Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance

Born: 1993-12-11 · 02:45 · Pallipattu, Tamil Nadu

Time method: recorded birth time 02:45 (local clock) corrected to true solar time 02:38 (birthplace 79.45°E vs the 82.5°E zone meridian), -6.2 min (longitude -12.2 min + equation of time +6 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Branch	Yu	Ja	In	Chuk
Hidden Stems	Sin ()	Gye ()	Gap (), Bing (), Mu ()	Gi (), Gye (), Sin ()

Element	Presence	Percentage
● Fire		18.1%
● Earth		23.6%
● Metal		9.7%
● Water		26.4%
● Wood		22.2%

> Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems (Stem) at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

What This Year Means for You

Right now, in September 2026, you are moving through a year whose energy is shaped by Bing O (Pillar (Companion)). This sits inside your broader Jeong Myo major luck period (ages 28-37), whose theme is Rob Wealth (Companion). For your chart, the most useful energy to lean into this year is Earth: look for decisions, environments, and relationships that bring earth qualities forward.

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. What does "favorable element" mean in daily life? It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.

2. Should I move north or only wear earth? No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.
3. Can Saju tell me what illness I might get? No. Classical Saju maps tendencies in the body's elemental systems (e.g. excess Wood may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. How often should I get a reading? Most readers find that a full re-reading every 2-3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. What is a major luck period? A 10-year stretch of life shaped by a new stem and branch (Major Luck (Major Luck)) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. How is Saju different from Western astrology? Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. Should I read this report chronologically? No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With Bing (Bing (Yang Fire, Bing Fire)) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the sun illuminating a wide horizon. Your natural strengths run toward warmth, generosity, and the power to inspire others, while the shadow side can show as pride, burnout, or scattered attention when overextended.

Born in a Fire chart with the engine reading as balanced, the way you meet the world is shaped by how much Fire energy is available. When balanced, you express the best of Fire; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate Earth energy — the favorable element — so that your Fire nature has the right container and outlet.

Your Day Master Bing meets the month branch Ja at the Embryo (gestational start) twelve-stage — new potential is forming; early life may feel preparatory rather than openly productive. This is read as a seasonally supported arrival: a tendency in how the querent's core energy first enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Gye Yu (Gye (Yin Water, Gye Water))

The Gye Yu pillar pairs the Gye stem (Gye (Yin Water, Gye Water)) with the Yu branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads as Direct Officer (Direct Officer) relative to your Day Master, so this area of life tends to carry that dynamic.

The Metal branch is the container for this area and the Water stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the Water element, it tends to bring water-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to year-pillar matters. Hidden stems within the Yu branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Yu branch or the Gye stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Gap Ja (Gap (Yang Wood, Gap Wood))

The Gap Ja pillar pairs the Gap stem (Gap (Yang Wood, Gap Wood)) with the Ja branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Indirect Resource (Indirect Resource) relative to your Day Master, so this area of life tends to carry that dynamic.

The Water branch is the container for this area and the Wood stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the Wood element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to month-pillar matters. Hidden stems within the Ja branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Ja branch or the Gap stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Bing In (Bing (Yang Fire, Bing Fire))

The Bing In pillar pairs the Bing stem (Bing (Yang Fire, Bing Fire)) with the In branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Wood branch is the container for this area and the Fire stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the Fire element, it tends to bring fire-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to day-pillar matters. Hidden stems within the In branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the In branch or the Bing stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Gi Chuk (Gi (Yin Earth, Gi Earth))

The Gi Chuk pillar pairs the Gi stem (Gi (Yin Earth, Gi Earth)) with the Chuk branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Hurting Officer (Hurting Officer) relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Earth stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the Earth element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to hour-pillar matters. Hidden stems within the Chuk branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Chuk branch or the Gi stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods (Ten Gods)) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Gye Yu	Gye	Direct Officer (Direct Officer)	Sin ()	Direct Wealth	Outer layer: Direct Officer (Direct Officer); inner driver through the branch: Direct Wealth.
Month Pillar — Gap Ja	Gap	Indirect Resource (Indirect Resource)	Gye ()	Direct Officer (Authority)	Outer layer: Indirect Resource (Indirect Resource); inner driver through the branch: Direct Officer (Authority).
Day Pillar — Bing In	Bing	Companion (Pillar)	Gap (), Bing (), Mu ()	Indirect Resource, Pillar (Companion), Eating God (Output)	Outer layer: Companion (Pillar); inner driver through the branch: Indirect Resource.
Hour Pillar — Gi Chuk	Gi	Hurting Officer (Hurting Officer)	Gi (), Gye (), Sin ()	Hurting Officer (Output), Direct Officer (Authority), Direct Wealth	Outer layer: Hurting Officer (Hurting Officer); inner driver through the branch: Hurting Officer (Output).

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> In plain words: Where your chart puts its weight: most of all on rules, status, and the structures you work inside.

> In plain words: At your core you are a flame — you light things up and move fast. Your chart reads as balanced, so the rest of this report is about where that helps and where leaning toward Earth keeps you in balance.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Earth and supporting element Fire describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck and Annual Luck (Annual Luck) tables to see when income and value-creation themes surface most clearly. Periods dominated by the challenging element call for conservation rather than expansion.

Employment vs. Entrepreneurship

A double pull between Authority and Wealth suggests a hybrid path: a credible institutional platform in the early career years, then a measured move toward independent ventures once credibility and capital are in place. Treat this as a tendency reading, not a verdict; the Major Luck and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

Income tends to arrive in steady increments — a salaried baseline, retainer work, or recurring contracts. The Direct Wealth stem is rooted in a branch, so the source is durable and the rhythm is rarely interrupted by surprise windfalls.

Skill-Levers to Develop

Direct Officer-dominant charts tend to grow fastest through structured planning, policy literacy, and conflict mediation. Cultivate slow, steady routines — daily practice, steady journaling, long-cycle planning.

Wealth Preservation Note

For a Fire Day Master with a Balanced reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the

Earth element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Partnerships and joint ventures work well when the partner's element supports Earth; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Earth-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

Large institutions and mid-size specialists are the most likely fit. The Direct Officer stem values hierarchy, credential, and a clear chain of accountability — the querent is most productive when the structure around them is unambiguous.

Boss / Team Dynamics

The ideal manager profile is a visionary Wood leader — someone whose element complements rather than competes with your Day Master. Watch for cold isolation that starves Fire's warmth; this is the most common way the querent's energy gets drained in a team setting.

Red-Flag Environments

Look out for: long stretches of the challenging element-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

Decade-by-Decade Career Strategy

Ages 8-17 — Eul Chuk

With a Direct Resource (Direct Resource) ten-god over a Earth branch (stem element Wood), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Earth energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 18-27 — Bing In

With a Companion (Pillar) ten-god over a Wood branch (stem element Fire), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Earth energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 28-37 — Jeong Myo

With a Robber (Rob Wealth) ten-god over a Wood branch (stem element Fire), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Earth energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 38-47 — Mu Jin

With a Eating God (Eating God) ten-god over a Earth branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Ages 58-67 — Gyeong O

With a Indirect Wealth (Indirect Wealth) ten-god over a Fire branch (stem element Metal), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Earth energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 68-77 — Sin Mi

With a Direct Wealth (Direct Wealth) ten-god over a Earth branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Earth energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 78-87 — Im Shin

With a Seven Killings (Seven Killings) ten-god over a Metal branch (stem element Water), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Earth energy are the most reliable for visible wins; the others are best used for quiet preparation.

> In plain words: Your chart leans toward earning by making and expressing — creating, teaching, building. Fields and decades that carry Earth give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is In (12-stage: Long Life (long life) — a fresh start — early, hopeful, growing), whose main hidden stem relates to your Day Master as Indirect Resource (Indirect Resource). In practice, you are drawn to partners who spark your curiosity and bring unexpected insights. No Peach Blossom () star is natally active, so relationship style is more shaped by the spouse palace and ten-god mix than by overt magnetism.

Spouse Palace Ten-God

The spouse palace In (12-stage: Long Life) carries a main hidden stem that relates to your Day Master as Indirect Resource (Indirect Resource). In the partner domain this points toward an unusual or insight-driven partnership — the spouse domain teaches the querent things. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	Compatible	Neutral energetic exchange.

Partner Type	Element	Fit Level	Why
Radiant, expressive, and momentum-driven	Fire	Good	Fire generates your Favorable Element (Earth) — secondary support (Supporting Element (spirit)).
Grounded, nurturing, and reliability-focused	Earth	Best	Earth is your Favorable Element (favorable element) — the core balance your chart seeks.
Disciplined, precise, and structure-oriented	Metal	Compatible	Neutral energetic exchange.
Adaptive, perceptive, and depth-seeking	Water	Compatible	Neutral energetic exchange.

Three Things to Be Mindful Of

- Peach Blossom is not natally active, so your social style leans toward depth rather than breadth — protect your close-circle time.
- A natal six-combination between Ja and Chuk draws the partner into a transformation toward Earth energy — expect the relationship to ask for adaptation.
- The current major-luck period (Jeong Myo, Robber (Rob Wealth) — a rival for the same resources — competition in money or love) carries mixed energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

>Relationship theme per year for the next six years — read alongside the annual windows table.

Year	Pillar	Note
2026	Bing O (Companion)	Fire energy + Companion: peer energy — friendships and partnerships strengthen.
2027	Jeong Mi (Robber)	Fire energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.
2028	Mu Shin (Eating God)	Earth energy + Eating God: a year that asks the relationship to evolve quietly.
2029	Gi Yu (Hurting Officer)	Earth energy + Hurting Officer: a year that asks the relationship to evolve quietly.
2030	Gyeong Sul (Indirect Wealth)	Metal energy + Indirect Wealth: variety and social expansion — meeting new people, diversifying the social circle.
2031	Sin Hae (Direct Wealth)	Metal energy + Direct Wealth: stability and value-sharing — good for settling into a long-term rhythm.

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — Direct Officer (3), Output (3) — so the querent tends to give and receive in those modes. The querent is naturally drawn to people who are grounded, practical, and steady, and tends to feel drained by people who drain rather than nourish. Social settings where the favorable Earth element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace In sitting in the Long Life 12-stage and carrying hidden-stem ten-gods of Indirect Resource, Pillar (Companion), Eating God (Output), the querent bonds through a mix of presence and discernment. The day branch's stage matters: a Cutoff ()/Illness (illness)/Death (death) stage asks for openness and vitality, while a Tomb (tomb)//clash () stage leans toward reserve and selectivity. The hidden-stem ten-gods colour the undercurrent — Resource — the resource group — support, learning, and what sustains you leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck/Annual Luck overlays show when the querent's bond patterns shift most.

Marriage Timing Windows

The strongest windows for commitment decisions in the current and next major-luck periods: Jeong Myo (ages 28-37) — favorable-element years within this window are the strongest commitment windows. Within those windows, the annual pillars whose stem element matches the favorable element are the cleanest moments to formalize; clash years are better for deepening privately.

Family Dynamics

The year pillar Yu carries ancestral and parental themes; its main hidden stem shapes how the querent absorbs (or pushes back on) family-of-origin patterns. The month pillar Ja is the career and sibling palace — its dynamics surface in how the querent shows up among peers and early mentors. The hour pillar Chuk speaks to children and later life — its hidden stems indicate what the querent is likely to pass on, and what they will need to consciously teach.

Partner Chart Add-On

Curious about a specific person? Add a compatibility reading — the Deep Compatibility report (\$45) — by replying with their birth details.

> In plain words: Your partnership area points toward an unusual, insight-driven partner who teaches you things. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- Element excess: Water — pay attention to the kidney/bladder and hormonal/endocrine reserves system.
- Element deficiency: Metal — the lung/large intestine and respiratory/immune boundaries system may need gentle support.
- The chart's lightest weighted element is Metal (9.7%), which in classical Five-Element mapping is paired with the lung/large intestine and respiratory/immune boundaries. This is not a diagnosis; it is the least natally emphasized system, making it the natural place to begin gentle, preventive support through metal-aligned foods, seasons, and rhythms.

Grounding Practices

- Gardening, pottery, or cooking with whole grains
- Eating yellow/orange root vegetables and mildly sweet foods
- Grounding walks on soil or grass with bare feet

- Keeping a steady meal and sleep schedule
- Working from a stable, centered location rather than constantly moving

The Overdrive Warning

A Balanced Fire Day Master has reasonable reserves but still needs conscious rhythm. Watch for burning out through over-visibility, agitation, or cardiac strain when output stays high without recovery windows. In classical Five-Element reading, the heart/small intestine and circulation are a common watchpoint when energy is overstretched; the Earth element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The Fire Day Master is most at home in summer; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable Earth element's season (the transitions between seasons) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Earth hours of the day (per the Twelve Stages) are the most aligned — mornings for Wood, midday for Fire, transitions for Earth, afternoons for Metal, evenings for Water.

> This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.

> In plain words: Your lightest element is Metal, so the lung/large intestine and respiratory/immune boundaries are the natural place to start gentle, preventive care — through metal-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern candidate: Direct Officer (Authority) / Direct Officer Grid

Pattern	Branches	Classical Note
Six Combination	Ja+Chuk	transforms toward Earth energy between the month and hour palaces
Six Break	Ja-Yu	a disruption of an expected harmony; often appears as a changed plan or external adjustment
rebellion-against-authority (Output Meets Authority)	Hurting Officer (Output) + Direct Officer (Authority)	Classical conflict pattern (): Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event.

Pattern Narratives

The engine flags a likely Direct Officer (Authority) (Direct Officer Grid) as the regular grid. This points toward a life theme shaped by conventional respectability and structure — credentials,

large institutions, examinations, and public trust. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a Six Break between Ja and Yu, linking the career and immediate environment — how you show up at work and in daily life and ancestral and social-root energy — the wider world you were born into. This tends to show up as disrupted plans or external adjustments between the two palaces involved.

What This Means in Plain Language

The chart's dominant pattern candidate is Direct Officer (Authority) (Direct Officer Grid). A six-combination between Ja and Chuk transforms toward Earth energy, linking the month and hour palaces. Together, these patterns point to a recurring life theme rather than a single event. The favorable Earth element is the querent's lever for working with — rather than against — the chart's structure.

> In plain words: The chart's organising theme is conventional respectability and structure — credentials, large institutions, examinations, and public trust.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Position	Stem	Ten-God	Note
year_branch_main	Sin	Direct Wealth (Direct Wealth)	Natal wealth signal visible here.
hour_branch_residual	Sin	Direct Wealth (Direct Wealth)	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 18–27 (Bing In, Companion (Pillar) — a peer or equal — support, solidarity, and rivalry in equal measure) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 28–37 (Jeong Myo, Robber (Rob Wealth)) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 38–47 (Mu Jin, Eating God (Eating God) — gentle output — talent, making, teaching, slow enjoyable accumulation) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 48–57 (Gi Sa, Hurting Officer (Hurting Officer) — sharp output — bold expression, creativity, friction with rules and authority) — a window where income, asset, or value-creation themes are more likely to surface.

Investment Style Cue

Because your favorable element is Earth and your supporting element is Fire, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Earth (favorable)	center	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Fire (supporting)	south	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- Favorable orientation: Facing or sleeping with head toward center is traditionally considered supportive for your chart.
- Supporting orientation: Use south when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during the favorable Earth-element years and months, and especially during major-luck periods: ages 8-17 (Eul Chuk), ages 38-47 (Mu Jin), ages 48-57 (Gi Sa). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Business & Launch Timing

For a Fire Day Master, the most supportive launch windows tend to come when the annual pillar carries Earth or Fire energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use 0, 5 (favorable Earth) and 2, 7 (supporting Fire) in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A partnership or co-launch with one credible counterparty is the most likely fit. The Authority ten-god gives the launch a stamp of legitimacy, and a partner carries the parts the querent's chart cannot carry alone.

Favorable Windows (2026-2031)

Year	Pillar	Why It Matters	Suggested Use
2026	Bing O	Companion (Fire energy + Companion — a favorable-element year.)	peer projects, friendships, self-definition

Quarterly / Seasonal Reminders

For a Fire Day Master, the most aligned launch window is summer (peak Fire energy supports visible launches). Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. Annual branches that clash your natal day branch In — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. Annual pillars dominated by the unfavorable element — favour audits, refinements, and quiet product work over big announcements.
3. A major-luck shift into a heavier stem (strong Direct Officer (Authority) / Seven Killings (Authority)) — use the first 1-2 years to set up systems rather than scale headcount.
4. Activated chart-punishment or self-punishment patterns during the launch year — keep partnerships small and written, not verbal.
5. Conjunction of new-moon or full-moon eclipses falling on spouse-palace or wealth-stem branches — defer the launch by 30-45 days if it lands on the public date.

Timing: Major Luck & Annual Windows

Luck direction: forward, advancing from the month pillar — derived from a yin year stem (Gye) and female gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

Current Period Deep-Dive

This decade carries a Robber (Rob Wealth) ten-god over a Wood branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do conserve, refine, and protect the foundation; avoid long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable Earth energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows Water (26.4%) as the most present element and Metal (9.7%) as the least. Energy tends to flow in cycles in the Water domain; a balanced day feels like quiet movement between input, processing, and release. The Metal system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- Excess system (Water): kidney/bladder and hormonal/endocrine reserves — watch for signs of over-activity or congestion.
- Deficient system (Metal): lung/large intestine and respiratory/immune boundaries — gentle rebuilding over time is usually better than forceful stimulation.

Stress Signature

When this chart goes out of balance, the most common early signals are: agitation or racing thoughts, chest tightness or palpitations, and difficulty sleeping. With a Balanced reading, the

early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Earth):

- a fixed wake-time and sleep-time
- warm cooked meals at regular hours
- light journaling at season transitions
- gardening or grounding physical work

Day-Master practice (Fire): Make something visible every week. Fire without output burns itself out.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 8-17 (Eul Chuk), ages 38-47 (Mu Jin), ages 48-57 (Gi Sa). Use these decades to build resilience.

Across all periods, the Earth element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

Monthly Lucky Dates

The next 12 months of favorable days, selected when the daily stem element matches your Earth or Fire element and the day branch does not clash your natal day branch.

> Methodology: each row filters the daily-luck (Daily Luck (Daily Luck)) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes your natal day branch.

Closing Note

Bing (Bing (Yang Fire, Bing Fire)) sits at the centre of this chart, with the chart's element balance leaning toward Fire and a ten-god distribution dominated by Direct Officer (3), Output (3). The favorable Earth element (with Fire as the quiet secondary) is the querent's main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace In and the chart's relationship dynamics reward the querent for showing up consistently rather than performing. The six-combination between Ja and Chuk is a quiet asset — partnerships or projects that bring two palaces into harmony, with the querent's role often as the connector. Across a full lifetime, this chart rewards the querent who studies their own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
