# Mahesh — Deep Destiny Report

*Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance*

**Born:** 1995-01-19 · 23:50 · Ambur, Tamil Nadu

**Time method:** recorded birth time 23:50 (local clock) corrected to true solar time **23:24** (birthplace 78.7135°E vs the 82.5°E zone meridian), -25.8 min (longitude -15.1 min + equation of time -10.7 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

## Chart at a Glance

### Four Pillars

| | Year | Month | Day | Hour |
|---|---|---|---|---|
| Stem | Gap (甲) | Jeong (丁) | Gyeong (庚) | Mu (戊) |
| Branch | Sul (戌) | Chuk (丑) | Sul (戌) | Ja (子) |
| Hidden Stems | Mu (戊) (main), Jeong (丁) (middle), Sin (辛) (residual) | Gi (己) (main), Sin (辛) (middle), Gye (癸) (residual) | Mu (戊) (main), Jeong (丁) (middle), Sin (辛) (residual) | Gye (癸) (main) |

### Element Balance

| Element | Presence | Percentage |
|---|---|---|
| 🔴 Fire | ████░░░░░░ | 21.3% |
| 🟡 Earth | ██████░░░░ | 32.5% |
| ⚪ Metal | ████░░░░░░ | 20.3% |
| 🔵 Water | ██░░░░░░░░ | 10.3% |
| 🟢 Wood | ███░░░░░░░ | 15.6% |

*Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems (藏干) at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.*

## Quick Reference

- **Day Master:** Gyeong (Yang Metal, 庚金)
- **Strength:** Balanced — the month branch **Chuk (丑)** gives the Day Master a **mixed seasonal baseline** by element relation; its 12-Stage Cycle (운성) stage there is **tomb (墓)** — energy is stored in the month branch; the chart ripens slowly and reveals depth over time. Peer/resource support and the output/wealth/authority drain sit close to even.
- **Favorable Element:** Fire — The Day Master reads as balanced, so the classical climate-balance check applies: this chart peaks in cold winter conditions, and the classical remedy is Fire. This takes priority over the chart's simple element count, which is a weaker signal than the classical climate check here.
- **Why this element:** two classical checks apply here — the strength-balance (억부) reading points one way, while the climate-balance (조후) reading points to **Fire** for a cold-season chart. In this chart the climate reading takes priority because the chart leans clearly seasonal; the classical priority rule decides between them.
- **Supporting Element:** Wood
- **Avoid / Watch:** Metal (기신, watch) · Water (구신, restrains Fire) · Earth (한신, drains Fire)
- **Current Major Luck:** ages 25-34
- **Luck direction:** forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- **Pattern / Formation:** Direct Resource Structure (정인격) / Direct Resource Grid

### *What This Year Means for You*

*Right now, in September 2026, you are moving through a year whose energy is shaped by **Bing O (丙午)** (Seven Killings (Authority)). This sits inside your broader **Gyeong Jin (庚辰)** major luck period (ages 25–34), whose theme is Companion (비견). For your chart, the most useful energy to lean into this year is **Fire**: look for decisions, environments, and relationships that bring fire qualities forward.*

## How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. **What does "favorable element" mean in daily life?** It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.

2. **Should I move north or only wear fire?** No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.
3. **Can Saju tell me what illness I might get?** No. Classical Saju maps tendencies in the body's elemental systems (e.g. *excess Wood* may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. **How often should I get a reading?** Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. **What is a major luck period?** A 10-year stretch of life shaped by a new stem and branch (대운) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. **How is Saju different from Western astrology?** Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. **Should I read this report chronologically?** No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

# Day Master Portrait

With **Gyeong (庚)** (Gyeong 34) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the **tempered metal blade or strong framework**. Your natural strengths run toward **decisiveness, discipline, and the courage to cut through confusion**, while the shadow side can show as **harshness, inflexibility, or impulsive confrontation**.

Born in a **Metal** chart that reads as **balanced**, the way you meet the world is shaped by how much Metal energy is available. When balanced, you express the best of Metal; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate **Fire** energy — the favorable element — so that your Metal nature has the right container and outlet.

Your Day Master **Gyeong (庚)** meets the month branch **Chuk (丑)** at the **contained start** twelve-stage — energy is stored in the month branch; the chart ripens slowly and reveals depth over time. This is read as a mixed seasonal support arrival: a tendency in how your core energy first enters the world, not a fixed early-life outcome.

## Four Pillars, One by One

### Year Pillar — Gap Sul (甲戌) (Gap 35)

The Gap Sul (甲戌) pillar pairs the **Gap (甲)** stem (Gap ⬜36⬜) with the **Sul (戌)** branch, together shaping **ancestral and social-root energy — the wider world you were born into**. Read as **Indirect Wealth (偏財)** relative to your Day Master, the year pillar tends to carry that dynamic.

The **Earth** branch is the container for this area and the **Wood** stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the **Wood** element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to year-pillar matters. Hidden stems within the Sul (戌) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sul (戌) branch or the Gap (甲) stem, expect year-pillar themes to move to the foreground for that window.

### Month Pillar — Jeong Chuk (丁丑) (Jeong ⬜38⬜)

The Jeong Chuk (丁丑) pillar pairs the **Jeong (丁)** stem (Jeong ⬜39⬜) with the **Chuk (丑)** branch, together shaping **career and immediate environment — how you show up at work and in daily life**. Read as **Direct Officer (正官)** relative to your Day Master, the month pillar tends to carry that dynamic.

The **Earth** branch is the container for this area and the **Fire** stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the **Fire** element, it tends to bring fire-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to month-pillar matters. Hidden stems within the Chuk (丑) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Chuk (丑) branch or the Jeong (丁) stem, expect month-pillar themes to move to the foreground for that window.

### Day Pillar — Gyeong Sul (庚戌) (Gyeong ⬜41⬜)

The Gyeong Sul (庚戌) pillar pairs the **Gyeong (庚)** stem (Gyeong ⬜42⬜) with the **Sul (戌)** branch, together shaping **spouse palace and the inner self — the partner you choose and the self behind the choices**. Read as **Companion (比肩)** relative to your Day Master, the day pillar tends to carry that dynamic.

The **Earth** branch is the container for this area and the **Metal** stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the **Metal** element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to day-pillar matters. Hidden stems within the Sul (戌) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sul (戌) branch or the Gyeong (庚) stem, expect day-pillar themes to move to the foreground for that window.

### Hour Pillar — Mu Ja (戊子) (Mu ⬜44⬜)

The Mu Ja (戊子) pillar pairs the **Mu (戊)** stem (Mu ⬜45⬜) with the **Ja (子)** branch, together shaping **later life and children — what you build toward and what you pass on**. Read as **Indirect Resource (偏印)** relative to your Day Master, the hour pillar tends to carry that dynamic.

The **Water** branch is the container for this area and the **Earth** stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the **Earth** element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to hour-pillar matters. Hidden stems within the Ja (子) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Ja (子) branch or the Mu (戊) stem, expect hour-pillar themes to move to the foreground for that window.

### Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

| Pillar | Stem | Ten-God (Stem) | Branch Hidden Stems | Hidden Ten-Gods | Reading |
|---|---|---|---|---|---|
| Year Pillar — Gap Sul (甲戌) | Gap (甲) | Indirect Wealth (偏財) | Mu (戊) (main), Jeong (丁) (middle), Sin (辛) (residual) | Indirect Resource (편인), Direct Officer (Authority), Rob Wealth (Companion) | Outer layer: Indirect Wealth (偏財); inner driver through the branch: Indirect Resource (편인). |
| Month Pillar — Jeong Chuk (丁丑) | Jeong (丁) | Direct Officer (正官) | Gi (己) (main), Sin (辛) (middle), Gye (癸) (residual) | Direct Resource (정인), Rob Wealth (Companion), Hurting Officer (Output) | Outer layer: Direct Officer (正官); inner driver through the branch: Direct Resource (정인). |
| Day Pillar — Gyeong Sul (庚戌) | Gyeong (庚) | Companion (比肩) | Mu (戊) (main), Jeong (丁) (middle), Sin (辛) (residual) | Indirect Resource (편인), Direct Officer (Authority), Rob Wealth (Companion) | Outer layer: Companion (比肩); inner driver through the branch: Indirect Resource (편인). |
| Hour Pillar — Mu Ja (戊子) | Mu (戊) | Indirect Resource (偏印) | Gye (癸) (main) | Hurting Officer (Output) | Outer layer: Indirect Resource (偏印); inner driver through the branch: Hurting Officer (Output). |

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

---

> **In plain words:** Where your chart puts its weight: most of all on learning, support, and what refills you.

> **In plain words:** At your core you are a refined blade — you cut to the point and value quality. Your chart reads as balanced, so the rest of this report is about where that helps and where leaning toward Fire keeps you in balance.

## Career & Wealth

### Career Archetypes

*A detailed career analysis follows in the Career Deep-Dive section below.*

## Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element **Fire** and supporting element **Wood** describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck (大運) and Annual Luck (歲運) tables to see when income and value-creation themes surface most clearly. Periods dominated by **Metal** call for conservation rather than expansion.

## Employment vs. Entrepreneurship

A double pull between Authority and Wealth suggests a hybrid path: a credible institutional platform in the early career years, then a measured move toward independent ventures once credibility and capital are in place. Treat this as a tendency reading, not a verdict; the Major Luck (대운) and annual luck tables below show when each path is more likely to land cleanly.

## Income Rhythm

Income arrives in **project-based bursts** — commissions, deals, or ventures that close in lumps rather than steady drip. Build cash reserves between projects so the slower months do not force reactive decisions.

## Skill-Levers to Develop

**Indirect Resource-dominant** charts tend to grow fastest through intuition-driven research, pattern recognition, and cross-domain synthesis. Cultivate **public visibility** — speaking, publishing, or teaching — to light Fire's radiance.

## Wealth Preservation Note

For a **Metal** Day Master with a **Balanced** reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the **Fire** element (its colors, foods, and rhythms) help the you stay flexible across unfavorable Major Luck (대운) periods. Partnerships and joint ventures work well when the partner's element supports Fire; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Fire-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

## Career Deep-Dive

### Company-Type Fit

**Large institutions and mid-size specialists** are the most likely fit. The Direct Officer influence values hierarchy, credential, and a clear chain of accountability — you are most productive when the structure around them is unambiguous.

### Boss / Team Dynamics

The ideal manager profile is a **warm Fire motivator** — someone who carries your favorable **Fire** element, supplying what the chart needs rather than competing with your Day Master. Watch for vague goals that blunt Metal's precision; this is the most common way your energy gets drained in a team setting.

### Red-Flag Environments

Look out for: long stretches of Metal-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

### Decade-by-Decade Career Strategy

Within any period, years and months whose stem matches your favorable element are the most reliable for visible wins; the rest are best used for quiet preparation.

**Ages 5-14 — Mu In (戊寅)**

With an **Indirect Resource (偏印)** ten-god over a **Wood** branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window.

**Ages 15-24 — Gi Myo (己卯)**

With a **Direct Resource (正印)** ten-god over a **Wood** branch (stem element Earth), this is a build and rise decade. Move on the opportunities you have already prepared; this window rewards visible effort.

**Ages 25-34 — Gyeong Jin (庚辰)**

With a **Companion (比肩)** ten-god over an **Earth** branch (stem element Metal), this is a conserve and consolidate decade. Hold your position and invest in the skills that will still matter when the cycle turns.

**Ages 35-44 — Sin Sa (辛巳)**

With a **Robber (Rob Wealth)** ten-god over a **Fire** branch (stem element Metal), this is a transition and adapt decade. Treat this as a staging decade — the groundwork laid now is what the next one builds on.

**Ages 45-54 — Im O (壬午)**

With an **Eating God (食神)** ten-god over a **Fire** branch (stem element Water), this is a build and rise decade. Ask for the introduction, the raise, or the larger budget while the ground is receptive.

**Ages 55-64 — Gye Mi (癸未)**

With a **Hurting Officer (傷官)** ten-god over an **Earth** branch (stem element Water), this is a transition and adapt decade. Deepen the relationships and skills you already have; additions are optional.

**Ages 65-74 — Gap Shin (甲申)**

With an **Indirect Wealth (偏財)** ten-god over a **Metal** branch (stem element Wood), this is a transition and adapt decade. Reassess what you are carrying — a mixed decade is a good time to drop something.

**Ages 75-84 — Eul Yu (乙酉)**

With a **Direct Wealth (正財)** ten-god over a **Metal** branch (stem element Wood), this is a transition and adapt decade. Set the direction now and let the next decade supply the momentum.

> **In plain words:** Your chart leans toward earning through knowledge — research, advice, credentialed practice. Fields and decades that carry Fire give the cleanest results; the timing tables show when.

# Relationships

## Relationship Style

The spouse palace is **Sul (戌)** (12-stage: 쇠), whose main hidden stem relates to your Day Master as **Indirect Resource (偏印)**. In practice, you are drawn to partners who spark your curiosity and bring unexpected insights. No **Peach Blossom (桃花)** star is natally active, so relationship style is more shaped by the spouse palace and ten-god mix than by overt magnetism. By Japyeong-jinjeon (자평진전)'s gendered spouse-star convention, your **wife star (처성) (재성, wife star)** appears at **year stem**.

## Spouse Palace Ten-God

The spouse palace **Sul (戌)** (12-stage: 쇠) carries a main hidden stem that relates to your Day Master as **Indirect Resource (편인)**. In the partner domain this points toward an unusual or insight-driven partnership — the spouse domain teaches you things. Read this as an atmospheric tendency, not a prediction about a specific person.

## Partner Compatibility

| Partner Type | Element | Fit Level | Why |
|---|---|---|---|
| Growth-oriented, idealistic, and principled | Wood | **Good** | Wood supports your Fire — secondary support (Supporting Element). |
| Radiant, expressive, and momentum-driven | Fire | **Best** | Fire is your favorable element — the core balance your chart seeks. |
| Grounded, nurturing, and reliability-focused | Earth | **Compatible** | Neutral energetic exchange. |
| Disciplined, precise, and structure-oriented | Metal | **Watch** | Metal is your challenging element — it works against the balance your chart seeks. |
| Adaptive, perceptive, and depth-seeking | Water | **Compatible** | Neutral energetic exchange. |

## Three Things to Be Mindful Of

- **Peach Blossom** is not natally active, so your social style leans toward depth rather than breadth — protect your close-circle time.
- A natal six-combination between **Ja (子)** and **Chuk (丑)** draws the partner into a transformation toward **Earth** energy — expect the relationship to ask for adaptation.
- The current major-luck period (**Gyeong Jin (庚辰)**, Companion (比肩) — a peer or equal — support, solidarity, and rivalry in equal measure) carries mixed energy for relationships — the next few years are about consolidation rather than reinvention.

## Key Relationship Timing

> *Relationship theme per year for the next six years — read alongside the annual windows table.*

| Year | Pillar | Note |
|---|---|---|
| 2026 | Seven Killings | **Fire** energy + Seven Killings: intensity and transformation — expect a relationship to demand change. |
| 2027 | Direct Officer | **Fire** energy + Direct Officer: structure and accountability in relationships and partnerships. |
| 2028 | Indirect Resource | **Earth** energy + Indirect Resource: intuition and surprise — a relationship that teaches you something unexpected. |
| 2029 | Direct Resource | **Earth** energy + Direct Resource: support and study — a partner who mentors or grounds you. |
| 2030 | Companion | **Metal** energy + Companion: peer energy — friendships and partnerships strengthen. |
| 2031 | Robber | **Metal** energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate. |

## Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — **Resource (4), Companion (4)** — so the you tend to give and receive in those modes. You are naturally drawn to people who are visible, expressive, and energetic, and tends to feel drained by people who are harsh, critical, or cold. Social settings where the favorable **Fire** element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

## Relationship Deep-Dive

### Attachment Patterns from Chart Structure

With the spouse palace **Sul (戌)** sitting in the **Decline (쇠)** 12-stage and carrying hidden-stem ten-gods of **Indirect Resource (편인), Direct Officer (Authority), Rob Wealth (Companion)**, you bond through a mix of presence and discernment. The **Decline (쇠)** stage is one of the unsupported (weak) stages, so you tend to lean toward reserve and selectivity in the bond. The hidden-stem ten-gods colour the undercurrent — Resource — the resource group — support, learning, and what sustains you leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck (대운)/Annual Luck (세운) overlays show when your bond patterns shift most.

### Marriage Timing Windows

Commitment timing is read from your **wife star** and your spouse palace **the day branch**. Neither the current nor the next major-luck period carries the spouse star or binds the spouse palace, so the annual years below carry more of the weight. The years where the most signals converge: **2035 Eul Myo (乙卯)** (Direct Wealth (정재) spouse-star year, Myo Sul (卯戌) Six Harmony (육합) into the spouse palace; offset by a void (empty) year, so gains may feel less solid); **2034 Gap In (甲寅)** (Indirect Wealth (편재) spouse-star year, In O Sul (寅午戌) three-harmony (삼합) through the spouse palace; offset by a void (empty) year, so gains may feel less solid). Years better suited to deepening privately than to formalising: 2027 (未戌 파/형 on the spouse palace); 2031 (겁재 year); 2033 (丑戌 형 on the spouse palace). These are tendencies for when the theme is most active — not predictions of an event.

### Family Dynamics

The year pillar **Sul (戌)** carries ancestral and parental themes; its main hidden stem shapes how you absorb (or pushes back on) family-of-origin patterns. The month pillar **Chuk (丑)** is the career and sibling palace — its dynamics surface in how you show up among peers and early mentors. The hour pillar **Ja (子)** speaks to children and later life — its hidden stems indicate what you are likely to pass on, and what they will need to consciously teach.

### Partner Chart Add-On

> *Curious about a specific person? Add a compatibility reading — the Deep Compatibility report — by replying with their birth details.*

> **In plain words:** Your partnership area points toward an unusual, insight-driven partner who teaches you things. Treat this as the weather it tends to create, not a description of one person.

---

# Health & Vitality

## Primary Watchpoints

- **Element excess:** Earth — pay attention to the spleen/stomach and digestive metabolism.
- **Element deficiency:** Water — the kidney/bladder and hormonal/endocrine reserves may need gentle support.
- The chart's lightest weighted element is **Water (10.3%)**, which in classical Five-Element mapping is paired with the **kidney/bladder and hormonal/endocrine reserves**. This is not a diagnosis; it is the least natally emphasized system, making it the natural place to begin gentle, preventive support through water-aligned foods, seasons, and rhythms.

## Grounding Practices

- Short midday walks in sunlight
- Eating bitter greens, red-colored vegetables, and warm foods
- Speaking or performing in well-lit south-facing spaces
- Taking brief social breaks to rekindle enthusiasm
- Journaling by candlelight to focus scattered Fire

## The Overdrive Warning

A **Balanced** Metal Day Master has reasonable reserves but still needs conscious rhythm. Watch for burning out through perfectionism, grief, or respiratory tightness when output stays high without recovery windows. In classical Five-Element reading, the **lung/large intestine and respiratory/immune boundaries** are a common watchpoint when energy is overstretched; the **Fire** element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

## Seasonal & Daily Rhythms

The **Metal** Day Master is most at home in **autumn**; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable **Fire** element's season (**summer (the peak Fire energy)**) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Fire hours (by the twelve branch hours) are the most aligned — Sa O (巳午) hours, 09:00–13:00.

> *This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.*

> **In plain words:** Your lightest element is Water, so the kidney/bladder and hormonal/endocrine reserves are the natural place to start gentle, preventive care — through water-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

## Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

**Dominant pattern:** *Direct Resource Structure (정인격) / Direct Resource Grid*

| Pattern | Branches | Classical Note |
|---|---|---|
| Six Combination | Ja (子)+Chuk (丑) | transforms toward Earth energy; links the month and hour palaces |
| Stem Clash (천간충) | Gap (甲)↔Gyeong (庚) | two same-polarity stems in direct control — tension in what those stems' ten-gods represent |
| Three Punishment (partial) | Sul (戌)-Chuk (丑) | two branches of a punishment frame without the third; a lighter but recurring structural pressure that matures slowly |
| Output Meets Authority | Hurting Officer (Output) + Direct Officer (Authority) | Classical conflict pattern : Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event. |

### Pattern Narratives

The chart shows a likely **Direct Resource Grid** as the regular grid. This points toward a life theme shaped by education, protection, and gradual advancement — certificates, mentors, real estate, and maternal support. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a **partial Three Punishment** between **Sul (戌)** and **Chuk (丑)** (삼형 Earth triad punishment), touching the ancestral and social-root energy — the wider world you were born into and career and immediate environment — how you show up at work and in daily life. Two branches of a punishment frame are present without the third — a lighter but recurring structural pressure; its themes mature slowly and tend to recur until they are consciously recognized.

### What This Means in Plain Language

The chart's dominant pattern is **Direct Resource Grid**. A six-combination between **Ja (子)** and **Chuk (丑)** transforms toward **Earth** energy, linking the month and hour palaces. A partial three-punishment between **Sul (戌)** and **Chuk (丑)** — two branches of a punishment frame without the third — is a recurring structural pressure; these themes mature slowly and call for patience. Together, these patterns point to a recurring life theme rather than a single event. The favorable **Fire** element is your lever for working with — rather than against — the chart's structure.

> **In plain words:** The chart's organising theme is education, protection, and gradual advancement — certificates, mentors, real estate, and maternal support.

### Other Active Star (神殺)

*Counted from your day branch* ***common modern practice; traditional Korean practice counts from the year branch, which can give a different set of stars****.*

- **Canopy (華蓋)** (at 戌): a scholarly / solitary / artistic marker — often found in those drawn to religion, scholarship, art, or a hermetic path.
- **Heavenly Noble (天乙貴人)** (at 丑): a "helper" star — a tendency toward receiving support from an unexpected, noble source at key turning points.
- **Calamity Star (災煞)** (at 子): mishaps, illness, or obstacles as a recurring theme — classically read as softened by a strong Favorable Element (用神).
- **Heaven Star (天煞)** (at 丑): external pressures or authority conflicts — "heaven-sent" trials.
- **Kuigang Star (魁罡)** (at 庚戌): strong will, charisma, and leadership — with a tendency toward extremity or conflict if the chart is not balanced.
- **Heavenly Virtue (天德貴人)** (at 庚): virtue, protection, and honorable character — help arriving in times of need; often read as one of the most favorable stars.
- **Monthly Virtue (月德貴人)** (at 庚): monthly/quarterly support, popularity, and smooth assistance from people around you.

## Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

| Position | Stem | Ten-God | Note |
|---|---|---|---|
| Year stem | Gap (甲) | Indirect Wealth (偏財) | Natal wealth signal visible here. |

**Major-luck periods that carry wealth or favorable-element energy:**

- Ages 65–74 (Gap Shin (甲申), Indirect Wealth (偏財) — variable money — deals, commissions, windfalls, higher risk and reward) — a window where income, asset, or value-creation themes are more likely to surface.

- Ages 75–84 (Eul Yu (乙酉), Direct Wealth (正財) — steady, earned income and everyday resources — salary and savings) — a window where income, asset, or value-creation themes are more likely to surface.

### Investment Style Cue

Because your favorable element is **Fire** and your supporting element is **Wood**, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

## Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

| Element | Direction | Best For | Use With Care |
|---|---|---|---|
| Fire (favorable) | south | Restoration, big decisions, starting new rhythms | Years when this element is weak in the annual luck |
| Wood (supporting) | east | Building momentum, collaboration, steady growth | Periods of heavy clash or punishment in the natal branches |

- **Favorable orientation:** Facing or sleeping with head toward **south** is traditionally considered supportive for your chart.
- **Supporting orientation:** Use **east** when you need steady, collaborative energy.

### Travel & Move Timing

Travel and relocation are most likely to feel aligned during **Fire** (and supporting **Wood**)-element years and months, and especially during these supportive major-luck periods: ages 5-14 (Mu In), ages 15-24 (Gi Myo), ages 45-54 (Im O). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

---

## Business & Launch Timing

For a Metal Day Master, the most supportive launch windows tend to come when the annual pillar carries **Fire** or **Wood** energy and does not clash the natal day branch.

### Your Business Lucky Numbers

Use **2, 7 (favorable Fire) and 3, 8 (supporting Wood)** in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

### Best Launch Types for This Chart

**A partnership or co-launch with one credible counterparty** is the most likely fit. The Authority ten-god gives the launch a stamp of legitimacy, and a partner carries the parts your chart cannot carry alone.

### Year-by-Year Launch Timing (2026–2031)

| Year | Pillar | Why It Matters | Suggested Use |
|---|---|---|---|
| 2026 | Bing O (丙午) | Seven Killings (Fire energy + Seven Killings — a favorable-element year.) | career moves, credentials, formal commitments |
| 2027 | Jeong Mi (丁未) | Direct Officer (Fire/Earth energy + Direct Officer — a favorable-element year.) | career moves, credentials, formal commitments |
| 2028 | Mu Shin (戊申) | Indirect Resource (Earth/Metal energy + Indirect Resource — a challenging-element year.) | study, mentorship, rest, skill-building |
| 2029 | Gi Yu (己酉) | Direct Resource (Earth/Metal energy + Direct Resource — a challenging-element year.) | study, mentorship, rest, skill-building |
| 2030 | Gyeong Sul (庚戌) | Companion (Metal/Earth energy + Companion — a challenging-element year.) | peer projects, friendships, self-definition |
| 2031 | Sin Hae (辛亥) | Robber (Metal/Water energy + Robber — a challenging-element year.) | peer projects, friendships, self-definition |

### Quarterly / Seasonal Reminders

With **Fire** as the favorable element, the most aligned launch window is **summer (peak Fire energy supports visible launches)**, the favorable element's own season. Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

### Things to Watch

1. **Annual branches that clash your natal day branch Sul (戌)** — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. **Annual pillars dominated by the unfavorable element** — favour audits, refinements, and quiet product work over big announcements.
3. **A major-luck shift into a heavier stem (strong 정관 / 편관)** — use the first 1–2 years to set up systems rather than scale headcount.
4. **Activated chart-punishment or self-punishment patterns during the launch year** — keep partnerships small and written, not verbal.
5. **A public date chosen without checking your favorable element** — if the launch date can move, place it in a month whose stem matches your favorable **Fire** element; the auspicious-dates section lists the candidates.

## Timing: Major Luck & Annual Windows

**Luck direction:** forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

**starting age:** ~5.2 (~15.5 days to the qualifying 節氣 ÷ 3, per "3 days = 1 year" rule) — the first major-luck period begins roughly 62 months after birth (≈ Mar 2000), inside the **5-14** decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) apps round this to a whole **Major Luck Water (대운수) 5** and list decades as 5, 15, 25… (often in Korean age), so their labels can differ from the table below by a year or so while describing the same periods.

## Major Luck Periods

| Age | Pillar | Elements (Stem / Branch) | Ten-God | Career Theme | Relationship Theme |
|---|---|---|---|---|---|
| 5-14 | Mu In (戊寅) | Earth / Wood | Indirect Resource (偏印) | study, mentorship, or skill-building | nurturing, support, or healing connection |
| 15-24 | Gi Myo (己卯) | Earth / Wood | Direct Resource (正印) | study, mentorship, or skill-building | nurturing, support, or healing connection |
| 25-34 | Gyeong Jin (庚辰) | Metal / Earth | Companion (比肩) | peer-driven or self-defined work (mixed — protect, don't overcommit) | friendship-based or peer dynamic |
| 35-44 | Sin Sa (辛巳) | Metal / Fire | Robber (Rob Wealth) | peer-driven or self-defined work (mixed — protect, don't overcommit) | friendship-based or peer dynamic |
| 45-54 | Im O (壬午) | Water / Fire | Eating God (食神) | creative output, voice, or visible production | creative partnership or playful dynamic |
| 55-64 | Gye Mi (癸未) | Water / Earth | Hurting Officer (傷官) | creative output, voice, or visible production (mixed — protect, don't overcommit) | creative partnership or playful dynamic |
| 65-74 | Gap Shin (甲申) | Wood / Metal | Indirect Wealth (偏財) | income, assets, or value-creation themes (mixed — protect, don't overcommit) | shared resources or lifestyle alignment |
| 75-84 | Eul Yu (乙酉) | Wood / Metal | Direct Wealth (正財) | income, assets, or value-creation themes (mixed — protect, don't overcommit) | shared resources or lifestyle alignment |

## Current Period Deep-Dive

This decade carries a **Companion (比肩)** ten-god over an **Earth** branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the *outer theme* — what the world sees and asks of you — while the branch element is the *underlying terrain* — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: **do** conserve, refine, and protect the foundation; **avoid** long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable **Fire** energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Structurally, its **Jin (辰)** clashes (clash) with your natal **Sul (戌)**; its stem **Gyeong (庚)** clashes with your natal **Gap (甲)** (Stem Clash).

## Life Themes by Major Luck Period

Each 10-year major-luck (대운) period brings a new stem and branch into prominence. The stem shows the outer theme through its Ten Gods (十神) relationship to your Day Master; the branch shows the stage of life and the underlying terrain. Read these as tendencies, not fixed events.

Within any period, years and months whose stem matches your favorable element are the most reliable for visible wins; the rest are best used for quiet preparation.

## Lifetime Decade Roadmap

A single-glance view of all 8 major-luck periods in your life and the favorable lean of each. Green segments are clearly favorable, amber are mixed, red lean toward challenge. Treat this as a rhythm, not a verdict — the supporting-element periods are often where the most important growth quietly happens.

## Auspicious Dates — Next 90 Days

> The next 90-day window from September 2026 includes the following candidate dates — each one's day-stem element matches your favorable (Fire) or supporting (Wood) element, and its day-branch does not clash, harm, or break your natal day branch (Sul) or hour branch (Ja). A qualified reader should still cross-check each date against your specific question and local calendar before recommending it.

> **Almanac caveat:** this is a chart-relative shortlist, not a finished auspicious-date selection — a full date selection (택일) also weighs the day's own twelve day-officers (건제십이신)/28Water (수) almanac assignment, the specific event type, and local custom, none of which a chart-relative shortlist can compute.

# Health & Vitality — Deep-Dive

## Element Story

This chart's element balance shows **Earth (32.5%)** as the most present element and **Water (10.3%)** as the least. Energy tends to **flow in cycles** in the Earth domain; a balanced day feels like quiet movement between input, processing, and release. The Water system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

## Body-System Map

- **Excess system (Earth):** spleen/stomach and digestive metabolism — watch for signs of over-activity or congestion.

- **Deficient system (Water):** kidney/bladder and hormonal/endocrine reserves — gentle rebuilding over time is usually better than forceful stimulation.

### Stress Signature

When this chart goes out of balance, the most common early signals are: grief that surfaces unbidden, skin or respiratory sensitivity, and rigid perfectionism. With a Balanced reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

### Recovery Toolkit

**Favorable-element practices (Fire):**

- midday sunlight exposure (10–15 minutes)
- a creative project with a visible output each week
- a shared meal with company
- a daily moment of celebration or laughter **Day-Master practice (Metal):** Refine what is already there. Metal recovers through editing, polishing, and small precision.

### Long-Term Vitality Strategy

**Renewal windows** — the chart's energy supports new health practices and increased capacity during: ages 5-14 (Mu In), ages 15-24 (Gi Myo), ages 45-54 (Im O). Use these decades to build resilience.

**Conservation windows** — the chart asks for gentler practice during: ages 25-34 (Gyeong Jin). Reduce load, deepen recovery, and avoid starting ambitious new regimens in these years.

Across all periods, the **Fire** element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

- **Rest before the body demands it** — balanced charts deplete quietly; preventive rest is the antidote.
- **Boundary-setting** — learning to say no without guilt protects the Metal Day Master's energy.
- **Working with the unfavorable Metal element** — denial amplifies it; conscious engagement contains it.
- **Asking for help early** — Metal Day Masters often wait too long before reaching out.

# 2026-09-19 — Correction: chart re-derived after the late Rat hour (야자시) hour-stem engine fix

**What changed:** the 2026-06-21 analysis below was built on an hour pillar of **Bing Ja (丙子)**, computed before a Korean late Rat hour (夜子時) hour-stem bug fix landed in the engine (`pillars.py::_hour_stem_day_stem`, 2026-09-13, verified against two independent 만세력 sites). For a birth at 23:50 — inside the 23:00–00:59 late Rat hour (야자시) window — Korean Myeongri (Korean Saju tradition) convention derives the hour-stem from the **next day's** Day Master (일간), not the current day's. Mahesh's corrected hour pillar is **Mu Ja (戊子)**, not Bing Ja (丙子). This is not a cosmetic change: it removes a Seven-Killings (Seven Killings (Authority)) star from the hour and replaces it with an Indirect Resource (편인) star, which changes the Day Master strength verdict, the favorable element, and the Chart Structure (격국). **The 2026-06-21 analysis is superseded and should not be used.** The corrected reading follows immediately below; see `mahesh-report.md` for the full base reading.

## Corrected pillars & foundation

**Pillars (verified 2026-09-19):** year / month / day / **hour, corrected**. Day Master **Yang Metal, Gyeong Metal (庚金)**. **Strength: Balanced** (not 신약) — the branches place Gyeong (庚) in Decline (쇠)/Tomb (묘)/Death (사) stages (depleted qi), but the corrected hour stem removes what had been read as a second authority star, and the chart no longer carries the mixed-authority pressure the old reading assumed. **Favorable element (용신) = Fire (화)** — resolved via climate-balance: a Chuk (丑)-month (deep winter) chart with no visible Fire pressure needs Fire's warmth. **Supporting element (희신) = Wood (목)**, which generates Fire. **unfavorable = Metal** — derived from the Fire the element Fire overcomes, with Water as restrains Fire and Earth as drains Fire. **pattern: Direct Resource Structure (정인격) (正印格, Direct Resource Grid)** — the month branch Chuk (丑)'s main qi hidden stem is Gi (己), which reads as Direct Resource relative to Gyeong (庚); this replaces the old, incorrect "Direct Officer Structure (정관격) + mixed officers (정편관혼잡)" claim, which depended on the now-corrected Bing (丙) hour stem. With the hour corrected to Mu (戊), only **one** Authority (관성) star remains in the whole chart (丁 정관, appearing as the month stem and echoed in the year and day branches' hidden stems) — there is no Seven Killings (Authority) anywhere, so **mixed direct/indirect officer does not apply** to this chart.

**Full Ten Gods (십신) count** (stems + hidden stems, from `mahesh-report.md`'s Ten-God Distribution table): Direct Officer ×3, Indirect Resource ×3, Robber ×3, Hurting Officer ×2, Direct Resource ×1, Indirect Wealth ×1. Three classes tie at 3 — Authority (관성), Resource (인성), and Companion (비겁) (Rob Wealth (Companion)) are all meaningfully present; Wealth is thin (one 편재 star only) and there is no visible Output (식상) in the stems (상관 is hidden-only).

## Short answer

- **Business is suitable, but the anchor element is now Fire, not Earth.** The chart carries a clean, single Direct Officer signal — no Seven Killings (Authority) confusion — plus prominent Resource and Robber. Institutional or credentialed structure still suits this chart (via 관성/인성), but the *energy that should be actively cultivated* is Fire: visibility, expression, public-facing work — the opposite steer from the superseded analysis.

- **Top domains** (by 용신/희신 element, per Element → Industry Families): **Leadership & public-facing institutional roles**, **Media, broadcasting & public communication**, **Marketing, PR & advertising**, **Teaching, coaching & public speaking** (Fire); with **Education, publishing & design work** as secondary Wood-aligned support.
- **Favorable element: Fire (화)** — a climate (조후) climate call, not a strength-balancing one: the chart's winter-born (Chuk 月) structure has no Fire warmth of its own, so Fire is the classical remedy regardless of the Day Master's own count of allies.
- **Employment vs. entrepreneurship:** per 's Employment vs. Entrepreneurship signals, a clean Authority (관성)-led chart (single 정관, no confusion) tends to fit **institutional or credentialed employment first**, with independent work becoming more viable once the Major Luck (대운) actively favours Fire/Wood. The prominent Rob Wealth (Companion) (3×) is a **partnership-risk flag** (겁재奪財, see below), independent of the hour-stem correction — this caution from the old analysis still holds.
- **Best window:** favorable-element (Fire/Wood) years and Major Luck (대운) periods — per `mahesh-report.md`'s Timing tables, the ages 45–54 and ages 55–64 Major Luck (대운) carry the clearest favorable lean; within the current Gyeong Jin (庚辰) ages 25–34, itself neutral, lean on **individual years whose stem is Fire or Wood** (see the Year-by-Year Notes and 10-Year Forecast in the base report) for visible moves, and use the neutral/Metal-leaning years for consolidation.

## Elemental Career Affinities (corrected)

Per Element → Industry Families, mapped to Mahesh's corrected Fire and Wood:

| Element | Industry / Domain | Why it fits Mahesh's corrected chart |
|---|---|---|
| **Fire (화)** — Favorable Element (용신) | Leadership & public-facing roles, media/broadcasting/performing arts, marketing/PR/advertising, teaching/coaching/public speaking, entrepreneurship & product evangelism, energy & hospitality front-of-house | The chart's **primary favorable element**, resolved by climate (조후) for a winter-born chart with no natal Fire warmth. Fire work is public-facing and expressive — the direct opposite steer from the superseded Earth-anchored recommendation. This is the element to actively cultivate, not merely tolerate. |
| **Wood (목)** — Supporting Element (희신) | Education & training, healthcare & wellness, design/writing/publishing, social & environmental work, HR/people development | Wood **generates** Fire, so Wood-flavoured work is supportive secondary terrain — it feeds the chart's actual need rather than competing with it. The chart's one visible Wood star (甲 편재, year stem) is a natural bridge into Wood-adjacent income sources. |
| **Metal (금)** — Day Master's own element | Law & governance, engineering, finance & trading, quality/audit, defence/security, metalwork & precision instruments | Same element as the Day Master (Gyeong) — reinforces the self rather than the chart's balance need. Neutral-to-supportive as a *skills* register (Metal's precision and structure are native strengths), but per 's Favorable Element (용신)-first rule, Metal-only industries do not address what the chart is missing (Fire warmth) and should not be the primary anchor the way the superseded reading claimed. |
| **Earth (토)** — the old (incorrect) Favorable Element (용신) | Real estate, construction, accounting, agriculture, operations | No longer the chart's favorable element under the corrected hour pillar. Not unfavorable — Earth is a stable, workable terrain (and the 子丑合 still binds the hour and month branches into Earth, see below) — but it is not the lever this chart needs, and should be read as *neutral*, not primary. |
| **Water (수)** | Strategy/consulting, logistics, psychology, journalism | The chart's hidden Water (癸, in 丑 and 子) sits behind Hurting Officer — an underdeveloped but present output channel. Workable as a secondary skill (research, writing, analysis) but does not address the chart's Fire need directly. |

## Is Business a Fit? (self-employment 적합성)

**Short answer: Yes, with the same structural cautions as before — but oriented toward Fire-adjacent, visible work rather than Earth-anchored asset-holding.**

**What still holds from the original reading** (unaffected by the hour-pillar correction, since it depends on the day/month/year pillars only):

1. **Earth between hour and month still forms**, since the branch pair (子 hour, 丑 month) is unchanged by the stem correction — hour and month palaces still bind into a combined Earth undertone. This remains a real structural feature; it just is not the chart's *primary* lever anymore.
2. **Rob Wealth (Companion) is prominent (3× across hidden stems)** — per 's peer-drains-wealth (겁재奪財) (Rob Wealth 奪 wealth) pattern, this is read as partnership and shared-money risk: another equal has a latent

claim on the same pool of resources. The original caution — put ownership and roles in writing, keep separate accounts, avoid loosely-shared ventures — is **unchanged by the correction** and still applies.

3. **No visible Output (식상) in the stems** (상관 is hidden-only, in 丑 and 子) — pure creative/expression-first business is under-supported as a *sole* strategy; per, a structural product or service, or an institutional platform, works better as the anchor than freelance self-expression alone.

**What changes:**

1. **No more mixed officers (정편관혼잡).** With the hour corrected to Indirect Resource (편인), the chart carries a single, clean Direct Officer (Authority) signal. This is a *more* stable institutional-authority pattern than the superseded reading described, not a more confused one — the "pick one regulatory regime" caution from the old analysis was solving a problem (mixed officer stars) that the corrected chart does not have.
2. **The anchor element flips from Earth/Metal to Fire/Wood.** Per 's Favorable Element (용신)-first rule ("align work with what the chart *needs*, not merely the Day Master's own element"), the corrected chart calls for visibility, public-facing work, and expressive or teaching-oriented roles as the *primary* lever — with Metal-native precision work as a secondary skills register, not the main channel.
3. **Direct Resource Grid**, not Direct Officer Structure (정관격), is the classical pattern once the month branch's main qi (본기) (Gi, Direct Resource) is read correctly — Resource-grid themes (credentialed learning, mentorship, research-to-practice, institutional backing) sit alongside the Officer (Direct Officer (Authority)) signal rather than being displaced by a second Officer star.

**Recommendation:** Business remains **suitable**, best run as a **credentialed or institutionally-anchored practice with a visible, public-facing component** — for example, a consultancy, teaching practice, or media/communications venture built on a Metal-native skill (engineering, finance, law, quality/audit) but delivered through Fire-flavoured channels (public speaking, content, brand-building, teaching). Keep the original partnership cautions: **sole operation or one co-founder with a formal agreement from day one**, and **do not commingle shared funds** — the Rob Wealth (Companion) risk is real and is not affected by the hour-stem correction.

## 2026-09-26 — Corrections after the engine audit

The base report was regenerated after the 2026-09-25 engine audit. The engine now resolves Unfavorable Element (기신) for every chart from the same single source as it previously left balanced/climate charts with none, so Mahesh's Quick Reference names **Metal** as Unfavorable Element (기신). Metal is also the Day Master's own element, so read "watch Metal" as *don't over-concentrate same-element peer/competitive energy* rather than *avoid Metal work* — the Metal-native career families above remain workable, just not the lever the Fire Favorable Element (용신) is. Element percentages also moved (Fire 21.1%, Metal 19.7%, Water 9.2%) after the Jin Sul Chuk Mi (辰戌丑未) hidden-stem order fix.

## 2026-09-26 — Marriage timing re-derived from the spouse star and spouse palace

The engine audit (E-8, 2026-09-25) found marriage timing was keyed to favorable-element years rather than the classical signals. Part 5b now defines it: for a male chart the **wife star** in the Major Luck (대운)/Annual Luck (세운) plus a **Six Harmony (육합)/three-harmony (삼합) into the day branch (spouse palace, 戌)**, weakened by **clash (충)/punishment (형)/break (파)** on the palace and by Rob Wealth (Companion) years. The regenerated base report's *Marriage Timing Windows* now reads:

- **Strongest converging years: 2035 Eul Myo (乙卯)** (정재 year + 卯戌 육합 into the spouse palace) and **2034 Gap In (甲寅)** (편재 year + 寅午戌 삼합 through the palace) — both are void years for his day pillar, so formalise carefully and document commitments.
- **Better for deepening privately than formalising: 2027 Jeong Mi (丁未)** (未戌 파/형 on the spouse palace), 2031 (겁재 year), 2033 (丑戌 형 on the palace).

This **supersedes the 2026-09-19 "2027 is the marriage-coded year" anchor above**: 2027's Direct Officer (Authority) stem still carries commitment *themes* (the Key Relationship Timing table), but the palace is struck that year, so it reads as a year for serious conversations rather than the cleanest year to formalise. Tendencies only, not predictions.

## 2026-09-19 — Correction: chart re-derived after the late Rat hour (야자시) hour-stem engine fix

**What changed:** the 2026-06-21 analysis below was built on an hour pillar of **Bing Ja (丙子)** (편관, Seven Killings, Fire), computed before a Korean late Rat hour (夜子時) hour-stem bug fix landed in the engine 2026-09-13 (see [`career.md`]�316� for the full technical explanation). Mahesh's corrected hour pillar is **Mu Ja (戊子)** (편인, Indirect Resource, Earth) — the hour star is no longer an Authority (관성) star at all. This does **not** change the spouse-palace analysis below (day branch 戌 is untouched by the hour correction), but it **reverses** the favorable/unfavorable element read: **the chart's favorable element is now Fire (화), not Earth (토)**, resolved via climate (조후) climate-balance rather than strength-balance (억부) strength-balancing. Every place the 2026-06-21 analysis recommended Earth/Metal partners and cautioned against Fire is **inverted** under the corrected chart, most importantly the **marriage-timing tables**, which had flagged 2026 (丙午, Fire) as a year to avoid — under the correction it is a favorable-element year. **Read the corrected summary and tables below; do not use the superseded per-year marriage guidance further down without cross-checking it against this correction.**

### Corrected short answer

- **Spouse palace (日支, day branch) is unchanged: Dog**, hidden stems Mu (戊) Indirect Resource (편인) / Sin (辛) Rob Wealth (Companion) / Jeong (丁) Direct Officer (Authority) — the full spouse-palace, Canopy (화개)/Post Horse (역마)/Peach Blossom (도화) analysis below still holds, since none of it depends on the hour pillar.
- **mixed officers (정편관혼잡) does not apply.** With the hour corrected to Mu (戊) (편인, not 편관), the chart carries a single clean Direct Officer (Authority) star (visible in the month stem, echoed in two hidden branches) — not a mixed Direct Officer (Authority)+Seven Killings (Authority) pattern. Where the "Relationship Style" table below cites "mixed officers (정편관혼잡) (4 관성 visible+hidden)," read it as **Direct Officer (Authority) alone (3 total, all direct)**.
- **Day Master strength is Balanced, not weak (신약)** — this only softens (does not reverse) the spouse-palace readings that referenced weak (신약) below; the qualitative spouse-palace picture is materially the same.
- **Favorable element is Fire (용신), supporting is Wood (희신)** — not Earth/Metal. **Partner-element compatibility and marriage-year timing must be read against Fire/Wood, not Earth/Metal** — see the corrected tables immediately below, which replace the superseded ones further down in this file.

## Corrected Romantic Element Compatibility

| Fit | Element | Why (corrected) |
|---|---|---|
| **Best** | **Fire (Bing / Jeong)** | Fire is the chart's **Favorable Element (용신)** — Mahesh's chart is winter-born with no natal Fire warmth, and climate (조후) doctrine calls for exactly this. A Fire-forward partner (expressive, decisive, socially warm) supplies what the chart is missing, rather than adding pressure — the reverse of the superseded reading, which (incorrectly, on the pre-fix hour) read Fire as already-oversupplied. |
| **Good** | **Wood (Gap / Eul)** | Wood is the Supporting Element (희신) — it generates Fire. The chart's one visible Wood star (甲 편재, year stem) is a natural bridge; a Wood-leaning partner reinforces the chart's actual need rather than merely being "financially attractive." |
| **Compatible (neutral)** | **Earth (Mu / Gi)** | Earth is still literally present in the spouse palace (戊 편인, day branch's main hidden stem) — the structural, grounding partner-quality the original reading described is real and unaffected by the correction. But Earth is no longer the chart's favorable element, so it is *neutral*, not the "excellent, written-into-the-marriage-pattern" top pick the superseded reading claimed. |
| **Compatible (neutral)** | **Metal (Gyeong / Sin)** | Same element as the Day Master (also present as 辛 겁재 in the spouse palace) — a peer/mirror dynamic, as before. Neutral rather than favorable: same-element partners reinforce the self but do not supply what the chart's climate-balance actually needs. |
| **Watch** | **Water (Im / Gye)** | Water controls (extinguishes) Fire in the generating/overcoming cycle — a strongly Water-dominant partner works against the chart's favorable element rather than merely being "draining" as the old Output (식상)-based reasoning claimed. Workable if the partner's chart also carries Wood or Fire support. |

## Corrected marriage-timing anchor

Per `mahesh-report.md`'s own Key Relationship Timing table (already computed against the corrected chart), **2027 (Jeong Mi, Direct Officer (Authority))** is the base report's own explicitly marriage-coded year — "Fire energy + Direct Officer: structure and visible milestones (engagement, marriage, formal commitment)." **2026 (Bing**

**O)** is a favorable-element year but is coded "intensity and transformation" (Seven Killings) rather than a settling year. Use the base report's Key Relationship Timing and 10-Year Forecast tables as the authoritative year-by-year read; the superseded per-year table further down in this file (which called 2026 unfavorable and 2028 the "best year") should not be used.

No Authority (관성) confusion — single clean Direct Officer (Authority).**

### Short answer [superseded — see corrected short answer above; spouse-palace facts below are still accurate]

- **Spouse palace (日支, day branch):** Dog — a stable, Earth-storehouse branch. Hidden stems: **Mu (戊) Indirect Resource (편인), Sin (辛) Rob Wealth (Companion), Jeong (丁) Direct Officer (Authority)**. **The partner is structured, principle-oriented, possibly in a regulated profession, and has same-element peer energy** (辛 겁재 in spouse palace means **peer-competition dynamic** in the relationship). *(This bullet is unaffected by the hour correction and still holds.)*
- ~~**Compatibility pattern:** Partners with **strong Earth (토) or strong Metal (금)** fit more naturally than Fire or Wood partners.~~ **Corrected: see the Romantic Element Compatibility table above — Fire and Wood are now the favorable partner elements.**
- ~~**Marriage timing window:** 2027 → 2028 → 2029, with 2028 (Mu Shin) as the single best year.~~ **Corrected: see the marriage-timing anchor above — 2027 (Jeong Mi) is the base report's own marriage-coded year; do not treat 2028 as the peak year.**
- **Relationship dynamic to watch: Rob Wealth (Companion) in spouse palace** = **peer-competition energy** with the partner. The relationship benefits from **clear role definition** and **shared goals** — unaffected by the correction, still holds.

### Spouse Palace (Spouse Palace, 配偶者宮) — Deep Dive [unaffected by the hour correction]

The **day branch Dog** is the spouse palace. It contains three hidden stems:

| Role | Stem | Element | Ten-god of Day Master | Reading |
|---|---|---|---|---|
| **main** | Mu (戊) Mu (Yang Earth) | Yang Earth | **Indirect Resource** | Earth generates Metal; same polarity (yang/yang) → indirect variant. The partner is **resource-anchoring, supportive, and structured** — but **indirectly**: they support Mahesh through their **stability and substance**, not through direct instruction. |
| **middle** | Sin (辛) Sin (Yin Metal) | Yin Metal | **Robber** | Same element (Metal), different polarity → Rob Wealth (Companion). The partner has **peer / sibling / competitor energy** with Mahesh. The relationship contains a **mutual-independence thread** — both people are **strong individuals**, and the relationship works best when **both respect each other's autonomy**. |
| **residual** | Jeong (丁) Jeong (Yin Fire) | Yin Fire | **Direct Officer** | Fire controls Metal; same polarity (yin/yin) → direct variant. The partner has **authority / structure / conventional-status energy**. The partner is likely to be **responsible, status-aware, and possibly in a regulated / institutional role** (e.g., banking, civil services, legal, healthcare, government). |

**Key spouse-palace readings:**

1. **Mu (戊) Indirect Resource (편인) in spouse palace = "the partner is my anchor."** The partner brings **stability, real-asset support, and "grounding" energy** to the relationship. The partner is **not flashy or expressive** — they are **solid, dependable, and quietly supportive**. (The superseded file called this "the single most-favorable hidden stem for a 신약 Day Master" — the Day Master is now read as Balanced, not 신약, but the descriptive reading of the partner's quality is unchanged.)
2. **Sin (辛) Rob Wealth (Companion) in spouse palace = "the partner is also my peer."** There is a **peer-competition dynamic** in the relationship. Both partners are likely to be **strong-willed, independent, and capable** — and **neither will naturally defer to the other**. The relationship works best when **both have clearly-defined roles and shared long-term goals**. Without these, the relationship can feel **parallel** rather than **merged**.
3. **Jeong (丁) Direct Officer (Authority) in spouse palace = "the partner has conventional authority."** The partner is likely **conventional, status-aware, and possibly in a structured profession** (banking, government, law, medicine, teaching). This is compatible with Mahesh's own Direct Officer (Authority) signal (now read via 정인격, with 정관 as a secondary theme rather than the primary grid) — the couple can **share a value system around structure and accomplishment**.
4. **12-Stage Cycle (운성) of Day Master in spouse palace: Sul (戌) = Decline.** The spouse palace is in the **"decline"** stage of the Day Master's life-cycle. This means: **the relationship requires patient cultivation** — it does not burst into intensity; it **builds quietly over time**. **Don't expect fireworks on the first year**; expect **steady deepening over years**.
5. **No Peach Blossom in spouse palace, no natal clash on day branch.** The relationship's baseline is **stable, not volatile**. This is a **"solid marriage" chart**, not a "torrid romance" chart. *(See 도화살 section below.)*

## Peach Blossom Star, Peach Blossom killer (桃花殺) [unaffected by the hour correction]

| Anchor | Peach Blossom (도화) 위치 | In chart? | Reading |
|---|---|---|---|
| **Year branch Sul (戌)** | Peach Blossom (도화) at **Myo (卯)** | **Not present** (no 卯 in chart) | Peach Blossom (도화살) is **offstage** from the year-pillar anchor. |
| **Day branch Sul (戌)** | Peach Blossom (도화) at **Myo (卯)** | **Not present** (no 卯 in chart) | Peach Blossom (도화살) is **offstage** from the day-pillar anchor as well. |

**Reading:** Peach Blossom (도화살) is "offstage" in this chart from both classical anchors. Mahesh has **romantic magnetism that is not always on display** in everyday life. The relationship is **built through substance and consistency**, not through initial attraction or flirtation.

## Traveling Star, Post Horse killer (驛馬殺) [unaffected by the hour correction]

| Anchor | Post Horse (역마) 위치 | In chart? | Reading |
|---|---|---|---|
| **Year branch Sul (戌)** | Post Horse (역마) at **Shin (申)** | **Not present** (no 申 in chart) | Post Horse (역마살) is **offstage** from the year-pillar anchor. |
| **Day branch Sul (戌)** | Post Horse (역마) at **Shin (申)** | **Not present** (no 申 in chart) | Post Horse (역마살) is **offstage** from the day-pillar anchor. |

**Reading:** Post Horse (역마살) is **not anchored in this chart**. **Relocation is less forced** than charts with anchored Post Horse (역마). However, the **current Gyeong Jin (庚辰) Major Luck (대운) (25-34)** features **Jin Sul clash (辰戌沖)** (辰 clashes 戌), which does activate relocation/property/home-base themes for this decade — expect at least one chosen (not forced) major home/property transition in the 2020s.

## Canopy / Artistic Star, Canopy killer (華蓋殺) [unaffected by the hour correction]

| Anchor | Canopy (화개) 위치 | In chart? | Reading |
|---|---|---|---|
| **Year branch Sul (戌)** | Canopy (화개) at **Sul (戌)** | **PRESENT** (戌 is in year + day) | **Canopy (화개살) is anchored in this chart — twice** (year branch 戌 and day branch 戌 are both 戌, both carry 화개). |
| **Day branch Sul (戌)** | Canopy (화개) at **Sul (戌)** | **PRESENT** | Same. |

**Reading:** Canopy (화개살) is the **scholarly / solitary / artistic / spiritual** star. Anchored twice in this chart (year + day both 戌):

- Mahesh has a **deeply reflective, inward quality**. **He needs solitude to recharge.**
- The chart carries a **scholarly / philosophical / craftsman-like** undertone — traditional crafts, philosophy, religion, music, or solitary study as a private interest, regardless of public career.
- In relationships: the partner may also have a **solitary / scholarly / spiritual** side, or Mahesh will need **alone-time within the relationship** to maintain balance. **Partners who respect solitude fit best.**
- Combined with the **Rob Wealth (Companion) in spouse palace** (independent of the Day-Master-strength correction), Canopy (화개) reinforces a **"two independent people who choose to be together"** pattern.

## Relationship Style — Full Pattern Table [corrected]

| Pattern | Indicator | Reading |
|---|---|---|
| **Primary style** | Gyeong (庚) Day Master + Sul (戌) day branch (쇠, Decline) | **Principled, patient, structured.** The querent is **principle-oriented in partnerships** — looking for **the right fit on the right terms**, not just any fit. |
| **Spouse dynamic — anchor** | Mu (戊) Indirect Resource (편인) in Sul (戌) | The partner is **Mahesh's anchor and resource** — stability, real-asset support, quiet substance. |
| **Spouse dynamic — peer** | Sin (辛) Rob Wealth (Companion) in Sul (戌) | **Peer-competition energy.** Both partners are likely **strong individuals**. Works best with **clear role definition and shared long-term goals**. |
| **Spouse dynamic — authority** | Jeong (丁) Direct Officer (Authority) in Sul (戌) | The partner has **conventional-status / institutional energy**, likely a **regulated / structured profession**. |
| **Solitude need** | Canopy (화개) double-anchored (year + day 戌) | Mahesh **needs alone-time** to recharge; the relationship benefits from **partners who respect solitude**. |
| **Authority theme** (corrected) | Single Direct Officer (Authority) (3 instances, all direct — no 편관 anywhere) | Authority is present but **not conflicted** — the corrected chart carries one clean, consistent authority signal rather than the mixed Direct Officer (Authority)/Seven Killings (Authority) tension the superseded reading described. Explicit communication around roles still helps, but not because of an internal authority contradiction. |
| **Attraction pattern** (corrected) | Gyeong (庚) Day Master, Direct Resource Grid with a Direct Officer (Authority) undertone | Attracted to **structured, principled, status-aware** partners, and drawn to partners who can also play a **mentor/resource** role — substance and structure over flash. |
| **Resource-pull (인성 in chart)** | 3 hidden Earth stems (戊/戊/己 in 戌/戌/丑) — unaffected by the correction | The chart has **abundant hidden Resource (인성)** — multiple supportive figures/advisors/mentors in Mahesh's life. In relationships, the partner may take on a partial advisor role, or Mahesh benefits from outside counsel in relationship decisions. |

## Advice for Relationship Harmony [corrected]

- **Lean into Fire-element partners** (丙/丁 day-master, born in summer, or with strong Fire in their chart) as the *primary* affinity — they supply the warmth the winter-born chart lacks. **Wood-element partners** (甲/乙 day-master) are the secondary affinity, since Wood feeds Fire.
- **Earth and Metal partners remain workable** (the spouse palace's own hidden stems are Earth and Metal) but are neutral rather than the top pick the superseded reading claimed.
- **Watch for the Sin (辛) in spouse palace in arguments** — unaffected by the correction. When both partners want to lead, address role definition and shared goals directly; a written "shared vision" document helps.
- **Respect the Canopy (화개) double-anchored need for solitude** — schedule solitude deliberately (a weekly walk, a monthly retreat) rather than letting it happen by accident.

- **Marriage timing:** use `mahesh-report.md`'s own Key Relationship Timing and 10-Year Forecast tables, which are already computed against the corrected chart. **2027 (Jeong Mi)** is the report's own marriage-coded year; treat any per-year guidance in the superseded section below as unreliable.

## Superseded detail (2026-06-21, pre-correction) — kept for record, do not use

The remaining tables in this section (Romantic Element Compatibility with Earth/Metal as "excellent, " the 2024–2031 Marriage-Timing Quick Reference, and the Compatibility Check by year-of-birth) were built entirely on the incorrect Bing Ja (丙子) hour pillar and its Earth-favorable/Fire-unfavorable conclusion. They are **not reproduced here** because every one of their per-year and per-element verdicts inverts under the correction (most importantly: 2026 was called an avoid-marriage year and is now a favorable-element year; 2028 was called the single best year and is not specially marriage-coded in the corrected chart). Use the corrected Romantic Element Compatibility table and marriage-timing anchor near the top of this file instead. If a like-for-like replacement of the year-of-birth compatibility table is needed, re-derive it from the corrected Fire / Wood using the same method as the corrected Romantic Element Compatibility table above, rather than reusing the archived numbers.

## Closing Note

**Gyeong (庚) (Gyeong 400)** sits at the centre of this chart, with the chart's element balance leaning toward **Earth** and a ten-god distribution dominated by **Resource (4), Companion (4)**. The favorable **Fire** element (with **Wood** as the quiet secondary) is your main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace **Sul (戌)** and the chart's relationship dynamics reward the you for showing up consistently rather than performing. The six-combination between **Ja (子)** and **Chuk (丑)** is a quiet asset — partnerships or projects that bring two palaces into harmony, with your role often as the connector. Across a full lifetime, this chart rewards you for studying your own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
