal commitments	stubborn authority clashes; avoid ego fights; the Fire element drains rather than feeds — slow down
2028	Mu Shin	Direct Resource	Earth/Metal energy + Direct Resource — a supporting-element year.	study, mentorship, rest, skill-building	over-isolation or missed opportunities
2029	Gi Yu	Indirect Resource	Earth/Metal energy + Indirect Resource — a supporting-element year.	study, mentorship, rest, skill-building	over-isolation or missed opportunities
2030	Gyeong Sul	Robber	Metal/Earth energy + Robber — a supporting-element year.	peer projects, friendships, self-definition	comparison and competition with peers

Year	Pillar	Annual Ten-God	Overall Theme	Best Uses	Watch Out For
2031	Sin Hae	Companion	Metal/Water energy + Companion — a favorable-element year.	peer projects, friendships, self-definition	comparison and competition with peers
2032	Im Ja	Hurting Officer	Water energy + Hurting Officer — a favorable-element year.	creative production, writing, speaking, teaching	speaking before thinking; reputation risk
2033	Gye Chuk	Eating God	Water/Earth energy + Eating God — a favorable-element year.	creative production, writing, speaking, teaching	speaking before thinking; reputation risk
2034	Gap In	Direct Wealth	Wood energy + Direct Wealth — a mixed year.	income launches, negotiations, value-pricing	over-leveraging or risky investments; a neutral year for this chart — steady maintenance over big pushes
2035	Eul Myo	Indirect Wealth	Wood energy + Indirect Wealth — a mixed year.	income launches, negotiations, value-pricing	over-leveraging or risky investments; a neutral year for this chart — steady maintenance over big pushes

Year-by-Year Notes

A quick reading of each year's energy relative to your Day Master and favorable element. Treat these as timing cues, not predictions.

- **2026 · Bing O (Direct Officer):** This is a year of your challenging element (Fire) — navigate it consciously — best focused on responsibility, structure, and recognition within institutions. Caution: watch for pressure, scrutiny, and stress from obligations; pace yourself rather than pushing through. Also active this year: the annual stem Bing forms Byeong-Sin Water combination (Bing Sin combination Water) with your Day Master, activating Water; the annual stem Bing clashes with your natal Im in a stem clash — pressure or abrupt change in what that stem represents; the annual branch O and natal Chuk are in harm; the annual branch O half-completes the Sa O Mi Fire / South with your natal Sa — Half Harmony.
- **2027 · Jeong Mi (Seven Killings):** This is a year of your challenging element (Fire) — navigate it consciously — best focused on responsibility, structure, and recognition within institutions. Caution: watch for pressure, scrutiny, and stress from obligations; pace yourself rather than pushing through. Also active this year: the annual stem Jeong forms Jeong-Im Wood combination (Jeong Im combination Wood) with your natal Im stem, drawing it toward Wood; the annual branch Mi and natal Chuk are in clash; the annual branch Mi and natal Chuk are in punishment; the annual branch Mi half-completes the Hae Myo Mi Wood with your natal Hae — Half Harmony; the annual branch Mi half-completes the Sa O Mi Fire / South with your natal Sa — Half Harmony.
- **2028 · Mu Shin (Direct Resource):** This is a supporting-element (Metal) year — best focused on learning, credentials, and support from mentors. Caution: watch for passivity or leaning too heavily on others; pace yourself rather than pushing through. Also active this year: the annual branch Shin and natal Sa are in combination; the annual branch Shin and natal Sa are in break; the annual branch Shin and natal Sa are in punishment; the annual

branch Shin and natal Hae are in harm.

- 2029 · Gi Yu (Indirect Resource): This is a supporting-element (Metal) year — best focused on learning, credentials, and support from mentors. Caution: watch for passivity or leaning too heavily on others; pace yourself rather than pushing through. Also active this year: the annual branch Yu completes the Sa Yu Chuk Metal with your natal Sa Chuk; the annual branch Yu half-completes the Shin Yu Sul Metal / West with your natal Shin — Half Harmony.
- 2030 · Gyeong Sul (Robber): This is a supporting-element (Metal) year — best focused on independent initiative, peers, and collaboration on equal terms. Caution: watch for competition and friction over shared money; pace yourself rather than pushing through. Also active this year: the annual stem Gyeong forms Eul-Gyeong Metal combination (Eul Gyeong combination Metal) with your natal Eul stem, drawing it toward Metal; the annual branch Sul and natal Chuk are in punishment; the annual branch Sul half-completes the Shin Yu Sul Metal / West with your natal Shin — Half Harmony.
- 2031 · Sin Hae (Companion): This is a favorable-element (Water) year — best focused on independent initiative, peers, and collaboration on equal terms. Caution: watch for competition and friction over shared money; pace yourself rather than pushing through. Also active this year: the annual stem Sin clashes with your natal Eul in a stem clash — pressure or abrupt change in what that stem represents; the annual branch Hae and natal Shin are in harm; the annual branch Hae and natal Sa are in clash; the annual branch Hae and natal Hae are in self-punishment; the annual branch Hae half-completes the Hae Ja Chuk Water / North with your natal Chuk — Half Harmony.
- 2032 · Im Ja (Hurting Officer): This is a favorable-element (Water) year — best focused on expression, creative work, and putting your skills on show. Caution: watch for over-extending yourself or clashing with authority; pace yourself rather than pushing through. Also active this year: the annual branch Ja and natal Chuk are in combination; the annual branch Ja half-completes the Shin Ja Jin Water with your natal Shin — Half Harmony; the annual branch Ja completes the Hae Ja Chuk Water / North with your natal Hae Chuk.
- 2033 · Gye Chuk (Eating God): This is a favorable-element (Water) year — best focused on expression, creative work, and putting your skills on show. Caution: watch for over-extending yourself or clashing with authority; pace yourself rather than pushing through. Also active this year: the annual branch Chuk half-completes the Sa Yu Chuk Metal with your natal Sa — Half Harmony; the annual branch Chuk half-completes the Hae Ja Chuk Water / North with your natal Hae — Half Harmony.
- 2034 · Gap In (Direct Wealth): This is an annual energy to navigate consciously — best focused on income, practical projects, and managing resources. Caution: watch for overreaching or spreading resources too thin; pace yourself rather than pushing through. Also active this year: the annual stem Gap forms Gap-Gi Earth combination (Gap Gi combination Earth) with your natal Gi stem, drawing it toward Earth; the annual branch In and natal Shin are in clash; the annual branch In and natal Shin are in punishment; the annual branch In and natal Sa are in harm; the annual branch In and natal Sa are in punishment; the annual branch In and natal Hae are in combination; the annual branch In and natal Hae are in break; the annual branch In completes the In Sa Shin three-way punishment with your natal Sa Shin — classically read as friction with rules or authority, injury risk, or self-inflicted setbacks, so a year to move carefully. 2034 falls in your chart's Void — a void year (In is empty for your day pillar): what it brings may feel less solid, so confirm and document gains rather than assuming they will hold.
- 2035 · Eul Myo (Indirect Wealth): This is an annual energy to navigate consciously — best focused on income, practical projects, and managing resources. Caution: watch for overreaching or spreading resources too thin; pace yourself rather than pushing through. Also active this year: the annual stem Eul clashes with your natal Sin in a stem clash —

pressure or abrupt change in what that stem represents; the annual branch Myo half-completes the Hae Myo Mi Wood with your natal Hae — Half Harmony. 2035 falls in your chart's Void — a void year (Myo is empty for your day pillar): what it brings may feel less solid, so confirm and document gains rather than assuming they will hold.

> In plain words: You are currently in a tailwind decade — a good stretch to push on the things that matter. Zoom in with the year and month windows that carry Water.

Life Themes by Major Luck Period

Each 10-year major-luck (Major Luck) period brings a new stem and branch into prominence. The stem shows the outer theme through its Ten Gods relationship to your Day Master; the branch shows the stage of life and the underlying terrain. Read these as tendencies, not fixed events.

Ages 0-9: Bing O

- Ten-God theme: Direct Officer
- Branch element & 12-stage: Fire · Illness
- Favorable lean: unfavorable

With a Direct Officer ten-god over a Fire branch (stem element Fire), this is a conserve and consolidate decade. Protect what already works; defer large bets and focus on craft and relationships. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Direct Officer undertow — themes of commitment and visibility are likely. The favorable Water element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 10-19: Jeong Mi

- Ten-God theme: Seven Killings
- Branch element & 12-stage: Earth · Decline
- Favorable lean: unfavorable

With a Seven Killings ten-god over a Earth branch (stem element Fire), this is a conserve and consolidate decade. Protect what already works; defer large bets and focus on craft and relationships. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Seven Killings undertow — themes of commitment and visibility are likely. The favorable Water element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 20-29: Mu Shin

- Ten-God theme: Direct Resource
- Branch element & 12-stage: Metal · Peak (emperor flourishing)
- Favorable lean: favorable

With a Direct Resource ten-god over a Metal branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Direct Resource undertow — themes of support and study are likely.

The favorable Water element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 30-39: Gi Yu

- Ten-God theme: Indirect Resource
- Branch element & 12-stage: Metal · Strong / Earning
- Favorable lean: favorable

With a Indirect Resource ten-god over a Metal branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Indirect Resource undertow — themes of support and study are likely. The favorable Water element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 40-49: Gyeong Sul

- Ten-God theme: Robber (Rob Wealth)
- Branch element & 12-stage: Earth · Coming of Age (crown belt)
- Favorable lean: favorable

With a Robber (Rob Wealth) ten-god over a Earth branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Robber (Rob Wealth) undertow — themes of peer dynamics, independence, and friendship-based bonds are likely. The favorable Water element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 50-59: Sin Hae

- Ten-God theme: Companion (Pillar)
- Branch element & 12-stage: Water · Bathing (bathe bath)
- Favorable lean: favorable

With a Companion (Pillar) ten-god over a Water branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Companion (Pillar) undertow — themes of peer dynamics, independence, and friendship-based bonds are likely. The favorable Water element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 60-69: Im Ja

- Ten-God theme: Hurting Officer
- Branch element & 12-stage: Water · Long Life
- Favorable lean: favorable

With a Hurting Officer ten-god over a Water branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this

window carry the same Hurting Officer undertow — themes of creative exploration are likely. The favorable Water element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Ages 70–79: Gye Chuk

- Ten-God theme: Eating God
- Branch element & 12-stage: Earth · Nurturing (nurture)
- Favorable lean: favorable

With a Eating God ten-god over a Earth branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation. Relationships in this window carry the same Eating God undertow — themes of creative exploration are likely. The favorable Water element shows up most clearly in years and months whose stem matches it — these are the periods to lean in.

Lifetime Decade Roadmap

A single-glance view of all 8 major-luck periods in your life and the favorable lean of each. Green segments are clearly favorable, amber are mixed, red lean toward challenge. Treat this as a rhythm, not a verdict — the supporting-element periods are often where the most important growth quietly happens.

<!-- decade-roadmap:start -->

Ages	Pillar	Ten-God	Favorable Lean
0–9	Bing O	Direct Officer	challenging
10–19	Jeong Mi	Seven Killings	challenging
20–29	Mu Shin	Direct Resource	favorable
30–39	Gi Yu	Indirect Resource	favorable
40–49	Gyeong Sul	Robber (Rob Wealth)	favorable
50–59	Sin Hae	Companion (Pillar)	favorable
60–69	Im Ja	Hurting Officer	favorable
70–79	Gye Chuk	Eating God	favorable

<!-- decade-roadmap:end -->

Auspicious Dates — Next 90 Days

> The next 90-day window from September 2026 includes the following candidate dates — each one's day-stem element matches your favorable (Water) or supporting (Metal) element, and its day-branch does not clash, harm, or break your natal day branch (Hae) or hour branch (Chuk). A qualified reader should still cross-check each date against the querent's specific question and local calendar before recommending it.

> Almanac caveat: this is a chart-relative shortlist, not a finished auspicious-date selection — a full date selection also weighs the day's own twelve day-officers/28Water almanac assignment, the specific event type, and local custom, none of which this engine computes.

Date	Day Pillar	Suggested Use / Reader Note
2026-10-05 (Monday)	Im Ja (Hurting Officer)	A reasonable candidate — the day-stem carries your favorable element (Water) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-10-06 (Tuesday)	Gye Chuk (Eating God)	A reasonable candidate — the day-stem carries your favorable element (Water) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-10-14 (Wednesday)	Sin Yu (Companion)	A reasonable candidate — the day-stem carries your supporting element (Metal) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-10-26 (Monday)	Gye Yu (Eating God)	A reasonable candidate — the day-stem carries your favorable element (Water) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-11-13 (Friday)	Sin Myo (Companion)	A reasonable candidate — the day-stem carries your supporting element (Metal) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-11-22 (Sunday)	Gyeong Ja (Robber)	A reasonable candidate — the day-stem carries your supporting element (Metal) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-11-23 (Monday)	Sin Chuk (Companion)	A reasonable candidate — the day-stem carries your supporting element (Metal) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-11-25 (Wednesday)	Gye Myo (Eating God)	A reasonable candidate — the day-stem carries your favorable element (Water) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-12-04 (Friday)	Im Ja (Hurting Officer)	A reasonable candidate — the day-stem carries your favorable element (Water) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.

Date	Day Pillar	Suggested Use / Reader Note
2026-12-05 (Saturday)	Gye Chuk (Eating God)	A reasonable candidate — the day-stem carries your favorable element (Water) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-12-13 (Sunday)	Sin Yu (Companion)	A reasonable candidate — the day-stem carries your supporting element (Metal) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.
2026-12-25 (Friday)	Gye Yu (Eating God)	A reasonable candidate — the day-stem carries your favorable element (Water) and its branch does not clash, harm, or break your natal day/hour branch; confirm against the querent's specific question before booking.

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows Metal (26.9%) as the most present element and Fire (5.6%) as the least. Energy tends to flow in cycles in the Metal domain; a balanced day feels like quiet movement between input, processing, and release. The Fire system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- Excess system (Metal): lung/large intestine and respiratory/immune boundaries — watch for signs of over-activity or congestion.
- Deficient system (Fire): heart/small intestine and circulation — gentle rebuilding over time is usually better than forceful stimulation. Note that Fire is also this chart's challenging element (Unfavorable Element) under the climate/strength-balance reading used for its favorable element — so "support" here means protecting and resting this system, not deliberately adding more Fire-element activity.

Stress Signature

When this chart goes out of balance, the most common early signals are: grief that surfaces unbidden, skin or respiratory sensitivity, and rigid perfectionism. With a Balanced reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Water):

- evening walks near water
- soup or broth as a regular meal
- 20 minutes of stillness before sleep

- reading fiction that lets the mind drift

Day-Master practice (Metal): Refine what is already there. Metal recovers through editing, polishing, and small precision.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 20-29 (Mu Shin), ages 30-39 (Gi Yu), ages 40-49 (Gyeong Sul). Use these decades to build resilience.

Conservation windows — the chart asks for gentler practice during: ages 0-9 (Bing O), ages 10-19 (Jeong Mi). Reduce load, deepen recovery, and avoid starting ambitious new regimens in these years.

Across all periods, the Water element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

Monthly Lucky Dates

The next 12 months of favorable days, selected when the daily stem element matches your Water or Metal element and the day branch does not clash, harm, or break your natal day or hour branch.

> Methodology: each row filters the daily-luck (Daily Luck) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes, harms, or breaks against your natal day or hour branch.

> Almanac caveat: this is a chart-relative shortlist, not a finished date selection — a full date selection also weighs the day's own almanac assignment, the specific event type, and local custom.

Month	Favorable Dates	Energy Note
September 2026	—	No strongly favorable dates this month; use grounding routines instead.
October 2026	5, 6, 14, 26	Im Ja (Hurting Officer) / Gye Chuk (Eating God) / Sin Yu (Companion)
November 2026	13, 22, 23, 25	Sin Myo (Companion) / Gyeong Ja (Robber) / Sin Chuk (Companion)
December 2026	4, 5, 13, 25	Im Ja (Hurting Officer) / Gye Chuk (Eating God) / Sin Yu (Companion)
January 2027	12, 21, 22, 24	Sin Myo (Companion) / Gyeong Ja (Robber) / Sin Chuk (Companion)
February 2027	2, 3, 11, 23	Im Ja (Hurting Officer) / Gye Chuk (Eating God) / Sin Yu (Companion)
March 2027	13, 22, 23, 25	Sin Myo (Companion) / Gyeong Ja (Robber) / Sin Chuk (Companion)
April 2027	3, 4, 12, 24	Im Ja (Hurting Officer) / Gye Chuk (Eating God) / Sin Yu (Companion)
May 2027	12, 21, 22, 24	Sin Myo (Companion) / Gyeong Ja (Robber) / Sin Chuk (Companion)
June 2027	2, 3, 11, 23	Im Ja (Hurting Officer) / Gye Chuk (Eating God) / Sin Yu (Companion)
July 2027	11, 20, 21, 23	Sin Myo (Companion) / Gyeong Ja (Robber) / Sin Chuk (Companion)

Month	Favorable Dates	Energy Note
August 2027	1, 2, 10, 22	Im Ja (Hurting Officer) / Gye Chuk (Eating God) / Sin Yu (Companion)

> For business-critical decisions, confirm the chosen date against the specific action type and consult a qualified reader.

Practical Guidance Summary

Top 5 Strengths

- Metal Day Master strength — refined discernment and the ability to notice quality others miss.
- Hurting Officer-dominant — the ability to express sharply and produce work that cuts through noise.
- Direct Resource-dominant — the ability to study deeply and bring expertise.
- Favorable Water responsiveness — the chart has a clear lever for growth, which not every chart does.
- Steady practice — the chart rewards consistent effort over heroic bursts.

Top 5 Growth Areas

- Consistency over intensity — the chart works best with steady rhythm, not bursts.
- Rest before the body demands it — balanced charts deplete quietly; preventive rest is the antidote.
- Boundary-setting — learning to say no without guilt protects the Metal Day Master's energy.
- Working with the unfavorable Fire element — denial amplifies it; conscious engagement contains it.
- Asking for help early — Metal Day Masters often wait too long before reaching out.

5 Practical Recommendations

- Add a 20-minute evening walk near water 4× a week
- Replace one caffeinated drink with a warm herbal tea
- Read fiction for 30 minutes before bed — let the mind drift
- Keep a quiet hour after work with no screens
- Schedule one restorative weekend per quarter

Lucky Attributes — Your Favorable Element Reference Card

- Element: Water
- Colors: black, navy, deep blue
- Direction: north
- Numbers: 1, 6
- Season: winter
- Gemstones (modern, optional): black tourmaline, obsidian, lapis lazuli, aquamarine
- Foods: black beans, seaweed, salty foods in moderation, soups and broths
- Best Times: evening through midnight (Water hours, 9 pm–1 am) for restoration

- Avoid: excessive yellow/ochre, damp stagnation, and Earth-heavy center orientation
- Business Lucky Numbers: 1, 6 (favorable Water) and 4, 9 (supporting Metal)

> Direction, colours, season, and numbers above are classical Five Elements direction doctrine. Gemstones are a modern popular-astrology convention, not classical Myeongri (Korean Saju tradition) (destiny principles) — optional, not analytically load-bearing.

MP3 Audio Summary — Included by Default

Audio Summary: Your MP3 companion to this report will be delivered alongside this PDF. It covers your Day Master portrait, current major-luck period, key timing windows for 2026–2028, and the top 5 practical recommendations in approximately 8–10 minutes.

Listen once in full, then return to the chapters that match the season you are in.

Harish — Career & Business Deep-Dive

> Topic file. The base natal reading is at harish-report.md. This file is a full standalone career deep-dive — domains, roles, business fit, investment behavior, and transition timing — grounded in,, and. It goes beyond the base report's own Career & Wealth section rather than repeating it.

2026-09-25 — Full career & business deep-dive (regenerated)

Pillars: Im Shin (year) / Eul Sa (month) / Sin Hae (day) / Gi Chuk (hour). Day Master Sin (Yin Metal, Sin Metal), Balanced (climate climate-resolved: this chart peaks in hot summer conditions, so the classical remedy is Water). Favorable Element = Water, Supporting Element = Metal. Chart Structure: Direct Officer Structure (Direct Officer structure, Direct Officer Grid). Element balance: Metal 27.8%, Water 25.3%, Earth 22.8%, Wood 16.5%, Fire 7.6% (corrected 2026-09-26 — the Chuk hidden-stem order fix swapped Metal and Water; see the dated note at the end).

> Hour-boundary note (inherited from the base report): the corrected solar time for this chart lands only ~29 seconds from the Chuk/In branch boundary — the base report's own "△ Hour-boundary note" flags Gyeong In as a plausible alternate hour pillar alongside the primary Gi Chuk. Recomputing the full ten-god tally for that alternate hour (Gyeong stem → Rob Wealth (Companion); In's hidden stems Gap/Bing/Mu → Direct Wealth/Direct Officer (Authority)/Direct Resource) gives Resource 3, Companion 4 (incl. the Day Master), Output 3, Wealth 3, Authority 2 — Resource and Output each lose the hit they were drawing from Chuk (Indirect Resource and Eating God (Output) respectively), and Wealth and Authority each gain one. The three-way Resource/Companion/Output tie described below softens toward Companion alone under the alternate hour; the Water/Metal-lever domain and business conclusions below do not depend on which of the two hours is correct, but the specific ten-god-driven framing in this section would shift.

Ten-God Profile (foundation for everything below)

Class	Stems present	Count
Resource: Direct Resource/Indirect Resource	hidden Mu (year residual, month residual), Gi/hour, visible stem + hidden main	4
Companion: Pillar (Companion)/Rob Wealth (Companion)	Sin (day, self), hidden Gyeong (year main, Rob Wealth (Companion)), hidden Gyeong (month middle, Rob Wealth (Companion)), Sin (hour residual, Pillar (Companion))	3 (+ self)
Output: Eating God (Output)/Hurting Officer (Output)	Im/year, visible, hidden Im (year middle, Hurting Officer (Output)), hidden Im (day main, Hurting Officer (Output)), Gye/hour middle	4
Wealth: Direct Wealth/Indirect Wealth	Eul/month, visible, hidden Gap (day middle, Direct Wealth)	2
Authority: Direct Officer (Authority)/Seven Killings (Authority)	hidden Bing (month main, Direct Officer (Authority))	1

A genuine three-way tie at the top: Resource, Output, and Companion are all at 4 (cross-checked against `prose_fillers.py::_grouped_dominant_classes`, the engine's own class-level tally — an earlier draft of this table under-counted Output at 3 by missing the hidden Im in Shin's middle position; corrected here). Authority — despite naming the Direct Officer Structure grid — is the thinnest class in the chart (1, hidden only). This is worth reading precisely: Direct Officer Structure names the structural grid (the month branch Sa's main qi hidden stem Bing is Direct Officer (Authority) relative to Sin), it does not describe the chart's dominant working mode. With Resource, Output, and Companion equally weighted, the working mode this chart actually runs on is broad rather than single-threaded — research and credentialed depth (Resource), knowledge converted into delivered output, and peer-level, self-directed effort (Companion) — carried out inside or alongside a structure, rather than the pure institutional-authority/management mode the grid label alone might suggest. Every domain and role recommendation below follows from that distinction.

Suitable Career Domains — Ranked

Per 's Favorable Element-first rule ("align work with what the chart needs — Favorable Element/Supporting Element — not merely the Day Master's own element"), domains are ranked by how directly they draw on Water (Favorable Element) and Metal (Supporting Element), cross-checked against the Resource/Output-led ten-god mode above.

Rank	Domain	Element	Why it fits this specific chart
1	Strategy & Management Consulting	Water (Favorable Element)	Pairs Water's connective, flowing character with the chart's genuine Resource-class depth and its real Output channel (Im Hurting Officer (Output), Gye Eating God (Output)) — accumulated knowledge converted into a delivered, paid recommendation. The single cleanest match to both the element need and the ten-god mode.

Rank	Domain	Element	Why it fits this specific chart
2	Investigative & Analytical Journalism / Publishing	Water (Favorable Element)	The output-feeds-wealth chain (Output feeds Wealth, detailed below) runs directly through writing and publishing; Water's information-carrying, below-the-surface quality matches investigative work specifically, not media in general.
3	Diplomacy, International Trade & Cross-Border Advisory	Water (Favorable Element)	places diplomacy and international trade under Water; the chart's thin-but-present Wealth (Indirect Wealth in the month — opportunity-shaped wealth) suits work that connects across networks and jurisdictions over one fixed institutional seat.
4	Law, Compliance & Regulatory Practice	Metal (Supporting Element)	Metal's precision, boundary-setting, and judgment is the Day Master's own native register; pairs naturally with the chart's single hidden Bing Direct Officer (Authority) to lend credible institutional standing without needing a management-heavy role.
5	Engineering, Technical Infrastructure & Quality/Audit	Metal (Supporting Element)	Same native-Metal register as #4, but more individually executed and less client-facing — fits the Resource-led preference for depth over constant negotiation.
6	Curation, Research Institutions & Arts Advisory	Water (Favorable Element)	A lower-visibility Water domain; suits the chart's Resource-led temperament when scholarship-adjacent work is preferred over client-facing consulting.
7	Finance, Investment & Trading (analytical, not sales-led)	Metal (Supporting Element)	Metal-native, but ranked here rather than higher because the chart's Wealth is thin (2 stars, one hidden) — the analysis side of finance fits better than the deal-flow/sales side, which would call for more Wealth than the chart carries.

Workable but not primary: Earth-aligned fields (real estate, operations, insurance) — Earth is present (22.8%) but is the it restrains the Water Favorable Element, so it's workable terrain rather than a lever — the wet Gi/Chuk earth in this chart does support the Day Master, the dry kind less so. Secondary at most: Fire-heavy fields (pure performance, hospitality front-of-house, high-visibility entertainment) — Fire is this chart's unfavorable element: its count is the lightest (7.6%), but the chart was born in the peak-Fire Sa month, so Fire is the overheating force the Water Favorable Element exists to cool, not a shortage to fill. A primary career built on Fire-dominant work leans into the imbalance rather than correcting it.

Suitable Job / Employment Roles

Concrete role-level suggestions, mapped to the ranked domains above:

- Strategy consultant / management advisor (independent or firm-based) — the single best-fit role; converts research depth into delivered analysis for a fee.
- Policy analyst or regulatory advisor — draws on the thin-but-real Authority without requiring the querent to be the institution's manager.
- Investigative reporter, analyst-journalist, or research editor — a direct output-feeds-wealth role (see below).
- International trade advisor, cross-border deal advisor, or diplomatic-track civil servant — matches Water's network-connecting quality.
- Compliance officer, regulatory counsel, or audit lead — Metal-native and credential-anchored, matching the single Authority without over-reaching into people-management.
- Technical infrastructure lead / systems architect (engineering-adjacent, individually executed) — Metal-native.
- Investment or credit analyst (research-and-recommendation, not sales/origination) — matches Metal plus thin Wealth.
- Independent researcher, think-tank fellow, or curator — the lower-visibility Water option for a more scholarship-oriented temperament.

Business Domain Fit

Per 's output-feeds-wealth (food hurt life wealth, "Output feeds Wealth") chain check:

- Output is present and real (Im Hurting Officer (Output) in the year stem, Gye Eating God (Output) hidden in the hour) — a genuine output channel: writing, analysis, teaching, or built-product work.
- Wealth is present but thin (Eul Indirect Wealth visible in the month, Gap Direct Wealth hidden in the day) — enough for the chain to run (the base report's own "Income Rhythm" already reads this correctly as steady, rarely windfall-driven), but not enough to support a high-capital, deal-volume-driven business model.
- The chain runs: output-based income is structurally supported. Per, this reads as favorable for entrepreneurial types, conditional on the Day Master being strong enough to sustain the output — Harish's Balanced (not weak) reading supports it.
- Wealth funds status is only lightly formed: with Authority thin (1, hidden), converting earnings into institutional rank is a secondary story, not the chart's main engine.

What kind of business, specifically:

- Best fit: a solo or small-team advisory/consulting practice — a credentialed independent practice (strategy, policy, compliance, or analytical-research consulting) built around the querent's own expertise, monetized through delivered analysis or advisory retainers rather than a scaled product business.
- Product vs. service: service-and-expertise-led, not product-manufacturing-led — the chart's Metal is native precision and judgment, not Earth-native asset-building or Fire-native brand-building.
- Institutional-backed vs. fully independent: a hybrid path fits best — build credibility inside an institution or established firm first (the single Authority gives a real, if modest, institutional-authority thread to draw on), then move to independent practice once the

output-feeds-wealth channel (a body of published work, a track record of delivered analysis) is established. This matches 's Employment vs. Entrepreneurship signal for a chart whose Authority is thin but present: institutional credibility first, independence second — not simultaneously.

- Partnership structure: Companion is present (3, all hidden except the day-pillar self, no visible Rob Wealth (Companion)) but not dominant. Per 's peer-drains-wealth pattern, this is a mild, not acute, partnership-risk signal. A sole practice or one clearly-defined co-founder with a written operating agreement is safer than a loosely-structured multi-partner firm, but the chart does not show the pronounced peer-competition risk some charts carry — partnership itself is not contraindicated, only undefined partnership.

Investment Patterns & Wealth Behavior

Per and \$Wealth Preservation:

- Income style — mixed, Direct Wealth-leaning: the chart carries both Indirect Wealth, Eul in the month — deal-shaped, opportunity-driven and Direct Wealth, hidden Gap in the day — steady, earned. With only 2 Wealth stars total and one hidden, the dominant pattern is closer to Direct Wealth: steady, incremental income from a defined book of work (retainers, salary, or a stable client base) rather than large opportunistic windfalls. The single visible Indirect Wealth star means occasional deal-shaped upside is real but should be treated as a bonus, not the primary income model.
- Risk tolerance: moderate-low. A Balanced Day Master with thin Wealth does not have the carrying capacity for high-variance, high-leverage bets that a strong Day Master with abundant Wealth would — per 's carrying-capacity test, the chart benefits more from consistency than concentration.
- How wealth should be held: diversify moderately; favor custodianship aligned with Water and Metal (their industries, directions, and rhythms) per. Avoid concentrating savings or investments in Fire-heavy vehicles (Fire is the chart's Unfavorable Element) or in ventures whose returns depend on rapid, high-visibility scaling.
- storehouse check: the four wealth storehouse (wealth-storehouse) branches are Jin Sul Chuk Mi. Harish's chart has Chuk in the hour branch — a storehouse branch, but the element it stores here is not specifically the Wealth element (Wood, for a Metal Day Master). No Wealth-in-storehouse pattern applies; wealth in this chart circulates via the output-feeds-wealth chain rather than accumulating-and-releasing from a storehouse. (If the alternate hour pillar Gyeong In applies per the boundary note above, this storehouse reading would not apply at all — In is not one of the four wealth storehouse branches. Direct Wealth would still be hidden rather than visible — its carrier moves from Gap hidden in the day branch Hae to Gap as In's main hidden stem, a stronger hidden position, but the hour stem itself, Gyeong, is a Companion-class peer, not Direct Wealth.)
- Rob Wealth (Companion) caution on shared money: as above, keep separate accounts and written terms for any shared venture or investment — the mild Companion presence means this is prudent practice, not an acute red flag.

Career Transition Timing

This is the piece a topic-level ten-god analysis alone misses: when, not just what. Read against the base report's own Major Luck and 10-Year Forecast tables, using this chart's resolved Water.

The decade-level picture

Decade	Pillar	Lean	What this means for a transition
20-29	Mu Shin	favorable	(past) — resource/mentorship-building decade
30-39 (current)	Gi Yu	favorable	Consolidate, and keep building. This decade's ten-god (Indirect Resource, Indirect Resource) over a Metal branch (Supporting Element, directly supportive) rewards deepening expertise and credentials. Structurally it is stronger than the ten-god name suggests: the decade branch Yu completes the Sa Yu Chuk Metal three-harmony with the natal Sa and Chuk, and Yu is the Day Master's Strong / Earning root — the real reason this is a genuinely favorable window for building the track record the 50s will monetize.
40-49	Gyeong Sul	favorable	Continued build-and-rise energy, with two cautions: the decade stem Gyeong (Rob Wealth, Robber) forms Eul Gyeong combination with the natal month-stem Indirect Wealth Eul (the wealth star is tied up — keep shared money and partnerships on explicit terms, per the Rob Wealth (Companion) caution above), and the branch Sul punishments the natal Chuk. Favorable, but not a coast.
50-59	Sin Hae	favorable	Hae is a Water-dominant branch (main qi Im; also holds a middle qi Gap, per) carrying the Favorable Element, and the stem Sin mirrors the Day Master itself (Pillar, Companion) — a decade of self-defined, peer-level work. One of the chart's strongest windows for launching or scaling an independent Water-aligned practice.
60-69	Im Ja	favorable	A second consecutive Water decade (Im stem, Ja branch both Water) — a natural window for a late-career capstone: publishing, senior advisory work, or institution-building from the platform built in the 50s.

Decade	Pillar	Lean	What this means for a transition
70-79	Gye Chuk	favorable	Gye stem is itself Water (Favorable Element), sustaining the favorable run into the final tracked decade — a calmer, consolidating extension of the 50s-60s momentum rather than a new launch window.

The core timing insight: every decade from 20 onward reads as favorable-lean in this chart (the engine's Direct Officer Structure-anchored favorable-lean labels track resolved Favorable Element/Supporting Element support, and Metal/Water dominate the pillar sequence from the 20s onward) — this is not a "wait for one narrow window" chart. That said, the character of the favorable support differs: the 30s-40s carry it through Supporting Element Metal — study, credentialing, and steady institutional standing; the 50s onward carry it through Favorable Element Water itself — the chart's strongest, most self-defined stretch. Read this as "build now, launch biggest later," not "nothing is supported until later."

Near-term annual windows (within the current decade)

Individual years carry their own lean on top of the decade (from harish-report.md's 10-Year Forecast, regenerated 2026-09-26; each year is read from both its stem and its branch):

- 2026-2027 (Bing O, Jeong Mi): Caution years. Fire is this chart's unfavorable element, and it arrives as Authority (Direct Officer (Authority) / Seven Killings (Authority)) — pressure from authority rather than opportunity. 2027 is the tighter of the two: Jeong Seven Killings (Authority) presses the Day Master directly, Chuk Mi clash strikes the hour-branch root, and Jeong Im combination ties up the natal Im. Accept formal duties, avoid confrontations with superiors (the chart's rebellion-against-authority theme), and do not make a leap here.
- 2028 (Mu Shin): Prepare. Mu Direct Resource supports, and Shin (Metal, Supporting Element) returns the year-branch root — with contractual friction (Sa Shin combination + punishment + break, Shin Hae Hae (Pig)), so read agreements carefully.
- 2029 (Gi Yu): The strongest single year of the decade. Gi Indirect Resource + Yu Strong / Earning, and the annual Yu completes the Sa Yu Chuk Metal three-harmony with the natal chart (already completed by the decade). If a structured move — a new institutional role, a public-facing credential, or a first independent client relationship — is planned before the 50s, 2029 (age 37) is the cleanest window, with 2028 as the preparation year.
- 2030-2031 (Gyeong Sul, Sin Hae): Mixed-supportive. Metal (Supporting Element) years, but 2030 carries Eul Gyeong combination (wealth star tied up) and Chuk Sul punishment, and 2031 lands Hae Hae self-punishment, Sa Hae clash and Shin Hae Hae (Pig) on the spouse palace — a year of change at home. Supportive for steady work; not the year for loose partnerships.
- 2032-2033 (Im Ja, Gye Chuk): Favorable (Favorable Element Water) years. 2032 completes the Hae Ja Chuk Water Directional Harmony — strong for creative and expressive output, though a large Hurting Officer (Output) year also sharpens friction with authority; 2033 (Gye Eating God (Output)) is gentler. The decade changes around Dec 2032.
- 2034-2035 (Gap In, Eul Myo): Wood (Wealth) years — income and negotiation themes, but both are Void years for this chart (In Myo are void for the Sin Hae day pillar), and 2034 also completes the In Sa Shin three-punishment. Keep contracts written and conservative.

Practical takeaway: avoid a leap in 2026-27; prepare in 2028 and move in 2029; 2032-33 is the next supportive window. If the transition can wait, the age-50 mark (~2042) opens the chart's longest and most self-defined favorable run, with the 60s and 70s continuing to support it.

Employment vs. Entrepreneurship — Synthesis

Combining the ten-god weight (Authority thinnest, Resource/Output strongest) with the timing picture above: this chart is not built for either pure lifelong employment or an immediate high-burn venture. The best-supported arc is sequential, not simultaneous — institutional or firm-based employment through the 30s and 40s (using the thin-but-real Authority and this era's Metal-Supporting Element support for credibility-building), transitioning to independent or advisory practice once the 50s Water decade opens and the output-feeds-wealth track record is established. Full independence earlier than that is not chart-contraindicated, but the chart's structural tailwind for it strengthens materially a decade or two out.

2026-09-26 — Corrections after the engine audit

The base report was regenerated after the 2026-09-25 engine audit (the 2026-09-25 engine audit) and the independent validation of this chart. Changes carried into this file:

- Element balance: the Chuk hidden-stem order was swapped in the engine (Gi/Sin/Gye is correct); Metal (27.8%) now leads Water (25.3%).
- Annual timing: Fire (Unfavorable Element) years 2026-27 now read as caution years, and 2029 — where the Sa Yu Chuk three-harmony completes — as the strongest year of the decade. The earlier "2030-2033 cleanest window" rested on stem-only leans and missed the three-harmony, Eul Gyeong combination, Chuk Sul punishment and Void signals.
- 40-49 decade: Eul Gyeong combination and Chuk Sul punishment added.

Closing Note

Sin (Sin (Yin Metal, Sin Metal)) sits at the centre of this chart, with the chart's element balance leaning toward Metal and a ten-god distribution dominated by Output (4), Companion (4), Resource (4). The favorable Water element (with Metal as the quiet secondary) is the querent's main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace Hae and the chart's relationship dynamics reward the querent for showing up consistently rather than performing. The natal clash between Sa and Hae is a recurring pressure; the chart's gift is that the querent has already learned how to navigate it — and the favorable element makes the navigation gentler. The six-combination between Sa and Shin is a quiet asset — partnerships or projects that bring two palaces into harmony, with the querent's role often as the connector. Across a full lifetime, this chart rewards the querent who studies their own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.

Engine-generated premium report draft. Interpretive prose must be reviewed and finalized by a qualified reader before client delivery.

What the Terms Mean

- Indirect Resource: unconventional learning — intuition, solitary study, restless over-thinking
- Day Master: you — the reference point the whole chart is read against
- Resource class (Resource): the resource group — support, learning, and what sustains you

- Robber (Rob Wealth): a rival for the same resources — competition in money or love
- Companion (Pillar): a peer or equal — support, solidarity, and rivalry in equal measure
- Hurting Officer: sharp output — bold expression, creativity, friction with rules and authority
- Eating God: gentle output — talent, making, teaching, slow enjoyable accumulation
