What 64/100 (Mixed) means: The composite is anchored so that a perfectly neutral chart (all sub-systems scoring 0) lands at 50/100 in the Mixed band; positive classical signals lift it, and negative signals lower it. a workable union in which specific sub-systems ask for deliberate attention. Mixed is not a failure — many long, happy marriages sit in this band; the chart simply flags which dimensions want conscious effort rather than riding on natural ease.

Who You Are Together (two of the people relationship character)

Together, your spouse palaces (Day Branch) hold a neutral, uncombined relation, your ten-god cross leans complementary. This composite is a tendency, not a destiny — the daily relationship is shaped by the choices both of you make over years.

> In plain words: Overall this reads as a workable match with real friction points to manage deliberately (64/100). Treat the number as a weather report, not a verdict.

Key Sub-Systems

The verdict table above lists all eleven sub-systems. The four below are the ones that most strongly shape day-to-day married life.

Day-Branch Interaction (the heart of compatibility)

-6 / 30 — Yellow Flag Day-branch interaction (Day Branch combination clash) is the heart of classical Compatibility. the two spouse palaces (Hae and Sul) have no direct combination/clash. Cross-chart branch interactions add a secondary layer (net -6, capped at ± 15).

Day-Stem Combination

+0 / 12 — Soft The two Day Masters (Sin and Gap) do not form a Heavenly-Stem Combination. Attraction through this layer is neutral; the relationship must lean on day-branch, element balance, and ten-god cross-relations.

Favorable Element Cross-Supply

+5 / 12 — Moderate Favorable Element cross-supply is the Gungtong-bogam (favorable-element method) deciding factor: does each partner's chart carry the element the other needs? Partial cross-supply exists; one partner brings more than the other.

Tags: B → A Favorable Element Water supply favorable (31%), A → B Favorable Element Fire supply (9%), A B Unfavorable Element Metal excess (28%)

Yin-Yang Polarity

+2 / 3 — Strong Day Masters: A=Yin, B=Yang. Opposite polarity — complementary dynamic. Union polarity balance: 38% Yang.

Tags: Day Master Yin-Yang Yin ↔ Yang, combination Yin-Yang unbalanced (38% Nurturing)

> In plain words: At the centre of the match, your day-to-day rhythms rub against each other — the friction sits in ordinary life, so it helps to name it early.

> Watch out for — Major Luck direction diverging major-luck directions: the two of you enter life's large phases on different timing tracks. Years that feel expansive for one can coincide with a contraction phase for the other. For any time-bound decision (wedding year, relocation, major purchase), overlay both partners' Annual Luck — the theme of a single year (annual luck) rather than reading either chart alone.

Practical Guidance

- Timing divergence. Your major-luck phases run on different tracks — overlay both annual-luck charts before big joint decisions.

Closing Note

This reading reflects the classical Kwon In-seong·Kwak Im-seong·Jeong Bong-jae·Song Gi-yeong Korean Myeongri consensus on Harish x Manvitha's natal compatibility, across all eleven sub-systems documented in. The composite score of 64/100 (Mixed) is a tendency indicator, not a destiny. No compatibility reading can account for conscious effort, life circumstances, or the choices both partners make over years. Classical Myeongri (Korean Saju tradition) text guides tendencies; the relationship itself is lived.

A note on challenging and mixed verdicts: these do not mean incompatibility. They mean the chart surfaces patterns that need deliberate, conscious attention — which is a different problem from having no resonance at all. Many long, happy marriages have charts with 'Challenging' compat scores; many short, painful ones have 'Excellent'.
