Career Archetypes — Ranked Domains

Your career archetypes are the fields the chart can carry, ranked by what it *needs* (Favorable Element / Supporting Element) rather than by the Day Master's own element — the classical priority in §Favorable Element (용신) vs. Day Master for Career Choice is to "align work with what the chart needs", because work that reinforces an already-dominant element pushes the chart further out of balance. **Best Fit** = directly aligned; **Good Fit** = supportive breadth; **Possible** = workable but not strongly resourced by the chart.

Domain Deep-Dive — Why Each Archetype Fits

Each ranked archetype below is read for *this* chart: what the element family is, why the chart fits it, the practical way to use it, and the honest caveat where the fit is weaker.

Real Estate & Property (**Best Fit**)

- **Element family:** Earth — this family holds, stores and mediates — it stabilises assets and provides the base others rely on (*Earth the element that contains and stands between*).

Ten-God → Career Mode

Your dominant ten-god class is **food hurt (食傷) · officer star (官星)** — Creating, expressing, teaching, making — producing something that goes out into the world. / Institutions, licensed authority, management — operating inside accountable rank..

Employment vs. Entrepreneurship

A **hybrid** reading: the chart supports either a structured role with side output, or an independent practice with an anchor client/employer. Keep a stable base while the independent side is proven.

Company / entity fit: stable, asset-holding, mediating organisations — established firms, property/finance/operations, long-horizon institutions.

Archetype Deep-Dive

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element **Earth** and supporting element **Fire** describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck (대운) and Annual Luck (세운) tables to see when income and value-creation themes surface most clearly. Periods dominated by **Water** call for conservation rather than expansion.

Income Rhythm

The chart carries **Direct Wealth only as a hidden stem** — real, but latent rather than actively expressed. Income from a steady, earned source is structurally present but may need a deliberate channel (a role, a contract, a platform) to become visible and regular.

Skill-Levers to Develop

Direct Officer-dominant charts tend to grow fastest through structured planning, policy literacy, and conflict mediation. Cultivate **slow, steady routines** — daily practice, steady journaling, long-cycle planning.

Company-Type Fit

Large institutions and mid-size specialists are the most likely fit. The Direct Officer influence values hierarchy, credential, and a clear chain of accountability — you are most productive when the structure around them is unambiguous.

Boss / Team Dynamics

The ideal manager profile is a **steady Earth mentor** — someone who carries your favorable **Earth** element, supplying what the chart needs rather than competing with your Day Master. Watch for cold isolation that starves Fire's warmth; this is the most common way your energy gets drained in a team setting.

Red-Flag Environments

Look out for: long stretches of Water-heavy work that drain the Day Master; either-or framing that forces a single dominant choice; environments that ignore the favorable element's rhythm.

Income Style & Carrying Capacity

Income style: Direct Wealth (정재)-weighted — salary, steady cash flow, savings and disciplined revenue; low variance, natural concentration in one reliable source.

Carrying capacity: Balanced Day Master — carrying capacity is adequate but not unlimited; favour custodianship aligned with your favorable element over concentrated bets.

Partnership & shared-money risk: Your chart carries **2 Companion** stems — the peer-drains-wealth (겁재奪財) pattern reads shared and loosely-defined money as contested. Put ownership percentages in writing, keep separate accounts, and prefer sole operation or hard-boundary partnerships.

Investment Behaviour

Plan and negotiate in periods running **Earth** / **Fire**; treat years dominated by **Water** as conservation, review and patience rather than expansion. Large, long-term commitments (property, deeds, contracts) key to **Resource** in the classics — prefer placing them where Resource (인성) is active *and* the year runs the favorable element, not in a bare Wealth (재성) year. Storehouse (재고) charts accumulate quietly and release in bursts: be ready for the release windows rather than expecting steady flow. This describes stewardship *tendencies*, not investment instructions.

Wealth Preservation

Favour custodianship aligned with your favorable element and diversify enough that no single loss is structural; in Companion (비겁)/Unfavorable Element (기신) periods, **defend rather than expand**.

Career Transition Timing — Decade by Decade

Each 10-year major-luck period (대운) is read from its own ten-god theme plus the favorable balance of the annual pillars inside it.
