RM (Kim Nam-joon) — Essential Report

Your natal chart, career arc, decade cycles, and lucky-element guide

Born: 1994-09-12 · 13:28 · Seoul

Time method: recorded birth time 13:28 (local clock) corrected to true solar time 13:00 (birthplace 126.978°E vs the 135.0°E zone meridian), -27.7 min (longitude -32.1 min + equation of time +4.4 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

> *⚠ Hour-boundary note: the corrected time is only ~17 seconds from a 2-hour branch boundary. If the recorded clock time carries even a few minutes of error, the neighboring hour pillar (甲午, vs the primary 乙未 used above) is a plausible alternative — treat the hour pillar (and its palace themes) as lower-confidence in this reading.*

Day Master: Sin (Yin Metal, 辛金)

Element Balance

Element	Presence	Percentage
● Fire		3.7%
● Earth		16.9%
● Metal		28.7%
● Water		16.6%
● Wood		34.1%

Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems (藏干) at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- Day Master: Sin (Yin Metal, 辛金)

• Strength: Strong — the month branch Yu (酉) gives the Day Master a seasonally supported baseline by element relation (per Step 2); its 12-Stage Cycle (운성) stage there is Strong / Earning (건록) (build salary) — the Day Master is already strong in the month branch, so competence arrives without much fanfare. The output/wealth/authority drain outweighs the peer and resource support.

• Favorable Element: Water — The Day Master reads as strong, so the favorable element is the one that channels and expresses its excess. This is an engine reading — a full classical analysis may refine it. Born in a climate-neutral month, so no climate (조후) override applies here.

• Supporting Element: Wood

• Avoid / Watch: Metal

• Current Major Luck: Bing Ja (丙子) (ages 28-37)

• Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

• Pattern / Formation: Companion Structure (비견격) / Companion Grid

What This Year Means for You

Right now, in October 2026, you are moving through a year whose energy is shaped by Bing O (丙午) (Direct Officer (Authority)). This sits inside your broader Bing Ja (丙子) major luck period (ages 28–37), whose theme is Direct Officer (Authority) (정관) — conventional authority — career structure, rules, status, institutions. For your chart, the most useful energy to lean into this year is Water: look for decisions, environments, and relationships that bring water qualities forward.

Day Master Portrait

With Sin (辛) (Sin □0□) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the polished jewel or fine instrument. Your natural strengths run toward precision, refinement, and a gift for detail and quality, while the shadow side can show as perfectionism, detachment, or being easily bruised by criticism.

Four Pillars, One by One

Year Pillar — Gap Sul (甲戌) (Gap □0□)

The Gap Sul (甲戌) pillar pairs the Gap (甲) stem (Gap □0□) with the Sul (戌) branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads

as Direct Wealth relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Wood stem is its driver — read the two together when weighing how year-pillar matters unfold.

Month Pillar — Gye Yu (癸酉) (Gye □0□)

The Gye Yu (癸酉) pillar pairs the Gye (癸) stem (Gye □0□) with the Yu (酉) branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Eating God relative to your Day Master, so this area of life tends to carry that dynamic.

The Metal branch is the container for this area and the Water stem is its driver — read the two together when weighing how month-pillar matters unfold.

Day Pillar — Sin Chuk (辛丑) (Sin □0□)

The Sin Chuk (辛丑) pillar pairs the Sin (辛) stem (Sin □0□) with the Chuk (丑) branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Metal stem is its driver — read the two together when weighing how day-pillar matters unfold.

Hour Pillar — Eul Mi (乙未) (Eul □0□)

The Eul Mi (乙未) pillar pairs the Eul (乙) stem (Eul □0□) with the Mi (未) branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Indirect Wealth relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Wood stem is its driver — read the two together when weighing how hour-pillar matters unfold.

> *In plain words: At your core you are a refined blade — you cut to the point and value quality. Your chart reads as strong, so the rest of this report is about where that helps and where leaning toward Water keeps you in balance.*

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Water and supporting element Wood describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck (대운) (Major Luck) and Annual Luck (세운) (Annual Luck) tables to see when income and value-creation themes surface most clearly. Periods dominated by Metal call for conservation rather than expansion.

Wealth Preservation Note

For a Metal Day Master with a Strong reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Water element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck (대운) periods. Lean on Water-aligned custodians and instruments rather than chasing growth alone.

> *In plain words: Your chart leans toward earning alongside peers — teams, partnerships, independent practice. Fields and decades that carry Water give the cleanest results; the timing tables show when.*

Timing: Major Luck Periods

Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

starting age: ~8.8 (~26.3 days to the qualifying 節氣 ÷ 3, per 's "3 days = 1 year" rule) — the first major-luck period begins roughly 105 months after birth (≈ Jun 2003), inside the 8-17 decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) (만세력) apps round this to a whole Major Luck Water (대운수) 9 and list decades as 9, 19, 29… (often in Korean age),

so their labels can differ from the table below by a year or so while describing the same periods.

Major Luck Periods

Age	Pillar	Elements (Stem / Branch)	Ten-God	Career Theme	Relationship Theme
8-17	Gap Sul (甲戌)	Wood / Earth	Direct Wealth (正財)	income, assets, or value-creation themes	shared resources or lifestyle alignment

48-57	Mu In (戊寅)	Earth / Wood	Direct Resource (正印)	study, mentorship, or skill-building	nurturing, support, or healing connection
58-67	Gi Myo (己卯)	Earth / Wood	Indirect Resource (偏印)	study, mentorship, or skill-building	nurturing, support, or healing connection
68-77	Gyeong Jin (庚辰)	Metal / Earth	Robber (Rob Wealth)	peer-driven or self-defined work (mixed — protect, don't overcommit)	friendship-based or peer dynamic

Current Period Deep-Dive

This decade carries a Direct Officer ten-god over a Water branch — a clearly favorable window for visible wins. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do push visible projects, plant seeds, and request what is owed; avoid starting too many things at once. Within this decade, years and months whose stem element matches the favorable Water energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Structurally, its stem Bing (丙) combines with your natal Sin (辛) (Byeong-Sin Water combination), tying up what that stem represents.

> *In plain words: You are currently in a tailwind decade — a good stretch to push on the things that matter. Zoom in with the year and month windows that carry Water.*

30-Day Action Plan

A short, focused cycle designed to bring more Water energy into your daily rhythm. These steps are tendencies and invitations, not prescriptions — adapt them to your schedule and comfort.

Week	Focus	Suggested Action
Week 1	Tune the environment	Add black accents, face north when working, and clear one space that feels stagnant.
Week 2	Feed the element	Bring black beans, seaweed, salty foods in moderation, soups and broths into two meals a day and notice which foods leave you feeling steady.
Week 3	Move with the energy	Take one daily walk or practice session at the time of day that carries water qi for you.
Week 4	Make one aligned decision	Choose one small career, relationship, or health choice that leans into your favorable element and notice the result.

> *Carry the chart’s strength into action gradually. Big changes built on small, consistent moves tend to outlast dramatic swings.*

Closing Note

This chart's gift is a strong companion presence that gives the querent real follow-through; the challenge is staying aware of the chart's pressure points rather than letting them run in the background. The single most useful next step is to weave the favorable Water element into daily rhythm — through color, direction, season, or practice — so the chart has somewhere to land. Treat the rest of this report as a starting place; the best readings come from revisiting the same chart across different life phases.
