What 64/100 (Mixed) means: The composite is anchored so that a perfectly neutral chart (all sub-systems scoring 0) lands at 50/100 in the Mixed band; positive classical signals lift it, and negative signals lower it. a workable union in which specific sub-systems ask for deliberate attention. Mixed is not a failure — many long, happy marriages sit in this band; the chart simply flags which dimensions want conscious effort rather than riding on natural ease.

Who You Are Together (two people's relationship character)

Together, your spouse palaces (Day Branch) hold a neutral, uncombined relation, your ten-god cross leans complementary. This composite is a tendency, not a destiny — the daily relationship is shaped by the choices both of you make over years.

> ***In plain words:*** *Overall this reads as a workable match with real friction points to manage deliberately (64/100). Treat the number as a weather report, not a verdict.*

Key Sub-Systems

The composite score above draws on all eleven classical sub-systems. The four below are the ones that most strongly shape day-to-day married life — the Deep Compatibility report includes the full breakdown.

Day-Branch Interaction (the heart of compatibility) — Day Branch Combination / Clash / Punishment / Break / Harm

-6 / 30 — Yellow Flag Day-branch interaction (Day Branch combination clash) is the **heart of classical Compatibility**. the two spouse palaces (Hae and Sul) have no direct combination/clash. Cross-chart branch interactions add a secondary layer (net -6, capped at ±15).

Day-Stem Combination — Day-Stem Combination (Heavenly-Stem Combination)

+0 / 12 — Soft The two Day Masters (Sin and Gap) do not form a Heavenly-Stem Combination. Attraction through this layer is neutral; the relationship must lean on day-branch, element balance, and ten-god cross-relations.

Favorable Element Cross-Supply — Favorable Element Compatibility

+5 / 12 — Moderate Favorable Element cross-supply is the **Gungtong-bogam (favorable-element method) deciding factor**: does each partner's chart carry the element the other needs? Partial cross-supply exists; one partner brings more than the other.

Tags: `B → A Favorable Element Water supply favorable`, `A → B Favorable Element Fire partial supply`, `excess of B’s Unfavorable Element Metal in A`

Yin-Yang Polarity — Yin-Yang Harmony

+2 / 3 — Strong Day Masters: A=Yin, B=Yang. Opposite polarity — complementary dynamic. Union polarity balance: 38% Yang.

Tags: `Day Master — you — the reference point the whole chart is read against Yin-Yang Yin ↔ Yang`, `combined Yin-Yang unbalanced (38% Yang)`

> **In plain words:** At the centre of the match, your day-to-day rhythms rub against each other — the friction sits in ordinary life, so it helps to name it early.

> ⚠️ **Watch out for — Major Luck direction diverging major-luck directions:** the two of you enter life's large phases on different timing tracks. Years that feel expansive for one can coincide with a contraction phase for the other. For any time-bound decision (wedding year, relocation, major purchase), overlay both partners' Annual Luck — the theme of a single year (annual luck) rather than reading either chart alone.

Practical Guidance

- **Timing divergence.** Your major-luck phases run on different tracks — overlay both annual-luck charts before big joint decisions.

Closing Note

This reading reflects the classical Kwon In-seong·Kwak Im-seong·Jeong Bong-jae·Song Gi-yeong Korean Myeongri consensus on Harish × Manvitha's natal compatibility, across all eleven sub-systems documented in. The composite score of **64/100 (Mixed)** is a tendency indicator, not a destiny. No compatibility reading can account for conscious effort, life circumstances, or the choices both partners make over years. Classical Myeongri (Korean Saju tradition) text guides tendencies; the relationship itself is lived.

A note on challenging and mixed verdicts: these do not mean incompatibility. They mean the chart surfaces patterns that need deliberate, conscious attention — which is a different problem from having no resonance at all. Many long, happy marriages have charts with 'Challenging' compat scores; many short, painful ones have 'Excellent'.
