Pawan — Career & Wealth Deep-Dive

A Reading in the Korean Four Pillars Tradition

For	Pawan
Born	3 October 1991, 11:45 PM IST (Vellore, Tamil Nadu)
Day Master	Byeong (Yang Fire)

Grounded in the Five Elements and Yin-Yang philosophy. Interpreted through classical Myeongri (Korean Saju) tradition: Jeokcheon-su, Yeonhae-japyeong, Gungtong-bogam, Myeongri-jeongjong.

Career Archetypes — Ranked Domains

Your career archetypes are the fields the chart can carry, ranked by what it *needs* (Favorable Element / Supporting Element) rather than by the Day Master's own element — the classical priority in §Favorable Element (용신) vs. Day Master for Career Choice is to "align work with what the chart needs", because work that reinforces an already-dominant element pushes the chart further out of balance. **Best Fit** = directly aligned; **Good Fit** = supportive breadth; **Possible** = workable but not strongly resourced by the chart.

Tier	Domain	Why It Fits	Example Roles
Best Fit	Strategy & Consulting	Aligns with your favorable element Water, reducing friction.	management consulting, advisory, research
Best Fit	Diplomacy & International Business	Aligns with your favorable element Water, reducing friction.	diplomacy, import/export, global trade
Best Fit	Arts & Curation	Aligns with your favorable element Water, reducing friction.	curation, art dealing, museum work, creative research
Best Fit	Journalism & Investigation	Aligns with your favorable element Water, reducing friction.	reporting, investigative journalism, publishing
Good Fit	Logistics & Shipping	Aligns with your favorable element Water, reducing friction.	supply chain, maritime, travel industry
Good Fit	Psychology & Counseling	Uses Earth energy in a supportive role to your Fire Day Master.	clinical psychology, counseling, hypnotherapy
Good Fit	Law & Governance	Uses Metal energy in a supportive role to your Fire Day Master.	attorney, judge, compliance, policy
Possible	Engineering & Technology	Uses Metal energy in a supportive role to your Fire Day Master.	software, hardware, civil, mechanical engineering
Possible	Medicine & Surgery	Uses Metal energy in a supportive role to your Fire Day Master.	surgery, diagnostics, medical research
Possible	Finance & Investment	Uses Earth energy in a supportive role to your Fire Day Master.	investment banking, trading, risk management
Possible	Quality & Audit	Uses Metal energy in a supportive role to your Fire Day Master.	auditing, QA, forensic analysis, due diligence
Possible	Security & Military	Uses Metal energy in a supportive role to your Fire Day Master.	defense, intelligence, security consulting

Concrete Role Ladders

Same domains, expanded into representative roles to aim for or hire into (modern 명리 extension of the element families — §Element → Industry Families).

Domain	Roles to Target
Strategy & Consulting	consultant, strategist, advisor, research lead
Diplomacy & International Business	diplomat, trade lead, global BD manager
Arts & Curation	curator, art dealer, creative researcher, museum lead
Journalism & Investigation	reporter, investigative journalist, editor
Logistics & Shipping	supply-chain lead, freight manager, mobility operator
Psychology & Counseling	clinical psychologist, counsellor, therapist
Law & Governance	lawyer, compliance officer, policy lead, judge-track
Engineering & Technology	engineer, architect, tech lead, CTO-track
Medicine & Surgery	physician, surgeon, diagnostics lead, researcher
Finance & Investment	analyst, trader, risk manager, portfolio lead
Quality & Audit	auditor, QA lead, forensic analyst, due-diligence lead
Security & Military	security lead, intelligence analyst, defence consultant

Domain Deep-Dive — Why Each Archetype Fits

Each ranked archetype below is read for *this* chart: what the element family is, why the chart fits it, the practical way to use it, and the honest caveat where the fit is weaker.

Strategy & Consulting (Best Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** This is a **Best Fit** for Strategy & Consulting: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it.
- **How to use it:** Lean into it deliberately — Strategy & Consulting is where effort compounds fastest and friction is lowest.
- **Caveat:** Even a favorable element can be overrun if pursued to excess; keep other tracks alive alongside consultant, strategist, advisor, research lead so the chart stays balanced.
- **Roles:** consultant, strategist, advisor, research lead

Diplomacy & International Business (Best Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** This is a **Best Fit** for Diplomacy & International Business: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it.
- **How to use it:** Lean into it deliberately — Diplomacy & International Business is where effort compounds fastest and friction is lowest.

- **Caveat:** Even a favorable element can be overrun if pursued to excess; keep other tracks alive alongside diplomat, trade lead, global BD manager so the chart stays balanced.
- **Roles:** diplomat, trade lead, global BD manager

Arts & Curation (Best Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** This is a **Best Fit** for Arts & Curation: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it.
- **How to use it:** Lean into it deliberately — Arts & Curation is where effort compounds fastest and friction is lowest.
- **Caveat:** Even a favorable element can be overrun if pursued to excess; keep other tracks alive alongside curator, art dealer, creative researcher, museum lead so the chart stays balanced.
- **Roles:** curator, art dealer, creative researcher, museum lead

Journalism & Investigation (Best Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** This is a **Best Fit** for Journalism & Investigation: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it.
- **How to use it:** Lean into it deliberately — Journalism & Investigation is where effort compounds fastest and friction is lowest.
- **Caveat:** Even a favorable element can be overrun if pursued to excess; keep other tracks alive alongside reporter, investigative journalist, editor so the chart stays balanced.
- **Roles:** reporter, investigative journalist, editor

Logistics & Shipping (Good Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** A **Good Fit** for Logistics & Shipping: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it. It is well resourced for Logistics & Shipping, just not at the very top of the ranking.
- **How to use it:** Treat Logistics & Shipping as a lead second track, or a strong complement to your Best-Fit work.
- **Caveat:** Strong but not primary — pick Logistics & Shipping deliberately rather than by default, and keep the favorable element in play alongside it.
- **Roles:** supply-chain lead, freight manager, mobility operator

Psychology & Counseling (Good Fit)

- **Element family:** Earth — this family holds, stores and mediates — it stabilises assets and provides the base others rely on (*Earth the element that contains and stands between*).

- **Why it fits your chart:** A **Good Fit** for Psychology & Counseling: the family runs on **Earth**, a neutral element for this chart — neither favorable nor unfavorable on its own. It is well resourced for Psychology & Counseling, just not at the very top of the ranking.
- **How to use it:** Treat Psychology & Counseling as a lead second track, or a strong complement to your Best-Fit work.
- **Caveat:** Strong but not primary — pick Psychology & Counseling deliberately rather than by default, and keep the favorable element in play alongside it.
- **Roles:** clinical psychologist, counsellor, therapist

Law & Governance (Good Fit)

- **Element family:** Metal — this family demands precision, standards and clean boundaries — it refines raw material into a finished thing (*Metal the element that cuts, separates and finishes*).
- **Why it fits your chart:** A **Good Fit** for Law & Governance: the family runs on **Metal**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master. It is well resourced for Law & Governance, just not at the very top of the ranking.
- **How to use it:** Treat Law & Governance as a lead second track, or a strong complement to your Best-Fit work.
- **Caveat:** Strong but not primary — pick Law & Governance deliberately rather than by default, and keep the favorable element in play alongside it.
- **Roles:** lawyer, compliance officer, policy lead, judge-track

Engineering & Technology (Possible)

- **Element family:** Metal — this family demands precision, standards and clean boundaries — it refines raw material into a finished thing (*Metal the element that cuts, separates and finishes*).
- **Why it fits your chart:** A **Possible** fit for Engineering & Technology: the family runs on **Metal**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master.
- **How to use it:** Use Engineering & Technology only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in Engineering & Technology without a reader's check.
- **Roles:** engineer, architect, tech lead, CTO-track

Medicine & Surgery (Possible)

- **Element family:** Metal — this family demands precision, standards and clean boundaries — it refines raw material into a finished thing (*Metal the element that cuts, separates and finishes*).
- **Why it fits your chart:** A **Possible** fit for Medicine & Surgery: the family runs on **Metal**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master.
- **How to use it:** Use Medicine & Surgery only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in Medicine & Surgery without a reader's check.

- **Roles:** physician, surgeon, diagnostics lead, researcher

Finance & Investment (**Possible**)

- **Element family:** Earth — this family holds, stores and mediates — it stabilises assets and provides the base others rely on (*Earth the element that contains and stands between*).
- **Why it fits your chart:** A **Possible** fit for Finance & Investment: the family runs on **Earth**, a neutral element for this chart — neither favorable nor unfavorable on its own.
- **How to use it:** Use Finance & Investment only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in Finance & Investment without a reader's check.
- **Roles:** analyst, trader, risk manager, portfolio lead

Quality & Audit (**Possible**)

- **Element family:** Metal — this family demands precision, standards and clean boundaries — it refines raw material into a finished thing (*Metal the element that cuts, separates and finishes*).
- **Why it fits your chart:** A **Possible** fit for Quality & Audit: the family runs on **Metal**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master.
- **How to use it:** Use Quality & Audit only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in Quality & Audit without a reader's check.
- **Roles:** auditor, QA lead, forensic analyst, due-diligence lead

Security & Military (**Possible**)

- **Element family:** Metal — this family demands precision, standards and clean boundaries — it refines raw material into a finished thing (*Metal the element that cuts, separates and finishes*).
- **Why it fits your chart:** A **Possible** fit for Security & Military: the family runs on **Metal**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master.
- **How to use it:** Use Security & Military only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in Security & Military without a reader's check.
- **Roles:** security lead, intelligence analyst, defence consultant

---

Ten-God → Career Mode

Your dominant ten-god class is **compare rob (比劫)** — Peer/team or independent operator — working alongside or against equals on one's own terms..

Employment vs. Entrepreneurship

A **hybrid** reading: the chart supports either a structured role with side output, or an independent practice with an anchor client/employer. Keep a stable base while the independent side is proven.

Company / entity fit: fluid, information-moving organisations — consulting, research, logistics/data or international networks.

Archetype Deep-Dive

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element **Water** and supporting element **Metal** describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck (대운) and Annual Luck (세운) tables to see when income and value-creation themes surface most clearly. Periods dominated by **Fire** call for conservation rather than expansion.

Income Rhythm

Income tends to arrive in **steady increments** — a salaried baseline, retainer work, or recurring contracts. The Direct Wealth stem is rooted in a branch, so the source is durable and the rhythm is rarely interrupted by surprise windfalls.

Skill-Levers to Develop

Robber-dominant charts tend to grow fastest through competitive positioning, negotiation, and boundary-setting. Cultivate **listening and reflective writing** to strengthen Water's receptive quality.

Company-Type Fit

Large institutions and mid-size specialists are the most likely fit. The Direct Officer influence values hierarchy, credential, and a clear chain of accountability — you are most productive when the structure around them is unambiguous.

Boss / Team Dynamics

The ideal manager profile is a **patient, perceptive Water advisor** — someone who carries your favorable **Water** element, supplying what the chart needs rather than competing with your Day Master. Watch for cold isolation that starves Fire's warmth; this is the most common way your energy gets drained in a team setting.

Red-Flag Environments

Look out for: long stretches of Fire-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

Income Style & Carrying Capacity

Income style: Mixed Wealth (재성) (Mixed Wealth) — income comes from a base plus variable upside; stabilising if the Day Master can carry it, scattering if not.

Carrying capacity: Balanced Day Master — carrying capacity is adequate but not unlimited; favour custodianship aligned with your favorable element over concentrated bets.

Partnership & shared-money risk: Your chart carries **4 Companion** stems — the peer-drains-wealth (겁재奪財) pattern reads shared and loosely-defined money as contested. Put ownership percentages in writing, keep separate accounts, and prefer sole operation or hard-boundary partnerships.

Investment Behaviour

Plan and negotiate in periods running **Water** / **Metal**; treat years dominated by **Fire** as conservation, review and patience rather than expansion. Large, long-term commitments (property, deeds, contracts) key to **Resource** in the classics — prefer placing them where Resource (인성) is active *and* the year runs the favorable element, not in a bare Wealth (재성) year. Storehouse (재고) charts accumulate quietly and release in bursts: be ready for the release windows rather than expecting steady flow. This describes stewardship *tendencies*, not investment instructions.

Wealth Preservation

Favour custodianship aligned with your favorable element and diversify enough that no single loss is structural; in Companion (비겁)/Unfavorable Element (기신) periods, **defend rather than expand**.

Career Transition Timing — Decade by Decade

Each 10-year major-luck period (대운) is read from its own ten-god theme plus the favorable balance of the annual pillars inside it.

Calendar years	Ages	Decade	Ten-God	Favorable years	Read
2001–2010	8–17	Bing Shin (丙申)	Companion (比肩)	4/10	steady build
2011–2020	18–27	Eul Mi (乙未)	Direct Resource (正印)	3/10	steady build
2021–2030	28–37	Gap O (甲午)	Indirect Resource (偏印)	5/10	steady build
2031–2040	38–47	Gye Sa (癸巳)	Direct Officer (正官)	3/10	steady build
2041–2050	48–57	Im Jin (壬辰)	Seven Killings (偏官)	4/10	steady build
2051–2060	58–67	Sin Myo (辛卯)	Direct Wealth (正財)	4/10	steady build
2061–2070	68–77	Gyeong In (庚寅)	Indirect Wealth (偏財)	4/10	steady build
2071–2080	78–87	Gi Chuk (己丑)	Hurting Officer (傷官)	3/10	steady build

Period Notes

- **Ages 8–17 (2001–2010) — Bing Shin (丙申) (Companion ◆42◆):** a peer/competition decade — work alongside equals; keep ownership boundaries explicit (겁재奪財 risk on shared money). Favorable years **4/10**.
- **Ages 18–27 (2011–2020) — Eul Mi (乙未) (Direct Resource ◆45◆):** a learning, credential or advisory decade — build depth and authority before converting it into output. Favorable years **3/10**.
- **Ages 28–37 (2021–2030) — Gap O (甲午) (Indirect Resource ◆47◆):** a learning, credential or advisory decade — build depth and authority before converting it into output. Favorable years **5/10**.
- **Ages 38–47 (2031–2040) — Gye Sa (癸巳) (Direct Officer ◆49◆):** an authority decade — institution, rank, licensing or management; structure and pressure arrive together. Favorable years **3/10**.
- **Ages 48–57 (2041–2050) — Im Jin (壬辰) (Seven Killings ◆51◆):** an authority decade — institution, rank, licensing or management; structure and pressure arrive together. Favorable years **4/10**.
- **Ages 58–67 (2051–2060) — Sin Myo (辛卯) (Direct Wealth ◆53◆):** a wealth-activity decade — earning, spending and money decisions rise; whether it is net favourable depends on Day-Master strength. Favorable years **4/10**.
- **Ages 68–77 (2061–2070) — Gyeong In (庚寅) (Indirect Wealth ◆55◆):** a wealth-activity decade — earning, spending and money decisions rise; whether it is net favourable depends on Day-Master strength. Favorable years **4/10**.
- **Ages 78–87 (2071–2080) — Gi Chuk (己丑) (Hurting Officer ◆57◆):** an output decade — craft, expression and production lead; the output-feeds-wealth (식상생재) path (produce → earn) is most available here. Favorable years **3/10**.
