Lifetime Timeline

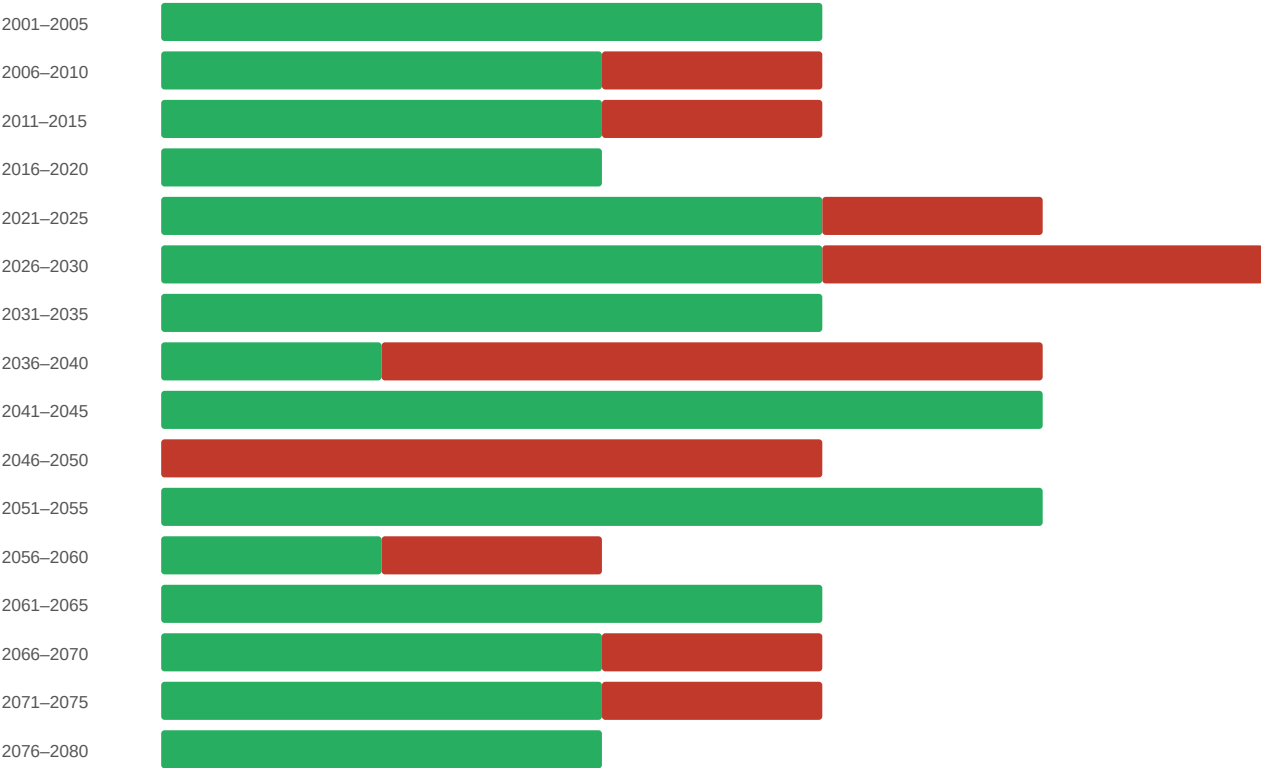

Every five-year block, colour-coded by **net** favorable lean (favorable years minus unfavorable years): green where the favorable element leads by 2+ years, red where the unfavorable leads by 2+, amber otherwise. A block showing fewer favorable years can still read green if it has no unfavorable years — the net, not the raw count, sets the colour.

2075	Eul Mi	Direct Resource	Resource	—

- **Wealth: 1 of 5** annual stems are Wealth — money, pricing and asset decisions are foregrounded. Treat this as a window to *earn and negotiate*, and to put agreements in writing.
- **Business: 2 of 5** years are Authority — an institution, rank or licensed role comes to the fore. Since Authority is your unfavorable element, read this as added structure and pressure rather than a natural fit; use it to build standing, not to over-commit.
- **Family:** The spouse palace is both **bound and unsettled** (2071 break, 2074 self-punishment, 2075 binding) — a phase where a bond can deepen or formalise, but with friction or change around it; read it as a window, not a guarantee.
- **Investment pattern:** A mixed phase — keep positions simple and liquidity available.

16. 2076–2080 (Ages 83–87) — Gi Chuk

The decade backdrop is **Gi Chuk** (Hurting Officer, Output (food hurt)), with the closing five years led by **Output (food hurt)** annual energy. 2 years of 5 carry your favorable element (**Water / Metal**) — an overall **favorable** phase. The spouse palace (day branch **O**) is activated in 2080 clash — relationship, home, or partnership themes are more likely to surface.

- **Wealth: 1 of 5** annual stems are Wealth — money, pricing and asset decisions are foregrounded. Treat this as a window to *earn and negotiate*, and to put agreements in writing.
- **Business: 2 of 5** years are Output, and Output is your favorable element — the output-feeds-wealth chain (produce → earn) is strongest here. Independent, craft- or product-led work suits this phase; the classical caution is to sustain the output without draining the self.
- **Family:** The spouse palace is struck or unsettled (2080 clash) — better for deepening privately than for formalising commitments this phase.

- **Investment pattern:** A favorable-element phase (2/5) — the chart is in better balance, which supports planning and negotiation; a natal storehouse (Death) is clashed/punished in 2078 punishment, the classical wealth storehouse 'storehouse opens' timing — the classics do not settle release vs. scatter, so treat it as a watch, not a signal; the Companion presence argues for sole holdings or partnerships with hard boundaries.
