Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance

Born: 1995-03-24 · 10:10 · Kolar, Karnataka

Time method: recorded birth time 10:10 (local clock) corrected to true solar time 09:46 (birthplace 78.2669°E vs the 82.5°E zone meridian), -23.8 min (longitude -16.9 min + equation of time -6.9 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Chart at a Glance

Four Pillars

	Year	Month	Day	Hour
Stem	Eul	Gi	Gap	Gi
Branch	Hae	Myo	In	Sa
Hidden Stems	Im (main), Gap (middle)	Eul (main)	Gap (main), Bing (middle), Mu (residual)	Bing (main), Gyeong (middle), Mu (residual)

Element Balance

Element	Presence	Percentage
● Fire		8.4%
● Earth		33.1%
● Metal		2.8%
● Water		6.3%
● Wood		49.4%

> Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- Day Master: Gap (Yang Wood, Gap Wood)
- Strength: Strong — the month branch Myo gives the Day Master a seasonally supported baseline by element relation (per Step 2); its 12-Stage Cycle stage there is Peak (emperor

flourishing) — the Day Master reaches maximum presence early; the challenge is not starting but learning to modulate intensity. Peer/resource support and the output/wealth/authority drain sit close to even.

- Favorable Element: Fire — The Day Master reads as strong, so the favorable element is the one that channels and expresses its excess. This is an engine reading — a full classical analysis may refine it. Born in a climate-neutral month, so no climate override applies here.
- Supporting Element: Earth
- Avoid / Watch: Wood
- Current Major Luck: Im O (ages 24-33)
- Luck direction: forward, advancing from the month pillar — derived from a yin year stem (Eul) and female gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- Pattern / Formation: Robber Structure / Robber Grid

What This Year Means for You

Right now, in September 2026, you are moving through a year whose energy is shaped by Bing O (Eating God (Output)). This sits inside your broader Im O major luck period (ages 24-33), whose theme is Indirect Resource. For your chart, the most useful energy to lean into this year is Fire: look for decisions, environments, and relationships that bring fire qualities forward.

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. What does "favorable element" mean in daily life? It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.
2. Should I move north or only wear fire? No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.
3. Can Saju tell me what illness I might get? No. Classical Saju maps tendencies in the body's elemental systems (e.g. excess Wood may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. How often should I get a reading? Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. What is a major luck period? A 10-year stretch of life shaped by a new stem and branch (Major Luck) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. How is Saju different from Western astrology? Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. Should I read this report chronologically? No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With Gap (Gap (Yang Wood, Gap Wood)) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the tall oak rising toward light. Your natural strengths run toward vision, initiative, and the ability to break new ground, while the shadow side can show as stubbornness or impatience when growth is blocked.

Born in a Wood chart with the engine reading as strong, the way you meet the world is shaped by how much Wood energy is available. When balanced, you express the best of Wood; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate Fire energy — the favorable element — so that your Wood nature has the right container and outlet.

Your Day Master Gap meets the month branch Myo at the peak self-presence twelve-stage — the Day Master reaches maximum presence early; the challenge is not starting but learning to modulate intensity. This is read as a seasonally supported arrival: a tendency in how the querent's core energy first enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Eul Hae (Eul (Yin Wood, Eul Wood))

The Eul Hae pillar pairs the Eul stem (Eul (Yin Wood, Eul Wood)) with the Hae branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads as Robber (Rob Wealth) relative to your Day Master, so this area of life tends to carry that dynamic.

The Water branch is the container for this area and the Wood stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the Wood element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to year-pillar matters. Hidden stems within the Hae branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Hae branch or the Eul stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Gi Myo (Gi (Yin Earth, Gi Earth))

The Gi Myo pillar pairs the Gi stem (Gi (Yin Earth, Gi Earth)) with the Myo branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Direct Wealth relative to your Day Master, so this area of life tends to carry that dynamic.

The Wood branch is the container for this area and the Earth stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the Earth element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to month-pillar matters. Hidden stems within the Myo branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Myo branch or the Gi stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Gap In (Gap (Yang Wood, Gap Wood))

The Gap In pillar pairs the Gap stem (Gap (Yang Wood, Gap Wood)) with the In branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Wood branch is the container for this area and the Wood stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the Wood element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to day-pillar matters. Hidden stems within the In branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the In branch or the Gap stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Gi Sa (Gi (Yin Earth, Gi Earth))

The Gi Sa pillar pairs the Gi stem (Gi (Yin Earth, Gi Earth)) with the Sa branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Direct Wealth relative to your Day Master, so this area of life tends to carry that dynamic.

The Fire branch is the container for this area and the Earth stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the Earth element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to hour-pillar matters. Hidden stems within the Sa branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sa branch or the Gi stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Eul Hae	Eul	Robber (Rob Wealth)	Im (main), Gap (middle)	Indirect Resource, Pillar (Companion)	Outer layer: Robber (Rob Wealth); inner driver through the branch: Indirect Resource.
Month Pillar — Gi Myo	Gi	Direct Wealth	Eul (main)	Rob Wealth (Companion)	Outer layer: Direct Wealth; inner driver through the branch: Rob Wealth (Companion).
Day Pillar — Gap In	Gap	Companion (Pillar)	Gap (main), Bing (middle), Mu (residual)	Pillar (Companion), Eating God (Output), Indirect Wealth	Outer layer: Companion (Pillar); inner driver through the branch: Pillar (Companion).
Hour Pillar — Gi Sa	Gi	Direct Wealth	Bing (main), Gyeong (middle), Mu (residual)	Eating God (Output), Seven Killings (Authority), Indirect Wealth	Outer layer: Direct Wealth; inner driver through the branch: Eating God (Output).

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> In plain words: Where your chart puts its weight: most of all on peers, rivals, and how you hold your own.

> In plain words: At your core you are a growing tree — you push upward and branch out. Your chart reads as strong, so the rest of this report is about where that helps and where leaning toward Fire keeps you in balance.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Fire and supporting element Earth describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck and Annual Luck tables to see when income and value-creation themes surface most clearly. Periods dominated by Wood call for conservation rather than expansion.

Employment vs. Entrepreneurship

The Day Master reads as strong with visible Output or Wealth stems, which favours independent paths once the querent has built enough foundation to hold the variability. Treat this as a tendency reading, not a verdict; the Major Luck and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

Income tends to arrive in steady increments — a salaried baseline, retainer work, or recurring contracts. The Direct Wealth stem is visible but not echoed in a branch, so the source is real but may need more conscious maintenance to stay durable.

Skill-Levers to Develop

Companion-dominant charts tend to grow fastest through peer collaboration, team facilitation, and honest self-assessment. Cultivate public visibility — speaking, publishing, or teaching — to light Fire's radiance.

Wealth Preservation Note

For a Wood Day Master with a Strong reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Fire element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Partnerships and joint ventures work well when the partner's element supports Fire; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Fire-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

A boutique firm or solo practice is the most likely fit. The Seven Killings presence without Direct Officer prefers competitive, high-velocity environments over bureaucratic ones, and the strong Day Master can absorb the volatility.

Boss / Team Dynamics

The ideal manager profile is a warm Fire motivator — someone who carries your favorable Fire element, supplying what the chart needs rather than competing with your Day Master. Watch for constant crisis mode that fragments Wood's growth; this is the most common way the querent's energy gets drained in a team setting.

Red-Flag Environments

Look out for: slow bureaucratic processes that the querent's energy quickly overruns; unclear decision rights — strong Day Masters struggle without ownership; teams that refuse to challenge the querent's ideas.

Decade-by-Decade Career Strategy

Ages 4-13 — Gyeong Jin

With a Seven Killings ten-god over a Earth branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 14-23 — Sin Sa

With a Direct Officer ten-god over a Fire branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 24-33 — Im O

With a Indirect Resource ten-god over a Fire branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 34-43 — Gye Mi

With a Direct Resource ten-god over a Earth branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 44-53 — Gap Shin

With a Companion (Pillar) ten-god over a Metal branch (stem element Wood), this is a conserve and consolidate decade. Protect what already works; defer large bets and focus on craft and relationships. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 54-63 — Eul Yu

With a Robber (Rob Wealth) ten-god over a Metal branch (stem element Wood), this is a conserve and consolidate decade. Protect what already works; defer large bets and focus on craft and relationships. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 64-73 — Bing Sul

With a Eating God ten-god over a Earth branch (stem element Fire), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 74-83 — Jeong Hae

With a Hurting Officer ten-god over a Water branch (stem element Fire), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Fire energy are the most reliable for visible wins; the others are best used for quiet preparation.

> In plain words: Your chart leans toward earning alongside peers — teams, partnerships, independent practice. Fields and decades that carry Fire give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is In (12-stage: Strong / Earning), whose main hidden stem relates to your Day Master as Companion (Pillar). In practice, you want a partner who feels like an equal — neither admiring nor competing, just present. Peach Blossom is present at Myo, adding warmth and relational magnetism. By Japyeong-jinjeon's gendered spouse-star convention, your husband star (Authority, husband star) appears at Gyeong (hour branch middle).

Spouse Palace Ten-God

The spouse palace In (12-stage: Strong / Earning) carries a main hidden stem that relates to your Day Master as Companion (Pillar (Companion)). In the partner domain this points toward a peer-like partnership where independence and togetherness stay in balance. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	Watch	Wood is your challenging element — it works against the balance your chart seeks.
Radiant, expressive, and momentum-driven	Fire	Best	Fire is your favorable element — the core balance your chart seeks.
Grounded, nurturing, and reliability-focused	Earth	Good	Earth helps drain or channel your strong Day Master — a complementary force.
Disciplined, precise, and structure-oriented	Metal	Good	Metal helps drain or channel your strong Day Master — a complementary force.
Adaptive, perceptive, and depth-seeking	Water	Watch	Water (Resource) feeds your already-strong self and can amplify imbalance.

Three Things to Be Mindful Of

- Peach Blossom is active at Myo — relational magnetism is high; be deliberate about which invitations you accept.
- A natal clash between Sa and Hae brings recurring pressure between two life palaces; in relationships, this often shows up as competing priorities.
- The current major-luck period (Im O, Indirect Resource — unconventional learning — intuition, solitary study, restless over-thinking) carries favorable energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

>Relationship theme per year for the next six years — read alongside the annual windows table.

Year	Pillar	Note
2026	Bing O (Eating God)	Fire energy + Eating God: creative expression together — shared projects, craft, or quiet collaboration.
2027	Jeong Mi (Hurting Officer)	Fire energy + Hurting Officer: candid expression together — direct conversation, art, or public collaboration.
2028	Mu Shin (Indirect Wealth)	Earth energy + Indirect Wealth: variety and social expansion — meeting new people, diversifying the social circle.
2029	Gi Yu (Direct Wealth)	Earth energy + Direct Wealth: stability and value-sharing — good for settling into a long-term rhythm.
2030	Gyeong Sul (Seven Killings)	Metal energy + Seven Killings: intensity or pressure in a relationship — per Myeongri-jeongjong (Korean school), Seven Killings (Authority) years read with more caution than Direct Officer (Authority) for a female Day Master; not automatically a commitment year.
2031	Sin Hae (Direct Officer)	Metal energy + Direct Officer: structure and visible milestones (engagement, marriage, formal commitment).

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — Companion (5), Wealth (4) — so the querent tends to give and receive in those modes. The querent is naturally drawn to people who are visible, expressive, and energetic, and tends to feel drained by people who refuse to grow or change. Social settings where the favorable Fire element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace In sitting in the Strong / Earning 12-stage and carrying hidden-stem ten-gods of Pillar (Companion), Eating God (Output), Indirect Wealth, the querent bonds through a mix of presence and discernment. The Strong / Earning stage is one of the supported (strong) stages, so the querent tends to bring energy and presence into the bond. The hidden-stem ten-gods colour the undercurrent — Resource leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck/Annual Luck overlays show when the querent's bond patterns shift most.

Marriage Timing Windows

Commitment timing is read from your husband star and your spouse palace In (the day branch). Neither the current nor the next major-luck period carries the spouse star or binds the spouse palace, so the annual years below carry more of the weight. The years where the most signals converge: 2030 Gyeong Sul (Seven Killings (Authority) spouse-star year, In O Sul three-harmony through the spouse palace); 2031 Sin Hae (Direct Officer (Authority) spouse-star year, Hae In Six Harmony into the spouse palace; offset by Hae In break on the spouse palace). Years better suited to deepening privately than to formalising: 2027 (Hurting Officer (Output) year); 2028 (Shin In clash/punishment on the spouse palace); 2032 (a void (empty) year, so gains may feel less solid). These are tendencies for when the theme is most active — not predictions of an event.

Family Dynamics

The year pillar Hae carries ancestral and parental themes; its main hidden stem shapes how the querent absorbs (or pushes back on) family-of-origin patterns. The month pillar Myo is the career and sibling palace — its dynamics surface in how the querent shows up among peers and early mentors. The hour pillar Sa speaks to children and later life — its hidden stems indicate what the querent is likely to pass on, and what they will need to consciously teach. Activated classical stars: Peach Blossom at Myo (romantic and creative magnetism).

Partner Chart Add-On

Curious about a specific person? Add a compatibility reading — the Deep Compatibility report (\$45) — by replying with their birth details.

> In plain words: Your partnership area points toward a partner who feels like an equal — independence and closeness held in balance. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- Element excess: Wood — pay attention to the liver/gall bladder and nervous system system.
- Element deficiency: Metal — the lung/large intestine and respiratory/immune boundaries system may need gentle support.
- The chart's lightest weighted element is Metal (2.8%), which in classical Five-Element mapping is paired with the lung/large intestine and respiratory/immune boundaries. This is not a diagnosis; it is the least natively emphasized system, making it the natural place to begin gentle, preventive support through metal-aligned foods, seasons, and rhythms.

Grounding Practices

- Short midday walks in sunlight
- Eating bitter greens, red-colored vegetables, and warm foods
- Speaking or performing in well-lit south-facing spaces
- Taking brief social breaks to rekindle enthusiasm
- Journaling by candlelight to focus scattered Fire

The Overdrive Warning

A Strong Wood Day Master has surplus self-energy and may push past the body without noticing. Watch for burning out through over-effort, irritability, or muscular tension, especially during demanding seasons or under high-output projects. In classical Five-Element reading, the liver/gall bladder and nervous system are a common watchpoint when energy is overstretched; the Fire element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The Wood Day Master is most at home in spring; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable Fire element's season (summer (the peak Fire energy)) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Fire hours (by the twelve branch hours) are the most aligned — Sa O hours, 09:00–13:00.

> This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.

> In plain words: Your lightest element is Metal, so the lung/large intestine and respiratory/immune boundaries are the natural place to start gentle, preventive care — through metal-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern candidate: Robber Structure / Robber Grid

Pattern	Branches	Classical Note
Six Combination	In+Hae	binds the two branches without transforming (binding without transforming, binding without transforming) — Wood is not in season at the month branch or a member is struck by a clash, so read it as a tie, not a new Wood force; links the year and day palaces
Half Harmony	Hae+Myo	two of the Hae Myo Mi (Wood) frame (Half Harmony) — a partial Wood empowerment
Six Clash	Sa↔Hae	a tension or activation between two life palaces; often a call to adjust, release, or decide
Three Punishment (partial)	In-Sa	two branches of a punishment frame without the third; a lighter but recurring structural pressure that matures slowly
Six Harm	In-Sa	a quiet friction that can drain energy if ignored
Six Break	In-Hae	a disruption of an expected harmony; often appears as a changed plan or external adjustment

Pattern Narratives

The engine flags a likely Robber Grid as the regular grid. This points toward a life theme shaped by competition and shared resources — success tends to come through teamwork, negotiation, and knowing when to cooperate or compete. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a partial Three Punishment between In and Sa (three-punishment In Sa (Wood-Metal-Fire punishment)), touching the spouse palace and the inner self — the partner you choose and the self behind the choices and later life and children — what you build toward and what you pass on. Two branches of a punishment frame are present without the third — a lighter but recurring structural pressure; its themes mature slowly and tend to recur until they are consciously recognized.

What This Means in Plain Language

The chart's dominant pattern candidate is Robber Grid. A six-combination between In and Hae binds the two branches without transforming (binding without transforming, binding without transforming) — Wood is not in season at the month branch or a member is struck by a clash, so read it as a tie, not a new Wood force, linking the year and day palaces. A natal clash between Sa and Hae brings recurring pressure and asks the querent to make conscious choices between the two palaces involved. A partial three-punishment between In and Sa — two branches of a punishment frame without the third — is a recurring structural pressure; these themes mature slowly and call for patience. Together, these patterns point to a recurring life theme rather than a single event. The favorable Fire element is the querent's lever for working with — rather than against — the chart's structure.

> In plain words: The chart's organising theme is competition and shared resources — success tends to come through teamwork, negotiation, and knowing when to cooperate or compete.

Other Active Star

Counted from your day branch In (common modern practice; traditional Korean practice counts from the year branch, which can give a different set of stars).

- In (Tiger) (at Sa): favorable for academic and literary work, exams, and written expression — a native facility with words and ideas.
- Robbery Star (rob evil) (at Hae): sudden loss, theft, or unexpected competition — can also mark a capacity for decisive action.
- Movement Star (at In): a movement/departure marker — relocation, travel, job or residence changes; a milder, more passive sibling of the travel star (Post Horse).
- Annual Star (at Myo): sits on the same branch as the peach-blossom star (Peach Blossom) — charm, attraction, and social visibility.
- Loss-of-Face (at Sa): mental dispersion, forgetfulness, or scattered energy; can also indicate hidden schemes.
- Monthly Virtue (at Gap): monthly/quarterly support, popularity, and smooth assistance from people around the querent.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Position	Stem	Ten-God	Note
month_stem	Gi	Direct Wealth	Natal wealth signal visible here.
day_branch_residual	Mu	Indirect Wealth	Natal wealth signal visible here.
hour_stem	Gi	Direct Wealth	Natal wealth signal visible here.
hour_branch_residual	Mu	Indirect Wealth	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 64–73 (Bing Sul, Eating God — gentle output — talent, making, teaching, slow enjoyable accumulation) — your favorable element is active here, supporting overall balance rather than specifically signaling a wealth-influx window.
- Ages 74–83 (Jeong Hae, Hurting Officer — sharp output — bold expression, creativity, friction with rules and authority) — your favorable element is active here, supporting overall balance rather than specifically signaling a wealth-influx window.

Investment Style Cue

Because your favorable element is Fire and your supporting element is Earth, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Fire (favorable)	south	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Earth (supporting)	center	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- Favorable orientation: Facing or sleeping with head toward south is traditionally considered supportive for your chart.
- Supporting orientation: Use center when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during Fire (and supporting Earth)-element years and months, and especially during these supportive major-luck periods: ages 4-13 (Gyeong Jin), ages 14-23 (Sin Sa), ages 24-33 (Im O). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Business & Launch Timing

For a Wood Day Master, the most supportive launch windows tend to come when the annual pillar carries Fire or Earth energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use 2, 7 (favorable Fire) and 0, 5 (supporting Earth) in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A public campaign with a clear voice is the most likely fit. Strong Day Masters with visible Output stems can carry the visibility, and a public launch reads as confidence rather than risk. Pair it with a small but engaged audience rather than a mass-broadcast feel.

Year-by-Year Launch Timing (2026-2031)

Year	Pillar	Why It Matters	Suggested Use
2026	Bing O	Eating God (Fire energy + Eating God — a favorable-element year.)	creative production, writing, speaking, teaching
2027	Jeong Mi	Hurting Officer (Fire/Earth energy + Hurting Officer — a favorable-element year.)	creative production, writing, speaking, teaching
2028	Mu Shin	Indirect Wealth (Earth/Metal energy + Indirect Wealth — a supporting-element year.)	income launches, negotiations, value-pricing
2029	Gi Yu	Direct Wealth (Earth/Metal energy + Direct Wealth — a supporting-element year.)	income launches, negotiations, value-pricing
2030	Gyeong Sul	Seven Killings (Metal/Earth energy + Seven Killings — a supporting-element year.)	career moves, credentials, formal commitments

Year	Pillar	Why It Matters	Suggested Use
2031	Sin Hae	Direct Officer (Metal/Water energy + Direct Officer — a mixed year.)	career moves, credentials, formal commitments

Quarterly / Seasonal Reminders

With Fire as the favorable element, the most aligned launch window is summer (peak Fire energy supports visible launches), the favorable element's own season. Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. Annual branches that clash your natal day branch In — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. Annual pillars dominated by the unfavorable element — favour audits, refinements, and quiet product work over big announcements.
3. A major-luck shift into a heavier stem (strong Direct Officer (Authority) / Seven Killings (Authority)) — use the first 1-2 years to set up systems rather than scale headcount.
4. Activated chart-punishment or self-punishment patterns during the launch year — keep partnerships small and written, not verbal.
5. Conjunction of new-moon or full-moon eclipses falling on spouse-palace or wealth-stem branches — defer the launch by 30-45 days if it lands on the public date.

Timing: Major Luck & Annual Windows

Luck direction: forward, advancing from the month pillar — derived from a yin year stem (Eul) and female gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

starting age: ~4.0 (~12.1 days to the qualifying solar term ÷ 3, per 's "3 days = 1 year" rule) — the first major-luck period begins roughly 48 months after birth (≈ Mar 1999), inside the 4-13 decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) apps round this to a whole Major Luck Water 4 and list decades as 4, 14, 24... (often in Korean age), so their labels can differ from the table below by a year or so while describing the same periods.

Current Period Deep-Dive

This decade carries a Indirect Resource ten-god over a Fire branch — a clearly favorable window for visible wins. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do push visible projects, plant seeds, and request what is owed; avoid starting too many things at once. Within this decade, years and months whose stem element matches the favorable Fire energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows Wood (49.4%) as the most present element and Metal (2.8%) as the least. Energy tends to accumulate and congest in the Wood domain; a balanced day feels like quiet movement between input, processing, and release. The Metal system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- Excess system (Wood): liver/gall bladder and nervous system — watch for signs of over-activity or congestion.
- Deficient system (Metal): lung/large intestine and respiratory/immune boundaries — gentle rebuilding over time is usually better than forceful stimulation.

Stress Signature

When this chart goes out of balance, the most common early signals are: irritability or quick frustration, neck/shoulder tension, and indecision or feeling stuck. With a Strong reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Fire):

- midday sunlight exposure (10–15 minutes)
- a creative project with a visible output each week
- a shared meal with company
- a daily moment of celebration or laughter

Day-Master practice (Wood): Learn in public — teach, write, or share. Wood feeds on growth that has an audience.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 4-13 (Gyeong Jin), ages 14-23 (Sin Sa), ages 24-33 (Im O). Use these decades to build resilience.

Conservation windows — the chart asks for gentler practice during: ages 44-53 (Gap Shin), ages 54-63 (Eul Yu). Reduce load, deepen recovery, and avoid starting ambitious new regimens in these years.

Across all periods, the Fire element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

Monthly Lucky Dates

The next 12 months of favorable days, selected when the daily stem element matches your Fire or Earth element and the day branch does not clash, harm, or break your natal day or hour branch.

> Methodology: each row filters the daily-luck (Daily Luck) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes, harms, or breaks against your natal day or hour branch.

> Almanac caveat: this is a chart-relative shortlist, not a finished date selection — a full date selection also weighs the day's own almanac assignment, the specific event type, and local custom.

Practical Guidance Summary

Top 5 Strengths

- Wood Day Master strength — visionary leadership and the ability to set long-term direction.
- Companion-dominant — the ability to collaborate as an equal without losing self.
- Direct Wealth-dominant — the ability to hold and grow resources with discipline.
- Favorable Fire responsiveness — the chart has a clear lever for growth, which not every chart does.

Top 5 Growth Areas

- Rest as discipline — output without recovery is the most common failure mode for this chart.
- Boundary-setting — learning to say no without guilt protects the Wood Day Master's energy.
- Working with the unfavorable Wood element — denial amplifies it; conscious engagement contains it.
- Asking for help early — Wood Day Masters often wait too long before reaching out.

5 Practical Recommendations

Closing Note

Gap (Gap (Yang Wood, Gap Wood)) sits at the centre of this chart, with the chart's element balance leaning toward Wood and a ten-god distribution dominated by Companion (5), Wealth (4). The favorable Fire element (with Earth as the quiet secondary) is the querent's main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace In and the chart's relationship dynamics reward the querent for showing up consistently rather than performing. The natal clash between Sa and Hae is a recurring pressure; the chart's gift is that the querent has already learned how to navigate it — and the favorable element makes the navigation gentler. The six-combination between In and Hae is a quiet asset — partnerships or projects that bring two palaces into harmony, with the querent's role often as the connector. Across a full lifetime, this chart rewards the querent who studies their own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
