Your natal chart, career arc, decade cycles, and lucky-element guide

Born: 2001-06-07 · 16:45 · Mysore

Time method: recorded birth time 16:45 (local clock) corrected to true solar time 16:37 (birthplace 80.27°E vs the 82.5°E zone meridian), -7.5 min (longitude -8.9 min + equation of time +1.4 min). Hour branches follow 2-hour solar windows, so the pillars above use the corrected time.

Day Master: Sin (Yin Metal, Sin Metal)

Chart at a Glance

Four Pillars

	Year	Month	Day	Hour
Stem	Sin	Gap	Sin	Bing
Branch	Sa	O	Chuk	Shin
Hidden Stems	Bing (main), Gyeong (middle), Mu (residual)	Jeong (main), Gi (middle)	Gi (main), Sin (middle), Gye (residual)	Gyeong (main), Im (middle), Mu (residual)

Element Balance

Element	Presence	Percentage
● Fire		27.8%
● Earth		13.9%
● Metal		40.5%
● Water		5.1%
● Wood		12.7%

> Methodology: each element's share counts the 4 visible stems (year/month/day/hour) at weight 1.0, plus every branch's hidden stems at reduced weights (main qi 0.6, middle 0.3, residual 0.1) — a branch's own elemental weight is carried entirely through its hidden stems (its main-qi hidden stem is usually the branch's nominal element), not counted a second time as a separate 1.0 entry, since that would double-count it; the counts are then normalized to 100%.

Quick Reference

- Day Master: Sin (Yin Metal, Sin Metal)
- Strength: Balanced — the month branch O gives the Day Master a seasonally weak baseline by element relation (per Step 2); its 12-Stage Cycle stage there is Illness — early momentum is depleted; the querent often builds strength through recovery and patience.

Peer/resource support and the output/wealth/authority drain sit close to even.

- Favorable Element: Water — The Day Master reads as balanced, so the classical climate-balance check applies: this chart peaks in hot summer conditions, and the classical remedy is Water. This matches the chart's own least-represented element, reinforcing the pick.
- Supporting Element: Metal
- Avoid / Watch: Fire (Unfavorable Element, watch) · Earth (Restraining Element, restrains Water) · Wood (Draining Element, drains Water)
- Current Major Luck: Bing Shin (ages 19-28)
- Luck direction: forward, advancing from the month pillar — derived from a yin year stem (Sin) and female gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).
- Pattern / Formation: Seven Killings Structure / Seven Killings Grid

What This Year Means for You

Right now, in September 2026, you are moving through a year whose energy is shaped by Bing O (Direct Officer (Authority)). This sits inside your broader Bing Shin major luck period (ages 19–28), whose theme is Direct Officer (Authority) — conventional authority — career structure, rules, status, institutions. For your chart, the most useful energy to lean into this year is Water: look for decisions, environments, and relationships that bring water qualities forward.

Day Master Portrait

With Sin (Sin (Yin Metal, Sin Metal)) as your Day Master — you — the reference point the whole chart is read against, your core self carries the image of the polished jewel or fine instrument. Your natural strengths run toward precision, refinement, and a gift for detail and quality, while the shadow side can show as perfectionism, detachment, or being easily bruised by criticism.

Four Pillars, One by One

Year Pillar — Sin Sa (Sin (Yin Metal, Sin Metal))

The Sin Sa pillar pairs the Sin stem (Sin (Yin Metal, Sin Metal)) with the Sa branch, together shaping ancestral and social-root energy — the wider world you were born into. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Fire branch is the container for this area and the Metal stem is its driver — read the two together when weighing how year-pillar matters unfold.

Month Pillar — Gap O (Gap (Yang Wood, Gap Wood))

The Gap O pillar pairs the Gap stem (Gap (Yang Wood, Gap Wood)) with the O branch, together shaping career and immediate environment — how you show up at work and in daily life. Its stem reads as Direct Wealth relative to your Day Master, so this area of life tends to carry that dynamic.

The Fire branch is the container for this area and the Wood stem is its driver — read the two together when weighing how month-pillar matters unfold.

Day Pillar — Sin Chuk (Sin (Yin Metal, Sin Metal))

The Sin Chuk pillar pairs the Sin stem (Sin (Yin Metal, Sin Metal)) with the Chuk branch, together shaping spouse palace and the inner self — the partner you choose and the self behind the choices. Its stem reads as Companion (Pillar) relative to your Day Master, so this area of life tends to carry that dynamic.

The Earth branch is the container for this area and the Metal stem is its driver — read the two together when weighing how day-pillar matters unfold.

Hour Pillar — Bing Shin (Bing (Yang Fire, Bing Fire))

The Bing Shin pillar pairs the Bing stem (Bing (Yang Fire, Bing Fire)) with the Shin branch, together shaping later life and children — what you build toward and what you pass on. Its stem reads as Direct Officer relative to your Day Master, so this area of life tends to carry that dynamic.

The Metal branch is the container for this area and the Fire stem is its driver — read the two together when weighing how hour-pillar matters unfold.

> In plain words: At your core you are a refined blade — you cut to the point and value quality. Your chart reads as balanced, so the rest of this report is about where that helps and where leaning toward Water keeps you in balance.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Water and supporting element Metal describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck and Annual Luck tables to see when income and value-creation themes surface most clearly. Periods dominated by Fire call for conservation rather than expansion.

Wealth Preservation Note

For a Metal Day Master with a Balanced reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Water element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Lean on Water-aligned custodians and instruments rather than chasing growth alone.

> In plain words: Your chart leans toward earning alongside peers — teams, partnerships, independent practice. Fields and decades that carry Water give the cleanest results; the timing tables show when.

Timing: Major Luck Periods

Luck direction: forward, advancing from the month pillar — derived from a yin year stem (Sin) and female gender, per the classical rule (yang year + male, or yin year + female → forward; otherwise backward).

starting age: ~9.9 (~29.6 days to the qualifying solar term ÷ 3, per 's "3 days = 1 year" rule) — the first major-luck period begins roughly 118 months after birth (≈ Apr 2011), inside the 9-18 decade label shown below, not precisely at its first birthday; each later period changes over at the same point in the year. Korean manseryeok (Korean perpetual calendar) apps round this to a whole Major Luck Water 10 and list decades as 10, 20, 30... (often in Korean age), so their labels can differ from the table below by a year or so while describing the same periods.

Major Luck Periods

Age	Pillar	Elements (Stem / Branch)	Ten-God	Career Theme	Relationship Theme
9-18	Eul Mi	Wood / Earth	Indirect Wealth	income, assets, or value-creation themes (mixed — protect, don't overcommit)	shared resources or lifestyle alignment
19-28	Bing Shin	Fire / Metal	Direct Officer	structured career moves; credentials matter (mixed — protect, don't overcommit)	commitment or formalization themes
29-38	Jeong Yu	Fire / Metal	Seven Killings	structured career moves; credentials matter (mixed — protect, don't overcommit)	commitment or formalization themes
39-48	Mu Sul	Earth / Earth	Direct Resource	study, mentorship, or skill-building (mixed — protect, don't overcommit)	nurturing, support, or healing connection
49-58	Gi Hae	Earth / Water	Indirect Resource	study, mentorship, or skill-building	nurturing, support, or healing connection
59-68	Gyeong Ja	Metal / Water	Robber (Rob Wealth)	peer-driven or self-defined work	friendship-based or peer dynamic
69-78	Sin Chuk	Metal / Earth	Companion (Pillar)	peer-driven or self-defined work	friendship-based or peer dynamic
79-88	Im In	Water / Wood	Hurting Officer	creative output, voice, or visible production	creative partnership or playful dynamic

Current Period Deep-Dive

This decade carries a Direct Officer ten-god over a Metal branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do conserve, refine, and protect the foundation; avoid long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable Water energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Structurally, your Day Master sits at Peak (emperor flourishing) on Shin — a strong root for the self; its Shin punishes (punishment) your natal Sa; its stem Bing combines with your natal Sin (Byeong-Sin Water combination), tying up what that stem represents; its stem Bing combines with your natal Sin (Byeong-Sin Water combination), tying up what that stem represents.

> In plain words: You are currently in a mixed decade — pick your moments using the year and month tables. Zoom in with the year and month windows that carry Water.

Closing Note

This chart's gift is a strong companion presence that gives the querent real follow-through; the challenge is staying aware of the chart's pressure points rather than letting them run in the background. The single most useful next step is to weave the favorable Water element into daily rhythm — through color, direction, season, or practice — so the chart has somewhere to land. Treat the rest of this report as a starting place; the best readings come from revisiting the same chart across different life phases.
