Time method: recorded birth time 23:45 (local clock) corrected to true solar time 23:43 (birthplace 79.19°E vs the 82.5°E zone meridian), -1.4 min (longitude -13.2 min + equation of time +11.8 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Chart at a Glance

Four Pillars

	Year	Month	Day	Hour
Stem	Sin	Jeong	Bing	Gyeong
Branch	Mi	Yu	O	Ja
Hidden Stems	Gi (main), Eul (middle), Jeong (residual)	Sin (main)	Jeong (main), Gi (middle)	Gye (main)

Element Balance

Element	Presence	Percentage
● Fire		38.4%
● Earth		8.8%
● Metal		40.6%
● Water		9.4%
● Wood		2.8%

> Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- Day Master: Bing (Yang Fire, Bing Fire)
- Strength: Balanced — the month branch Yu gives the Day Master a seasonally weak baseline by element relation (per Step 2); its 12-Stage Cycle stage there is Death — one

cycle is completing as the querent enters the world, so early identity may feel transitional. The output/wealth/authority drain outweighs the peer and resource support — the element-relation season above (weighted more heavily in the overall formula) is what pulls the total back into the balanced range despite that skew.

- Favorable Element: Water — Favorable element confirmed by the reader from the full classical analysis. Confirmed by a human reader from the full classical analysis.
- Supporting Element: Metal
- Avoid / Watch: Fire (Unfavorable Element, watch) · Earth (Restraining Element, restrains Water) · Wood (Draining Element, drains Water)
- Current Major Luck: Gap O (ages 28-37)
- Luck direction: backward, retracing from the month pillar — derived from a yin year stem (Sin) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- Pattern / Formation: Direct Wealth Structure / Direct Wealth Grid

What This Year Means for You

Right now, in September 2026, you are moving through a year whose energy is shaped by Bing O (Pillar (Companion)). This sits inside your broader Gap O major luck period (ages 28–37), whose theme is Indirect Resource. For your chart, the most useful energy to lean into this year is Water: look for decisions, environments, and relationships that bring water qualities forward.

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. What does "favorable element" mean in daily life? It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.
2. Should I move north or only wear water? No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.
3. Can Saju tell me what illness I might get? No. Classical Saju maps tendencies in the body's elemental systems (e.g. excess Wood may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. How often should I get a reading? Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. What is a major luck period? A 10-year stretch of life shaped by a new stem and branch (Major Luck) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. How is Saju different from Western astrology? Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. Should I read this report chronologically? No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With Bing (Bing (Yang Fire, Bing Fire)) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the sun illuminating a wide horizon. Your natural strengths run toward warmth, generosity, and the power to inspire others, while the shadow side can show as pride, burnout, or scattered attention when overextended.

Born in a Fire chart with the engine reading as balanced, the way you meet the world is shaped by how much Fire energy is available. When balanced, you express the best of Fire; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate Water energy — the favorable element — so that your Fire nature has the right container and outlet.

Your Day Master Bing meets the month branch Yu at the phase-ending start twelve-stage — one cycle is completing as the querent enters the world, so early identity may feel transitional. This is read as a seasonally depleted arrival: a tendency in how the querent's core energy first enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Sin Mi (Sin (Yin Metal, Sin Metal))

The Sin Mi pillar pairs the Sin stem (Sin (Yin Metal, Sin Metal)) with the Mi branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads as Direct Wealth relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Metal stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the Metal element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to year-pillar matters. Hidden stems within the Mi branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Mi branch or the Sin stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Jeong Yu (Jeong (Yin Fire, Jeong Fire))

The Jeong Yu pillar pairs the Jeong stem (Jeong (Yin Fire, Jeong Fire)) with the Yu branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Robber (Rob Wealth) relative to your Day Master, so this area of life tends to carry that dynamic.

The Metal branch is the container for this area and the Fire stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the Fire element, it tends to bring fire-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to month-pillar matters. Hidden stems within the Yu branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Yu branch or the Jeong stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Bing O (Bing (Yang Fire, Bing Fire))

The Bing O pillar pairs the Bing stem (Bing (Yang Fire, Bing Fire)) with the O branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Fire branch is the container for this area and the Fire stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the Fire element, it tends to bring fire-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to day-pillar matters. Hidden stems within the O branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the O branch or the Bing stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Gyeong Ja (Gyeong (Yang Metal, Gyeong Metal))

The Gyeong Ja pillar pairs the Gyeong stem (Gyeong (Yang Metal, Gyeong Metal)) with the Ja branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Indirect Wealth relative to your Day Master, so this area of life tends to carry that dynamic.

The Water branch is the container for this area and the Metal stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the Metal element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to hour-pillar matters. Hidden stems within the Ja branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Ja branch or the Gyeong stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Sin Mi	Sin	Direct Wealth	Gi (main), Eul (middle), Jeong (residual)	Hurting Officer (Output), Direct Resource, Rob Wealth (Companion)	Outer layer: Direct Wealth; inner driver through the branch: Hurting Officer (Output).
Month Pillar — Jeong Yu	Jeong	Robber (Rob Wealth)	Sin (main)	Direct Wealth	Outer layer: Robber (Rob Wealth); inner driver through the branch: Direct Wealth.
Day Pillar — Bing O	Bing	Companion (Pillar)	Jeong (main), Gi (middle)	Rob Wealth (Companion), Hurting Officer (Output)	Outer layer: Companion (Pillar); inner driver through the branch: Rob Wealth (Companion).
Hour Pillar — Gyeong Ja	Gyeong	Indirect Wealth	Gye (main)	Direct Officer (Authority)	Outer layer: Indirect Wealth; inner driver through the branch: Direct Officer (Authority).

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> In plain words: Where your chart puts its weight: most of all on peers, rivals, and how you hold your own.

> In plain words: At your core you are a flame — you light things up and move fast. Your chart reads as balanced, so the rest of this report is about where that helps and where leaning toward Water keeps you in balance.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Water and supporting element Metal describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck and Annual Luck tables to see when income and value-creation themes surface most clearly. Periods dominated by Fire call for conservation rather than expansion.

Employment vs. Entrepreneurship

The Authority and Wealth pulls are present but balanced, so either path is workable — the deciding factor will be which environment the querent can sustain emotionally for a decade. Treat this as a tendency reading, not a verdict; the Major Luck and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

Income tends to arrive in steady increments — a salaried baseline, retainer work, or recurring contracts. The Direct Wealth stem is rooted in a branch, so the source is durable and the rhythm is rarely interrupted by surprise windfalls.

Skill-Levers to Develop

Robber-dominant charts tend to grow fastest through competitive positioning, negotiation, and boundary-setting. Cultivate listening and reflective writing to strengthen Water's receptive quality.

Wealth Preservation Note

For a Fire Day Master with a Balanced reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Water element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Partnerships and joint ventures work well when the partner's element supports Water; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Water-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

Large institutions and mid-size specialists are the most likely fit. The Direct Officer influence values hierarchy, credential, and a clear chain of accountability — the querent is most productive when the structure around them is unambiguous.

Boss / Team Dynamics

The ideal manager profile is a patient, perceptive Water advisor — someone who carries your favorable Water element, supplying what the chart needs rather than competing with your Day Master. Watch for cold isolation that starves Fire's warmth; this is the most common way the querent's energy gets drained in a team setting.

Red-Flag Environments

Look out for: long stretches of Fire-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

Decade-by-Decade Career Strategy

Ages 8-17 — Bing Shin

With a Companion (Pillar) ten-god over a Metal branch (stem element Fire), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 18-27 — Eul Mi

With a Direct Resource ten-god over a Earth branch (stem element Wood), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 28-37 — Gap O

With a Indirect Resource ten-god over a Fire branch (stem element Wood), this is a conserve and consolidate decade. Protect what already works; defer large bets and focus on craft and relationships. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 38-47 — Gye Sa

With a Direct Officer ten-god over a Fire branch (stem element Water), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 48-57 — Im Jin

With a Seven Killings ten-god over a Earth branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 58-67 — Sin Myo

With a Direct Wealth ten-god over a Wood branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 68-77 — Gyeong In

With a Indirect Wealth ten-god over a Wood branch (stem element Metal), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 78-87 — Gi Chuk

With a Hurting Officer ten-god over a Earth branch (stem element Earth), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Water energy are the most reliable for visible wins; the others are best used for quiet preparation.

> In plain words: Your chart leans toward earning alongside peers — teams, partnerships, independent practice. Fields and decades that carry Water give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is O (12-stage: Peak), whose main hidden stem relates to your Day Master as Robber (Rob Wealth). In practice, you are drawn to partners who challenge you, which can be exhilarating or exhausting. No Peach Blossom star is natively active, so relationship style is more shaped by the spouse palace and ten-god mix than by overt magnetism. By Japyeong-jinjeon's gendered spouse-star convention, your wife star (Wealth, wife star) appears at Sin (year stem), Sin (month branch main), Gyeong (hour stem).

Spouse Palace Ten-God

The spouse palace O (12-stage: Peak) carries a main hidden stem that relates to your Day Master as Robber (Rob Wealth (Companion)). In the partner domain this points toward a lively, sometimes competitive partnership that keeps the querent sharp. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	Compatible	Neutral energetic exchange.
Radiant, expressive, and momentum-driven	Fire	Watch	Fire is your challenging element — it works against the balance your chart seeks.
Grounded, nurturing, and reliability-focused	Earth	Compatible	Neutral energetic exchange.
Disciplined, precise, and structure-oriented	Metal	Good	Metal supports your Water — secondary support (Supporting Element).
Adaptive, perceptive, and depth-seeking	Water	Best	Water is your favorable element — the core balance your chart seeks.

Three Things to Be Mindful Of

- Peach Blossom is not natively active, so your social style leans toward depth rather than breadth — protect your close-circle time.
- The day branch O is involved in a natal clash, so partnerships tend to surface change or tension — frame this as information, not a verdict.
- The current major-luck period (Gap O, Indirect Resource — unconventional learning — intuition, solitary study, restless over-thinking) carries mixed energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

>Relationship theme per year for the next six years — read alongside the annual windows table.

Year	Pillar	Note
2026	Bing O (Companion)	Fire energy + Companion: peer energy — friendships and partnerships strengthen.
2027	Jeong Mi (Robber)	Fire energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.
2028	Mu Shin (Eating God)	Earth energy + Eating God: creative expression together — shared projects, craft, or quiet collaboration.
2029	Gi Yu (Hurting Officer)	Earth energy + Hurting Officer: candid expression together — direct conversation, art, or public collaboration.
2030	Gyeong Sul (Indirect Wealth)	Metal energy + Indirect Wealth: a relationship-opportunity year — meeting a partner through new circles, or a lower-commitment variety phase.
2031	Sin Hae (Direct Wealth)	Metal energy + Direct Wealth: structure and visible milestones (engagement, marriage, formal commitment).

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — Companion (4), Wealth (3) — so the querent tends to give and receive in those modes. The querent is naturally drawn to people who are reflective, listening, and emotionally present, and tends to feel drained by people who demand constant attention without reciprocity. Social settings where the favorable Water element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace O sitting in the Peak 12-stage and carrying hidden-stem ten-gods of Rob Wealth (Companion), Hurting Officer (Output), the querent bonds through a mix of presence and discernment. The Peak stage is one of the supported (strong) stages, so the querent tends to bring energy and presence into the bond. The hidden-stem ten-gods colour the undercurrent — Resource leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck/Annual Luck overlays show when the querent's bond patterns shift most.

Marriage Timing Windows

Commitment timing is read from your wife star and your spouse palace O (the day branch). Neither the current nor the next major-luck period carries the spouse star or binds the spouse palace, so the annual years below carry more of the weight. The years where the most signals converge: 2030 Gyeong Sul (Indirect Wealth spouse-star year, In O Sul three-harmony through the spouse palace); 2031 Sin Hae (Direct Wealth spouse-star year). Years better suited to deepening privately than to formalising: 2026 (O O self-punishment on the spouse palace); 2032 (Ja O clash on the spouse palace); 2035 (Myo O break on the spouse palace, a void (empty) year, so gains may feel less solid). These are tendencies for when the theme is most active — not predictions of an event.

Family Dynamics

The year pillar Mi carries ancestral and parental themes; its main hidden stem shapes how the querent absorbs (or pushes back on) family-of-origin patterns. The month pillar Yu is the career and sibling palace — its dynamics surface in how the querent shows up among peers and early mentors. The hour pillar Ja speaks to children and later life — its hidden stems indicate what the querent is likely to pass on, and what they will need to consciously teach.

Partner Chart Add-On

Curious about a specific person? Add a compatibility reading — the Deep Compatibility report (\$45) — by replying with their birth details.

> In plain words: Your partnership area points toward a lively, sometimes competitive partner who keeps you on your toes. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- Element excess: Metal — pay attention to the lung/large intestine and respiratory/immune boundaries system.

- Element deficiency: Wood — the liver/gall bladder and nervous system system may need gentle support.
- The chart's lightest weighted element is Wood (2.8%), which in classical Five-Element mapping is paired with the liver/gall bladder and nervous system. This is not a diagnosis; it is the least natally emphasized system, making it the natural place to begin gentle, preventive support through wood-aligned foods, seasons, and rhythms.

Grounding Practices

- Swimming, baths, or walking near rivers/lakes/ocean
- Eating black beans, seaweed, and salty foods in moderation
- Meditation or stillness practice in the evening
- North-facing study or rest spaces
- Reading, research, or journaling to settle a restless mind

The Overdrive Warning

A Balanced Fire Day Master has reasonable reserves but still needs conscious rhythm. Watch for burning out through over-visibility, agitation, or cardiac strain when output stays high without recovery windows. In classical Five-Element reading, the heart/small intestine and circulation are a common watchpoint when energy is overstretched; the Water element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The Fire Day Master is most at home in summer; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable Water element's season (winter (the deep, still Water energy)) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Water hours (by the twelve branch hours) are the most aligned — Hae Ja hours, 21:00-01:00.

> This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.

> In plain words: Your lightest element is Wood, so the liver/gall bladder and nervous system are the natural place to start gentle, preventive care — through wood-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern candidate: Direct Wealth Structure / Direct Wealth Grid

Pattern	Branches	Classical Note
Six Combination	O+Mi	binds the two branches without transforming (binding without transforming, binding without transforming) — Earth is not in season at the month branch or a member is struck by a clash, so read it as a tie, not a new Earth force; links the year and day palaces
Six Clash	Ja↔O	a tension or activation between two life palaces; often a call to adjust, release, or decide
Six Harm	Ja-Mi	a quiet friction that can drain energy if ignored
Six Break	Ja-Yu	a disruption of an expected harmony; often appears as a changed plan or external adjustment
Output Meets Authority	Hurting Officer (Output) + Direct Officer (Authority)	Classical conflict pattern : Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event.

Pattern Narratives

The engine flags a likely Direct Wealth Grid as the regular grid. This points toward a life theme shaped by conservative, stable wealth — careful earning, traditional structure, and methodical accumulation. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a Six Clash between Ja and O, linking the later life and children — what you build toward and what you pass on and spouse palace and the inner self — the partner you choose and the self behind the choices. This brings recurring tension that asks the querent to adjust, release, or choose between the two areas rather than hold both in full force.

What This Means in Plain Language

The chart's dominant pattern candidate is Direct Wealth Grid. A six-combination between O and Mi binds the two branches without transforming (binding without transforming, binding without transforming) — Earth is not in season at the month branch or a member is struck by a clash, so read it as a tie, not a new Earth force, linking the year and day palaces. A natal clash between Ja and O brings recurring pressure and asks the querent to make conscious choices between the two palaces involved. Together, these patterns point to a recurring life theme rather than a single event. The favorable Water element is the querent's lever for working with — rather than against — the chart's structure.

> In plain words: The chart's organising theme is conservative, stable wealth — careful earning, traditional structure, and methodical accumulation.

Other Active Star

Counted from your day branch O (common modern practice; traditional Korean practice counts from the year branch, which can give a different set of stars).

- Heavenly Noble (at Yu): a "helper" star — a tendency toward receiving support from an unexpected, noble source at key turning points.

- Calamity Star (at Ja): mishaps, illness, or obstacles as a recurring theme — classically read as softened by a strong Favorable Element.
- General Star (at O): leadership, command, and organizational ability.
- Saddle Star (at Mi): advancement, promotion — riding a rising wave.
- Six Harm (at Yu): covert harm or friction from the six-harm branch direction.
- Deep Grudge (at Ja-Mi): lingering resentment or unfinished conflict — in relationships, recurring arguments that never fully resolve.
- Ghost Gate (at Ja-Yu): sensitivity to hidden matters or the unseen; read here as a descriptive sensitivity marker, not an omen.
- Monthly Virtue (at Gyeong): monthly/quarterly support, popularity, and smooth assistance from people around the querent.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Position	Stem	Ten-God	Note
year_stem	Sin	Direct Wealth	Natal wealth signal visible here.
month_branch_main	Sin	Direct Wealth	Natal wealth signal visible here.
hour_stem	Gyeong	Indirect Wealth	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 38–47 (Gye Sa, Direct Officer — conventional authority — career structure, rules, status, institutions) — your favorable element is active here, supporting overall balance rather than specifically signaling a wealth-influx window.
- Ages 48–57 (Im Jin, Seven Killings — pressure and demand — deadlines, tough oversight, decisive action under stress) — your favorable element is active here, supporting overall balance rather than specifically signaling a wealth-influx window.
- Ages 58–67 (Sin Myo, Direct Wealth — steady, earned income and everyday resources — salary and savings) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 68–77 (Gyeong In, Indirect Wealth — variable money — deals, commissions, windfalls, higher risk and reward) — a window where income, asset, or value-creation themes are more likely to surface.

Investment Style Cue

Because your favorable element is Water and your supporting element is Metal, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Water (favorable)	north	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Metal (supporting)	west	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- Favorable orientation: Facing or sleeping with head toward north is traditionally considered supportive for your chart.
- Supporting orientation: Use west when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during Water (and supporting Metal)-element years and months, and especially during these supportive major-luck periods: ages 48-57 (Im Jin), ages 58-67 (Sin Myo), ages 68-77 (Gyeong In). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Business & Launch Timing

For a Fire Day Master, the most supportive launch windows tend to come when the annual pillar carries Water or Metal energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use 1, 6 (favorable Water) and 4, 9 (supporting Metal) in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A partnership or co-launch with one credible counterparty is the most likely fit. The Authority ten-god gives the launch a stamp of legitimacy, and a partner carries the parts the querent's chart cannot carry alone.

Year-by-Year Launch Timing (2026-2031)

Year	Pillar	Why It Matters	Suggested Use
2026	Bing O	Companion (Fire energy + Companion — a challenging-element year.)	peer projects, friendships, self-definition
2027	Jeong Mi	Robber (Fire/Earth energy + Robber — a challenging-element year.)	peer projects, friendships, self-definition
2028	Mu Shin	Eating God (Earth/Metal energy + Eating God — a supporting-element year.)	creative production, writing, speaking, teaching
2029	Gi Yu	Hurting Officer (Earth/Metal energy + Hurting Officer — a supporting-element year.)	creative production, writing, speaking, teaching
2030	Gyeong Sul	Indirect Wealth (Metal/Earth energy + Indirect Wealth — a supporting-element year.)	income launches, negotiations, value-pricing

Year	Pillar	Why It Matters	Suggested Use
2031	Sin Hae	Direct Wealth (Metal/Water energy + Direct Wealth — a favorable-element year.)	income launches, negotiations, value-pricing

Quarterly / Seasonal Reminders

With Water as the favorable element, the most aligned launch window is winter (deep, still Water — best for quiet launches, beta, and writing), the favorable element's own season. Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. Annual branches that clash your natal day branch O — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. Annual pillars dominated by the unfavorable element — favour audits, refinements, and quiet product work over big announcements.
3. A major-luck shift into a heavier stem (strong Direct Officer (Authority) / Seven Killings (Authority)) — use the first 1-2 years to set up systems rather than scale headcount.
4. Activated chart-punishment or self-punishment patterns during the launch year — keep partnerships small and written, not verbal.
5. Conjunction of new-moon or full-moon eclipses falling on spouse-palace or wealth-stem branches — defer the launch by 30-45 days if it lands on the public date.

Timing: Major Luck & Annual Windows

Luck direction: backward, retracing from the month pillar — derived from a yin year stem (Sin) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

starting age: ~8.5 (~25.6 days to the qualifying solar term ÷ 3, per 's "3 days = 1 year" rule) — the first major-luck period begins roughly 102 months after birth (≈ Apr 2000), inside the 8-17 decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) apps round this to a whole Major Luck Water 9 and list decades as 9, 19, 29... (often in Korean age), so their labels can differ from the table below by a year or so while describing the same periods.

Major Luck Periods

Current Period Deep-Dive

This decade carries a Indirect Resource ten-god over a Fire branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do conserve, refine, and protect the foundation; avoid long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable Water energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Structurally, your Day Master sits at Peak (emperor flourishing) on O — a strong root for the self; its O clashes (clash) with your natal Ja; its stem Gap clashes with your natal Gyeong (Stem Clash).

Life Themes by Major Luck Period

Each 10-year major-luck (Major Luck) period brings a new stem and branch into prominence. The stem shows the outer theme through its Ten Gods relationship to your Day Master; the branch shows the stage of life and the underlying terrain. Read these as tendencies, not fixed events.

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows Metal (40.6%) as the most present element and Wood (2.8%) as the least. Energy tends to accumulate and congest in the Metal domain; a balanced day feels like quiet movement between input, processing, and release. The Wood system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- Excess system (Metal): lung/large intestine and respiratory/immune boundaries — watch for signs of over-activity or congestion.
- Deficient system (Wood): liver/gall bladder and nervous system — gentle rebuilding over time is usually better than forceful stimulation.

Stress Signature

When this chart goes out of balance, the most common early signals are: agitation or racing thoughts, chest tightness or palpitations, and difficulty sleeping. With a Balanced reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Water):

- evening walks near water
- soup or broth as a regular meal
- 20 minutes of stillness before sleep
- reading fiction that lets the mind drift

Day-Master practice (Fire): Make something visible every week. Fire without output burns itself out.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 48-57 (Im Jin), ages 58-67 (Sin Myo), ages 68-77 (Gyeong In). Use these decades to build resilience.

Conservation windows — the chart asks for gentler practice during: ages 28-37 (Gap O). Reduce load, deepen recovery, and avoid starting ambitious new regimens in these years.

Across all periods, the Water element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than

occasional heroic efforts.

Monthly Lucky Dates

The next 12 months of favorable days, selected when the daily stem element matches your Water or Metal element and the day branch does not clash, harm, or break your natal day or hour branch.

> Methodology: each row filters the daily-luck (Daily Luck) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes, harms, or breaks against your natal day or hour branch.

> Almanac caveat: this is a chart-relative shortlist, not a finished date selection — a full date selection also weighs the day's own almanac assignment, the specific event type, and local custom.

Practical Guidance Summary

Top 5 Growth Areas

- Working with the unfavorable Fire element — denial amplifies it; conscious engagement contains it.
- Asking for help early — Fire Day Masters often wait too long before reaching out.

Closing Note

Bing (Bing (Yang Fire, Bing Fire)) sits at the centre of this chart, with the chart's element balance leaning toward Metal and a ten-god distribution dominated by Companion (4), Wealth (3). The favorable Water element (with Metal as the quiet secondary) is the querent's main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace O and the chart's relationship dynamics reward the querent for showing up consistently rather than performing. The natal clash between Ja and O is a recurring pressure; the chart's gift is that the querent has already learned how to navigate it — and the favorable element makes the navigation gentler. The six-combination between O and Mi is a quiet asset — partnerships or projects that bring two palaces into harmony, with the querent's role often as the connector. Across a full lifetime, this chart rewards the querent who studies their own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
