Mahesh — Deep Destiny Report

Full natal reading + ten-year year-by-year timing + relationship and business-launch guidance

Born: 1995-01-19 · 23:50 · Ambur, Tamil Nadu

Time method: recorded birth time 23:50 (local clock) corrected to true solar time **23:24** (birthplace 78.7135°E vs the 82.5°E zone meridian), -25.8 min (longitude -15.1 min + equation of time -10.7 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Day Master: Gyeong (Yang Metal, 庚金)

Chart at a Glance

Four Pillars

	Year	Month	Day	Hour
Stem	Gap (甲)	Jeong (丁)	Gyeong (庚)	Mu (戊)
Branch	Sul (戌)	Chuk (丑)	Sul (戌)	Ja (子)
Hidden Stems	Mu (戊) (main), Jeong (丁) (middle), Sin (辛) (residual)	Gi (己) (main), Sin (辛) (middle), Gye (癸) (residual)	Mu (戊) (main), Jeong (丁) (middle), Sin (辛) (residual)	Gye (癸) (main)

Element Balance

Element	Presence	Percentage
🔴 Fire	████░░░░░░	21.3%
🟡 Earth	██████░░░░	32.5%
⚪ Metal	████░░░░░░	20.3%
🔵 Water	██░░░░░░░░	10.3%
🟢 Wood	███░░░░░░░	15.6%

Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems (藏干) at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- **Day Master:** Gyeong (Yang Metal, 庚金)
- **Strength:** Balanced — the month branch **Chuk (丑)** gives the Day Master a **mixed seasonal baseline** by element relation; its 12-Stage Cycle (운성) stage there is **tomb (墓)** — energy is stored in the month branch; the chart ripens slowly and reveals depth over time. Peer/resource support and the output/wealth/authority drain sit close to even.
- **Favorable Element:** Fire — The Day Master reads as balanced, so the classical climate-balance check applies: this chart peaks in cold winter conditions, and the classical remedy is Fire. This takes priority over the chart's simple element count, which is a weaker signal than the classical climate check here.
- **Why this element:** two classical checks apply here — the strength-balance (억부) reading points one way, while the climate-balance (조후) reading points to **Fire** for a cold-season chart. In this chart the climate reading takes priority because the chart leans clearly seasonal; the classical priority rule decides between them.
- **Supporting Element:** Wood
- **Avoid / Watch:** Metal (기신, watch) · Water (구신, restrains Fire) · Earth (한신, drains Fire)
- **Current Major Luck:** ages 25-34
- **Luck direction:** forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- **Pattern / Formation:** Direct Resource Structure (정인격) / Direct Resource Grid

What This Year Means for You

*Right now, in September 2026, you are moving through a year whose energy is shaped by **Bing O (丙午)** (Seven Killings (Authority)). This sits inside your broader **Gyeong Jin (庚辰)** major luck period (ages 25–34), whose theme is Companion (비견). For your chart, the most useful energy to lean into this year is **Fire**: look for decisions, environments, and relationships that bring fire qualities forward.*

How to Use This Report

This document is a structured, multi-section reading. It is meant to be returned to, not read once and shelved. A few notes that make it easier to use:

1. **What does "favorable element" mean in daily life?** It is the element (Wood, Fire, Earth, Metal, or Water) that tends to balance your chart. Bringing it into your environment, schedule, and decisions reduces friction and supports steadier growth.

2. **Should I move north or only wear fire?** No. The favorable element is a tendency, not a rule. Wear the colors that feel right, work in the direction that suits you, but do not rearrange your life around a single element. The goal is balance, not obsession.
3. **Can Saju tell me what illness I might get?** No. Classical Saju maps tendencies in the body's elemental systems (e.g. *excess Wood* may show up in the liver channel), but it does not diagnose. Always consult a licensed healthcare provider for any health concern.
4. **How often should I get a reading?** Most readers find that a full re-reading every 2–3 years is enough, with a brief check-in at each major annual or lunar-new-year transition. Use the Annual Windows table in this report to track the larger currents yourself.
5. **What is a major luck period?** A 10-year stretch of life shaped by a new stem and branch (대운) that overlays your natal chart. The Major Luck Periods table summarises all of yours. Plan long-term decisions with the table in hand.
6. **How is Saju different from Western astrology?** Saju is solar-lunar calendar-based and built on the Five Elements and Yin-Yang, not the tropical zodiac. There is no equivalent of "rising sign" or "house system"; the four pillars and the timing overlays are the entire frame.
7. **Should I read this report chronologically?** No. The Chart at a Glance, Quick Reference, and Closing Note are the entry points. Use the timing tables (Annual Windows, Monthly Lucky Dates) as a navigation layer, not as a linear story.

Return to the Practical Guidance Summary whenever you need a reminder. Return to the Major Luck Periods table at every life transition. Return to the Closing Note when you want a single, well-formed paragraph to sit with.

Day Master Portrait

With **Gyeong (庚)** (Gyeong 34) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the **tempered metal blade or strong framework**. Your natural strengths run toward **decisiveness, discipline, and the courage to cut through confusion**, while the shadow side can show as **harshness, inflexibility, or impulsive confrontation**.

Born in a **Metal** chart that reads as **balanced**, the way you meet the world is shaped by how much Metal energy is available. When balanced, you express the best of Metal; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate **Fire** energy — the favorable element — so that your Metal nature has the right container and outlet.

Your Day Master **Gyeong (庚)** meets the month branch **Chuk (丑)** at the **contained start** twelve-stage — energy is stored in the month branch; the chart ripens slowly and reveals depth over time. This is read as a mixed seasonal support arrival: a tendency in how your core energy first enters the world, not a fixed early-life outcome.

Four Pillars, One by One

Year Pillar — Gap Sul (甲戌) (Gap 35)

The Gap Sul (甲戌) pillar pairs the **Gap (甲)** stem (Gap ⟨36⟩) with the **Sul (戌)** branch, together shaping **ancestral and social-root energy — the wider world you were born into**. Read as **Indirect Wealth (偏財)** relative to your Day Master, the year pillar tends to carry that dynamic.

The **Earth** branch is the container for this area and the **Wood** stem is its driver — read the two together when weighing how year-pillar matters unfold.

Because the stem belongs to the **Wood** element, it tends to bring wood-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to year-pillar matters. Hidden stems within the Sul (戌) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sul (戌) branch or the Gap (甲) stem, expect year-pillar themes to move to the foreground for that window.

Month Pillar — Jeong Chuk (丁丑) (Jeong ⟨38⟩)

The Jeong Chuk (丁丑) pillar pairs the **Jeong (丁)** stem (Jeong ⟨39⟩) with the **Chuk (丑)** branch, together shaping **career and immediate environment — how you show up at work and in daily life**. Read as **Direct Officer (正官)** relative to your Day Master, the month pillar tends to carry that dynamic.

The **Earth** branch is the container for this area and the **Fire** stem is its driver — read the two together when weighing how month-pillar matters unfold.

Because the stem belongs to the **Fire** element, it tends to bring fire-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to month-pillar matters. Hidden stems within the Chuk (丑) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Chuk (丑) branch or the Jeong (丁) stem, expect month-pillar themes to move to the foreground for that window.

Day Pillar — Gyeong Sul (庚戌) (Gyeong ⟨41⟩)

The Gyeong Sul (庚戌) pillar pairs the **Gyeong (庚)** stem (Gyeong ⟨42⟩) with the **Sul (戌)** branch, together shaping **spouse palace and the inner self — the partner you choose and the self behind the choices**. Read as **Companion (比肩)** relative to your Day Master, the day pillar tends to carry that dynamic.

The **Earth** branch is the container for this area and the **Metal** stem is its driver — read the two together when weighing how day-pillar matters unfold.

Because the stem belongs to the **Metal** element, it tends to bring metal-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to day-pillar matters. Hidden stems within the Sul (戌) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Sul (戌) branch or the Gyeong (庚) stem, expect day-pillar themes to move to the foreground for that window.

Hour Pillar — Mu Ja (戊子) (Mu ⟨44⟩)

The Mu Ja (戊子) pillar pairs the **Mu (戊)** stem (Mu ⟨45⟩) with the **Ja (子)** branch, together shaping **later life and children — what you build toward and what you pass on**. Read as **Indirect Resource (偏印)** relative to your Day Master, the hour pillar tends to carry that dynamic.

The **Water** branch is the container for this area and the **Earth** stem is its driver — read the two together when weighing how hour-pillar matters unfold.

Because the stem belongs to the **Earth** element, it tends to bring earth-flavoured themes into this life area — qualities of motion, structure, or feeling that quietly shape how you relate to hour-pillar matters. Hidden stems within the Ja (子) branch add layers: any mid- or residual-stem ten-god you carry here will surface as a recurring sub-theme when this life area activates. When the annual or major luck touches the Ja (子) branch or the Mu (戊) stem, expect hour-pillar themes to move to the foreground for that window.

Ten-God Distribution Table

A pillar-by-pillar view of the ten-god (Ten Gods) picture — including the hidden stems inside each branch, which most of the time shape the chart's deeper themes more than the visible stems alone.

Pillar	Stem	Ten-God (Stem)	Branch Hidden Stems	Hidden Ten-Gods	Reading
Year Pillar — Gap Sul (甲戌)	Gap (甲)	Indirect Wealth (偏財)	Mu (戊) (main), Jeong (丁) (middle), Sin (辛) (residual)	Indirect Resource (편인), Direct Officer (Authority), Rob Wealth (Companion)	Outer layer: Indirect Wealth (偏財); inner driver through the branch: Indirect Resource (편인).
Month Pillar — Jeong Chuk (丁丑)	Jeong (丁)	Direct Officer (正官)	Gi (己) (main), Sin (辛) (middle), Gye (癸) (residual)	Direct Resource (정인), Rob Wealth (Companion), Hurting Officer (Output)	Outer layer: Direct Officer (正官); inner driver through the branch: Direct Resource (정인).
Day Pillar — Gyeong Sul (庚戌)	Gyeong (庚)	Companion (比肩)	Mu (戊) (main), Jeong (丁) (middle), Sin (辛) (residual)	Indirect Resource (편인), Direct Officer (Authority), Rob Wealth (Companion)	Outer layer: Companion (比肩); inner driver through the branch: Indirect Resource (편인).
Hour Pillar — Mu Ja (戊子)	Mu (戊)	Indirect Resource (偏印)	Gye (癸) (main)	Hurting Officer (Output)	Outer layer: Indirect Resource (偏印); inner driver through the branch: Hurting Officer (Output).

Use this table as a quick reference when you are unsure which ten-god a particular pillar carries. The visible stem is the persona; the hidden stems are the undertow.

> **In plain words:** Where your chart puts its weight: most of all on learning, support, and what refills you.

> **In plain words:** At your core you are a refined blade — you cut to the point and value quality. Your chart reads as balanced, so the rest of this report is about where that helps and where leaning toward Fire keeps you in balance.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element **Fire** and supporting element **Wood** describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck (大運) and Annual Luck (歲運) tables to see when income and value-creation themes surface most clearly. Periods dominated by **Metal** call for conservation rather than expansion.

Employment vs. Entrepreneurship

A double pull between Authority and Wealth suggests a hybrid path: a credible institutional platform in the early career years, then a measured move toward independent ventures once credibility and capital are in place. Treat this as a tendency reading, not a verdict; the Major Luck (대운) and annual luck tables below show when each path is more likely to land cleanly.

Income Rhythm

Income arrives in **project-based bursts** — commissions, deals, or ventures that close in lumps rather than steady drip. Build cash reserves between projects so the slower months do not force reactive decisions.

Skill-Levers to Develop

Indirect Resource-dominant charts tend to grow fastest through intuition-driven research, pattern recognition, and cross-domain synthesis. Cultivate **public visibility** — speaking, publishing, or teaching — to light Fire's radiance.

Wealth Preservation Note

For a **Metal** Day Master with a **Balanced** reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the **Fire** element (its colors, foods, and rhythms) help the you stay flexible across unfavorable Major Luck (대운) periods. Partnerships and joint ventures work well when the partner's element supports Fire; avoid partners whose chart emphasizes the unfavorable element, since their decisions tend to amplify the chart's existing pressure. Across a full lifetime, the disciplined saver with Fire-aligned custodians outperforms the aggressive investor whose chart cannot hold the volatility.

Career Deep-Dive

Company-Type Fit

Large institutions and mid-size specialists are the most likely fit. The Direct Officer influence values hierarchy, credential, and a clear chain of accountability — you are most productive when the structure around them is unambiguous.

Boss / Team Dynamics

The ideal manager profile is a **warm Fire motivator** — someone who carries your favorable **Fire** element, supplying what the chart needs rather than competing with your Day Master. Watch for vague goals that blunt Metal's precision; this is the most common way your energy gets drained in a team setting.

Red-Flag Environments

Look out for: long stretches of Metal-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

Decade-by-Decade Career Strategy

Within any period, years and months whose stem matches your favorable element are the most reliable for visible wins; the rest are best used for quiet preparation.

Ages 5-14 — Mu In (戊寅)

With an **Indirect Resource (偏印)** ten-god over a **Wood** branch (stem element Earth), this is a build and rise decade. Plant several seeds at once — the chart can carry more than one initiative in this window.

Ages 15-24 — Gi Myo (己卯)

With a **Direct Resource (正印)** ten-god over a **Wood** branch (stem element Earth), this is a build and rise decade. Move on the opportunities you have already prepared; this window rewards visible effort.

Ages 25-34 — Gyeong Jin (庚辰)

With a **Companion (比肩)** ten-god over an **Earth** branch (stem element Metal), this is a conserve and consolidate decade. Hold your position and invest in the skills that will still matter when the cycle turns.

Ages 35-44 — Sin Sa (辛巳)

With a **Robber (Rob Wealth)** ten-god over a **Fire** branch (stem element Metal), this is a transition and adapt decade. Treat this as a staging decade — the groundwork laid now is what the next one builds on.

Ages 45-54 — Im O (壬午)

With an **Eating God (食神)** ten-god over a **Fire** branch (stem element Water), this is a build and rise decade. Ask for the introduction, the raise, or the larger budget while the ground is receptive.

Ages 55-64 — Gye Mi (癸未)

With a **Hurting Officer (傷官)** ten-god over an **Earth** branch (stem element Water), this is a transition and adapt decade. Deepen the relationships and skills you already have; additions are optional.

Ages 65-74 — Gap Shin (甲申)

With an **Indirect Wealth (偏財)** ten-god over a **Metal** branch (stem element Wood), this is a transition and adapt decade. Reassess what you are carrying — a mixed decade is a good time to drop something.

Ages 75-84 — Eul Yu (乙酉)

With a **Direct Wealth (正財)** ten-god over a **Metal** branch (stem element Wood), this is a transition and adapt decade. Set the direction now and let the next decade supply the momentum.

> **In plain words:** Your chart leans toward earning through knowledge — research, advice, credentialed practice. Fields and decades that carry Fire give the cleanest results; the timing tables show when.

Relationships

Relationship Style

The spouse palace is **Sul (戌)** (12-stage: 쇠), whose main hidden stem relates to your Day Master as **Indirect Resource (偏印)**. In practice, you are drawn to partners who spark your curiosity and bring unexpected insights. No **Peach Blossom (桃花)** star is natally active, so relationship style is more shaped by the spouse palace and ten-god mix than by overt magnetism. By Japyeong-jinjeon (자평진전)'s gendered spouse-star convention, your **wife star (처성) (재성, wife star)** appears at **year stem**.

Spouse Palace Ten-God

The spouse palace **Sul (戌)** (12-stage: 쇠) carries a main hidden stem that relates to your Day Master as **Indirect Resource (편인)**. In the partner domain this points toward an unusual or insight-driven partnership — the spouse domain teaches you things. Read this as an atmospheric tendency, not a prediction about a specific person.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	**Good**	Wood supports your Fire — secondary support (Supporting Element).
Radiant, expressive, and momentum-driven	Fire	**Best**	Fire is your favorable element — the core balance your chart seeks.
Grounded, nurturing, and reliability-focused	Earth	**Compatible**	Neutral energetic exchange.
Disciplined, precise, and structure-oriented	Metal	**Watch**	Metal is your challenging element — it works against the balance your chart seeks.
Adaptive, perceptive, and depth-seeking	Water	**Compatible**	Neutral energetic exchange.

Three Things to Be Mindful Of

- **Peach Blossom** is not natally active, so your social style leans toward depth rather than breadth — protect your close-circle time.
- A natal six-combination between **Ja (子)** and **Chuk (丑)** draws the partner into a transformation toward **Earth** energy — expect the relationship to ask for adaptation.
- The current major-luck period (**Gyeong Jin (庚辰)**, Companion (比肩) — a peer or equal — support, solidarity, and rivalry in equal measure) carries mixed energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

> *Relationship theme per year for the next six years — read alongside the annual windows table.*

Year	Pillar	Note
2026	Seven Killings	**Fire** energy + Seven Killings: intensity and transformation — expect a relationship to demand change.
2027	Direct Officer	**Fire** energy + Direct Officer: structure and accountability in relationships and partnerships.
2028	Indirect Resource	**Earth** energy + Indirect Resource: intuition and surprise — a relationship that teaches you something unexpected.
2029	Direct Resource	**Earth** energy + Direct Resource: support and study — a partner who mentors or grounds you.
2030	Companion	**Metal** energy + Companion: peer energy — friendships and partnerships strengthen.
2031	Robber	**Metal** energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — **Resource (4), Companion (4)** — so the you tend to give and receive in those modes. You are naturally drawn to people who are visible, expressive, and energetic, and tends to feel drained by people who are harsh, critical, or cold. Social settings where the favorable **Fire** element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Relationship Deep-Dive

Attachment Patterns from Chart Structure

With the spouse palace **Sul (戌)** sitting in the **Decline (쇠)** 12-stage and carrying hidden-stem ten-gods of **Indirect Resource (편인), Direct Officer (Authority), Rob Wealth (Companion)**, you bond through a mix of presence and discernment. The **Decline (쇠)** stage is one of the unsupported (weak) stages, so you tend to lean toward reserve and selectivity in the bond. The hidden-stem ten-gods colour the undercurrent — Resource — the resource group — support, learning, and what sustains you leans into safety, Output into creative play, Wealth into stability. Read this as the emotional baseline; the Major Luck (대운)/Annual Luck (세운) overlays show when your bond patterns shift most.

Marriage Timing Windows

Commitment timing is read from your **wife star** and your spouse palace **the day branch**. Neither the current nor the next major-luck period carries the spouse star or binds the spouse palace, so the annual years below carry more of the weight. The years where the most signals converge: **2035 Eul Myo (乙卯)** (Direct Wealth (정재) spouse-star year, Myo Sul (卯戌) Six Harmony (육합) into the spouse palace; offset by a void (empty) year, so gains may feel less solid); **2034 Gap In (甲寅)** (Indirect Wealth (편재) spouse-star year, In O Sul (寅午戌) three-harmony (삼합) through the spouse palace; offset by a void (empty) year, so gains may feel less solid). Years better suited to deepening privately than to formalising: 2027 (未戌 파/형 on the spouse palace); 2031 (겁재 year); 2033 (丑戌 형 on the spouse palace). These are tendencies for when the theme is most active — not predictions of an event.

Family Dynamics

The year pillar **Sul (戌)** carries ancestral and parental themes; its main hidden stem shapes how you absorb (or pushes back on) family-of-origin patterns. The month pillar **Chuk (丑)** is the career and sibling palace — its dynamics surface in how you show up among peers and early mentors. The hour pillar **Ja (子)** speaks to children and later life — its hidden stems indicate what you are likely to pass on, and what they will need to consciously teach.

Partner Chart Add-On

> *Curious about a specific person? Add a compatibility reading — the Deep Compatibility report — by replying with their birth details.*

> **In plain words:** Your partnership area points toward an unusual, insight-driven partner who teaches you things. Treat this as the weather it tends to create, not a description of one person.

Health & Vitality

Primary Watchpoints

- **Element excess:** Earth — pay attention to the spleen/stomach and digestive metabolism.
- **Element deficiency:** Water — the kidney/bladder and hormonal/endocrine reserves may need gentle support.
- The chart's lightest weighted element is **Water (10.3%)**, which in classical Five-Element mapping is paired with the **kidney/bladder and hormonal/endocrine reserves**. This is not a diagnosis; it is the least natally emphasized system, making it the natural place to begin gentle, preventive support through water-aligned foods, seasons, and rhythms.

Grounding Practices

- Short midday walks in sunlight
- Eating bitter greens, red-colored vegetables, and warm foods
- Speaking or performing in well-lit south-facing spaces
- Taking brief social breaks to rekindle enthusiasm
- Journaling by candlelight to focus scattered Fire

The Overdrive Warning

A **Balanced** Metal Day Master has reasonable reserves but still needs conscious rhythm. Watch for burning out through perfectionism, grief, or respiratory tightness when output stays high without recovery windows. In classical Five-Element reading, the **lung/large intestine and respiratory/immune boundaries** are a common watchpoint when energy is overstretched; the **Fire** element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The **Metal** Day Master is most at home in **autumn**; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable **Fire** element's season (**summer (the peak Fire energy)**) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Fire hours (by the twelve branch hours) are the most aligned — Sa O (巳午) hours, 09:00–13:00.

> *This section reflects classical Five Element organ mapping and is not a medical diagnosis. Consult a licensed healthcare provider for any health concerns.*

> **In plain words:** Your lightest element is Water, so the kidney/bladder and hormonal/endocrine reserves are the natural place to start gentle, preventive care — through water-aligned food, rest, and seasons. This is a balance cue, not a diagnosis.

Natal Pattern Analysis

This section gathers the visible structural signals in your natal chart — combinations, clashes, harmonies, and self-punishments — so the reader can see which branches are speaking to one another. These patterns do not dictate events; they describe recurring themes and pressures that tend to appear across life areas.

Dominant pattern: *Direct Resource Structure (정인격) / Direct Resource Grid*

Pattern	Branches	Classical Note
Six Combination	Ja (子)+Chuk (丑)	transforms toward Earth energy; links the month and hour palaces
Stem Clash (천간충)	Gap (甲)↔Gyeong (庚)	two same-polarity stems in direct control — tension in what those stems' ten-gods represent
Three Punishment (partial)	Sul (戌)-Chuk (丑)	two branches of a punishment frame without the third; a lighter but recurring structural pressure that matures slowly
Output Meets Authority	Hurting Officer (Output) + Direct Officer (Authority)	Classical conflict pattern : Hurting Officer (Output)'s output tends to clash with Direct Officer (Authority)'s orderly authority — often read as friction with rules, institutions, or superiors. A structural tendency to watch, not a fixed event.

Pattern Narratives

The chart shows a likely **Direct Resource Grid** as the regular grid. This points toward a life theme shaped by education, protection, and gradual advancement — certificates, mentors, real estate, and maternal support. It is a structural tendency, not a career verdict; the ten-god distribution and timing tables refine how it expresses.

The most prominent natal branch signal is a **partial Three Punishment** between **Sul (戌)** and **Chuk (丑)** (삼형 Earth triad punishment), touching the ancestral and social-root energy — the wider world you were born into and career and immediate environment — how you show up at work and in daily life. Two branches of a punishment frame are present without the third — a lighter but recurring structural pressure; its themes mature slowly and tend to recur until they are consciously recognized.

What This Means in Plain Language

The chart's dominant pattern is **Direct Resource Grid**. A six-combination between **Ja (子)** and **Chuk (丑)** transforms toward **Earth** energy, linking the month and hour palaces. A partial three-punishment between **Sul (戌)** and **Chuk (丑)** — two branches of a punishment frame without the third — is a recurring structural pressure; these themes mature slowly and call for patience. Together, these patterns point to a recurring life theme rather than a single event. The favorable **Fire** element is your lever for working with — rather than against — the chart's structure.

> **In plain words:** The chart's organising theme is education, protection, and gradual advancement — certificates, mentors, real estate, and maternal support.

Other Active Star (神殺)

Counted from your day branch ***common modern practice; traditional Korean practice counts from the year branch, which can give a different set of stars****.*

- **Canopy (華蓋)** (at 戌): a scholarly / solitary / artistic marker — often found in those drawn to religion, scholarship, art, or a hermetic path.
- **Heavenly Noble (天乙貴人)** (at 丑): a "helper" star — a tendency toward receiving support from an unexpected, noble source at key turning points.

- **Calamity Star (災煞)** (at 子): mishaps, illness, or obstacles as a recurring theme — classically read as softened by a strong Favorable Element (用神).
- **Heaven Star (天煞)** (at 丑): external pressures or authority conflicts — "heaven-sent" trials.
- **Kuigang Star (魁罡)** (at 庚戌): strong will, charisma, and leadership — with a tendency toward extremity or conflict if the chart is not balanced.
- **Heavenly Virtue (天德貴人)** (at 庚): virtue, protection, and honorable character — help arriving in times of need; often read as one of the most favorable stars.
- **Monthly Virtue (月德貴人)** (at 庚): monthly/quarterly support, popularity, and smooth assistance from people around you.

Wealth & Investment Timing

This section identifies where wealth ten-gods appear in the natal chart and which major-luck and annual windows tend to activate the wealth story. It is not investment advice; it is a Saju lens on when the chart's energy favors planning, negotiation, or conservation.

Position	Stem	Ten-God	Note
Year stem	Gap (甲)	Indirect Wealth (偏財)	Natal wealth signal visible here.

Major-luck periods that carry wealth or favorable-element energy:

- Ages 65–74 (Gap Shin (甲申), Indirect Wealth (偏財) — variable money — deals, commissions, windfalls, higher risk and reward) — a window where income, asset, or value-creation themes are more likely to surface.
- Ages 75–84 (Eul Yu (乙酉), Direct Wealth (正財) — steady, earned income and everyday resources — salary and savings) — a window where income, asset, or value-creation themes are more likely to surface.

Investment Style Cue

Because your favorable element is **Fire** and your supporting element is **Wood**, years and months that bring these elements into the annual or monthly pillar are generally more supportive for financial planning and negotiation. Years dominated by your unfavorable element call for conservation, review, and patience rather than expansion.

Relocation, Travel & Direction Guidance

Classical Saju associates each element with a direction and a quality of space. These notes are directional tendencies, not guarantees about a specific city or property.

Element	Direction	Best For	Use With Care
Fire (favorable)	south	Restoration, big decisions, starting new rhythms	Years when this element is weak in the annual luck
Wood (supporting)	east	Building momentum, collaboration, steady growth	Periods of heavy clash or punishment in the natal branches

- **Favorable orientation:** Facing or sleeping with head toward **south** is traditionally considered supportive for your chart.
- **Supporting orientation:** Use **east** when you need steady, collaborative energy.

Travel & Move Timing

Travel and relocation are most likely to feel aligned during **Fire** (and supporting **Wood**)-element years and months, and especially during these supportive major-luck periods: ages 5-14 (Mu In), ages 15-24 (Gi Myo), ages 45-54 (Im O). Relocations outside those windows may bring temporary benefit but require more adjustment; plan for a longer settling-in period rather than expecting instant payoff.

Business & Launch Timing

For a Metal Day Master, the most supportive launch windows tend to come when the annual pillar carries **Fire** or **Wood** energy and does not clash the natal day branch.

Your Business Lucky Numbers

Use **2, 7 (favorable Fire) and 3, 8 (supporting Wood)** in pricing, launch dates, seat numbers, and branding choices where practical. These numbers carry the frequency of your favorable element.

Best Launch Types for This Chart

A partnership or co-launch with one credible counterparty is the most likely fit. The Authority ten-god gives the launch a stamp of legitimacy, and a partner carries the parts your chart cannot carry alone.

Year-by-Year Launch Timing (2026–2031)

Year	Pillar	Why It Matters	Suggested Use
2026	Bing O (丙午)	Seven Killings (Fire energy + Seven Killings — a favorable-element year.)	career moves, credentials, formal commitments
2027	Jeong Mi (丁未)	Direct Officer (Fire/Earth energy + Direct Officer — a favorable-element year.)	career moves, credentials, formal commitments
2028	Mu Shin (戊申)	Indirect Resource (Earth/Metal energy + Indirect Resource — a challenging-element year.)	study, mentorship, rest, skill-building
2029	Gi Yu (己酉)	Direct Resource (Earth/Metal energy + Direct Resource — a challenging-element year.)	study, mentorship, rest, skill-building
2030	Gyeong Sul (庚戌)	Companion (Metal/Earth energy + Companion — a challenging-element year.)	peer projects, friendships, self-definition
2031	Sin Hae (辛亥)	Robber (Metal/Water energy + Robber — a challenging-element year.)	peer projects, friendships, self-definition

Quarterly / Seasonal Reminders

With **Fire** as the favorable element, the most aligned launch window is **summer (peak Fire energy supports visible launches)**, the favorable element's own season. Outside that window, plan a quieter cadence — audits, refinements, and behind-the-scenes infrastructure work — rather than big public pushes. Pushing against the seasonal rhythm rarely accelerates the result; it just adds friction.

Things to Watch

1. **Annual branches that clash your natal day branch Sul (戌)** — these tend to bring unexpected pivots; launch a soft beta, not a public campaign.
2. **Annual pillars dominated by the unfavorable element** — favour audits, refinements, and quiet product work over big announcements.
3. **A major-luck shift into a heavier stem (strong 정관 / 편관)** — use the first 1–2 years to set up systems rather than scale headcount.
4. **Activated chart-punishment or self-punishment patterns during the launch year** — keep partnerships small and written, not verbal.
5. **A public date chosen without checking your favorable element** — if the launch date can move, place it in a month whose stem matches your favorable **Fire** element; the auspicious-dates section lists the candidates.

Timing: Major Luck & Annual Windows

Luck direction: forward, advancing from the month pillar — derived from a yang year stem (Gap) and male gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

starting age: ~5.2 (~15.5 days to the qualifying 節氣 ÷ 3, per "3 days = 1 year" rule) — the first major-luck period begins roughly 62 months after birth (≈ Mar 2000), inside the **5-14** decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) apps round this to a whole **Major Luck Water (대운수) 5** and list decades as 5, 15, 25… (often in Korean age), so their labels can differ from the table below by a year or so while describing the same periods.

Major Luck Periods

Age	Pillar	Elements (Stem / Branch)	Ten-God	Career Theme	Relationship Theme
5-14	Mu In (戊寅)	Earth / Wood	Indirect Resource (偏印)	study, mentorship, or skill-building	nurturing, support, or healing connection
15-24	Gi Myo (己卯)	Earth / Wood	Direct Resource (正印)	study, mentorship, or skill-building	nurturing, support, or healing connection
25-34	Gyeong Jin (庚辰)	Metal / Earth	Companion (比肩)	peer-driven or self-defined work (mixed — protect, don't overcommit)	friendship-based or peer dynamic
35-44	Sin Sa (辛巳)	Metal / Fire	Robber (Rob Wealth)	peer-driven or self-defined work (mixed — protect, don't overcommit)	friendship-based or peer dynamic
45-54	Im O (壬午)	Water / Fire	Eating God (食神)	creative output, voice, or visible production	creative partnership or playful dynamic
55-64	Gye Mi (癸未)	Water / Earth	Hurting Officer (傷官)	creative output, voice, or visible production (mixed — protect, don't overcommit)	creative partnership or playful dynamic
65-74	Gap Shin (甲申)	Wood / Metal	Indirect Wealth (偏財)	income, assets, or value-creation themes (mixed — protect, don't overcommit)	shared resources or lifestyle alignment
75-84	Eul Yu (乙酉)	Wood / Metal	Direct Wealth (正財)	income, assets, or value-creation themes (mixed — protect, don't overcommit)	shared resources or lifestyle alignment

Current Period Deep-Dive

This decade carries a **Companion (比肩)** ten-god over an **Earth** branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the *outer theme* — what the world sees and asks of you — while the branch element is the *underlying terrain* — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: **do** conserve, refine, and protect the foundation; **avoid** long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable **Fire** energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Structurally, its **Jin (辰)** clashes (clash) with your natal **Sul (戌)**; its stem **Gyeong (庚)** clashes with your natal **Gap (甲)** (Stem Clash).

Life Themes by Major Luck Period

Each 10-year major-luck (대운) period brings a new stem and branch into prominence. The stem shows the outer theme through its Ten Gods (十神) relationship to your Day Master; the branch shows the stage of life and the underlying terrain. Read these as tendencies, not fixed events.

Within any period, years and months whose stem matches your favorable element are the most reliable for visible wins; the rest are best used for quiet preparation.

Lifetime Decade Roadmap

A single-glance view of all 8 major-luck periods in your life and the favorable lean of each. Green segments are clearly favorable, amber are mixed, red lean toward challenge. Treat this as a rhythm, not a verdict — the supporting-element periods are often where the most important growth quietly happens.

Auspicious Dates — Next 90 Days

> The next 90-day window from September 2026 includes the following candidate dates — each one's day-stem element matches your favorable (Fire) or supporting (Wood) element, and its day-branch does not clash, harm, or break your natal day branch (Sul) or hour branch (Ja). A qualified reader should still cross-check each date against your specific question and local calendar before recommending it.

Health & Vitality — Deep-Dive

Element Story

This chart's element balance shows **Earth (32.5%)** as the most present element and **Water (10.3%)** as the least. Energy tends to **flow in cycles** in the Earth domain; a balanced day feels like quiet movement between input, processing, and release. The Water system is the most likely leak point — under-supported and easy to neglect — and the easiest place to begin rebuilding through the favorable element's practices.

Body-System Map

- **Excess system (Earth):** spleen/stomach and digestive metabolism — watch for signs of over-activity or congestion.

- **Deficient system (Water):** kidney/bladder and hormonal/endocrine reserves — gentle rebuilding over time is usually better than forceful stimulation.

Stress Signature

When this chart goes out of balance, the most common early signals are: grief that surfaces unbidden, skin or respiratory sensitivity, and rigid perfectionism. With a Balanced reading, the early signs are more emotional than physical — irritability, detachment, or perfectionism show up before the body signals.

Recovery Toolkit

Favorable-element practices (Fire):

- midday sunlight exposure (10–15 minutes)
- a creative project with a visible output each week
- a shared meal with company
- a daily moment of celebration or laughter **Day-Master practice (Metal):** Refine what is already there. Metal recovers through editing, polishing, and small precision.

Long-Term Vitality Strategy

Renewal windows — the chart's energy supports new health practices and increased capacity during: ages 5-14 (Mu In), ages 15-24 (Gi Myo), ages 45-54 (Im O). Use these decades to build resilience.

Conservation windows — the chart asks for gentler practice during: ages 25-34 (Gyeong Jin). Reduce load, deepen recovery, and avoid starting ambitious new regimens in these years.

Across all periods, the **Fire** element's daily practices (its season, foods, colors, and rhythms) are the simplest and most reliable countermeasure — small daily inputs compound more than occasional heroic efforts.

Monthly Lucky Dates

The next **12 months** of favorable days, selected when the daily stem element matches your **Fire** or **Wood** element and the day branch does not clash, harm, or break your natal day or hour branch.

> *Methodology: each row filters the daily-luck (일운) stems to those whose element matches your favorable or supporting element, then drops any day whose branch clashes, harms, or breaks against your natal day or hour branch.*

> **Almanac caveat:** this is a chart-relative shortlist, not a finished date selection (택일) — a full date selection (택일) also weighs the day's own almanac assignment, the specific event type, and local custom.

Closing Note

Gyeong (庚) (Gyeong 250) sits at the centre of this chart, with the chart's element balance leaning toward **Earth** and a ten-god distribution dominated by **Resource (4), Companion (4)**. The favorable **Fire** element (with **Wood** as the quiet secondary) is your main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace **Sul (戌)** and the chart's relationship dynamics reward the you for showing up consistently rather than performing. The six-combination between **Ja (子)** and **Chuk (丑)** is a quiet asset — partnerships or projects that bring two palaces into harmony, with your role often as the connector. Across a full lifetime, this chart rewards you for studying your own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
