Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance

Born: 1964-07-19 · 08:30 · Tirupati, Andhra Pradesh

Time method: recorded birth time 08:30 (local clock) corrected to true solar time 08:11 (birthplace 79.42°E vs the 82.5°E zone meridian), -18.3 min (longitude -12.3 min + equation of time -6 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Chart at a Glance

Four Pillars

	Year	Month	Day	Hour
Stem	Gap	Sin	Gi	Mu
Branch	Jin	Mi	Sa	Jin
Hidden Stems	Mu (), Eul (), Gye ()	Gi (), Jeong (), Eul ()	Bing (), Gyeong (), Mu ()	Mu (), Eul (), Gye ()

Element Balance

Element	Presence	Percentage
● Fire		11.2%
● Earth		48.8%
● Metal		16.2%
● Water		2.5%
● Wood		21.3%

> Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems (Stem) at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- Day Master: Gi (Yin Earth, Gi Earth)
- Strength: Strong — the Day Master's stage in the month branch Mi is Coming of Age (crown belt) (a seasonally supported baseline, per) — the querent grows into form

gradually; adolescence and early adulthood often bring ambition — and peer/resource support and the output/wealth/authority drain then sit close to even.

- Favorable Element: Metal — Favorable element confirmed by the reader from the full classical analysis.
- Supporting Element: Earth
- Avoid / Watch: Earth
- Current Major Luck: Jeong Chuk (ages 56-65)
- Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- Pattern / Formation: Pillar (Companion) / Companion Grid

What This Year Means for You

Right now, in September 2026, you are moving through a year whose energy is shaped by Bing O (Direct Resource). This sits inside your broader Jeong Chuk major luck period (ages 56-65), whose theme is Indirect Resource. For your chart, the most useful energy to lean into this year is Metal: look for decisions, environments, and relationships that bring metal qualities forward.

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. What does "favorable element" mean in daily life? It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.
2. Should I move north or only wear metal? No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.
3. Can Saju tell me what illness I might get? No. Classical Saju maps tendencies in the body's elemental systems (e.g. excess Wood may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. How often should I get a reading? Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. What is a major luck period? A 10-year stretch of life shaped by a new stem and branch (Major Luck (Major Luck)) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. How is Saju different from Western astrology? Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. Should I read this report chronologically? No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With Gi (Gi (Yin Earth, Gi Earth)) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the rich garden soil nurturing many seeds. Your natural strengths run toward patience, service, and quiet organizational skill, while the shadow side can show as over-giving, worry, or losing boundaries.

Born in a Earth chart with the engine reading as strong, the way you meet the world is shaped by how much Earth energy is available. When balanced, you express the best of Earth; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate Metal energy — the favorable element — so that your Earth nature has the right container and outlet.

Your Day Master Gi meets the month branch Mi at the Coming of Age (coming-of-age energy) twelve-stage — the querent grows into form gradually; adolescence and early adulthood often bring ambition. This is read as a seasonally supported arrival: a tendency in how the querent's core energy first enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Gap Jin (Gap (Yang Wood, Gap Wood))

The Gap Jin pillar pairs the Gap stem (Gap (Yang Wood, Gap Wood)) with the Jin branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads as Direct Officer (Direct Officer) relative to your Day Master, so this area of life

tends to carry that dynamic.

The Earth branch is the container for this area and the Wood stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the Wood element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to year-pillar matters. Hidden stems within the Jin branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Jin branch or the Gap stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Sin Mi (Sin (Yin Metal, Sin Metal))

The Sin Mi pillar pairs the Sin stem (Sin (Yin Metal, Sin Metal)) with the Mi branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Eating God (Eating God) relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Metal stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the Metal element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to month-pillar matters. Hidden stems within the Mi branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Mi branch or the Sin stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Gi Sa (Gi (Yin Earth, Gi Earth))

The Gi Sa pillar pairs the Gi stem (Gi (Yin Earth, Gi Earth)) with the Sa branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Fire branch is the container for this area and the Earth stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the Earth element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent relates to day-pillar matters. Hidden stems within the Sa branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sa branch or the Gi stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Mu Jin (Mu (Yang Earth, Mu Earth))

The Mu Jin pillar pairs the Mu stem (Mu (Yang Earth, Mu Earth)) with the Jin branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Robber (Rob Wealth) relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Earth stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the Earth element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how the querent

relates to hour-pillar matters. Hidden stems within the Jin branch add layers: any mid- or residual-stem ten-god the querent carries here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Jin branch or the Mu stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods (Ten Gods)) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Gap Jin	Gap	Direct Officer (Direct Officer)	Mu (), Eul (), Gye ()	Rob Wealth (Companion), Seven Killings (Authority), Indirect Wealth	Outer layer: Direct Officer (Direct Officer); inner driver through the branch: Rob Wealth (Companion).
Month Pillar — Sin Mi	Sin	Eating God (Eating God)	Gi (), Jeong (), Eul ()	Pillar (Companion), Indirect Resource, Seven Killings (Authority)	Outer layer: Eating God (Eating God); inner driver through the branch: Pillar (Companion).
Day Pillar — Gi Sa	Gi	Companion (Pillar)	Bing (), Gyeong (), Mu ()	Direct Resource, Hurting Officer (Output), Rob Wealth (Companion)	Outer layer: Companion (Pillar); inner driver through the branch: Direct Resource.
Hour Pillar — Mu Jin	Mu	Robber (Rob Wealth)	Mu (), Eul (), Gye ()	Rob Wealth (Companion), Seven Killings (Authority), Indirect Wealth	Outer layer: Robber (Rob Wealth); inner driver through the branch: Rob Wealth (Companion).

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> In plain words: Where your chart puts its weight: most of all on peers, rivals, and how you hold your own.

> In plain words: At your core you are steady ground — you hold, stabilise, and mediate. Your chart reads as strong, so the rest of this report is about where that helps and where leaning toward Metal keeps you in balance.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Metal and supporting element Earth describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck and Annual Luck (Annual Luck) tables to see when income and value-creation themes surface most clearly. Periods dominated by Earth call for conservation rather than expansion.

Employment vs. Entrepreneurship

The Day Master reads as strong with visible Output or Wealth stems, which favours independent paths once the querent has built enough foundation to hold the variability. Treat this as a tendency reading, not a verdict; the Major Luck and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

Income arrives in project-based bursts — commissions, deals, or ventures that close in lumps rather than steady drip. Build cash reserves between projects so the slower months do not force reactive decisions.

Skill-Levers to Develop

Robber-dominant charts tend to grow fastest through competitive positioning, negotiation, and boundary-setting. Cultivate refinement and discipline — editing, design, or craft that rewards precision.

Wealth Preservation Note

For a Earth Day Master with a Strong reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Metal element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Partnerships and joint ventures work well when the partner's element supports Metal; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Metal-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

A mid-size specialist firm with strong leadership visibility is the most likely fit. Both Direct Officer and Seven Killings are present, so the querent needs a credible structure but also room to push back when needed.

Boss / Team Dynamics

The ideal manager profile is a warm Fire motivator — someone whose element complements rather than competes with your Day Master. Watch for rapid change that erodes Earth's stability; this is the most common way the querent's energy gets drained in a team setting.

Red-Flag Environments

Look out for: slow bureaucratic processes that the querent's energy quickly overruns; unclear decision rights — strong Day Masters struggle without ownership; teams that refuse to challenge the querent's ideas.

Decade-by-Decade Career Strategy

Ages 6-15 — Im Shin

With a Direct Wealth (Direct Wealth) ten-god over a Metal branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Metal energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 16-25 — Gye Yu

With a Indirect Wealth (Indirect Wealth) ten-god over a Metal branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Metal energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 26-35 — Gap Sul

With a Direct Officer (Direct Officer) ten-god over a Earth branch (stem element Wood), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Metal energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 36-45 — Eul Hae

With a Seven Killings (Seven Killings) ten-god over a Water branch (stem element Wood), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Metal energy are

the most reliable for visible wins; the others are best used for quiet preparation.

Ages 46-55 — Bing Ja

With a Direct Resource (Direct Resource) ten-god over a Water branch (stem element Fire), this is a transition and adapt decade. Use the mixed energy to refine skills and reposition rather than to launch new ventures. Years where the stem element matches the favorable Metal energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 56-65 — Jeong Chuk

With a Indirect Resource (Indirect Resource) ten-god over a Earth branch (stem element Fire), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Metal energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 66-75 — Mu In

With a Robber (Rob Wealth) ten-god over a Wood branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Metal energy are the most reliable for visible wins; the others are best used for quiet preparation.

Ages 76-85 — Gi Myo

With a Companion (Pillar) ten-god over a Wood branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window. Years where the stem element matches the favorable Metal energy are the most reliable for visible wins; the others are best used for quiet preparation.

> In plain words: Your chart leans toward earning alongside peers — teams, partnerships, independent practice. Fields and decades that carry Metal give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is Sa (12-stage: Peak (emperor flourishing) — peak strength — full power, with the risk of over-reach), whose main hidden stem relates to your Day Master as Direct Resource (Direct Resource). In practice, you are drawn to partners who feel grounding, patient, and protective of your inner life. No Peach Blossom () star is natally active, so relationship style is more shaped by the spouse palace and ten-god mix than by overt magnetism.

Spouse Palace Ten-God

The spouse palace Sa (12-stage: Peak) carries a main hidden stem that relates to your Day Master as Direct Resource (Direct Resource). In the partner domain this points toward a protective, grounding partnership that offers rest and steady support. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	Good	Wood helps drain or channel your strong Day Master — a complementary force.
Radiant, expressive, and momentum-driven	Fire	Watch	Fire (Resource) feeds your already-strong self and can amplify imbalance.
Grounded, nurturing, and reliability-focused	Earth	Watch	Same-element (Companion) peers echo your strength — support turns into competition.
Disciplined, precise, and structure-oriented	Metal	Best	Metal is your Favorable Element (favorable element) — the core balance your chart seeks.
Adaptive, perceptive, and depth-seeking	Water	Good	Water helps drain or channel your strong Day Master — a complementary force.

Three Things to Be Mindful Of

- Peach Blossom is not natively active, so your social style leans toward depth rather than breadth — protect your close-circle time.
- No major natal clashes touch the spouse palace, so relationship friction is more likely to come from timing (Major Luck/Annual Luck activations) than from the natal structure.
- The current major-luck period (Jeong Chuk, Indirect Resource (Indirect Resource) — unconventional learning — intuition, solitary study, restless over-thinking) carries favorable energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

>Relationship theme per year for the next six years — read alongside the annual windows table.

Year	Pillar	Note
2026	Bing O (Direct Resource)	Fire energy + Direct Resource: support and study — a partner who mentors or grounds you.
2027	Jeong Mi (Indirect Resource)	Fire energy + Indirect Resource: intuition and surprise — a relationship that teaches you something unexpected.
2028	Mu Shin (Robber)	Earth energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.
2029	Gi Yu (Companion)	Earth energy + Companion: peer energy — friendships and partnerships strengthen.
2030	Gyeong Sul (Hurting Officer)	Metal energy + Hurting Officer: candid expression together — direct conversation, art, or public collaboration.
2031	Sin Hae (Eating God)	Metal energy + Eating God: creative expression together — shared projects, craft, or quiet collaboration.

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — Companion (6), Authority (4) — so the querent tends to give and receive in those modes. The querent is naturally drawn to people who are precise, principled, and disciplined, and tends to feel drained by people who are chaotic and directionless. Social settings where the favorable Metal element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace Sa sitting in the Peak 12-stage and carrying hidden-stem ten-gods of Direct Resource, Hurting Officer (Output), Rob Wealth (Companion), the querent bonds through a mix of presence and discernment. The day branch's stage matters: a Cutoff ()/Illness (illness)/Death (death) stage asks for openness and vitality, while a Tomb (tomb)//clash () stage leans toward reserve and selectivity. The hidden-stem ten-gods colour the undercurrent — Resource leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck/Annual Luck overlays show when the querent's bond patterns shift most.

Marriage Timing Windows

The strongest windows for commitment decisions in the current and next major-luck periods: Jeong Chuk (ages 56-65, favorable). Within those windows, the annual pillars whose stem element matches the favorable element are the cleanest moments to formalize; clash years are better for deepening privately.

Family Dynamics

The year pillar Jin carries ancestral and parental themes; its main hidden stem shapes how the querent absorbs (or pushes back on) family-of-origin patterns. The month pillar Mi is the career and sibling palace — its dynamics surface in how the querent shows up among peers and early mentors. The hour pillar Jin speaks to children and later life — its hidden stems indicate what the querent is likely to pass on, and what they will need to consciously teach.

Partner Chart Add-On

Curious about a specific person? Add a compatibility reading — the Deep Compatibility report (\$45) — by replying with their birth details.

> In plain words: Your partnership area points toward a protective, grounding partner who offers rest. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- Element excess: Earth — pay attention to the spleen/stomach and digestive metabolism system.
- Element deficiency: Water — the kidney/bladder and hormonal/endocrine reserves system may need gentle support.
- The chart's lightest weighted element is Water (2.5%), which in classical Five-Element mapping is paired with the kidney/bladder and hormonal/endocrine reserves. This is not a diagnosis; it is the least natively emphasized system, making it the natural place to begin gentle, preventive support through water-aligned foods, seasons, and rhythms.

Grounding Practices

- Breathwork and pranayama in cool, dry air
- Eating white-colored foods (radish, pear, rice) and pungent spices
- Organizing and decluttering physical and digital spaces
- Autumn retreats or west-facing quiet rooms
- Precision hobbies: calligraphy, instrument practice, martial forms

The Overdrive Warning

A Strong Earth Day Master has surplus self-energy and may push past the body without noticing. Watch for burning out through worry, over-nurturing, or digestive sluggishness, especially during demanding seasons or under high-output projects. In classical Five-Element reading, the spleen/stomach and digestive metabolism are a common watchpoint when energy is overstretched; the Metal element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The Earth Day Master is most at home in late summer / transitions; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable Metal element's season (autumn (the harvest, the refinement)) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Metal hours of the day (per the Twelve Stages) are the most aligned — mornings for Wood, midday for Fire, transitions for Earth, afternoons for Metal, evenings for Water.

> This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.

> In plain words: Your lightest element is Water, so the kidney/bladder and hormonal/endocrine reserves are the natural place to start gentle, preventive care — through water-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern candidate: Pillar (Companion) / Companion Grid

Pattern	Branches	Classical Note
Self-Punishment	Jin Jin	the Jin branch appears twice; a recurring inner pattern that asks for self-awareness
rebellion-against-authority (Output Meets Authority)	Hurting Officer (Output) + Direct Officer (Authority)	Classical conflict pattern (): Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event.

Pattern Narratives

The engine flags a likely Pillar (Companion) (Companion Grid) as the regular grid. This points toward a life theme shaped by self-reliance and peer dynamics — the chart learns most through equal relationships and independent effort. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a self-punishment (Self-Punishment) of Jin, appearing more than once in the ancestral and social-root energy — the wider world you were born into. This points to an inner pattern that repeats until self-awareness reframes it; it is structural, not a character flaw.

What This Means in Plain Language

The chart's dominant pattern candidate is Pillar (Companion) (Companion Grid). Together, these patterns point to a recurring life theme rather than a single event. The favorable Metal element is the querent's lever for working with — rather than against — the chart's structure.

> In plain words: The chart's organising theme is self-reliance and peer dynamics — the chart learns most through equal relationships and independent effort.

Other Active Star (Star)

- (evil) (at Jin): external pressures or authority conflicts — "heaven-sent" trials.
- (evil) (at Sa): earthly hindrances, delays, or bureaucratic friction.
- (evil) (at Mi): monthly-style friction; some schools also read it for romantic turbulence.
- In (Tiger) () (at Gap): virtue, protection, and honorable character — help arriving in times of need; often read as one of the most favorable stars.
- In (Tiger) () (at Gap): monthly/quarterly support, popularity, and smooth assistance from people around the querent.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Position	Stem	Ten-God	Note
year_branch_residual	Gye	Indirect Wealth (Indirect Wealth)	Natal wealth signal visible here.
hour_branch_residual	Gye	Indirect Wealth (Indirect Wealth)	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 6–15 (Im Shin, Direct Wealth (Direct Wealth) — steady, earned income and everyday resources — salary and savings) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 16–25 (Gye Yu, Indirect Wealth (Indirect Wealth) — variable money — deals, commissions, windfalls, higher risk and reward) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 66–75 (Mu In, Robber (Rob Wealth) — a rival for the same resources — competition in money or love) — your favorable element is active here, supporting overall stability — but

its ten-god is a peer/rival type (peer-drains-wealth), classically read as wealth competition rather than opportunity; keep shared-money agreements explicit here rather than expecting income growth from it directly.

- Ages 76-85 (Gi Myo, Companion (Pillar) — a peer or equal — support, solidarity, and rivalry in equal measure) — your favorable element is active here, supporting overall stability — but its ten-god is a peer/rival type (peer-drains-wealth), classically read as wealth competition rather than opportunity; keep shared-money agreements explicit here rather than expecting income growth from it directly.

Investment Style Cue

Because your favorable element is Metal and your supporting element is Earth, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Metal (favorable)	west	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Earth (supporting)	center	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- Favorable orientation: Facing or sleeping with head toward west is traditionally considered supportive for your chart.
- Supporting orientation: Use center when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during the favorable Metal-element years and months, and especially during major-luck periods: ages 6-15 (Im Shin), ages 16-25 (Gye Yu), ages 26-35 (Gap Sul). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Business & Launch Timing

For a Earth Day Master, the most supportive launch windows tend to come when the annual pillar carries Metal or Earth energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use 4, 9 (favorable Metal) and 0, 5 (supporting Earth) in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A public campaign with a clear voice is the most likely fit. Strong Day Masters with visible Output stems can carry the visibility, and a public launch reads as confidence rather than risk. Pair it with a small but engaged audience rather than a mass-broadcast feel.

Favorable Windows (2026-2031)

Year	Pillar	Why It Matters	Suggested Use
2026	Bing O	Direct Resource (Fire energy + Direct Resource — a mixed year.)	study, mentorship, rest, skill-building
2027	Jeong Mi	Indirect Resource (Fire energy + Indirect Resource — a mixed year.)	study, mentorship, rest, skill-building
2028	Mu Shin	Robber (Earth energy + Robber — a favorable-element year.)	peer projects, friendships, self-definition
2029	Gi Yu	Companion (Earth energy + Companion — a favorable-element year.)	peer projects, friendships, self-definition
2030	Gyeong Sul	Hurting Officer (Metal energy + Hurting Officer — a favorable-element year.)	creative production, writing, speaking, teaching
2031	Sin Hae	Eating God (Metal energy + Eating God — a favorable-element year.)	creative production, writing, speaking, teaching

Quarterly / Seasonal Reminders

For a Earth Day Master, the most aligned launch window is late summer / transitions (Earth stabilizes what is being built). Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. Annual branches that clash your natal day branch Sa — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. Annual pillars dominated by the unfavorable element — favour audits, refinements, and quiet product work over big announcements.
3. A major-luck shift into a heavier stem (strong Direct Officer (Authority) / Seven Killings (Authority)) — use the first 1-2 years to set up systems rather than scale headcount.
4. Activated chart-punishment or self-punishment patterns during the launch year — keep partnerships small and written, not verbal.
5. Conjunction of new-moon or full-moon eclipses falling on spouse-palace or wealth-stem branches — defer the launch by 30-45 days if it lands on the public date.

Timing: Major Luck & Annual Windows

Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

Major Luck Water (starting age): ~6.3 (~19 days to the qualifying ÷ 3, per 's "3 days = 1 year" rule) — the first major-luck period begins roughly 25 months after birth, inside the 6-15 decade label shown below, not precisely at its first birthday.

Current Period Deep-Dive

This decade carries a Indirect Resource (Indirect Resource) ten-god over a Earth branch — a clearly favorable window for visible wins. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do push visible projects, plant seeds, and request what is owed; avoid starting too many things at once. Within this decade, years and months whose stem element matches the favorable Metal energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows Earth (48.8%) as the most present element and Water (2.5%) as the least. Energy tends to accumulate and congest in the Earth domain; a balanced day feels like quiet movement between input, processing, and release. The Water system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- Excess system (Earth): spleen/stomach and digestive metabolism — watch for signs of over-activity or congestion.
- Deficient system (Water): kidney/bladder and hormonal/endocrine reserves — gentle rebuilding over time is usually better than forceful stimulation.

Stress Signature

When this chart goes out of balance, the most common early signals are: worry that loops without resolution, digestive sluggishness, and feeling over-responsible for others. With a Strong reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Metal):

- a quiet hour of focused craft (drawing, editing, instrument practice)
- white or silver objects near the workspace
- breathwork in cool air
- a weekly review and tidy

Day-Master practice (Earth): Slow down on purpose — Earth recovers by staying still, not by pushing harder.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 6-15 (Im Shin), ages 16-25 (Gye Yu), ages 26-35 (Gap Sul). Use these decades to build resilience.

Across all periods, the Metal element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

Monthly Lucky Dates

The next 12 months of favorable days, selected when the daily stem element matches your Metal or Earth element and the day branch does not clash, harm, or break your natal day or hour branch.

> Methodology: each row filters the daily-luck (Daily Luck (Daily Luck)) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes, harms, or breaks against your natal day or hour branch.

> Almanac caveat: this is a chart-relative shortlist, not a finished date selection — a full date selection also weighs the day's own almanac assignment, the specific event type, and local custom.

Closing Note

Gi (Gi (Yin Earth, Gi Earth)) sits at the centre of this chart, with the chart's element balance leaning toward Earth and a ten-god distribution dominated by Companion (6), Authority (4). The favorable Metal element (with Earth as the quiet secondary) is the querent's main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace Sa and the chart's relationship dynamics reward the querent for showing up consistently rather than performing. Across a full lifetime, this chart rewards the querent who studies their own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
