Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance

Born: 2001-06-07 · 16:45 · Mysore

Time method: recorded birth time 16:45 (local clock) corrected to true solar time 16:37 (birthplace 80.27°E vs the 82.5°E zone meridian), -7.5 min (longitude -8.9 min + equation of time +1.4 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Chart at a Glance

Four Pillars

	Year	Month	Day	Hour
Stem	Sin	Gap	Sin	Bing
Branch	Sa	O	Chuk	Shin
Hidden Stems	Bing (), Gyeong (), Mu ()	Jeong (), Gi ()	Gi (), Gye (), Sin ()	Gyeong (), Im (), Mu ()

Element Balance

Element	Presence	Percentage
● Fire		27.8%
● Earth		13.9%
● Metal		38.0%
● Water		7.6%
● Wood		12.7%

> Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems (Stem) at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- Day Master: Sin (Yin Metal, Sin Metal)
- Strength: Balanced — a seasonal-strength reading; a full classical analysis may refine it.

- Favorable Element: Water — The Day Master reads as balanced, so the classical climate (climate-balance) check applies: this chart peaks in hot summer conditions, and the classical remedy is Water. This matches the chart's own least-represented element, reinforcing the pick.
- Supporting Element: Metal
- Avoid / Watch: —
- Current Major Luck: Bing Shin (ages 19-28)
- Luck direction: forward, advancing from the month pillar — derived from a yin year stem (Sin) and female gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- Pattern / Formation: Seven Killings (Authority) / Seven Killings Grid

What This Year Means for You

Right now, in September 2026, you are moving through a year whose energy is shaped by Bing O (Direct Officer (Authority)). This sits inside your broader Bing Shin major luck period (ages 19-28), whose theme is Direct Officer (Authority). For your chart, the most useful energy to lean into this year is Water: look for decisions, environments, and relationships that bring water qualities forward.

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. What does "favorable element" mean in daily life? It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.
2. Should I move north or only wear water? No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.
3. Can Saju tell me what illness I might get? No. Classical Saju maps tendencies in the body's elemental systems (e.g. excess Wood may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. How often should I get a reading? Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. What is a major luck period? A 10-year stretch of life shaped by a new stem and branch (Major Luck (Major Luck)) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. How is Saju different from Western astrology? Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. Should I read this report chronologically? No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With Sin (Sin (Yin Metal, Sin Metal)) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the polished jewel or fine instrument. Your natural strengths run toward precision, refinement, and a gift for detail and quality, while the shadow side can show as perfectionism, detachment, or being easily bruised by criticism.

Born in a Metal chart with the engine reading as balanced, the way you meet the world is shaped by how much Metal energy is available. When balanced, you express the best of Metal; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate Water energy — the favorable element — so that your Metal nature has the right container and outlet.

Your Day Master Sin meets the month branch O at the Illness (recessive start) twelve-stage — early momentum is depleted; the querent often builds strength through recovery and patience. This is read as a mixed seasonal support arrival: a tendency in how the querent's core energy first enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Sin Sa (Sin (Yin Metal, Sin Metal))

The Sin Sa pillar pairs the Sin stem (Sin (Yin Metal, Sin Metal)) with the Sa branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that

dynamic.

The Fire branch is the container for this area and the Metal stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the Metal element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to year-pillar matters. Hidden stems within the Sa branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sa branch or the Sin stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Gap O (Gap (Yang Wood, Gap Wood))

The Gap O pillar pairs the Gap stem (Gap (Yang Wood, Gap Wood)) with the O branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Direct Wealth (Direct Wealth) relative to your Day Master, so this area of life tends to carry that dynamic.

The Fire branch is the container for this area and the Wood stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the Wood element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to month-pillar matters. Hidden stems within the O branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the O branch or the Gap stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Sin Chuk (Sin (Yin Metal, Sin Metal))

The Sin Chuk pillar pairs the Sin stem (Sin (Yin Metal, Sin Metal)) with the Chuk branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Metal stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the Metal element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to day-pillar matters. Hidden stems within the Chuk branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Chuk branch or the Sin stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Bing Shin (Bing (Yang Fire, Bing Fire))

The Bing Shin pillar pairs the Bing stem (Bing (Yang Fire, Bing Fire)) with the Shin branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Direct Officer (Direct Officer) relative to your Day Master, so this area of life tends to carry that dynamic.

The Metal branch is the container for this area and the Fire stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the Fire element, it tends to bring fire-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates

to hour-pillar matters. Hidden stems within the Shin branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Shin branch or the Bing stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods (Ten Gods)) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Sin Sa	Sin	Companion (Pillar)	Bing (), Gyeong (), Mu ()	Direct Officer (Authority), Rob Wealth (Companion), Direct Resource	Outer layer: Companion (Pillar); inner driver through the branch: Direct Officer (Authority).
Month Pillar — Gap O	Gap	Direct Wealth (Direct Wealth)	Jeong (), Gi ()	Seven Killings (Authority), Indirect Resource	Outer layer: Direct Wealth (Direct Wealth); inner driver through the branch: Seven Killings (Authority).
Day Pillar — Sin Chuk	Sin	Companion (Pillar)	Gi (), Gye (), Sin ()	Indirect Resource, Eating God (Output), Pillar (Companion)	Outer layer: Companion (Pillar); inner driver through the branch: Indirect Resource.
Hour Pillar — Bing Shin	Bing	Direct Officer (Direct Officer)	Gyeong (), Im (), Mu ()	Rob Wealth (Companion), Hurting Officer (Output), Direct Resource	Outer layer: Direct Officer (Direct Officer); inner driver through the branch: Rob Wealth (Companion).

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> In plain words: Where your chart puts its weight: most of all on peers, rivals, and how you hold your own.

> In plain words: At your core you are a refined blade — you cut to the point and value quality. Your chart reads as balanced, so the rest of this report is about where that helps and where leaning toward Water keeps you in balance.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Water and supporting element Metal describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck and Annual Luck (Annual Luck) tables to see when income and value-creation themes surface most clearly. Periods dominated by the challenging element call for conservation rather than expansion.

Employment vs. Entrepreneurship

A double pull between Authority and Wealth suggests a hybrid path: a credible institutional platform in the early career years, then a measured move toward independent ventures once credibility and capital are in place. Treat this as a tendency reading, not a verdict; the Major Luck and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

There is no direct wealth ten-god on a visible stem, so income may arrive through resource, output, or authority channels rather than a clean wealth stream — the reader should trace the money path through the hidden stems and the timing tables.

Skill-Levers to Develop

Companion-dominant charts tend to grow fastest through peer collaboration, team facilitation, and honest self-assessment. Cultivate listening and reflective writing to strengthen Water's receptive quality.

Wealth Preservation Note

For a Metal Day Master with a Balanced reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Water element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Partnerships and joint ventures work well when the partner's element supports Water; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Water-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

A mid-size specialist firm with strong leadership visibility is the most likely fit. Both Direct Officer and Seven Killings are present, so the querent needs a credible structure but also room to push back when needed.

Boss / Team Dynamics

The ideal manager profile is a structured Earth anchor — someone whose element complements rather than competes with your Day Master. Watch for vague goals that blunt Metal's precision; this is the most common way the querent's energy gets drained in a team setting.

Red-Flag Environments

Look out for: long stretches of the challenging element-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

Decade-by-Decade Career Strategy

Ages 9-18 — Eul Mi

With a Indirect Wealth (Indirect Wealth) ten-god over a Earth branch (stem element Wood), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 19-28 — Bing Shin

With a Direct Officer (Direct Officer) ten-god over a Metal branch (stem element Fire), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 29-38 — Jeong Yu

With a Seven Killings (Seven Killings) ten-god over a Metal branch (stem element Fire), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 39-48 — Mu Sul

With a Direct Resource (Direct Resource) ten-god over a Earth branch (stem element Earth), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather

than to launch new ventures. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 49-58 — Gi Hae

With a Indirect Resource (Indirect Resource) ten-god over a Water branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 59-68 — Gyeong Ja

With a Robber (Rob Wealth) ten-god over a Water branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 69-78 — Sin Chuk

With a Companion (Pillar) ten-god over a Earth branch (stem element Metal), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 79-88 — Im In

With a Hurting Officer (Hurting Officer) ten-god over a Wood branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

> In plain words: Your chart leans toward earning alongside peers — teams, partnerships, independent practice. Fields and decades that carry Water give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is Chuk (12-stage: Nurturing (nurture) — nurtured and preparing — sheltered growth before emergence), whose main hidden stem relates to your Day Master as Indirect Resource (Indirect Resource). In practice, you are drawn to partners who spark your curiosity and bring unexpected insights. Peach Blossom is present at O, adding warmth and relational magnetism.

Spouse Palace Ten-God

The spouse palace Chuk (12-stage: Nurturing) carries a main hidden stem that relates to your Day Master as Indirect Resource (Indirect Resource). In the partner domain this points toward an unusual or insight-driven partnership — the spouse domain teaches the querent things. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	Compatible	Neutral energetic exchange.
Radiant, expressive, and momentum-driven	Fire	Compatible	Neutral energetic exchange.
Grounded, nurturing, and reliability-focused	Earth	Compatible	Neutral energetic exchange.
Disciplined, precise, and structure-oriented	Metal	Good	Metal generates your Favorable Element (Water) — secondary support (Supporting Element (spirit)).
Adaptive, perceptive, and depth-seeking	Water	Best	Water is your Favorable Element (favorable element) — the core balance your chart seeks.

Three Things to Be Mindful Of

- Peach Blossom is active at O — relational magnetism is high; be deliberate about which invitations you accept.
- A natal six-combination between Sa and Shin draws the partner into a transformation toward Water energy — expect the relationship to ask for adaptation.
- The current major-luck period (Bing Shin, Direct Officer (Direct Officer) — conventional authority — career structure, rules, status, institutions) carries mixed energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

>Relationship theme per year for the next six years — read alongside the annual windows table.

Year	Pillar	Note
2026	Bing O (Direct Officer)	Fire energy + Direct Officer: structure and visible milestones (engagement, marriage, formal commitment).
2027	Jeong Mi (Seven Killings)	Fire energy + Seven Killings: intensity and transformation — expect a relationship to demand change.
2028	Mu Shin (Direct Resource)	Earth energy + Direct Resource: support and study — a partner who mentors or grounds you.
2029	Gi Yu (Indirect Resource)	Earth energy + Indirect Resource: intuition and surprise — a relationship that teaches you something unexpected.
2030	Gyeong Sul (Robber)	Metal energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.
2031	Sin Hae (Companion)	Metal energy + Companion: peer energy — friendships and partnerships strengthen.

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — Companion (3), Direct Officer (2) — so the querent tends to give and receive in those modes. The querent is naturally drawn to people who are reflective, listening, and emotionally present, and tends to feel drained by people who drain rather than nourish. Social settings where the favorable Water

element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace Chuk sitting in the Nurturing 12-stage and carrying hidden-stem ten-gods of Indirect Resource, Eating God (Output), Pillar (Companion), the querent bonds through a mix of presence and discernment. The day branch's stage matters: a Cutoff ()/Illness (illness)/Death (death) stage asks for openness and vitality, while a Tomb (tomb)//clash () stage leans toward reserve and selectivity. The hidden-stem ten-gods colour the undercurrent — Resource — the resource group — support, learning, and what sustains you leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck/Annual Luck overlays show when the querent's bond patterns shift most.

Marriage Timing Windows

The strongest windows for commitment decisions in the current and next major-luck periods: Bing Shin (ages 19-28) — favorable-element years within this window are the strongest commitment windows. Within those windows, the annual pillars whose stem element matches the favorable element are the cleanest moments to formalize; clash years are better for deepening privately.

Family Dynamics

The year pillar Sa carries ancestral and parental themes; its main hidden stem shapes how the querent absorbs (or pushes back on) family-of-origin patterns. The month pillar O is the career and sibling palace — its dynamics surface in how the querent shows up among peers and early mentors. The hour pillar Shin speaks to children and later life — its hidden stems indicate what the querent is likely to pass on, and what they will need to consciously teach. Activated classical stars: Peach Blossom at O (romantic and creative magnetism).

Partner Chart Add-On

Curious about a specific person? Add a compatibility reading — the Deep Compatibility report (\$45) — by replying with their birth details.

> In plain words: Your partnership area points toward an unusual, insight-driven partner who teaches you things. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- Element excess: Metal — pay attention to the lung/large intestine and respiratory/immune boundaries system.
- Element deficiency: Water — the kidney/bladder and hormonal/endocrine reserves system may need gentle support.
- The chart's lightest weighted element is Water (7.6%), which in classical Five-Element mapping is paired with the kidney/bladder and hormonal/endocrine reserves. This is not a diagnosis; it is the least natally emphasized system, making it the natural place to begin gentle, preventive support through water-aligned foods, seasons, and rhythms.

Grounding Practices

- Swimming, baths, or walking near rivers/lakes/ocean
- Eating black beans, seaweed, and salty foods in moderation
- Meditation or stillness practice in the evening
- North-facing study or rest spaces
- Reading, research, or journaling to settle a restless mind

The Overdrive Warning

A Balanced Metal Day Master has reasonable reserves but still needs conscious rhythm. Watch for burning out through perfectionism, grief, or respiratory tightness when output stays high without recovery windows. In classical Five-Element reading, the lung/large intestine and respiratory/immune boundaries are a common watchpoint when energy is overstretched; the Water element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The Metal Day Master is most at home in autumn; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable Water element's season (winter (the deep, still Water energy)) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Water hours of the day (per the Twelve Stages) are the most aligned — mornings for Wood, midday for Fire, transitions for Earth, afternoons for Metal, evenings for Water.

> This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.

> In plain words: Your lightest element is Water, so the kidney/bladder and hormonal/endocrine reserves are the natural place to start gentle, preventive care — through water-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern candidate: Seven Killings (Authority) / Seven Killings Grid

Pattern	Branches	Classical Note
Six Combination	Sa+Shin	transforms toward Water energy between the year and hour palaces
Three Punishment (partial)	Sa-Shin	two branches of a punishment frame without the third; a lighter but recurring structural pressure that matures slowly
Six Harm	Chuk-O	a quiet friction that can drain energy if ignored
Six Break	Shin-Sa	a disruption of an expected harmony; often appears as a changed plan or external adjustment

Pattern	Branches	Classical Note
rebellion-against-authority (Output Meets Authority)	Hurting Officer (Output) + Direct Officer (Authority)	Classical conflict pattern (): Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event.

Pattern Narratives

The engine flags a likely Seven Killings (Authority) (Seven Killings Grid) as the regular grid. This points toward a life theme shaped by high-pressure authority and decisive action — careers or life phases that demand courage under constraint. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a partial three-punishment (Three Punishment) between Sa and Shin (three-punishment Sa Shin (Wood-Metal-Fire punishment)), touching the ancestral and social-root energy — the wider world you were born into and later life and children — what you build toward and what you pass on. Two branches of a punishment frame are present without the third — a lighter but recurring structural pressure; its themes mature slowly and tend to recur until they are consciously recognized.

What This Means in Plain Language

The chart's dominant pattern candidate is Seven Killings (Authority) (Seven Killings Grid). A six-combination between Sa and Shin transforms toward Water energy, linking the year and hour palaces. A partial three-punishment between Sa and Shin — two branches of a punishment frame without the third — is a recurring structural pressure; these themes mature slowly and call for patience. Together, these patterns point to a recurring life theme rather than a single event. The favorable Water element is the querent's lever for working with — rather than against — the chart's structure.

> In plain words: The chart's organising theme is high-pressure authority and decisive action — careers or life phases that demand courage under constraint.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Position	Stem	Ten-God	Note
month_stem	Gap	Direct Wealth (Direct Wealth)	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 9–18 (Eul Mi, Indirect Wealth (Indirect Wealth) — variable money — deals, commissions, windfalls, higher risk and reward) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 59–68 (Gyeong Ja, Robber (Rob Wealth) — a rival for the same resources — competition in money or love) — a window where income, asset, or value-creation themes are more likely to surface.

- Ages 69–78 (Sin Chuk, Companion (Pillar) — a peer or equal — support, solidarity, and rivalry in equal measure) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 79–88 (Im In, Hurting Officer (Hurting Officer) — sharp output — bold expression, creativity, friction with rules and authority) — a window where income, asset, or value-creation themes are more likely to surface.

Investment Style Cue

Because your favorable element is Water and your supporting element is Metal, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Water (favorable)	north	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Metal (supporting)	west	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- Favorable orientation: Facing or sleeping with head toward north is traditionally considered supportive for your chart.
- Supporting orientation: Use west when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during the favorable Water-element years and months, and especially during major-luck periods: ages 49-58 (Gi Hae), ages 59-68 (Gyeong Ja), ages 79-88 (Im In). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Business & Launch Timing

For a Metal Day Master, the most supportive launch windows tend to come when the annual pillar carries Water or Metal energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use 1, 6 (favorable Water) and 4, 9 (supporting Metal) in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A partnership or co-launch with one credible counterparty is the most likely fit. The Authority ten-god gives the launch a stamp of legitimacy, and a partner carries the parts the querent's chart cannot carry alone.

Favorable Windows (2026-2031)

Year	Pillar	Why It Matters	Suggested Use

Quarterly / Seasonal Reminders

For a Metal Day Master, the most aligned launch window is autumn (the harvest, the refinement). Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. Annual branches that clash your natal day branch Chuk — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. Annual pillars dominated by the unfavorable element — favour audits, refinements, and quiet product work over big announcements.
3. A major-luck shift into a heavier stem (strong Direct Officer (Authority) / Seven Killings (Authority)) — use the first 1–2 years to set up systems rather than scale headcount.
4. Activated chart-punishment or self-punishment patterns during the launch year — keep partnerships small and written, not verbal.
5. Conjunction of new-moon or full-moon eclipses falling on spouse-palace or wealth-stem branches — defer the launch by 30–45 days if it lands on the public date.

Timing: Major Luck & Annual Windows

Luck direction: forward, advancing from the month pillar — derived from a yin year stem (Sin) and female gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

Current Period Deep-Dive

This decade carries a Direct Officer (Direct Officer) ten-god over a Metal branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do conserve, refine, and protect the foundation; avoid long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable Water energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows Metal (38.0%) as the most present element and Water (7.6%) as the least. Energy tends to accumulate and congest in the Metal domain; a balanced day feels like quiet movement between input, processing, and release. The Water system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- Excess system (Metal): lung/large intestine and respiratory/immune boundaries — watch for signs of over-activity or congestion.
- Deficient system (Water): kidney/bladder and hormonal/endocrine reserves — gentle rebuilding over time is usually better than forceful stimulation.

Stress Signature

When this chart goes out of balance, the most common early signals are: grief that surfaces unbidden, skin or respiratory sensitivity, and rigid perfectionism. With a Balanced reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Water):

- evening walks near water
- soup or broth as a regular meal
- 20 minutes of stillness before sleep
- reading fiction that lets the mind drift

Day-Master practice (Metal): Refine what is already there. Metal recovers through editing, polishing, and small precision.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 49-58 (Gi Hae), ages 59-68 (Gyeong Ja), ages 79-88 (Im In). Use these decades to build resilience.

Across all periods, the Water element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

Monthly Lucky Dates

The next 12 months of favorable days, selected when the daily stem element matches your Water or Metal element and the day branch does not clash your natal day branch.

> Methodology: each row filters the daily-luck (Daily Luck (Daily Luck)) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes your natal day branch.

Closing Note

Sin (Sin (Yin Metal, Sin Metal)) sits at the centre of this chart, with the chart's element balance leaning toward Metal and a ten-god distribution dominated by Companion (3), Direct Officer (2). The favorable Water element (with Metal as the quiet secondary) is the querent's main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace Chuk and the chart's relationship dynamics reward the querent for showing up consistently rather than performing. The six-combination between Sa and Shin is a quiet asset — partnerships or projects that bring two palaces into harmony, with the querent's role often as the connector. Across a full lifetime, this chart rewards the querent who studies their own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
