Mahesh — Deep Destiny Report · \$55

Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance

Born: 1995-01-19 · 23:50 · Ambur, Tamil Nadu

Time method: recorded birth time 23:50 (local clock) corrected to true solar time 23:24 (birthplace 78.7135°E vs the 82.5°E zone meridian), -25.8 min (longitude -15.1 min + equation of time -10.7 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Chart at a Glance

Four Pillars

	Year	Month	Day	Hour
Stem	Gap	Jeong	Gyeong	Mu
Branch	Sul	Chuk	Sul	Ja
Hidden Stems	Mu (), Sin (), Jeong ()	Gi (), Gye (), Sin ()	Mu (), Sin (), Jeong ()	Gye ()

Element Balance

Element	Presence	Percentage
● Fire		15.8%
● Earth		36.8%
● Metal		22.4%
● Water		11.8%
● Wood		13.2%

> Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems (Stem) at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- Day Master: Gyeong (Yang Metal, Gyeong Metal)
- Strength: Balanced — a seasonal-strength reading; a full classical analysis may refine it.
- Favorable Element: Fire — The Day Master reads as balanced, so the classical climate (climate-balance) check applies: this chart peaks in cold winter conditions, and the classical

remedy is Fire. This overrides the numeric least-represented-element pick (Water), which is a weaker signal than the classical climate check here.

- Supporting Element: Wood
- Avoid / Watch: —
- Current Major Luck: Gyeong Jin (ages 25-34)
- Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- Pattern / Formation: Direct Resource / Direct Resource Grid

What This Year Means for You

Right now, in September 2026, you are moving through a year whose energy is shaped by Bing O (Seven Killings (Authority)). This sits inside your broader Gyeong Jin major luck period (ages 25-34), whose theme is Pillar (Companion). For your chart, the most useful energy to lean into this year is Fire: look for decisions, environments, and relationships that bring fire qualities forward.

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. What does "favorable element" mean in daily life? It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment,

schedule, and decisions reduces friction and supports steadier growth.

2. Should I move north or only wear fire? No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.

3. Can Saju tell me what illness I might get? No. Classical Saju maps tendencies in the body's elemental systems (e.g. excess Wood may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.

4. How often should I get a reading? Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.

5. What is a major luck period? A 10-year stretch of life shaped by a new stem and branch (Major Luck (Major Luck)) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.

6. How is Saju different from Western astrology? Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.

7. Should I read this report chronologically? No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With Gyeong (Gyeong (Yang Metal, Gyeong Metal)) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the tempered metal blade or strong framework. Your natural strengths run toward decisiveness, discipline, and the courage to cut through confusion, while the shadow side can show as harshness, inflexibility, or impulsive confrontation.

Born in a Metal chart with the engine reading as balanced, the way you meet the world is shaped by how much Metal energy is available. When balanced, you express the best of Metal; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate Fire energy — the favorable element — so that your Metal nature has the right container and outlet.

Your Day Master Gyeong meets the month branch Chuk at the Tomb (contained start) twelve-stage — energy is stored in the month branch; the chart ripens slowly and reveals depth over time. This is read as a mixed seasonal support arrival: a tendency in how the querent's core energy first enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Gap Sul (Gap (Yang Wood, Gap Wood))

The Gap Sul pillar pairs the Gap stem (Gap (Yang Wood, Gap Wood)) with the Sul branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads as Indirect Wealth (Indirect Wealth) relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Wood stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the Wood element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to year-pillar matters. Hidden stems within the Sul branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sul branch or the Gap stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Jeong Chuk (Jeong (Yin Fire, Jeong Fire))

The Jeong Chuk pillar pairs the Jeong stem (Jeong (Yin Fire, Jeong Fire)) with the Chuk branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Direct Officer (Direct Officer) relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Fire stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the Fire element, it tends to bring fire-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to month-pillar matters. Hidden stems within the Chuk branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Chuk branch or the Jeong stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Gyeong Sul (Gyeong (Yang Metal, Gyeong Metal))

The Gyeong Sul pillar pairs the Gyeong stem (Gyeong (Yang Metal, Gyeong Metal)) with the Sul branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Metal stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the Metal element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to day-pillar matters. Hidden stems within the Sul branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sul branch or the Gyeong stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Mu Ja (Mu (Yang Earth, Mu Earth))

The Mu Ja pillar pairs the Mu stem (Mu (Yang Earth, Mu Earth)) with the Ja branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Indirect Resource (Indirect Resource) relative to your Day Master, so this area of life tends to carry that dynamic.

The Water branch is the container for this area and the Earth stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the Earth element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to hour-pillar matters. Hidden stems within the Ja branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this

life area activates. When the annual or major luck touches the Ja branch or the Mu stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods (Ten Gods)) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Gap Sul	Gap	Indirect Wealth (Indirect Wealth)	Mu (), Sin (), Jeong ()	Indirect Resource, Rob Wealth (Companion), Direct Officer (Authority)	Outer layer: Indirect Wealth (Indirect Wealth); inner driver through the branch: Indirect Resource.
Month Pillar — Jeong Chuk	Jeong	Direct Officer (Direct Officer)	Gi (), Gye (), Sin ()	Direct Resource, Hurting Officer (Output), Rob Wealth (Companion)	Outer layer: Direct Officer (Direct Officer); inner driver through the branch: Direct Resource.
Day Pillar — Gyeong Sul	Gyeong	Companion (Pillar)	Mu (), Sin (), Jeong ()	Indirect Resource, Rob Wealth (Companion), Direct Officer (Authority)	Outer layer: Companion (Pillar); inner driver through the branch: Indirect Resource.
Hour Pillar — Mu Ja	Mu	Indirect Resource (Indirect Resource)	Gye ()	Hurting Officer (Output)	Outer layer: Indirect Resource (Indirect Resource); inner driver through the branch: Hurting Officer (Output).

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> In plain words: Where your chart puts its weight: most of all on learning, support, and what refills you.

> In plain words: At your core you are a refined blade — you cut to the point and value quality. Your chart reads as balanced, so the rest of this report is about where that helps and where leaning toward Fire keeps you in balance.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Fire and supporting element Wood describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck and Annual Luck (Annual Luck) tables to see when income and value-creation themes surface most clearly. Periods dominated by the challenging element call for conservation rather than expansion.

Employment vs. Entrepreneurship

A double pull between Authority and Wealth suggests a hybrid path: a credible institutional platform in the early career years, then a measured move toward independent ventures once credibility and capital are in place. Treat this as a tendency reading, not a verdict; the Major Luck and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

Income arrives in project-based bursts — commissions, deals, or ventures that close in lumps rather than steady drip. Build cash reserves between projects so the slower months do not force reactive decisions.

Skill-Levers to Develop

Indirect Resource-dominant charts tend to grow fastest through intuition-driven research, pattern recognition, and cross-domain synthesis. Cultivate public visibility — speaking, publishing, or teaching — to light Fire's radiance.

Wealth Preservation Note

For a Metal Day Master with a Balanced reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Fire element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Partnerships and joint ventures work well when the partner's element supports Fire; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Fire-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

Large institutions and mid-size specialists are the most likely fit. The Direct Officer stem values hierarchy, credential, and a clear chain of accountability — the querent is most productive when the structure around them is unambiguous.

Boss / Team Dynamics

The ideal manager profile is a patient Water advisor — someone whose element complements rather than competes with your Day Master. Watch for vague goals that blunt Metal's precision; this is the most common way the querent's energy gets drained in a team setting.

Red-Flag Environments

Look out for: long stretches of the challenging element-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

Decade-by-Decade Career Strategy

Ages 5-14 — Mu In

With a Indirect Resource (Indirect Resource) ten-god over a Wood branch (stem element Earth), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 15-24 — Gi Myo

With a Direct Resource (Direct Resource) ten-god over a Wood branch (stem element Earth), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 25-34 — Gyeong Jin

With a Companion (Pillar) ten-god over a Earth branch (stem element Metal), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 35-44 — Sin Sa

With a Robber (Rob Wealth) ten-god over a Fire branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 45-54 — Im O

With a Eating God (Eating God) ten-god over a Fire branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 55-64 — Gye Mi

With a Hurting Officer (Hurting Officer) ten-god over a Earth branch (stem element Water), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 65-74 — Gap Shin

With a Indirect Wealth (Indirect Wealth) ten-god over a Metal branch (stem element Wood), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 75-84 — Eul Yu

With a Direct Wealth (Direct Wealth) ten-god over a Metal branch (stem element Wood), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

> In plain words: Your chart leans toward earning through knowledge — research, advice, credentialed practice. Fields and decades that carry Fire give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is Sul (12-stage: Decline (decline) — just past the peak — a gentle decline, wiser and slower), whose main hidden stem relates to your Day Master as Indirect Resource (Indirect Resource). In practice, you are drawn to partners who spark your curiosity and bring unexpected insights. No Peach Blossom () star is natally active, so relationship style is more shaped by the spouse palace and ten-god mix than by overt magnetism.

Spouse Palace Ten-God

The spouse palace Sul (12-stage: Decline) carries a main hidden stem that relates to your Day Master as Indirect Resource (Indirect Resource). In the partner domain this points toward an unusual or insight-driven partnership — the spouse domain teaches the querent things. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	Good	Wood generates your Favorable Element (Fire) — secondary support (Supporting Element (spirit)).
Radiant, expressive, and momentum-driven	Fire	Best	Fire is your Favorable Element (favorable element) — the core balance your chart seeks.
Grounded, nurturing, and reliability-focused	Earth	Compatible	Neutral energetic exchange.
Disciplined, precise, and structure-oriented	Metal	Compatible	Neutral energetic exchange.
Adaptive, perceptive, and depth-seeking	Water	Compatible	Neutral energetic exchange.

Three Things to Be Mindful Of

- Peach Blossom is not natally active, so your social style leans toward depth rather than breadth — protect your close-circle time.
- A natal six-combination between Ja and Chuk draws the partner into a transformation toward Earth energy — expect the relationship to ask for adaptation.
- The current major-luck period (Gyeong Jin, Companion (Pillar) — a peer or equal — support, solidarity, and rivalry in equal measure) carries mixed energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

>Relationship theme per year for the next six years — read alongside the annual windows table.

Year	Pillar	Note
2026	Bing O (Seven Killings)	Fire energy + Seven Killings: intensity and transformation — expect a relationship to demand change.
2027	Jeong Mi (Direct Officer)	Fire energy + Direct Officer: structure and visible milestones (engagement, marriage, formal commitment).
2028	Mu Shin (Indirect Resource)	Earth energy + Indirect Resource: intuition and surprise — a relationship that teaches you something unexpected.
2029	Gi Yu (Direct Resource)	Earth energy + Direct Resource: support and study — a partner who mentors or grounds you.
2030	Gyeong Sul (Companion)	Metal energy + Companion: peer energy — friendships and partnerships strengthen.
2031	Sin Hae (Robber)	Metal energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — Indirect Resource (3), Robber (3) — so the querent tends to give and receive in those modes. The querent is naturally drawn to people who are visible, expressive, and energetic, and tends to feel drained by people

who drain rather than nourish. Social settings where the favorable Fire element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace Sul sitting in the Decline 12-stage and carrying hidden-stem ten-gods of Indirect Resource, Rob Wealth (Companion), Direct Officer (Authority), the querent bonds through a mix of presence and discernment. The day branch's stage matters: a Cutoff ()/Illness (illness)/Death (death) stage asks for openness and vitality, while a Tomb (tomb)//clash () stage leans toward reserve and selectivity. The hidden-stem ten-gods colour the undercurrent — Resource — the resource group — support, learning, and what sustains you leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck/Annual Luck overlays show when the querent's bond patterns shift most.

Marriage Timing Windows

The strongest windows for commitment decisions in the current and next major-luck periods: Gyeong Jin (ages 25-34) — favorable-element years within this window are the strongest commitment windows. Within those windows, the annual pillars whose stem element matches the favorable element are the cleanest moments to formalize; clash years are better for deepening privately.

Family Dynamics

The year pillar Sul carries ancestral and parental themes; its main hidden stem shapes how the querent absorbs (or pushes back on) family-of-origin patterns. The month pillar Chuk is the career and sibling palace — its dynamics surface in how the querent shows up among peers and early mentors. The hour pillar Ja speaks to children and later life — its hidden stems indicate what the querent is likely to pass on, and what they will need to consciously teach.

Partner Chart Add-On

Curious about a specific person? Add a compatibility reading — the Deep Compatibility report (\$45) — by replying with their birth details.

> In plain words: Your partnership area points toward an unusual, insight-driven partner who teaches you things. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- Element excess: Earth — pay attention to the spleen/stomach and digestive metabolism system.
- Element deficiency: Water — the kidney/bladder and hormonal/endocrine reserves system may need gentle support.
- The chart's lightest weighted element is Water (11.8%), which in classical Five-Element mapping is paired with the kidney/bladder and hormonal/endocrine reserves. This is not a diagnosis; it is the least natally emphasized system, making it the natural place to begin gentle, preventive support through water-aligned foods, seasons, and rhythms.

Grounding Practices

- Short midday walks in sunlight
- Eating bitter greens, red-colored vegetables, and warm foods
- Speaking or performing in well-lit south-facing spaces
- Taking brief social breaks to rekindle enthusiasm
- Journaling by candlelight to focus scattered Fire

The Overdrive Warning

A Balanced Metal Day Master has reasonable reserves but still needs conscious rhythm. Watch for burning out through perfectionism, grief, or respiratory tightness when output stays high without recovery windows. In classical Five-Element reading, the lung/large intestine and respiratory/immune boundaries are a common watchpoint when energy is overstretched; the Fire element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The Metal Day Master is most at home in autumn; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable Fire element's season (summer (the peak Fire energy)) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Fire hours of the day (per the Twelve Stages) are the most aligned — mornings for Wood, midday for Fire, transitions for Earth, afternoons for Metal, evenings for Water.

> This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.

> In plain words: Your lightest element is Water, so the kidney/bladder and hormonal/endocrine reserves are the natural place to start gentle, preventive care — through water-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern candidate: Direct Resource / Direct Resource Grid

Pattern	Branches	Classical Note
Six Combination	Ja+Chuk	transforms toward Earth energy between the month and hour palaces
Three Punishment (partial)	Sul-Chuk	two branches of a punishment frame without the third; a lighter but recurring structural pressure that matures slowly
Three Punishment (partial)	Chuk-Sul	two branches of a punishment frame without the third; a lighter but recurring structural pressure that matures slowly

Pattern	Branches	Classical Note
rebellion-against-authority (Output Meets Authority)	Hurting Officer (Output) + Direct Officer (Authority)	Classical conflict pattern (>): Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event.

Pattern Narratives

The engine flags a likely Direct Resource (Direct Resource Grid) as the regular grid. This points toward a life theme shaped by education, protection, and gradual advancement — certificates, mentors, real estate, and maternal support. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a partial three-punishment (Three Punishment) between Sul and Chuk (three-punishment Sul Chuk (Earth triad punishment)), touching the ancestral and social-root energy — the wider world you were born into and career and immediate environment — how you show up at work and in daily life. Two branches of a punishment frame are present without the third — a lighter but recurring structural pressure; its themes mature slowly and tend to recur until they are consciously recognized.

What This Means in Plain Language

The chart's dominant pattern candidate is Direct Resource (Direct Resource Grid). A six-combination between Ja and Chuk transforms toward Earth energy, linking the month and hour palaces. A partial three-punishment between Sul and Chuk — two branches of a punishment frame without the third — is a recurring structural pressure; these themes mature slowly and call for patience. Together, these patterns point to a recurring life theme rather than a single event. The favorable Fire element is the querent's lever for working with — rather than against — the chart's structure.

> In plain words: The chart's organising theme is education, protection, and gradual advancement — certificates, mentors, real estate, and maternal support.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Position	Stem	Ten-God	Note
year_stem	Gap	Indirect Wealth (Indirect Wealth)	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 65–74 (Gap Shin, Indirect Wealth (Indirect Wealth) — variable money — deals, commissions, windfalls, higher risk and reward) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 75–84 (Eul Yu, Direct Wealth (Direct Wealth) — steady, earned income and everyday resources — salary and savings) — a window where income, asset, or value-creation themes are more likely to surface.

Investment Style Cue

Because your favorable element is Fire and your supporting element is Wood, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Fire (favorable)	south	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Wood (supporting)	east	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- Favorable orientation: Facing or sleeping with head toward south is traditionally considered supportive for your chart.
- Supporting orientation: Use east when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during the favorable Fire-element years and months, and especially during major-luck periods: ages 35-44 (Sin Sa), ages 45-54 (Im O). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Business & Launch Timing

For a Metal Day Master, the most supportive launch windows tend to come when the annual pillar carries Fire or Wood energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use 2, 7 (favorable Fire) and 3, 8 (supporting Wood) in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A partnership or co-launch with one credible counterparty is the most likely fit. The Authority ten-god gives the launch a stamp of legitimacy, and a partner carries the parts the querent's chart cannot carry alone.

Quarterly / Seasonal Reminders

For a Metal Day Master, the most aligned launch window is autumn (the harvest, the refinement). Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. Annual branches that clash your natal day branch Sul — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. Annual pillars dominated by the unfavorable element — favour audits, refinements, and quiet product work over big announcements.
3. A major-luck shift into a heavier stem (strong Direct Officer (Authority) / Seven Killings (Authority)) — use the first 1–2 years to set up systems rather than scale headcount.
4. Activated chart-punishment or self-punishment patterns during the launch year — keep partnerships small and written, not verbal.
5. Conjunction of new-moon or full-moon eclipses falling on spouse-palace or wealth-stem branches — defer the launch by 30–45 days if it lands on the public date.

Timing: Major Luck & Annual Windows

Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

Current Period Deep-Dive

This decade carries a Companion (Pillar) ten-god over a Earth branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do conserve, refine, and protect the foundation; avoid long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable Fire energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows Earth (36.8%) as the most present element and Water (11.8%) as the least. Energy tends to accumulate and congest in the Earth domain; a balanced day feels like quiet movement between input, processing, and release. The Water system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- Excess system (Earth): spleen/stomach and digestive metabolism — watch for signs of over-activity or congestion.
- Deficient system (Water): kidney/bladder and hormonal/endocrine reserves — gentle rebuilding over time is usually better than forceful stimulation.

Stress Signature

When this chart goes out of balance, the most common early signals are: grief that surfaces unbidden, skin or respiratory sensitivity, and rigid perfectionism. With a Balanced reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Fire):

- midday sunlight exposure (10–15 minutes)
- a creative project with a visible output each week
- a shared meal with company
- a daily moment of celebration or laughter

Day-Master practice (Metal): Refine what is already there. Metal recovers through editing, polishing, and small precision.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 35-44 (Sin Sa), ages 45-54 (Im O). Use these decades to build resilience.

Across all periods, the Fire element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

Monthly Lucky Dates

The next 12 months of favorable days, selected when the daily stem element matches your Fire or Wood element and the day branch does not clash your natal day branch.

> Methodology: each row filters the daily-luck (Daily Luck (Daily Luck)) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes your natal day branch.

Closing Note

Gyeong (Gyeong (Yang Metal, Gyeong Metal)) sits at the centre of this chart, with the chart's element balance leaning toward Metal and a ten-god distribution dominated by Indirect Resource (3), Robber (3). The favorable Fire element (with Wood as the quiet secondary) is the querent's main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace Sul and the chart's relationship dynamics reward the querent for showing up consistently rather than performing. The six-combination between Ja and Chuk is a quiet asset — partnerships or projects that bring two palaces into harmony, with the querent's role often as the connector. Across a full lifetime, this chart rewards the querent who studies their own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
