Top Red Flags (caution points)

- ⚠️ Day-branch interaction (spouse palaces): A Day Branch·B Earthly Branches Six Clash Hae Sa
- ⚠️ Day-branch interaction (spouse palaces): B Day Branch·A Earthly Branches Six Clash Mi Chuk

Yellow Flags (observation points)

- 🟡 Combined element balance: combined excess: ['Water']
- 🟡 Compatibility star overlays: double Post Horse — both have Post Horse but not anchored in spouse palace; parallel travel lives
- 🟡 Favorable element cross-supply: A's Unfavorable Element in B — the element that unbalances your chart — minimise its influence Fire excess
- 🟡 Yin-Yang polarity: combined Yin-Yang unbalanced (25% Yang)

Favorable Points (positive factors)

- ✅ Combined element balance: A Favorable Element — the element your chart most needs for balance — lean toward it Water in the union sufficient
- ✅ Combined element balance: B Favorable Element Earth in the union sufficient
- ✅ Day-branch interaction (spouse palaces): Day Branch Half Harmony Hae Myo Mi (Wood)

What 58/100 (Mixed) means: The composite is anchored so that a perfectly neutral chart (all sub-systems scoring 0) lands at 50/100 in the Mixed band; positive classical signals lift it, and negative signals lower it. a workable union in which specific sub-systems ask for deliberate attention. Mixed is not a failure — many long, happy marriages sit in this band; the chart simply flags which dimensions want conscious effort rather than riding on natural ease.

Who You Are Together (two people's relationship character)

Together, your spouse palaces (Day Branch) sit in a partial harmony (Half Harmony), you share the Day Master — you — the reference point the whole chart is read against Sin — a peer/mirror dynamic (Companion) rather than a complement, your charts feed each other's favorable element — each brings what the other needs. This composite is a tendency, not a destiny — the daily relationship is shaped by the choices both of you make over years.

> ***In plain words:*** *Overall this reads as a workable match with real friction points to manage deliberately (58/100). Treat the number as a weather report, not a verdict.*

Day-Stem Combination — Day-Stem Combination (Heavenly-Stem Combination)

Score: +0 / 12 (Soft)

The two Day Masters (Sin and Sin) do not form a Heavenly-Stem Combination. Attraction through this layer is neutral; the relationship must lean on day-branch, element balance, and ten-god cross-relations.

Day-Branch Interaction (the heart of Compatibility) — Day Branch Combination / Clash / Punishment / Break / Harm

Score: -7 / 30 (Yellow Flag)

Day-branch interaction (Day Branch combination clash) is the **heart of classical Compatibility**. the two spouse palaces (Hae and Mi) have no direct combination/clash; the two spouse palaces are two-of-three in the Hae Myo Mi three-harmony frame (Wood) — partial harmony. Cross-chart branch interactions add a secondary layer (net -15, capped at ±15).

> **In plain words:** At the centre of the match, your day-to-day rhythms rub against each other — the friction sits in ordinary life, so it helps to name it early.

Nayin Harmony — Nayin Five Elements

Score: +3 / 5 (Moderate)

The two day pillars carry the Nayin tones Hairpin Metal and Roadside Earth (mutually beneficial). In classical Seojeon-gumirok commentary this is a soft 'deep-tone' indicator — neither a red flag nor a primary factor, but it colors the relationship's underlying feel. The 30×30 pair-specific Seojeon-gumirok table is not yet sourced; this verdict uses the documented 5-element grammar as a fallback.

Favorable Element Cross-Supply — Favorable Element Compatibility

Score: +8 / 12 (Strong)

Favorable Element cross-supply is the **Gungtong-bogam (favorable-element method) deciding factor**: does each partner's chart carry the element the other needs? Both partners bring meaningful supply of the other's favorable element. This is a structural complementarity — 'each serves as the other’s Favorable Element' reading.

Tags: `B → A Favorable Element Water supply favorable`, `A → B Favorable Element Earth supply favorable`, `excess of A’s Unfavorable Element Fire in B`

Day-Pillar Pair Classification — Day Pillar Compatibility

Score: +6 / 15 (Moderate)

The two day pillars are **Sin Hae** (Partner A) and **Sin Mi** (Partner B). Each partner's spouse palace (day-branch main qi — the main hidden stem of a branch — its dominant inner force hidden stem) is read against their own favorable element (Jeokcheon-su (classical reference) principle).

Tags: `Day Branch main qi Im → Water — sharp output — bold expression, creativity, friction with rules and authority`, `spouse blessing and virtue (Favorable Element match)`, `Day Branch main qi Gi → Earth`, `spouse blessing and virtue (Favorable Element match)`

Combined Element Balance — combined Five Elements (Union Five Elements)

Score: +11 / 12 (Strong)

Combined element distribution (average of both charts). The union leans heavily on Water — over-dominant elements 'rule' the relationship. Gungtong-bogam (favorable-element method) framing: one chart may be cold, the other hot — complementary climates balance the union.

Tags: `combined excess: ['Water']`, `A Favorable Element Water in the union sufficient`, `B Favorable Element Earth in the union sufficient`

Ten-God Cross-Relationship — Ten Gods cross

Score: +0 / 10 (Soft)

In Ten Gods cross-reading, each partner is classified as a specific Ten Gods of the other's Day Master. A→B/B→A Ten Gods pattern is Companion/Companion (Companion/Companion) — both Day Masters share the same stem (Sin). This is the mirror-companion dynamic: peer-energy, equals rather than complements. The classical table (§G) reads companion-spouse as an equal bond, sometimes competitive; the Kwon In-seong school reads same-polarity unions as familiar, easy but at risk of going stale — a friendship-over-romance tendency where mutual competition surfaces when both reach for the same role. The classical offset is deliberate asymmetry: take turns leading and following so the bond does not flatten into a sibling dynamic. Base score is neutral (0); a Favorable Element-element match between partners can lift it.

> ⚠️ **Watch out for — Major Luck direction diverging major-luck directions:** the two of you enter life's large phases on different timing tracks. Years that feel expansive for one can coincide with a contraction phase for the other. For any time-bound decision (wedding year, relocation, major purchase), overlay both partners' Annual Luck — the theme of a single year (annual luck) rather than reading either chart alone.

Major Luck Synchrony — Major Luck·Annual Luck Synchrony (Major Luck·Annual Luck Synchrony)

Score: +0 / 5 (Soft)

Daeun directions: A = forward, B = backward. Different directions mean major life-stage transitions often diverge in timing. Time-bound commentary for a specific year should use a separate Annual Luck overlay.

Tags: `Major Luck — roughly ten-year life chapters that colour a whole span direction forward vs backward`

Compatibility Star Overlays — Star Compatibility

Score: -2 / 5 (Yellow Flag)

Cross-star overlays are **descriptive**, not primary factors. Peach Blossom — charm and magnetism — attractiveness, and sometimes distraction or scandal cross patterns suggest magnetic attraction but caution against exclusivity issues; Post Horse — movement — travel, relocation, changing scenes, a mobile life dual-presence suggests parallel but peripatetic lives; Canopy — solitude and depth — art, scholarship, spirituality, time alone dual suggests a tendency to grow apart emotionally. Heavenly Noble in the partner's day branch is the most favorable cross-star pattern. Net yellow-flag cross-star signature.

Tags: `double Post Horse — both have Post Horse but not anchored in spouse palace; parallel travel lives`

Yin-Yang Polarity — Yin-Yang Harmony

Score: -2 / 3 (Yellow Flag)

Day Masters: A=Yin, B=Yin. Same polarity — similar wavelength, can drift into complacency. Union polarity balance: 25% Yang.

Tags: `Day Master Yin-Yang Yin/Yin`, `combined Yin-Yang unbalanced (25% Yang)`

Year-Branch Zodiac Pair (Zodiac) — Zodiac Compatibility (Branch Compatibility)

Score: +2 / 3 (Strong)

Year-branch pair (Shin/Ja) — the zodiac-sign layer of Compatibility. It is the lightest signal in the reading: a useful intuitive opener, never a verdict. Modern Korean Myeongri (Korean Saju tradition) weights it at most 3 of 100; popular fortune sites tend to over-emphasise it.

This deep layer adds each partner's individual element balance, Day Master strength, current major-luck (Major Luck) direction, and a year-by-year couple timing overlay so you can see *when* the natal pattern is likely to be activated.

Day Master Snapshot — Harish

- **Day Master:** Sin (Sin (Yin Metal) / Sin) — Metal (Yin)

- **Seasonal strength verdict:** Balanced
- **Favorable element:** Water
- **Supporting element:** Metal
- **Unfavorable / watch element:** Fire
- *How this was derived:* The Day Master reads as balanced, so the classical climate-balance check applies: this chart peaks in hot summer conditions, and the classical remedy is Water. This takes priority over the chart's simple element count, which is a weaker signal than the classical climate check here.

Day Master Snapshot — Priyanka

- **Day Master:** Sin (Sin (Yin Metal) / Sin) — Metal (Yin)
- **Seasonal strength verdict:** Weak
- **Favorable element:** Earth
- **Supporting element:** Metal
- **Unfavorable / watch element:** Fire
- *How this was derived:* The Day Master reads as weak, so the favorable element is the one that resources and steadies it. This is an engine reading — a full classical analysis may refine it. The Water that climate would add is already this chart's most abundant element, so it cannot balance the chart and the strength-balance reading governs.

All timing notes are tendencies, not date-specific predictions. Use them as a lens for joint planning rather than as fixed forecasts.

> **In plain words:** On timing, your life-chapters turn on loosely related clocks — mostly fine, with occasional mismatched timing.

Practical Guidance

- **Lean on your shared lucky element.** Cross-Favorable Element supply is strong (sub-system D: 8/12) — each of you brings what the other's chart needs. Consciously build environments, seasons, and activities that activate the favorable element (Water / Earth); both Day Masters benefit at once.
- **Day-stem combination is absent.** Attraction must build through shared activities, not first-meeting chemistry — the day-branch layer (below) is your primary anchor.

- **You share the same Day Master (Sin) — a Companion mirror dynamic.** You are peers rather than complements: easy and familiar, but it can drift toward a sibling/friendship tone or mild competition when both want the same role. Counter it with deliberate asymmetry — take turns leading and following, and protect romantic differentiation so the bond doesn't flatten.
- **Day-branch partial harmony (Day Branch Half Harmony) is present** — two-of-three in a three-harmony frame. A real but incomplete anchor: nurture the shared element (e.g. Fire for In O Sul) through joint activities, and be aware the third branch is 'missing' — the bond wants a deliberate third point of connection (a shared project, place, or person) to complete the frame.
- **Identical Yin-Yang polarity (same wavelength).** Easy resonance, but the Kwon In-seong school warns it can go familiar ease-stale — protect differentiation and avoid drifting into parallel rather than intertwined lives.
- **Your major-luck (Major Luck) directions diverge** — life's large phases arrive on different timing tracks for the two of you. Be more deliberate about timing joint decisions: for any wedding year, relocation, or major purchase, overlay both partners' annual luck and pick a window that is favorable for both, not just one.

Closing Note

This reading reflects the classical Kwon In-seong·Kwak Im-seong·Jeong Bong-jae·Song Gi-yeong Korean Myeongri consensus on Harish × Priyanka's natal compatibility, across all eleven sub-systems documented in. The composite score of **58/100 (Mixed)** is a tendency indicator, not a destiny. No compatibility reading can account for conscious effort, life circumstances, or the choices both partners make over years. Classical Myeongri (Korean Saju tradition) text guides tendencies; the relationship itself is lived.

A note on challenging and mixed verdicts: these do not mean incompatibility. They mean the chart surfaces patterns that need deliberate, conscious attention — which is a different problem from having no resonance at all. Many long, happy marriages have charts with 'Challenging' compat scores; many short, painful ones have 'Excellent'.
