Vishnu Priya — Essential Report

Your natal chart, career arc, decade cycles, and lucky-element guide

Born: 2001-06-07 · 16:45 · Mysore

Time method: recorded birth time 16:45 (local clock) corrected to true solar time **16:37** (birthplace 80.27°E vs the 82.5°E zone meridian), -7.5 min (longitude -8.9 min + equation of time +1.4 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Day Master: Sin (Yin Metal, 辛金)

Element Balance

Element	Presence	Percentage
🔴 Fire	▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓	27.5%
🟡 Earth	▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓	10.6%
⚪ Metal	▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓	42.5%
🔵 Water	▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓	3.8%
🟢 Wood	▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓	15.6%

Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems (藏干) at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- **Day Master:** Sin (Yin Metal, 辛金)
- **Strength:** Balanced — the month branch **O (午)** gives the Day Master a **seasonally weak baseline** by element relation; its 12-Stage Cycle (운성) stage there is **illness (病)** — early momentum is depleted; you often build strength through recovery and patience. Peer/resource support and the output/wealth/authority drain sit close to even.
- **Favorable Element:** Water — The Day Master reads as balanced, so the classical climate-balance check applies: this chart peaks in hot summer conditions, and the classical remedy is Water. This matches the chart's own least-represented element, reinforcing the pick.
- **Supporting Element:** Metal
- **Avoid / Watch:** Fire (기신, watch) · Earth (구신, restrains Water) · Wood (한신, drains Water)
- **Current Major Luck:** ages 19-28
- **Luck direction:** forward, advancing from the month pillar — derived from a yin year stem (Sin) and female gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- **Pattern / Formation:** Seven Killings Structure (편관격) / Seven Killings Grid

What This Year Means for You

*Right now, in September 2026, you are moving through a year whose energy is shaped by **Bing O (丙午)** (Direct Officer (Authority)). This sits inside your broader **Bing Shin (丙申)** major luck period (ages 19–28), whose theme is Direct Officer (Authority) — conventional authority — career structure, rules, status, institutions. For your chart, the most useful energy to lean into this year is **Water**: look for decisions, environments, and relationships that bring water qualities forward.*

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element **Water** and supporting element **Metal** describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck (大運) and Annual Luck (歲運) tables to see when income and value-creation themes surface most clearly. Periods dominated by **Fire** call for conservation rather than expansion.

Wealth Preservation Note

For a **Metal** Day Master with a **Balanced** reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the **Water** element (its colors, foods, and rhythms) help the you stay flexible across unfavorable Major Luck (대운) periods. Lean on **Water**-aligned custodians and instruments rather than chasing growth alone.

> **In plain words:** Your chart leans toward earning alongside peers — teams, partnerships, independent practice. Fields and decades that carry Water give the cleanest results; the timing tables show when.

Timing: Major Luck Periods

Luck direction: forward, advancing from the month pillar — derived from a yin year stem (Sin) and female gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

starting age: ~9.9 (~29.6 days to the qualifying 節氣 ÷ 3, per "3 days = 1 year" rule) — the first major-luck period begins roughly 118 months after birth (≈ Apr 2011), inside the **9-18** decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) apps round this to a whole **Major Luck Water (대운수) 10** and list decades as 10, 20, 30… (often in Korean age), so their labels can differ from the table below by a year or so while describing the same periods.

Major Luck Periods

Age	Pillar	Elements (Stem / Branch)	Ten-God	Career Theme	Relationship Theme

Current Period Deep-Dive

This decade carries a **Direct Officer (正官)** ten-god over a **Metal** branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the *outer theme* — what the world sees and asks of you — while the branch element is the *underlying terrain* — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: **do** conserve, refine, and protect the foundation; **avoid** long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable **Water** energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Structurally, your Day Master sits at **Peak (帝旺)** on **Shin (申)** — a strong root for the self; its **Shin (申)** punishes (punishment) your natal **Sa (巳)**; its stem **Bing (丙)** combines with your natal **Sin (辛)** (Byeong-Sin Water combination), tying up what that stem represents; its stem **Bing (丙)** combines with your natal **Sin (辛)** (Byeong-Sin Water combination), tying up what that stem represents.

> **In plain words:** You are currently in a mixed decade — pick your moments using the year and month tables. Zoom in with the year and month windows that carry Water.

30-Day Action Plan

A short, focused cycle designed to bring more **Water** energy into your daily rhythm. These steps are tendencies and invitations, not prescriptions — adapt them to your schedule and comfort.

Week	Focus	Suggested Action
Week 1	Tune the environment	Add black accents, face north when working, and clear one space that feels stagnant.
Week 2	Feed the element	Bring black beans, seaweed, salty foods in moderation, soups and broths into two meals a day and notice which foods leave you feeling steady.
Week 3	Move with the energy	Take one daily walk or practice session at the time of day that carries water qi for you.
Week 4	Make one aligned decision	Choose one small career, relationship, or health choice that leans into your favorable element and notice the result.

> *Carry the chart's strength into action gradually. Big changes built on small, consistent moves tend to outlast dramatic swings.*

Closing Note

This chart's gift is a strong companion presence that gives you real follow-through; the challenge is staying aware of the chart's pressure points rather than letting them run in the background. The single most useful next step is to weave the favorable **Water** element into daily rhythm — through color, direction, season, or practice — so the chart has somewhere to land. Treat the rest of this report as a starting place; the best readings come from revisiting the same chart across different life phases.
