Gurumoorthy — Deep Destiny Report

Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance

Born: 1964-07-19 · 08:30 · Tirupati, Andhra Pradesh

Time method: recorded birth time 08:30 (local clock) corrected to true solar time **08:11** (birthplace 79.42°E vs the 82.5°E zone meridian), -18.3 min (longitude -12.3 min + equation of time -6 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Day Master: Gi (Yin Earth, 己土)

Element Balance

Element	Presence	Percentage
🔴 Fire	▓▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒	6.6%
🟡 Earth	▓▓▓▓▓▓▓▓▓▒▒▒▒▒▒▒▒▒▒▒	49.1%
⚪ Metal	▓▓▓▓▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒	18.4%
🔵 Water	▓▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒	5.6%
🟢 Wood	▓▓▓▓▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒▒	20.3%

Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems (藏干) at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- **Day Master:** Gi (Yin Earth, 己土)
- **Strength:** Strong — the month branch **Mi (未)** gives the Day Master a **seasonally supported baseline** by element relation; its 12-Stage Cycle (운성) stage there is **Coming of Age (冠帶)** — you grow into form gradually; adolescence and early adulthood often bring ambition. Peer/resource support and the output/wealth/authority drain sit close to even.
- **Favorable Element:** Metal — Favorable element confirmed by the reader from the full classical analysis. *Confirmed by a human reader from the full classical analysis.*
- **Supporting Element:** Water
- **Avoid / Watch:** Earth
- **Current Major Luck:** ages 56-65
- **Luck direction:** forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- **Pattern / Formation:** Companion Structure (비견격) / Companion Grid

What This Year Means for You

*Right now, in September 2026, you are moving through a year whose energy is shaped by **Bing O (丙午)** (Direct Resource). This sits inside your broader **Jeong Chuk (丁丑)** major luck period (ages 56–65), whose theme is Indirect Resource (편인). For your chart, the most useful energy to lean into this year is **Metal**: look for decisions, environments, and relationships that bring metal qualities forward.*

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. **What does "favorable element" mean in daily life?** It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.
2. **Should I move north or only wear metal?** No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.

3. **Can Saju tell me what illness I might get?** No. Classical Saju maps tendencies in the body's elemental systems (e.g. *excess Wood* may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. **How often should I get a reading?** Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. **What is a major luck period?** A 10-year stretch of life shaped by a new stem and branch (대운) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. **How is Saju different from Western astrology?** Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. **Should I read this report chronologically?** No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With **Gi (己)** (Gi ⍰31⍰) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the **rich garden soil nurturing many seeds**. Your natural strengths run toward **patience, service, and quiet organizational skill**, while the shadow side can show as **over-giving, worry, or losing boundaries**.

Born in an **Earth** chart that reads as **strong**, the way you meet the world is shaped by how much Earth energy is available. When balanced, you express the best of Earth; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate **Metal** energy — the favorable element — so that your Earth nature has the right container and outlet.

Your Day Master **Gi (己)** meets the month branch **Mi (未)** at the **coming-of-age energy** twelve-stage — you grow into form gradually; adolescence and early adulthood often bring ambition. This is read as a seasonally supported arrival: a tendency in how your core energy first enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Gap Jin (甲辰) (Gap ⍰32⍰)

The Gap Jin (甲辰) pillar pairs the **Gap (甲)** stem (Gap ⍰33⍰) with the **Jin (辰)** branch, together shaping **ancestral and social-root energy — the wider world you were born into**. Read as **Direct Officer (正官)** relative to your Day Master, the year pillar tends to carry that dynamic.

The **Earth** branch is the container for this area and the **Wood** stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the **Wood** element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to year-pillar matters. Hidden stems within the Jin (辰) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Jin (辰) branch or the Gap (甲) stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Sin Mi (辛未) (Sin 35)

The Sin Mi (辛未) pillar pairs the **Sin (辛)** stem (Sin 36) with the **Mi (未)** branch, together shaping **career and immediate environment — how you show up at work and in daily life**. Read as **Eating God (食神)** relative to your Day Master, the month pillar tends to carry that dynamic.

The **Earth** branch is the container for this area and the **Metal** stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the **Metal** element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to month-pillar matters. Hidden stems within the Mi (未) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Mi (未) branch or the Sin (辛) stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Gi Sa (己巳) (Gi 38)

The Gi Sa (己巳) pillar pairs the **Gi (己)** stem (Gi 39) with the **Sa (巳)** branch, together shaping **spouse palace and the inner self — the partner you choose and the self behind the choices**. Read as **Companion (比肩)** relative to your Day Master, the day pillar tends to carry that dynamic.

The **Fire** branch is the container for this area and the **Earth** stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the **Earth** element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to day-pillar matters. Hidden stems within the Sa (巳) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sa (巳) branch or the Gi (己) stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Mu Jin (戊辰) (Mu 41)

The Mu Jin (戊辰) pillar pairs the **Mu (戊)** stem (Mu 42) with the **Jin (辰)** branch, together shaping **later life and children — what you build toward and what you pass on**. Read as **Robber (Rob Wealth)** relative to your Day Master, the hour pillar tends to carry that dynamic.

The **Earth** branch is the container for this area and the **Earth** stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the **Earth** element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to hour-pillar matters. Hidden stems within the Jin (辰) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Jin (辰) branch or the Mu (戊) stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Gap Jin (甲辰)	Gap (甲)	Direct Officer (正官)	Mu (戊) (main), Gye (癸) (middle), Eul (乙) (residual)	Rob Wealth (Companion), Indirect Wealth (편재), Seven Killings (Authority)	Outer layer: Direct Officer (正官); inner driver through the branch: Rob Wealth (Companion).
Month Pillar — Sin Mi (辛未)	Sin (辛)	Eating God (食神)	Gi (己) (main), Eul (乙) (middle), Jeong (丁) (residual)	Companion (비견), Seven Killings (Authority), Indirect Resource (편인)	Outer layer: Eating God (食神); inner driver through the branch: Companion (비견).
Day Pillar — Gi Sa (己巳)	Gi (己)	Companion (比肩)	Bing (丙) (main), Gyeong (庚) (middle), Mu (戊) (residual)	Direct Resource (정인), Hurting Officer (Output), Rob Wealth (Companion)	Outer layer: Companion (比肩); inner driver through the branch: Direct Resource (정인).
Hour Pillar — Mu Jin (戊辰)	Mu (戊)	Robber (Rob Wealth)	Mu (戊) (main), Gye (癸) (middle), Eul (乙) (residual)	Rob Wealth (Companion), Indirect Wealth (편재), Seven Killings (Authority)	Outer layer: Robber (Rob Wealth); inner driver through the branch: Rob Wealth (Companion).

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> **In plain words:** Where your chart puts its weight: most of all on peers, rivals, and how you hold your own.

> **In plain words:** At your core you are steady ground — you hold, stabilise, and mediate. Your chart reads as strong, so the rest of this report is about where that helps and where leaning toward Metal keeps you in balance.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element **Metal** and supporting element **Water** describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck (大運) and Annual Luck (歲運) tables to see when income and value-creation themes surface most clearly. Periods dominated by **Earth** call for conservation rather than expansion.

Employment vs. Entrepreneurship

The Day Master reads as **strong** with visible Output or Wealth stems, which favours independent paths once you have built enough foundation to hold the variability. Treat this as a tendency reading, not a verdict; the Major Luck (대운) and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

Income arrives in **project-based bursts** — commissions, deals, or ventures that close in lumps rather than steady drip. Build cash reserves between projects so the slower months do not force reactive decisions.

Skill-Levers to Develop

Robber-dominant charts tend to grow fastest through competitive positioning, negotiation, and boundary-setting. Cultivate **refinement and discipline** — editing, design, or craft that rewards precision.

Wealth Preservation Note

For an **Earth** Day Master with a **Strong** reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the **Metal** element (its colors, foods, and rhythms) help the you stay flexible across unfavorable Major Luck (대운) periods. Partnerships and joint ventures work well when the partner's element supports Metal; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Metal-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

A **mid-size specialist firm with strong leadership visibility** is the most likely fit. Both Direct Officer and Seven Killings are present, so you need a credible structure but also room to push back when needed.

Boss / Team Dynamics

The ideal manager profile is a **structured, precise Metal manager** — someone who carries your favorable **Metal** element, supplying what the chart needs rather than competing with your Day Master. Watch for rapid change that erodes Earth's stability; this is the most common way your energy gets drained in a team setting.

Red-Flag Environments

Look out for: slow bureaucratic processes that your energy quickly overruns; unclear decision rights — strong Day Masters struggle without ownership; teams that refuse to challenge your ideas.

Decade-by-Decade Career Strategy

Within any period, years and months whose stem matches your favorable element are the most reliable for visible wins; the rest are best used for quiet preparation.

Ages 6-15 — Im Shin (壬申)

With a **Direct Wealth (正財)** ten-god over a **Metal** branch (stem element Water), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window.

Ages 16-25 — Gye Yu (癸酉)

With an **Indirect Wealth (偏財)** ten-god over a **Metal** branch (stem element Water), this is a build and rise decade. Move on the opportunities you have already prepared; this window rewards visible effort.

Ages 26-35 — Gap Sul (甲戌)

With a **Direct Officer (正官)** ten-god over an **Earth** branch (stem element Wood), this is a conserve and consolidate decade. Hold your position and invest in the skills that will still matter when the cycle turns.

Ages 36-45 — Eul Hae (乙亥)

With a **Seven Killings (偏官)** ten-god over a **Water** branch (stem element Wood), this is a build and rise decade. Say yes to the stretch role or the larger scope; capacity is not the constraint here.

Ages 46-55 — Bing Ja (丙子)

With a **Direct Resource (正印)** ten-god over a **Water** branch (stem element Fire), this is a build and rise decade. Ask for the introduction, the raise, or the larger budget while the ground is receptive.

Ages 56-65 — Jeong Chuk (丁丑)

With an **Indirect Resource (偏印)** ten-god over an **Earth** branch (stem element Fire), this is a conserve and consolidate decade. Spend on maintenance and reserves, not on growth; the return comes in the next cycle.

Ages 66-75 — Mu In (戊寅)

With a **Robber (Rob Wealth)** ten-god over a **Wood** branch (stem element Earth), this is a conserve and consolidate decade. Reduce the number of open fronts so the ones that matter get your full attention.

Ages 76-85 — Gi Myo (己卯)

With a **Companion (比肩)** ten-god over a **Wood** branch (stem element Earth), this is a conserve and consolidate decade. Let the unglamorous work accumulate — it is what the next decade inherits.

> **In plain words:** Your chart leans toward earning alongside peers — teams, partnerships, independent practice. Fields and decades that carry Metal give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is **Sa (巳)** (12-stage: 제왕), whose main hidden stem relates to your Day Master as **Direct Resource (正印)**. In practice, you are drawn to partners who feel grounding, patient, and protective of your inner life. No **Peach Blossom (桃花)** star is natally active, so relationship style is more shaped by the spouse palace and ten-god mix than by overt magnetism. By Japyeong-jinjeon (자평진전)'s gendered spouse-star convention, your **wife star (처성) (재성, wife star)** appears at **year branch middle**, **hour branch middle**.

Spouse Palace Ten-God

The spouse palace **Sa (巳)** (12-stage: 제왕) carries a main hidden stem that relates to your Day Master as **Direct Resource (정인)**. In the partner domain this points toward a protective, grounding partnership that offers rest and steady support. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	**Good**	Wood helps drain or channel your strong Day Master — a complementary force.
Radiant, expressive, and momentum-driven	Fire	**Watch**	Fire (인성) feeds your already-strong self and can amplify imbalance.
Grounded, nurturing, and reliability-focused	Earth	**Watch**	Earth is your challenging element — it works against the balance your chart seeks.
Disciplined, precise, and structure-oriented	Metal	**Best**	Metal is your favorable element — the core balance your chart seeks.
Adaptive, perceptive, and depth-seeking	Water	**Good**	Water helps drain or channel your strong Day Master — a complementary force.

Three Things to Be Mindful Of

- **Peach Blossom** is not natally active, so your social style leans toward depth rather than breadth — protect your close-circle time.
- No major natal clashes touch the spouse palace, so relationship friction is more likely to come from timing (대운/세운 activations) than from the natal structure.
- The current major-luck period (**Jeong Chuk (丁丑)**, Indirect Resource (偏印) — unconventional learning — intuition, solitary study, restless over-thinking) carries mixed energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

> *Relationship theme per year for the next six years — read alongside the annual windows table.*

Year	Pillar	Note
2026	Direct Resource	**Fire** energy + Direct Resource: support and study — a partner who mentors or grounds you.
2027	Indirect Resource	**Fire** energy + Indirect Resource: intuition and surprise — a relationship that teaches you something unexpected.
2028	Robber	**Earth** energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.
2029	Companion	**Earth** energy + Companion: peer energy — friendships and partnerships strengthen.
2030	Hurting Officer	**Metal** energy + Hurting Officer: candid expression together — direct conversation, art, or public collaboration.
2031	Eating God	**Metal** energy + Eating God: creative expression together — shared projects, craft, or quiet collaboration.

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — **Companion (6), Authority (4)** — so the you tend to give and receive in those modes. You are naturally drawn to people who are precise, principled, and disciplined, and tends to feel drained by people who are chaotic and directionless. Social settings where the favorable **Metal** element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace **Sa (巳)** sitting in the **Peak (제왕)** 12-stage and carrying hidden-stem ten-gods of **Direct Resource (정인), Hurting Officer (Output), Rob Wealth (Companion)**, you bond through a mix of presence and discernment. The **Peak (제왕)** stage is one of the supported (strong) stages, so you tend to bring energy and presence into the bond. The hidden-stem ten-gods colour the undercurrent — Resource leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck (대운)/Annual Luck (세운) overlays show when your bond patterns shift most.

Marriage Timing Windows

Commitment timing is read from your **wife star** and your spouse palace **the day branch**. Neither the current nor the next major-luck period carries the spouse star or binds the spouse palace, so the annual years below carry more of the weight. The years where the most signals converge: **2033 Gye Chuk (癸丑)** (편재 spouse-star year, 巳酉丑 삼합 through the spouse palace); **2032 Im Ja (壬子)** (정재 spouse-star year). Years better suited to deepening privately than to formalising: 2030 (a void ⟨97⟩ year, so gains may feel less solid); 2031 (Hae Sa (亥巳) clash (충) on the spouse palace, a void (empty) year, so gains may feel less solid); 2034 (寅巳 형 on the spouse palace). These are tendencies for when the theme is most active — not predictions of an event.

Family Dynamics

The year pillar **Jin (辰)** carries ancestral and parental themes; its main hidden stem shapes how you absorb (or pushes back on) family-of-origin patterns. The month pillar **Mi (未)** is the career and sibling palace — its dynamics surface in how you show up among peers and early mentors. The hour pillar **Jin (辰)** speaks to children and later life — its hidden stems indicate what you are likely to pass on, and what they will need to consciously teach.

Partner Chart Add-On

> *Curious about a specific person? Add a compatibility reading — the Deep Compatibility report — by replying with their birth details.*

> **In plain words:** Your partnership area points toward a protective, grounding partner who offers rest. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- **Element excess:** Earth — pay attention to the spleen/stomach and digestive metabolism.
- **Element deficiency:** Water — the kidney/bladder and hormonal/endocrine reserves may need gentle support.
- The chart's lightest weighted element is **Water (5.6%)**, which in classical Five-Element mapping is paired with the **kidney/bladder and hormonal/endocrine reserves**. This is not a diagnosis; it is the least natally emphasized system, making it the natural place to begin gentle, preventive support through water-aligned foods, seasons, and rhythms.

Grounding Practices

- Breathwork and pranayama in cool, dry air
- Eating white-colored foods (radish, pear, rice) and pungent spices
- Organizing and decluttering physical and digital spaces
- Autumn retreats or west-facing quiet rooms
- Precision hobbies: calligraphy, instrument practice, martial forms

The Overdrive Warning

A **Strong** Earth Day Master has surplus self-energy and may push past the body without noticing. Watch for burning out through worry, over-nurturing, or digestive sluggishness, especially during demanding seasons or under high-output projects. In classical Five-Element reading, the **spleen/stomach and digestive metabolism** are a common watchpoint when energy is overstretched; the **Metal** element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The **Earth** Day Master is most at home in **late summer / transitions**; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable **Metal** element's season (**autumn (the harvest, the refinement)**) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Metal hours (by the twelve branch hours) are the most aligned — Shin Yu (申酉) hours, 15:00–19:00.

> *This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.*

> **In plain words:** Your lightest element is Water, so the kidney/bladder and hormonal/endocrine reserves are the natural place to start gentle, preventive care — through water-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern: *Companion Structure (비견격) / Companion Grid*

Pattern	Branches	Classical Note
Self-Punishment	Jin Jin (辰辰)	the Jin (辰) branch appears twice; a recurring inner pattern that asks for self-awareness
Output Meets Authority	Hurting Officer (Output) + Direct Officer (Authority)	Classical conflict pattern : Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event.

Pattern Narratives

The chart shows a likely **Companion Grid** as the regular grid. This points toward a life theme shaped by self-reliance and peer dynamics — the chart learns most through equal relationships and independent effort. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a **Self-Punishment** of **Jin (辰)**, appearing more than once in the ancestral and social-root energy — the wider world you were born into. This points to an inner pattern that repeats until self-awareness reframes it; it is structural, not a character flaw.

What This Means in Plain Language

The chart's dominant pattern is **Companion Grid**. Together, these patterns point to a recurring life theme rather than a single event. The favorable **Metal** element is your lever for working with — rather than against — the chart's structure.

> **In plain words:** The chart's organising theme is self-reliance and peer dynamics — the chart learns most through equal relationships and independent effort.

Other Active Star (神殺)

Counted from your day branch ***common modern practice; traditional Korean practice counts from the year branch, which can give a different set of stars****.*

- **Heaven Star (天煞)** (at 辰): external pressures or authority conflicts — "heaven-sent" trials.
- **Movement Star (地煞)** (at 巳): a movement/departure marker — relocation, travel, job or residence changes; a milder, more passive sibling of the travel star (Post Horse).
- **Withering Star (月煞)** (at 未): also called Withering Star (고초살) — a drying-up/stagnation marker: slow development and effort that needs patience before it bears fruit.
- **Heavenly Virtue (天德貴人)** (at 甲): virtue, protection, and honorable character — help arriving in times of need; often read as one of the most favorable stars.
- **Monthly Virtue (月德貴人)** (at 甲): monthly/quarterly support, popularity, and smooth assistance from people around you.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Hour branch middle	Gye (癸)	Indirect Wealth (偏財)	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 6–15 (Im Shin (壬申), Direct Wealth (正財) — steady, earned income and everyday resources — salary and savings) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 16–25 (Gye Yu (癸酉), Indirect Wealth (偏財) — variable money — deals, commissions, windfalls, higher risk and reward) — a window where income, asset, or value-creation themes are more likely to surface.

Investment Style Cue

Because your favorable element is **Metal** and your supporting element is **Water**, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Metal (favorable)	west	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Water (supporting)	north	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- **Favorable orientation:** Facing or sleeping with head toward **west** is traditionally considered supportive for your chart.
- **Supporting orientation:** Use **north** when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during **Metal** (and supporting **Water**)-element years and months, and especially during these supportive major-luck periods: ages 6-15 (Im Shin), ages 16-25 (Gye Yu), ages 36-45 (Eul Hae). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Business & Launch Timing

For an Earth Day Master, the most supportive launch windows tend to come when the annual pillar carries **Metal** or **Water** energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use **4, 9 (favorable Metal) and 1, 6 (supporting Water)** in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A public campaign with a clear voice is the most likely fit. Strong Day Masters with visible Output stems can carry the visibility, and a public launch reads as confidence rather than risk. Pair it with a small but engaged audience rather than a mass-broadcast feel.

Year-by-Year Launch Timing (2026–2031)

Year	Pillar	Why It Matters	Suggested Use
2026	Bing O (丙午)	Direct Resource (Fire energy + Direct Resource — a mixed year.)	study, mentorship, rest, skill-building
2027	Jeong Mi (丁未)	Indirect Resource (Fire/Earth energy + Indirect Resource — a challenging-element year.)	study, mentorship, rest, skill-building
2028	Mu Shin (戊申)	Robber (Earth/Metal energy + Robber — a challenging-element year.)	peer projects, friendships, self-definition
2029	Gi Yu (己酉)	Companion (Earth/Metal energy + Companion — a challenging-element year.)	peer projects, friendships, self-definition
2030	Gyeong Sul (庚戌)	Hurting Officer (Metal/Earth energy + Hurting Officer — a favorable-element year.)	creative production, writing, speaking, teaching
2031	Sin Hae (辛亥)	Eating God (Metal/Water energy + Eating God — a favorable-element year.)	creative production, writing, speaking, teaching

Quarterly / Seasonal Reminders

With **Metal** as the favorable element, the most aligned launch window is **autumn (the harvest, the refinement)**, the favorable element's own season. Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. **Annual branches that clash your natal day branch Sa (巳)** — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. **Annual pillars dominated by the unfavorable element** — favour audits, refinements, and quiet product work over big announcements.

3. **A major-luck shift into a heavier stem (strong 정관 / 편관)** — use the first 1–2 years to set up systems rather than scale headcount.
4. **Activated chart-punishment or self-punishment patterns during the launch year** — keep partnerships small and written, not verbal.
5. **A public date chosen without checking your favorable element** — if the launch date can move, place it in a month whose stem matches your favorable **Metal** element; the auspicious-dates section lists the candidates.

Timing: Major Luck & Annual Windows

Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

starting age: ~6.5 (~19.4 days to the qualifying 節氣 ÷ 3, per "3 days = 1 year" rule) — the first major-luck period begins roughly 78 months after birth (≈ Jan 1971), inside the **6-15** decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) apps round this to a whole **Major Luck Water (대운수) 6** and list decades as 6, 16, 26… (often in Korean age), so their labels can differ from the table below by a year or so while describing the same periods.

Major Luck Periods

Age	Pillar	Elements (Stem / Branch)	Ten-God	Career Theme	Relationship Theme
6-15	Im Shin (壬申)	Water / Metal	Direct Wealth (正財)	income, assets, or value-creation themes	shared resources or lifestyle alignment
16-25	Gye Yu (癸酉)	Water / Metal	Indirect Wealth (偏財)	income, assets, or value-creation themes	shared resources or lifestyle alignment
26-35	Gap Sul (甲戌)	Wood / Earth	Direct Officer (正官)	structured career moves; credentials matter (mixed — protect, don't overcommit)	commitment or formalization themes
36-45	Eul Hae (乙亥)	Wood / Water	Seven Killings (偏官)	structured career moves; credentials matter	commitment or formalization themes
46-55	Bing Ja (丙子)	Fire / Water	Direct Resource (正印)	study, mentorship, or skill-building	nurturing, support, or healing connection
56-65	Jeong Chuk (丁丑)	Fire / Earth	Indirect Resource (偏印)	study, mentorship, or skill-building (mixed — protect, don't overcommit)	nurturing, support, or healing connection
66-75	Mu In (戊寅)	Earth / Wood	Robber (Rob Wealth)	peer-driven or self-defined work (mixed — protect, don't overcommit)	friendship-based or peer dynamic
76-85	Gi Myo (己卯)	Earth / Wood	Companion (比肩)	peer-driven or self-defined work (mixed — protect, don't overcommit)	friendship-based or peer dynamic

Current Period Deep-Dive

This decade carries an **Indirect Resource (偏印)** ten-god over an **Earth** branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the *outer theme* — what the world sees and asks of you — while the branch element is the *underlying terrain* — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: **do** conserve, refine, and protect the foundation; **avoid** long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable **Metal** energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Structurally, its **Chuk (丑)** clashes (clash) with your natal **Mi (未)**; its **Chuk (丑)** punishes (punishment) your natal **Mi (未)**.

Life Themes by Major Luck Period

Each 10-year major-luck (대운) period brings a new stem and branch into prominence. The stem shows the outer theme through its Ten Gods (十神) relationship to your Day Master; the branch shows the stage of life and the underlying terrain. Read these as tendencies, not fixed events.

Within any period, years and months whose stem matches your favorable element are the most reliable for visible wins; the rest are best used for quiet preparation.

Lifetime Decade Roadmap

A single-glance view of all 8 major-luck periods in your life and the favorable lean of each. Green segments are clearly favorable, amber are mixed, red lean toward challenge. Treat this as a rhythm, not a verdict — the supporting-element periods are often where the most important growth quietly happens.

Auspicious Dates — Next 90 Days

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows **Earth (49.1%)** as the most present element and **Water (5.6%)** as the least. Energy tends to **accumulate and congest** in the Earth domain; a balanced day feels like quiet movement between input, processing, and release. The Water system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- **Excess system (Earth):** spleen/stomach and digestive metabolism — watch for signs of over-activity or congestion.
- **Deficient system (Water):** kidney/bladder and hormonal/endocrine reserves — gentle rebuilding over time is usually better than forceful stimulation.

Stress Signature

When this chart goes out of balance, the most common early signals are: worry that loops without resolution, digestive sluggishness, and feeling over-responsible for others. With a Strong reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Metal):

- a quiet hour of focused craft (drawing, editing, instrument practice)
- white or silver objects near the workspace
- breathwork in cool air
- a weekly review and tidy **Day-Master practice (Earth):** Slow down on purpose — Earth recovers by staying still, not by pushing harder.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 6-15 (Im Shin), ages 16-25 (Gye Yu), ages 36-45 (Eul Hae). Use these decades to build resilience.

Conservation windows — the chart asks for gentler practice during: ages 26-35 (Gap Sul), ages 56-65 (Jeong Chuk), ages 66-75 (Mu In). Reduce load, deepen recovery, and avoid starting ambitious new regimens in these years.

Across all periods, the **Metal** element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

Monthly Lucky Dates

The next **12 months** of favorable days, selected when the daily stem element matches your **Metal** or **Water** element and the day branch does not clash, harm, or break your natal day or hour branch.

> *Methodology: each row filters the daily-luck (일운) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes, harms, or breaks against your natal day or hour branch.*

> **Almanac caveat:** this is a chart-relative shortlist, not a finished date selection (택일) — a full date selection (택일) also weighs the day's own almanac assignment, the specific event type, and local custom.

Closing Note

Gi (己) (Gi ⍰246⍰) sits at the centre of this chart, with the chart's element balance leaning toward **Earth** and a ten-god distribution dominated by **Companion (6), Authority (4)**. The favorable **Metal** element (with **Water** as the quiet secondary) is your main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace **Sa (巳)** and the chart's relationship dynamics reward the you for showing up consistently rather than performing. Across a full lifetime, this chart rewards you for studying your own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
