Career Archetypes — Ranked Domains

Your career archetypes are the fields the chart can carry, ranked by what it *needs* (Favorable Element / Supporting Element) rather than by the Day Master's own element — the classical priority in §Favorable Element (용신) vs. Day Master for Career Choice is to "align work with what the chart needs", because work that reinforces an already-dominant element pushes the chart further out of balance. **Best Fit** = directly aligned; **Good Fit** = supportive breadth; **Possible** = workable but not strongly resourced by the chart.

Tier	Domain	Why It Fits	Example Roles
Best Fit	Strategy & Consulting	Aligns with your favorable element Water, reducing friction.	management consulting, advisory, research

Domain Deep-Dive — Why Each Archetype Fits

Each ranked archetype below is read for *this* chart: what the element family is, why the chart fits it, the practical way to use it, and the honest caveat where the fit is weaker.

Strategy & Consulting (Best Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** This is a **Best Fit** for Strategy & Consulting: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it.
- **How to use it:** Lean into it deliberately — Strategy & Consulting is where effort compounds fastest and friction is lowest.
- **Caveat:** Even a favorable element can be overrun if pursued to excess; keep other tracks alive alongside consultant, strategist, advisor, research lead so the chart stays balanced.
- **Roles:** consultant, strategist, advisor, research lead

Diplomacy & International Business (Best Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** This is a **Best Fit** for Diplomacy & International Business: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it.
- **How to use it:** Lean into it deliberately — Diplomacy & International Business is where effort compounds fastest and friction is lowest.

- **Caveat:** Even a favorable element can be overrun if pursued to excess; keep other tracks alive alongside diplomat, trade lead, global BD manager so the chart stays balanced.
- **Roles:** diplomat, trade lead, global BD manager

Arts & Curation (Best Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** This is a **Best Fit** for Arts & Curation: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it.
- **How to use it:** Lean into it deliberately — Arts & Curation is where effort compounds fastest and friction is lowest.
- **Caveat:** Even a favorable element can be overrun if pursued to excess; keep other tracks alive alongside curator, art dealer, creative researcher, museum lead so the chart stays balanced.
- **Roles:** curator, art dealer, creative researcher, museum lead

Journalism & Investigation (Best Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** This is a **Best Fit** for Journalism & Investigation: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it.
- **How to use it:** Lean into it deliberately — Journalism & Investigation is where effort compounds fastest and friction is lowest.
- **Caveat:** Even a favorable element can be overrun if pursued to excess; keep other tracks alive alongside reporter, investigative journalist, editor so the chart stays balanced.
- **Roles:** reporter, investigative journalist, editor

Logistics & Shipping (Good Fit)

- **Element family:** Water — this family moves information, goods or people — it connects separated things and runs below the surface (*Water the element that flows around obstacles and connects*).
- **Why it fits your chart:** A **Good Fit** for Logistics & Shipping: the family runs on **Water**, your favorable element, so the work moves *with* the chart's grain instead of against it. It is well resourced for Logistics & Shipping, just not at the very top of the ranking.
- **How to use it:** Treat Logistics & Shipping as a lead second track, or a strong complement to your Best-Fit work.
- **Caveat:** Strong but not primary — pick Logistics & Shipping deliberately rather than by default, and keep the favorable element in play alongside it.
- **Roles:** supply-chain lead, freight manager, mobility operator

Psychology & Counseling (Good Fit)

- **Element family:** Earth — this family holds, stores and mediates — it stabilises assets and provides the base others rely on (*Earth the element that contains and stands between*).

- **Why it fits your chart:** A **Good Fit** for Psychology & Counseling: the family runs on **Earth**, a neutral element for this chart — neither favorable nor unfavorable on its own. It is well resourced for Psychology & Counseling, just not at the very top of the ranking.
- **How to use it:** Treat Psychology & Counseling as a lead second track, or a strong complement to your Best-Fit work.
- **Caveat:** Strong but not primary — pick Psychology & Counseling deliberately rather than by default, and keep the favorable element in play alongside it.
- **Roles:** clinical psychologist, counsellor, therapist

Education & Training (Good Fit)

- **Element family:** Wood — this family grows something over time — it develops people, ideas or structures and keeps extending (*Wood nourished into being and then feeding the next stage*).
- **Why it fits your chart:** A **Good Fit** for Education & Training: the family runs on **Wood**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master. It is well resourced for Education & Training, just not at the very top of the ranking.
- **How to use it:** Treat Education & Training as a lead second track, or a strong complement to your Best-Fit work.
- **Caveat:** Strong but not primary — pick Education & Training deliberately rather than by default, and keep the favorable element in play alongside it.
- **Roles:** teacher, lecturer, curriculum lead, L&D manager

Healthcare & Wellness (Possible)

- **Element family:** Wood — this family grows something over time — it develops people, ideas or structures and keeps extending (*Wood nourished into being and then feeding the next stage*).
- **Why it fits your chart:** A **Possible** fit for Healthcare & Wellness: the family runs on **Wood**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master.
- **How to use it:** Use Healthcare & Wellness only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in Healthcare & Wellness without a reader's check.
- **Roles:** practitioner, therapist, clinic lead, wellness director

Design & Publishing (Possible)

- **Element family:** Wood — this family grows something over time — it develops people, ideas or structures and keeps extending (*Wood nourished into being and then feeding the next stage*).
- **Why it fits your chart:** A **Possible** fit for Design & Publishing: the family runs on **Wood**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master.
- **How to use it:** Use Design & Publishing only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in Design & Publishing without a reader's check.

- **Roles:** designer, editor, author, creative lead

Social & Environmental Work (**Possible**)

- **Element family:** Wood — this family grows something over time — it develops people, ideas or structures and keeps extending (*Wood nourished into being and then feeding the next stage*).
- **Why it fits your chart:** A **Possible** fit for Social & Environmental Work: the family runs on **Wood**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master.
- **How to use it:** Use Social & Environmental Work only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in Social & Environmental Work without a reader's check.
- **Roles:** program officer, advocate, NGO lead, sustainability lead

People Development & Culture (**Possible**)

- **Element family:** None — this family has its own character (*None its elemental nature*).
- **Why it fits your chart:** A **Possible** fit for People Development & Culture: the family runs on **None**, a neutral element for this chart — neither favorable nor unfavorable on its own.
- **How to use it:** Use People Development & Culture only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in People Development & Culture without a reader's check.
- **Roles:** HR business partner, coach, talent lead, culture head

Creative Direction (**Possible**)

- **Element family:** Wood — this family grows something over time — it develops people, ideas or structures and keeps extending (*Wood nourished into being and then feeding the next stage*).
- **Why it fits your chart:** A **Possible** fit for Creative Direction: the family runs on **Wood**, your Supporting Element (희신), which strengthens the chart's balance rather than draining or feeding the Day Master.
- **How to use it:** Use Creative Direction only inside a supporting structure, with the favorable element present to offset it; do not make it the core identity of the work.
- **Caveat:** The chart is not strongly resourced for this family — do not over-invest career capital in Creative Direction without a reader's check.
- **Roles:** art director, brand storyteller, content strategist

Ten-God → Career Mode

Your dominant ten-god class is **compare rob (比劫)** — Peer/team or independent operator — working alongside or against equals on one's own terms..

Employment vs. Entrepreneurship

A **hybrid** reading: the chart supports either a structured role with side output, or an independent practice with an anchor client/employer. Keep a stable base while the independent side is proven.

Company / entity fit: fluid, information-moving organisations — consulting, research, logistics/data or international networks.

Archetype Deep-Dive

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element **Water** and supporting element **Wood** describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck (대운) and Annual Luck (세운) tables to see when income and value-creation themes surface most clearly. Periods dominated by **Metal** call for conservation rather than expansion.

Income Rhythm

Income tends to arrive in **steady increments** — a salaried baseline, retainer work, or recurring contracts. The Direct Wealth stem is rooted in a branch, so the source is durable and the rhythm is rarely interrupted by surprise windfalls.

Skill-Levers to Develop

Companion-dominant charts tend to grow fastest through peer collaboration, team facilitation, and honest self-assessment. Cultivate **listening and reflective writing** to strengthen Water's receptive quality.

Company-Type Fit

A **boutique firm or solo practice** is the most likely fit. The Seven Killings presence without Direct Officer prefers competitive, high-velocity environments over bureaucratic ones, and the strong Day Master can absorb the volatility.

Boss / Team Dynamics

The ideal manager profile is a **patient, perceptive Water advisor** — someone who carries your favorable **Water** element, supplying what the chart needs rather than competing with your Day Master. Watch for vague goals that blunt Metal's precision; this is the most common way your energy gets drained in a team setting.

Red-Flag Environments

Look out for: slow bureaucratic processes that your energy quickly overruns; unclear decision rights — strong Day Masters struggle without ownership; teams that refuse to challenge your ideas.

Income Style & Carrying Capacity

Income style: Mixed Wealth (재성) (Mixed Wealth) — income comes from a base plus variable upside; stabilising if the Day Master can carry it, scattering if not.

Carrying capacity: Strong Day Master — you can carry Wealth (재성) and Authority (관성) directly; wealth that comes in can be held. The caution is not to hold *beyond* what the chart supports — diversify so no single loss is structural.

Partnership & shared-money risk: Your chart carries **4 Companion** stems — the peer-drains-wealth (겁재奪財) pattern reads shared and loosely-defined money as contested. Put ownership percentages in writing, keep separate accounts, and prefer sole operation or hard-boundary partnerships.

Investment Behaviour

Plan and negotiate in periods running **Water** / **Wood**; treat years dominated by **Metal** as conservation, review and patience rather than expansion. Large, long-term commitments (property, deeds, contracts) key to **Resource** in the classics — prefer placing them where Resource (인성) is active *and* the year runs the favorable element, not in a bare Wealth (재성) year. Storehouse (재고) charts accumulate quietly and release in bursts: be ready for the release windows rather than expecting steady flow. This describes stewardship *tendencies*, not investment instructions.

Wealth Preservation

Favour custodianship aligned with your favorable element and diversify enough that no single loss is structural; in Companion (비겁)/Unfavorable Element (기신) periods, **defend rather than expand**.

Career Transition Timing — Decade by Decade

Each 10-year major-luck period (대운) is read from its own ten-god theme plus the favorable balance of the annual pillars inside it.
