Quick Reference

- Day Master: Sin (Yin Metal, Sin Metal)
- Strength: Balanced — based on the engine heuristic; final judgment requires classical review.
- Favorable Element: Water — The Day Master reads as balanced, so the classical climate (climate-balance) check applies: this chart peaks in hot summer weather, and the classical remedy is Water. This matches the chart's own least-represented element, reinforcing the pick.
- Supporting Element: Metal

- Current Major Luck: Bing Shin (ages 19-28)
- Pattern / Formation: Seven Killings (Authority) / Seven Killings Grid

What This Year Means for You

Right now, in July 2026, you are moving through a year whose energy is shaped by Bing O (Direct Officer (Authority)). This sits inside your broader Bing Shin major luck period (ages 19–28), whose theme is Direct Officer (Authority). For your chart, the most useful energy to lean into this year is Water: look for decisions, environments, and relationships that bring water qualities forward.

Day Master Portrait

With Sin (Sin (Yin Metal, Sin Metal)) as your Day Master, your core self carries the image of the polished jewel or fine instrument. Your natural strengths run toward precision, refinement, and a gift for detail and quality, while the shadow side can show as perfectionism, detachment, or being easily bruised by criticism.

Born in a Metal chart with the engine reading as balanced, the way you meet the world is shaped by how much Metal energy is available. When balanced, you express the best of Metal; when stressed, the unintegrated side may dominate.

Your growth edge is to consciously cultivate Water energy — the favorable element — so that your Metal nature has the right container and outlet.

Four Pillars, One by One

Year Pillar — Sin Sa (Sin (Yin Metal, Sin Metal))

The Sin Sa pillar carries the Sin stem (Sin (Yin Metal, Sin Metal)) and the Sa branch, together shaping the ancestral and social-root energy — the wider world you were born into. sits as Companion (Pillar). The branch's Fire energy blends with the stem's polarity to colour how this life area expresses.

Month Pillar — Gap O (Gap (Yang Wood, Gap Wood))

The Gap O pillar carries the Gap stem (Gap (Yang Wood, Gap Wood)) and the O branch, together shaping the career and immediate environment — how you show up at work and in daily life. sits as Direct Wealth (Direct Wealth). The branch's Fire energy blends with the stem's polarity to colour how this life area expresses.

Day Pillar — Sin Chuk (Sin (Yin Metal, Sin Metal))

The Sin Chuk pillar carries the Sin stem (Sin (Yin Metal, Sin Metal)) and the Chuk branch, together shaping the spouse palace and the inner self — the partner you choose and the self

behind the choices. sits as Companion (Pillar). The branch's Earth energy blends with the stem's polarity to colour how this life area expresses.

Hour Pillar — Bing Shin (Bing (Yang Fire, Bing Fire))

The Bing Shin pillar carries the Bing stem (Bing (Yang Fire, Bing Fire)) and the Shin branch, together shaping the later life and children — what you build toward and what you pass on. sits as Direct Officer (Direct Officer). The branch's Metal energy blends with the stem's polarity to colour how this life area expresses.

Wealth Pattern

Wealth timing is read from where Wealth ten-gods appear and are supported. Your favorable element Water and supporting element Metal describe the broader climate that helps those wealth channels function; they are not the wealth channel itself. Wealth ten-gods are visible in the natal pillars, so earning capacity is rooted in the chart. Use the Major Luck (Major Luck) and Annual Luck (Annual Luck) tables to see when income and value-creation themes surface most clearly. Periods dominated by the challenging element call for conservation rather than expansion.

Wealth Preservation Note

For a Metal Day Master with a Balanced reading, wealth preservation starts with diversification — never concentrate more than your chart can comfortably hold. Liquidity buffers aligned with the Water element (its colors, foods, and rhythms) help the querent stay flexible across unfavorable Major Luck periods. Lean on Water-aligned custodians and instruments rather than chasing growth alone.

Relationships

Relationship Style

The spouse palace is Chuk (12-stage: Nurturing (nurture)), whose main hidden stem relates to your Day Master as Indirect Resource (Indirect Resource). In practice, you bring the querent's

full nature into the partnership. Peach Blossom is present at O, adding warmth and relational magnetism.

Partner Compatibility

Partner Type	Element	Fit Level	Why
Growth-oriented, idealistic, and principled	Wood	Compatible	Neutral energetic exchange.
Radiant, expressive, and momentum-driven	Fire	Compatible	Neutral energetic exchange.
Grounded, nurturing, and reliability-focused	Earth	Compatible	Neutral energetic exchange.
Disciplined, precise, and structure-oriented	Metal	Good	Metal generates your Favorable Element (Water) — secondary support (Supporting Element (spirit)).
Adaptive, perceptive, and depth-seeking	Water	Best	Water is your Favorable Element (favorable element) — the core balance your chart seeks.

Three Things to Be Mindful Of

1. Peach Blossom is active at O — relational magnetism is high; be deliberate about which invitations you accept.
1. A natal six-combination between Sa and Shin draws the partner into a transformation toward Water energy — expect the relationship to ask for adaptation.
1. The current major-luck period (Bing Shin, Direct Officer (Direct Officer)) carries mixed energy for relationships — the next few years are about consolidation rather than reinvention.

Key Relationship Timing

>Relationship theme per year for the next six years — read alongside the annual windows table.

Year	Pillar	Note
2026	Bing O (Direct Officer)	Fire energy + Direct Officer: structure and visible milestones (engagement, marriage, formal commitment).
2027	Jeong Mi (Seven Killings)	Fire energy + Seven Killings: intensity and transformation — expect a relationship to demand change.
2028	Mu Shin (Direct Resource)	Earth energy + Direct Resource: support and study — a partner who mentors or grounds you.
2029	Gi Yu (Indirect Resource)	Earth energy + Indirect Resource: intuition and surprise — a relationship that teaches you something unexpected.
2030	Gyeong Sul (Robber)	Metal energy + Robber: competition or boundary-setting — be clear about what you will and will not negotiate.
2031	Sin Hae (Companion)	Metal energy + Companion: peer energy — friendships and partnerships strengthen.

Friendship & Social Energy

Friend and social energy is shaped by the chart's dominant classes — Companion (3), Direct Officer (2) — so the querent tends to give and receive in those modes. The querent is naturally drawn to people who are reflective, listening, and emotionally present, and tends to feel drained by people who drain rather than nourish. Social settings where the favorable Water element is present (a community garden for Wood, a quiet studio for Water, a workshop for Metal) tend to feel more nourishing than large unstructured gatherings.

Health & Vitality

Primary Watchpoints

- Element excess: Metal — pay attention to the lung/large intestine and respiratory/immune boundaries system.
- Element deficiency: Wood — the liver/gall bladder and nervous system system may need gentle support.

Grounding Practices

- Swimming, baths, or walking near rivers/lakes/ocean
- Eating black beans, seaweed, and salty foods in moderation
- Meditation or stillness practice in the evening
- North-facing study or rest spaces
- Reading, research, or journaling to settle a restless mind

The Overdrive Warning

A Balanced Metal Day Master has reasonable reserves but still needs conscious rhythm. Watch for burning out through perfectionism, grief, or respiratory tightness when output stays high without recovery windows. In classical Five-Element reading, the lung/large intestine and respiratory/immune boundaries are a common watchpoint when energy is overstretched; the Water element's practices (its seasons, foods, and rhythms) are the simplest countermeasure.

Seasonal & Daily Rhythms

The Metal Day Master is most at home in autumn; that is when the chart's natural energy peaks. Conversely, the chart is most depleted in the season of the unfavorable element — protect rest and reduce commitments during those months. The favorable Water element's season (winter (the deep, still Water energy)) is the cleanest window for new beginnings and visible projects; use it deliberately. In the daily cycle, the Water hours of the day (per the Twelve Stages) are the most aligned — mornings for Wood, midday for Fire, transitions for Earth, afternoons for Metal, evenings for Water.

Current Period Deep-Dive

This decade carries a Direct Officer (Direct Officer) ten-god over a Metal branch — a mixed window that asks for measured moves rather than bold ones. The stem ten-god is the outer theme — what the world sees and asks of the querent — while the branch element is the underlying terrain — the quieter emotional and circumstantial backdrop. Read them together rather than separately; mismatches between outer theme and inner terrain are where this decade is most likely to surprise.

Specifically: do conserve, refine, and protect the foundation; avoid long commitments whose payoff is years away. Within this decade, years and months whose stem element matches the favorable Water energy are the cleanest moments for major commitments; the annual windows table below shows them. Years dominated by the unfavorable element are best used for rest, review, and quiet preparation.

Annual Windows (2025-2030)

Year	Pillar	Annual Ten-God	Overall Theme	Best Uses	Watch Out For
2025	Eul Sa	Indirect Wealth	Wood energy + Indirect Wealth — a mixed year.	income launches, negotiations, value-pricing	over-leveraging or risky investments; the Wood element drains rather than feeds — slow down

Year	Pillar	Annual Ten-God	Overall Theme	Best Uses	Watch Out For
2026	Bing O	Direct Officer	Fire energy + Direct Officer — a mixed year.	career moves, credentials, formal commitments	stubborn authority clashes; avoid ego fights; the Fire element drains rather than feeds — slow down
2027	Jeong Mi	Seven Killings	Fire energy + Seven Killings — a mixed year.	peer projects, friendships, self-definition	comparison and competition with peers; the Fire element drains rather than feeds — slow down
2028	Mu Shin	Direct Resource	Earth energy + Direct Resource — a mixed year.	study, mentorship, rest, skill-building	over-isolation or missed opportunities; the Earth element drains rather than feeds — slow down
2029	Gi Yu	Indirect Resource	Earth energy + Indirect Resource — a mixed year.	study, mentorship, rest, skill-building	over-isolation or missed opportunities; the Earth element drains rather than feeds — slow down
2030	Gyeong Sul	Robber	Metal energy + Robber — a favorable-element year.	peer projects, friendships, self-definition	comparison and competition with peers

30-Day Action Plan

A short, focused cycle designed to bring more Water energy into your daily rhythm. These steps are tendencies and invitations, not prescriptions — adapt them to your schedule and comfort.

Week	Focus	Suggested Action
Week 1 Tune the environment Add black accents, face north when working, and clear one space that feels stagnant. Week 2 Feed the element Bring black beans, seaweed, salty foods in moderation, soups and broths into two meals a day and notice which foods leave you feeling steady. Week 3 Move with the energy Take one daily walk or practice session at the time of day that carries water qi for you. Week 4 Make one aligned decision Choose one small career, relationship, or health choice that leans into your favorable element and notice the result.		

> Carry the chart's strength into action gradually. Big changes built on small, consistent moves tend to outlast dramatic swings.

Closing Note

Sin (Sin (Yin Metal, Sin Metal)) sits at the centre of this chart, with the chart's element balance leaning toward Metal and a ten-god distribution dominated by Companion (3), Direct Officer (2). The favorable Water element (with Metal as the quiet secondary) is the querent's main lever — not as a rule to follow, but as a rhythm to listen to. The spouse palace Chuk and the chart's relationship dynamics reward the querent for showing up consistently rather than performing. The six-combination between Sa and Shin is a quiet asset — partnerships or projects that bring two palaces into harmony, with the querent's role often as the connector. Across a full lifetime, this chart rewards the querent who studies their own patterns and acts with the favorable element rather than against it. The work is not to fix the chart; it is to use what is already there well.
