- Favorable element cross-supply: A → B Favorable Element Fire supply (9%)

What 68/100 (Strong) means: The composite is anchored so that a perfectly neutral chart (all sub-systems scoring 0) lands at 50/100 in the Mixed band; positive classical signals lift it, and negative signals lower it. a solid classical alignment with a few sub-systems needing attention. The favorable layers outweigh the friction points — a workable, durable tendency with known soft spots to mind.

Who You Are Together (two of the people relationship character)

Together, your spouse palaces (Day Branch) hold a neutral, uncombined relation, your ten-god cross leans complementary, your charts feed each other's favorable element (Favorable Element) — each brings what the other needs. This composite is a tendency, not a destiny — the daily relationship is shaped by the choices both of you make over years.

> In plain words: Overall this reads as a solid match — more working with each other than against (68/100). Treat the number as a weather report, not a verdict.

Key Sub-Systems

The verdict table above lists all eleven sub-systems. The four below are the ones that most strongly shape day-to-day married life.

Day-Branch Interaction (the heart of compatibility)

-6 / 30 — Yellow Flag Day-branch interaction (Day Branch combination clash) is the heart of classical Compatibility. the two spouse palaces (Hae and Sul) have no direct combination/clash. Cross-chart branch interactions add a secondary layer (net -6, capped at ± 15).

Day-Stem Combination

+0 / 12 — Soft The two Day Masters (Sin and Gap) do not form a Heavenly-Stem Combination. Attraction through this layer is neutral; the relationship must lean on day-branch, element balance, and ten-god cross-relations.

Favorable Element Cross-Supply

+9 / 12 — Strong Favorable Element cross-supply is the Gungtong-bogam (favorable-element method) deciding factor: does each partner's chart carry the element the other needs? Both partners bring meaningful supply of the other's favorable element. This is a structural complementarity — 'Favorable Element' reading.

Tags: B → A Favorable Element Water supply favorable (31%), A → B Favorable Element Fire supply (9%)

Yin-Yang Polarity

+2 / 3 — Strong Day Masters: A=Yin, B=Yang. Opposite polarity — complementary dynamic. Union polarity balance: 38% Yang.

Tags: Day Master — you — the reference point the whole chart is read against Yin-Yang (Yin ↔ Yang), combination Yin-Yang unbalanced (38% Nurturing)

> In plain words: At the centre of the match, your day-to-day rhythms rub against each other — the friction sits in ordinary life, so it helps to name it early.

> Watch out for — Major Luck direction different (diverging major-luck directions): the two of you enter life's large phases on different timing tracks. Years that feel expansive for one can coincide with a contraction phase for the other. For any time-bound decision (wedding year, relocation, major purchase), overlay both partners' Annual Luck — the theme of a single year (annual luck) rather than reading either chart alone.

Practical Guidance

- Shared lucky element. Harish and Manvitha's charts strongly cross-supply the favorable element — build environments and seasons that activate it for both of you at once.
- Timing divergence. Your major-luck phases run on different tracks — overlay both annual-luck charts before big joint decisions.

Closing Note (Closing Note)

This reading reflects the classical Kwon In-seong·Kwak Im-seong·Jeong Bong-jae·Song Gi-yeong Korean Myeongri consensus on Harish × Manvitha's natal compatibility, across all eleven sub-systems documented in. The composite score of 68/100 (Strong) is a tendency indicator, not a destiny. No compatibility reading can account for conscious effort, life circumstances, or the choices both partners make over years. Classical Myeongri (Korean Saju tradition) text guides tendencies; the relationship itself is lived.
