**What 85/100 (Excellent) means:** The composite is anchored so that a perfectly neutral chart (all sub-systems scoring 0) lands at 50/100 in the Mixed band; positive classical signals lift it, and negative signals lower it. an unusually strong classical alignment across most sub-systems — the charts reinforce each other rather than strain. This is a favorable tendency, not a guarantee; the relationship still lives on conscious effort.

## Who You Are Together (two people's relationship character)

Together, your spouse palaces (Day Branch) combine, your ten-god cross leans complementary, your charts feed each other's favorable element — each brings what the other needs. This composite is a tendency, not a destiny — the daily relationship is shaped by the choices both of you make over years.

> ***In plain words:*** *Overall this reads as a strongly supportive match — the fundamentals line up (85/100). Treat the number as a weather report, not a verdict.*

## Day-Stem Combination — Day-Stem Combination (Heavenly-Stem Combination)

**Score:** +0 / 12 (Soft)

The two Day Masters (Sin and Gap) do not form a Heavenly-Stem Combination. Attraction through this layer is neutral; the relationship must lean on day-branch, element balance, and ten-god cross-relations.

## Day-Branch Interaction (the heart of Compatibility) — Day Branch Combination / Clash / Punishment / Break / Harm

**Score:** +9 / 30 (Moderate)

Day-branch interaction (Day Branch combination clash) is the **heart of classical Compatibility**. the two spouse palaces form Six Harmony (Hae In) — the strongest favorable indicator in classical Compatibility. Cross-chart branch interactions add a secondary layer (net -11, capped at ±15).

**Tags:** `Day Branch Six Harmony Hae In`, `A Day Branch·B Earthly Branches self-punishment Hae Hae`, `A Day Branch·B Earthly Branches Half Harmony Hae Myo Mi (Wood)`, `A Day Branch·B Earthly Branches Six Clash Hae Sa`, `B Day Branch·A Earthly Branches Six Clash In Shin`, `B Day Branch·A Earthly Branches Six Harm In Sa`

> **In plain words:** At the centre of the match, your day-to-day rhythms fit naturally — the everyday texture of living together is a strength.

## Nayin Harmony — Nayin Five Elements

**Score:** +5 / 5 (Strong)

The two day pillars carry the Nayin tones Hairpin Metal and Great Stream Water (harmonizing). In classical Seojeon-gumirok commentary this is a soft 'deep-tone' indicator — neither a red flag nor a primary factor, but it colors the relationship's underlying feel. The 30×30 pair-specific Seojeon-gumirok table is not yet sourced; this verdict uses the documented 5-element grammar as a fallback.

**Tags:** `Nayin Hairpin Metal vs Great Stream Water → harmonizing [element-grammar-fallback]`

## Favorable Element Cross-Supply — Favorable Element Compatibility

**Score:** +6 / 12 (Moderate)

Favorable Element cross-supply is the **Gungtong-bogam (favorable-element method) deciding factor**: does each partner's chart carry the element the other needs? Partial cross-supply exists; one partner brings more than the other.

**Tags:** `B → A Favorable Element Water partial supply`, `A → B Favorable Element Fire partial supply`

## Day-Pillar Pair Classification — Day Pillar Compatibility

**Score:** +0 / 15 (Soft)

The two day pillars are **Sin Hae** (Partner A) and **Gap In** (Partner B). Each partner's spouse palace (day-branch main qi — the main hidden stem of a branch — its dominant inner force hidden stem) is read against their own favorable element (Jeokcheon-su (classical reference) principle).

**Tags:** `Day Branch main qi Im → Water — sharp output — bold expression, creativity, friction with rules and authority`, `spouse blessing and virtue (Favorable Element match)`, `Day Branch main qi Gap → Wood — a peer or equal — support, solidarity, and rivalry in equal measure`, `spouse blessing and virtue (Unfavorable Element match)`

## Combined Element Balance — combined Five Elements (Union Five Elements)

**Score:** +9 / 12 (Strong)

Combined element distribution (average of both charts). The union leans heavily on Wood — over-dominant elements 'rule' the relationship. Gungtong-bogam (favorable-element method) framing: one chart may be cold, the other hot — complementary climates balance the union.

**Tags:** `combined excess: ['Wood']`, `A Favorable Element Water in the union sufficient`

## Ten-God Cross-Relationship — Ten Gods cross

**Score:** +10 / 10 (Strong)

In Ten Gods cross-reading, each partner is classified as a specific Ten Gods of the other's Day Master — you — the reference point the whole chart is read against. A → B/B → A Ten Gods pattern (Direct Officer (Authority)/Direct Wealth) is classically favorable: social couple — authority and stability The Japyeong-jinjeon gendered spouse-star mapping aligns for at least one partner — a soft classical confirmation beyond the Favorable Element modifier.

**Tags:** `A (Sin) is B (Gap)’s Direct Officer (Authority) — conventional authority — career structure, rules, status, institutions`, `B (Gap) is A (Sin)’s Direct Wealth — steady, earned income and everyday resources — salary and savings`, `A (male)’s spouse star Wealth — the wealth group — how money and resources come and are held match: B is A’s Direct Wealth`, `B (female)’s spouse star Authority — the authority group — how you meet rules, status, and institutions match: A is B’s Direct Officer (Authority)`

## Major Luck Synchrony — Major Luck·Annual Luck Synchrony (Major Luck·Annual Luck Synchrony)

**Score:** +3 / 5 (Moderate)

Daeun directions: A = forward, B = forward. Same direction means major life-stage transitions happen in parallel — the couple walks through similar life-cycle phases. Time-bound commentary for a specific year should use a separate Annual Luck — the theme of a single year overlay.

**Tags:** `Major Luck — roughly ten-year life chapters that colour a whole span direction forward`

## Compatibility Star Overlays — Star Compatibility

**Score:** +0 / 5 (Soft)

Cross-star overlays are **descriptive**, not primary factors. Peach Blossom — charm and magnetism — attractiveness, and sometimes distraction or scandal cross patterns suggest magnetic attraction but caution against exclusivity issues; Post Horse — movement — travel, relocation, changing scenes, a mobile life dual-presence suggests parallel but peripatetic lives; Canopy — solitude and depth — art, scholarship, spirituality, time alone dual suggests a tendency to grow apart emotionally. Heavenly Noble in the partner's day branch is the most favorable cross-star pattern. No significant cross-star signature.

## Yin-Yang Polarity — Yin-Yang Harmony

**Score:** +2 / 3 (Strong)

Day Masters: A=Yin, B=Yang. Opposite polarity — complementary dynamic. Union polarity balance: 25% Yang.

**Tags:** `Day Master Yin-Yang Yin ↔ Yang`, `combined Yin-Yang unbalanced (25% Yang)`

## Year-Branch Zodiac Pair (Zodiac) — Zodiac Compatibility (Branch Compatibility)

**Score:** +0 / 3 (Soft)

Year-branch pair (Shin/Hae) — the zodiac-sign layer of Compatibility. It is the lightest signal in the reading: a useful intuitive opener, never a verdict. Modern Korean Myeongri (Korean Saju tradition) weights it at most 3 of 100; popular fortune sites tend to over-emphasise it.

## Deep Compatibility Layer

The basic reading above evaluates the natal composite across the classical eleven sub-systems. This deep layer adds each partner's individual element balance, Day Master strength, current major-luck (Major Luck) direction, and a year-by-year couple timing overlay so you can see *when* the natal pattern is likely to be activated.

#### Day Master Snapshot — Harish

- **Day Master:** Sin (Sin (Yin Metal) / Sin) — Metal (Yin)
- **Seasonal strength verdict:** Balanced
- **Favorable element:** Water
- **Supporting element:** Metal
- **Unfavorable / watch element:** Fire
- *How this was derived:* The Day Master reads as balanced, so the classical climate-balance check applies: this chart peaks in hot summer conditions, and the classical remedy is Water. This takes priority over the chart's simple element count, which is a weaker signal than the classical climate check here.

### Element Balance — Bindu

| Element | Presence | Percentage |
|---|---|---|
| 🔴 Fire | ▓ | 8.4% |
| 🟢 Wood | ▓▓▓▓▓ | 49.4% |
| 🟡 Earth | ▓▓▓ | 33.1% |
| ⚪ Metal | | 2.8% |
| 🔵 Water | ▓ | 6.3% |

- **Day Master:** Gap (Gap (Yang Wood) / Gap) — Wood (Yang)
- **Seasonal strength verdict:** Strong
- **Favorable element:** Fire
- **Supporting element:** Earth
- **Unfavorable / watch element:** Wood
- *How this was derived:* The Day Master reads as strong, so the favorable element is the one that channels and expresses its excess. This is an engine reading — a full classical analysis may refine it. Born in a climate-neutral month, so no climate override applies here.

> **In plain words:** On timing, your big life-chapters tend to turn at similar times — you are likely to move in step.

## Practical Guidance

- **Lean on your shared lucky element.** Cross-Favorable Element supply is strong (sub-system D: 6/12) — each of you brings what the other's chart needs. Consciously build environments, seasons, and activities that activate the favorable element (Water / Fire); both Day Masters benefit at once.
- **Day-stem combination is absent.** Attraction must build through shared activities, not first-meeting chemistry — the day-branch layer (below) is your primary anchor.
- **Day-branch combination (Day Branch Six Harmony) is present** — the strongest classical favorable. Maintain shared rituals (meals, weekly date, annual trip) that reinforce this anchor.
- **Yin-Yang polarity is complementary** — opposite Day-Master polarity, a classic complementary dynamic. Honor the differences rather than trying to smooth them out.

## Closing Note

This reading reflects the classical Kwon In-seong·Kwak Im-seong·Jeong Bong-jae·Song Gi-yeong Korean Myeongri consensus on Harish × Bindu's natal compatibility, across all eleven sub-systems documented in. The composite score of **85/100 (Excellent)** is a tendency indicator, not a destiny. No compatibility reading can account for conscious effort, life circumstances, or the choices both partners make over years. Classical Myeongri (Korean Saju tradition) text guides tendencies; the relationship itself is lived.
