Favorable Points (positive factors)

- ✅ Favorable element cross-supply: A → B Favorable Element Fire partial supply

What 64/100 (Mixed) means: The composite is anchored so that a perfectly neutral chart (all sub-systems scoring 0) lands at 50/100 in the Mixed band; positive classical signals lift it, and negative signals lower it. a workable union in which specific sub-systems ask for deliberate attention. Mixed is not a failure — many long, happy marriages sit in this band; the chart simply flags which dimensions want conscious effort rather than riding on natural ease.

Who You Are Together (two people's relationship character)

Together, your spouse palaces (Day Branch) hold a neutral, uncombined relation, your ten-god cross leans complementary. This composite is a tendency, not a destiny — the daily relationship is shaped by the choices both of you make over years.

> ***In plain words:*** *Overall this reads as a workable match with real friction points to manage deliberately (64/100). Treat the number as a weather report, not a verdict.*

Day-Stem Combination — Day-Stem Combination (Heavenly-Stem Combination)

Score: +0 / 12 (Soft)

The two Day Masters (Sin and Gap) do not form a Heavenly-Stem Combination. Attraction through this layer is neutral; the relationship must lean on day-branch, element balance, and ten-god cross-relations.

Day-Branch Interaction (the heart of Compatibility) — Day Branch Combination / Clash / Punishment / Break / Harm

Score: -6 / 30 (Yellow Flag)

Day-branch interaction (Day Branch combination clash) is the **heart of classical Compatibility**. the two spouse palaces (Hae and Sul) have no direct combination/clash. Cross-chart branch interactions add a secondary layer (net -6, capped at ±15).

Tags: `A Day Branch·B Earthly Branches self-punishment Hae Hae`, `A Day Branch·B Earthly Branches self-punishment Hae Hae`, `B Day Branch·A Earthly Branches three-punishment Sul Chuk`

> **In plain words:** At the centre of the match, your day-to-day rhythms rub against each other — the friction sits in ordinary life, so it helps to name it early.

Nayin Harmony — Nayin Five Elements

Score: -3 / 5 (Yellow Flag)

The two day pillars carry the Nayin tones Hairpin Metal and Mountain-Top Fire (harmful). In classical Seojeon-gumirok commentary this is a soft 'deep-tone' indicator — neither a red flag nor a primary factor, but it colors the relationship's underlying feel. The 30×30 pair-specific Seojeon-gumirok table is not yet sourced; this verdict uses the documented 5-element grammar as a fallback.

Tags: `Nayin Hairpin Metal vs Mountain-Top Fire → harmful [element-grammar-fallback]`

Favorable Element Cross-Supply — Favorable Element Compatibility

Score: +5 / 12 (Moderate)

Favorable Element cross-supply is the **Gungtong-bogam (favorable-element method) deciding factor**: does each partner's chart carry the element the other needs? Partial cross-supply exists; one partner brings more than the other.

Tags: `B → A Favorable Element Water supply favorable`, `A → B Favorable Element Fire partial supply`, `excess of B's Unfavorable Element Metal in A`

Day-Pillar Pair Classification — Day Pillar Compatibility

Score: +3 / 15 (Soft)

The two day pillars are **Sin Hae** (Partner A) and **Gap Sul** (Partner B). Each partner's spouse palace (day-branch main qi — the main hidden stem of a branch — its dominant inner force hidden stem) is read against their own favorable element (Jeokcheon-su (classical reference) principle).

Tags: `Day Branch main qi Im → Water — sharp output — bold expression, creativity, friction with rules and authority`, `spouse blessing and virtue (Favorable Element match)`, `Day Branch main qi Mu → Earth — variable money — deals, commissions, windfalls, higher risk and reward`

Combined Element Balance — combined Five Elements (Union Five Elements)

Score: +9 / 12 (Strong)

Combined element distribution (average of both charts). The union has some imbalance — over-dominant elements 'rule' the relationship. Gungtong-bogam (favorable-element method) framing: one chart may be cold, the other hot — complementary climates balance the union.

Tags: `A Favorable Element Water in the union sufficient`

Ten-God Cross-Relationship — Ten Gods cross

Score: +10 / 10 (Strong)

In Ten Gods cross-reading, each partner is classified as a specific Ten Gods of the other's Day Master — you — the reference point the whole chart is read against. A → B/B → A Ten Gods pattern (Direct Officer (Authority)/Direct Wealth) is classically favorable: social couple — authority and stability The Japyeong-jinjeon gendered spouse-star mapping aligns for at least one partner — a soft classical confirmation beyond the Favorable Element modifier.

Tags: `A (Sin) is B (Gap)'s Direct Officer (Authority) — conventional authority — career structure, rules, status, institutions`, `B (Gap) is A (Sin)'s Direct Wealth — steady, earned income and everyday resources — salary and savings`, `A's Day Master element Metal = B's Unfavorable Element [caution]`, `A (male)'s spouse star Wealth — the wealth group — how money and resources come and are held match: B is A's Direct Wealth`, `B (female)'s spouse star Authority — the authority group — how you meet rules, status, and institutions match: A is B's Direct Officer (Authority)`

> ⚠️ **Watch out for — Major Luck direction diverging major-luck directions:** the two of you enter life's large phases on different timing tracks. Years that feel expansive for one can coincide with a contraction phase for the other. For any time-bound decision (wedding year, relocation, major purchase), overlay both partners' Annual Luck — the theme of a single year (annual luck) rather than reading either chart alone.

Major Luck Synchrony — Major Luck·Annual Luck Synchrony (Major Luck·Annual Luck Synchrony)

Score: +1 / 5 (Soft)

Daeun directions: A = forward, B = backward. Different directions mean major life-stage transitions often diverge in timing. Time-bound commentary for a specific year should use a separate Annual Luck overlay.

Tags: `Major Luck — roughly ten-year life chapters that colour a whole span direction forward vs backward`, `starting Major Luck Fire↔Earth`

Compatibility Star Overlays — Star Compatibility

Score: +0 / 5 (Soft)

Cross-star overlays are **descriptive**, not primary factors. Peach Blossom — charm and magnetism — attractiveness, and sometimes distraction or scandal cross patterns suggest magnetic attraction but caution against exclusivity issues; Post Horse — movement — travel, relocation, changing scenes, a mobile life dual-presence suggests parallel but peripatetic lives; Canopy — solitude and depth — art, scholarship, spirituality, time alone dual suggests a tendency to grow apart emotionally. Heavenly Noble in the partner's day branch is the most favorable cross-star pattern. No significant cross-star signature.

Yin-Yang Polarity — Yin-Yang Harmony

Score: +2 / 3 (Strong)

Day Masters: A=Yin, B=Yang. Opposite polarity — complementary dynamic. Union polarity balance: 38% Yang.

Tags: `Day Master Yin-Yang Yin ↔ Yang`, `combined Yin-Yang unbalanced (38% Yang)`

Year-Branch Zodiac Pair (Zodiac) — Zodiac Compatibility (Branch Compatibility)

Score: +2 / 3 (Strong)

Year-branch pair (Shin/Ja) — the zodiac-sign layer of Compatibility. It is the lightest signal in the reading: a useful intuitive opener, never a verdict. Modern Korean Myeongri (Korean Saju tradition) weights it at most 3 of 100; popular fortune sites tend to over-emphasise it.

Deep Compatibility Layer

The basic reading above evaluates the natal composite across the classical eleven sub-systems. This deep layer adds each partner's individual element balance, Day Master strength, current major-luck (Major Luck) direction, and a year-by-year couple timing overlay so you can see *when* the natal pattern is likely to be activated.

Day Master Snapshot — Harish

- **Day Master:** Sin (Sin (Yin Metal) / Sin) — Metal (Yin)
- **Seasonal strength verdict:** Balanced
- **Favorable element:** Water
- **Supporting element:** Metal
- **Unfavorable / watch element:** Fire

- *How this was derived:* The Day Master reads as balanced, so the classical climate-balance check applies: this chart peaks in hot summer conditions, and the classical remedy is Water. This takes priority over the chart's simple element count, which is a weaker signal than the classical climate check here.

Element Balance — Manvitha

Element	Presence	Percentage
🔴 Fire	▮▮▯▯▯▯▯▯▯▯	18.4%
🟢 Wood	▮▮▮▮▯▯▯▯▯▯	37.5%
🟡 Earth	▮▮▯▯▯▯▯▯▯▯	21.3%

Day Master Snapshot — Manvitha

- **Day Master:** Gap (Gap (Yang Wood) / Gap) — Wood (Yang)
- **Seasonal strength verdict:** Strong
- **Favorable element:** Fire
- **Supporting element:** Wood
- **Unfavorable / watch element:** Metal
- *How this was derived:* The Day Master reads as strong, but the classical climate-balance check takes priority ahead of strength-balance here, because the chart's climate is extreme rather than mild: this chart peaks in cold winter conditions, and the classical remedy is Fire. This matches the chart's own least-represented element, reinforcing the pick.

Annual Couple Timing Overlay

Year	Harish	Manvitha	Joint Note
2025	Eul Sa (Indirect Wealth)	Eul Sa (Robber)	same annual pillar — shared theme
2026	Bing O (Direct Officer)	Bing O (Eating God)	same annual pillar — shared theme
2027	Jeong Mi (Seven Killings)	Jeong Mi (Hurting Officer)	same annual pillar — shared theme
2028	Mu Shin (Direct Resource)	Mu Shin (Indirect Wealth)	same annual pillar — shared theme

All timing notes are tendencies, not date-specific predictions. Use them as a lens for joint planning rather than as fixed forecasts.

> **In plain words:** On timing, your life-chapters turn on loosely related clocks — mostly fine, with occasional mismatched timing.

Practical Guidance

- **Day-stem combination is absent.** Attraction must build through shared activities, not first-meeting chemistry — the day-branch layer (below) is your primary anchor.
- **Nayin clash is present** — a soft, disputed indicator. Don't overweight it on its own; treat it as a reminder to align emotional climate (climate: cold/hot, dry/wet) rather than as a blocking verdict.
- **Yin-Yang polarity is complementary** — opposite Day-Master polarity, a classic complementary dynamic. Honor the differences rather than trying to smooth them out.
- **Your major-luck (Major Luck) directions diverge** — life's large phases arrive on different timing tracks for the two of you. Be more deliberate about timing joint decisions: for any wedding year, relocation, or major

purchase, overlay both partners' annual luck and pick a window that is favorable for both, not just one.

Closing Note

This reading reflects the classical Kwon In-seong·Kwak Im-seong·Jeong Bong-jae·Song Gi-yeong Korean Myeongri consensus on Harish × Manvitha's natal compatibility, across all eleven sub-systems documented in. The composite score of **64/100 (Mixed)** is a tendency indicator, not a destiny. No compatibility reading can account for conscious effort, life circumstances, or the choices both partners make over years. Classical Myeongri (Korean Saju tradition) text guides tendencies; the relationship itself is lived.

A note on challenging and mixed verdicts: these do not mean incompatibility. They mean the chart surfaces patterns that need deliberate, conscious attention — which is a different problem from having no resonance at all. Many long, happy marriages have charts with 'Challenging' compat scores; many short, painful ones have 'Excellent'.
